## Report on Review of Consolidated Interim Condensed Financial Statements

To the Shareholders and Board of Directors of Public Joint Stock Company "PhosAgro":

### Introduction

We have reviewed the accompanying consolidated interim condensed statement of financial position of Public Joint Stock Company "PhosAgro" and its subsidiaries (together – the "Group") as at 30 June 2022 and the related consolidated interim condensed statements of profit or loss and other comprehensive income, changes in equity and cash flows for the six-month period then ended, and the related explanatory notes. Management is responsible for the preparation and presentation of these consolidated interim condensed financial statements in accordance with International Accounting Standard 34, "Interim Financial Reporting". Our responsibility is to express a conclusion on these consolidated interim condensed financial statements based on our review.

### Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of consolidated interim condensed financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim condensed financial statements are not prepared, in all material respects, in accordance with International Accounting Standard 34, "Interim Financial Reporting".

## **1 BACKGROUND**

### **(a) Organisation and operations**

PJSC “PhosAgro” (the “Company” or the “Parent”) is a public joint stock company registered in accordance with the Civil Code of the Russian Federation. PJSC “PhosAgro” and its subsidiaries (together referred to as the “Group”) comprise Russian legal entities. The Company was registered in October 2001. The Company’s address is Leninsky prospekt 55/1 building 1, Moscow, Russian Federation, 119333.

The Group’s principal activity is production of apatite concentrate and mineral fertilisers at plants located in the cities of Kirovsk (Murmansk region), Cherepovets (Vologda region), Balakovo (Saratov region) and Volkhov (Leningrad region), and their distribution across the Russian Federation and abroad.

As at 30 June 2022, the Company’s key shareholders are two entities registered in Russia – ILLC Chlodwig Enterprises holding approximately 20.3% of the Company’s ordinary shares and ILLC Adorabella holding approximately 23.3% of the Company’s ordinary shares, and T. P. Litvinenko holding approximately 21% of the Company’s ordinary shares. The Parent does not have the ultimate controlling party in accordance with the definitions of control described in IFRS 10 Consolidated financial statements.

### **(b) Russian business environment**

The Group’s operations are primarily located in the Russian Federation. Consequently, the Group is exposed to the economic and financial conditions of the Russian Federation, which display certain characteristics of an emerging market. Its economy is particularly sensitive to oil and gas prices. The legal, tax and regulatory frameworks continue development, and are subject to varying interpretations and frequent changes. The Russian economy continues to be negatively impacted by ongoing political tension in the region and international sanctions against certain Russian companies and individuals.

In 2022 ongoing political tensions intensified as a result of situation with Ukraine, which negatively affected commodity and financial markets and increased volatility, especially in exchange rates. On 24 February 2022 Brent oil prices increased to over USD 100 per barrel, foreign currency exchange rates reached RUB 90.88 per 1 EUR and RUB 80.42 per 1 USD, followed by significant RUB depreciation in March and strengthening back at the end of March, compared to 2021 year-end exchange rates of RUB 84.07 and RUB 74.29 respectively. During the second quarter of 2022, foreign currency exchange rates remained volatile, RUB exchange rate continued to strengthen and on 30 June 2022 foreign currency exchange rates reached RUB 53.86 per 1 EUR and RUB 51.16 per 1 USD. As at 30 June 2022 Russian equity market (MOEX) has declined by 41% from 3,787.26 to 2,204.85 since the year-end. It is not possible to determine how long this increased volatility will last or when the above indicators will revert to previous levels.

A number of sanctions have been introduced to restrict Russian entities from having access to European and USA financial markets. Sanctions included access termination to SWIFT international system for several Russian banks which could potentially impact the Group’s ability to transfer or receive funds. As a result of restrictions, there is a risk that USD-denominated coupon payments will not reach the final debt securities holders through foreign paying agents. In March 2022, Andrey A. Guryev was included in the European Union sanctions list, followed by his resignation from the Company’s CEO role and his post on the Board of Directors. The future effects of current economic situation and the above measures are difficult to predict. Management’s current expectations and estimates could differ from actual results.

Management of the Group has considered events and conditions that could give rise to material uncertainties and concluded that the range of possible outcomes does not cast significant doubt over the Group’s ability to continue as a going concern.

**2 BASIS OF PREPARATION****(a) Statement of compliance**

The consolidated interim condensed financial statements of the Group have been prepared in accordance with IAS 34, *Interim Financial Reporting*. In 2022, the Group has decided not to publish its consolidated interim condensed financial statements for the three months ended 31 March 2022, therefore figures in the consolidated interim condensed statement of profit or loss and other comprehensive income for the current and comparative periods have been presented only cumulatively for the six months ended 30 June.

The Group additionally prepared consolidated interim condensed financial statements in the Russian language in accordance with the Federal Law No. 208-FZ, *On consolidated financial reporting*.

These consolidated interim condensed financial statements do not contain all the information required for presentation in a complete set of IFRS financial statements and therefore should be read in conjunction with the Group's consolidated annual financial statements for the year ended 31 December 2021.

**(b) Significant accounting policies**

The accounting policies followed in the preparation of these consolidated interim condensed financial statements are consistent with those applied in the annual consolidated financial statements as at and for the year ended 31 December 2021.

**(c) New and amended standards adopted by the Group**

A number of amended standards became applicable for the current reporting period. The Group did not have to change its accounting policies or make retrospective adjustments as a result of adopting these amended standards.

**(d) Functional currency**

The national currency of the Russian Federation is the Russian Rouble (“RUB”), which is the functional currency of the Parent and its subsidiaries. In March 2022, the Group lost control over its 100% subsidiary Phosint Limited owning all the foreign companies of the Group (note 26). Until the disposal, the Group included foreign trading subsidiaries with the functional currency USD, EUR and other currencies.

**(e) Presentation currency**

These consolidated interim condensed financial statements are presented in RUB. All financial information presented in RUB has been rounded to the nearest million, except per share amounts.

The translation from USD and EUR into RUB, where applicable, was performed as follows:

Assets and liabilities in USD and EUR as at 30 June 2022 and 31 December 2021 were translated at the following closing exchange rates:

<b>Closing exchange rate</b>	<b>RUB to USD 1</b>	<b>RUB to EUR 1</b>
30 June 2022	51.1580	53.8580
31 December 2021	74.2926	84.0695

Profit and loss items for the six months ended 30 June 2022 and 30 June 2021 were translated at the average exchange rate for the appropriate month:

<b>Average exchange rate for the month</b>	<b>2022</b>		<b>2021</b>	
	<b>RUB to USD 1</b>	<b>RUB to EUR 1</b>	<b>RUB to USD 1</b>	<b>RUB to EUR 1</b>
January	75.8837	85.9393	74.2291	90.5062
February	77.4048	87.7638	74.3842	89.9403
March	104.0810	114.7127	74.4151	88.6904
April	77.9146	84.5887	76.0977	90.8178
May	64.7770	67.6263	74.0438	89.8856
June	57.2694	60.1826	72.5106	87.4537

Equity items arising during the year are recognised at the exchange rate ruling at the date of transaction. The resulting foreign exchange difference is recognised in other comprehensive income.

### **3 DETERMINATION OF FAIR VALUES**

When measuring the fair value of an asset or a liability, the Group uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Fair values have been determined for measurement and / or disclosure purposes based on the methods described below. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

#### **(a) Financial assets and liabilities measured at amortised cost**

The fair values of financial assets and liabilities presented by loans issued, trade and other receivables, cash and cash equivalents, trade and other payables approximate their carrying amounts as at the reporting date.

The fair values of eurobonds are determined for disclosure purposes based on quoted market prices and included in level 1 of the fair value hierarchy. The fair values of loans and borrowings are categorised as Level 3 of the fair value hierarchy. The fair values are calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date.

#### **(b) Financial instruments measured at fair value**

The fair value of financial assets measured at fair value through profit or loss is determined using valuation techniques and categorised as Level 3 of the fair value hierarchy.

### **4 SEGMENT INFORMATION**

Operating segments are components that engage in business activities that may earn revenues or incur expenses, whose operating results are regularly reviewed by the chief operating decision maker (CODM) and for which discrete financial information is available. The CODM has been identified as the Group's top management.

The Group has two reportable segments, as described below, which are the Group's strategic business units. The strategic business units offer different products, and they require different technology and marketing strategies. The following summary describes the operations in each of the Group's reportable segments:

*Phosphate-based products segment* includes mainly production and distribution of ammophos, diammonium phosphate, sodium tripolyphosphate and other phosphate-based and complex (NPK) fertilisers on the factories located in Cherepovets, Balakovo and Volkhov, and production and distribution of apatite concentrate extracted from the apatite-nepheline ore, which is mined and processed in Kirovsk;

*Nitrogen-based products segment* includes mainly production and distribution of ammonia, ammonium nitrate and urea on the factory located in Cherepovets.

**4 SEGMENT INFORMATION (CONTINUED)**

Certain revenue and expenses are not allocated to any particular segment and are, therefore, included in the “other operations” column. None of these operations meet any of the quantitative thresholds for determining reportable segments.

The CODM assesses the performance of the reportable segments based on, among other factors, a measure of EBITDA (operating profit adjusted by depreciation and amortization). Since the EBITDA term is not a standard IFRS measure, its definition may differ from that of other companies.

Information regarding the results of each reportable segment is included below.

Segment information for the six months ended 30 June 2022 is as follows:

**24 RELATED PARTY TRANSACTIONS**

Parties are generally considered to be related if the parties are under common control or if one party has the ability to control the other party or can exercise significant influence or joint control over the other party in making financial and operational decisions. In considering each possible related party relationship, attention is directed to the substance of the relationship, not merely the legal form. Other related parties include entities controlled by the Company's key shareholders.

The balances and transactions with related parties are usually unsecured and denominated in RUB.

**c) Financial guarantees**

The Group issued no financial guarantees to the bank to secure associates' bank loans in the period from January to June 2022 (31 December 2021: RUB 75 million).

**d) Key management personnel remuneration**

Remuneration of key management personnel consists of monthly compensation, annual performance bonus contingent on operating results, termination payments and contributions to the Russian state pension and social funds. The remuneration of the Board of Directors and key management personnel recognised as part of administrative and selling overhead expenses amounted to RUB 15,598 million (six months ended 30 June 2021: RUB 2,098 million).

**25 FOREIGN CURRENCY RISK**

The Group's net monetary position on balances denominated in foreign currencies other than the respective functional currencies is as follows:

<i>RUB million</i>	30 June	31 December
	2022	2021
Group companies in Russia:		
USD-denominated net liabilities	(39,303)	(154,993)

	<b>(51,199)</b>	<b>(162,951)</b>

**25 FOREIGN CURRENCY RISK (CONTINUED)**

The foreign exchange gain recognised in profit or loss of RUB 20,495 million (RUB 2,558 million for the comparative period) resulted from Russian rouble appreciation against major currencies during the reporting period.

As at 31 December 2021, the net assets of the Group's foreign subsidiaries denominated in USD, EUR and other currencies amounted to RUB 19,842 million. As at 30 June 2022, the Group has no foreign subsidiaries (note 26).

**26 LOSS OF CONTROL OVER SUBSIDIARIES**

In March 2022, the Group lost control over its wholly owned subsidiary Phosint Limited owning all the foreign companies of the Group. Phosint Limited increased its share capital which was subscribed by Negrinio Limited, a third party company established by the management of Group's trading subsidiaries, resulting in dilution of the Group's stake in Phosint Limited to 5%.

Upon the loss of control, the Group derecognised the assets and liabilities of the subsidiaries and reclassified to profit or loss the cumulative amount of the exchange differences relating to the foreign subsidiaries of RUB 6,302 million, previously recognised in other comprehensive income and accumulated in the separate component of equity. According to the subscription agreement, all undistributed earnings of Phosint Limited and its subsidiaries (“Phosint Group”) accumulated prior to the date of loss of control will be paid solely to the Group as part of dividends distribution. As a result, a receivable of RUB 12,189 million was accrued by the Group at the date of loss of control over Phosint Group. Subsequently, the payment terms for the recognised accounts receivable were extended to three years. The Group recognised accounts receivable at present value using a discount rate of 9% per annum and accrued finance costs of RUB 2,777 million.

Summarised amounts of the assets and liabilities in the subsidiaries over which control is lost are presented below:

<i>RUB million</i>	<b>As at the date of loss of control</b>
<b>Assets</b>	
Property, plant and equipment	2,438
Right-of-use assets	264
Other non-current assets	722
Trade and other receivables	42,238
Cash and cash equivalents	36,729
Inventories	17,147
Income tax receivable	10
<b>Liabilities</b>	
Other non-current liabilities	(1,043)
Lease liabilities	(290)
Trade and other payables	(77,938)
Income tax payable	(1,749)
Other current liabilities	(37)
<b>Total net assets</b>	<b>18,491</b>

As the Group retained no significant influence over Phosint Limited upon loss of control, it classified the remaining 5% share in the company as a financial asset measured at fair value through other comprehensive income with a non-significant fair value at the date of initial recognition and at the reporting date.

**26 LOSS OF CONTROL OVER SUBSIDIARIES (CONTINUED)**

During the six months ended 30 June 2022, the Group didn't recognize any gain or loss as a result of Phosint Group disposal:

<i>RUB million</i>	<b>As at the date of loss of control</b>

**28 SEASONALITY**

The Group is subject to certain seasonal fluctuations in fertiliser demand due to the timing of fertiliser application and, as a result, fertiliser purchases by farmers. This normally results in increase of advances received from local customers at the year-end. However, the effect of seasonality on the Group's revenue is partially offset by the fact that the Group sells its fertilisers globally and fertiliser application and purchases vary by region.

The Group's costs are generally stable throughout the year, however several maintenance activities undertaken at the Group's production facilities may not be evenly spread.

## **29 SUBSEQUENT EVENTS**

On July 22, 2022, the Company fulfilled its obligations to Eurobonds holders with a coupon rate of 3.05% and maturity in 2025, whose titles are registered with the Russian depositories, by transferring USD 2.6 million in ruble equivalent at the exchange rate on the date of the transaction to the National Settlement Depository. On July 29, 2022, after obtaining the approval of Russian Ministry of Finance, the Company transferred the remaining USD 5 million of this coupon payment to the issuer's (SPV) account opened with the principal paying agent for execution of payment to Eurobonds holders whose titles are registered with foreign nominee holders.

In August 2022, the Board of Directors proposed paying a dividend of RUB 780 per ordinary share.
