Business Strategies and Progress in the DX Business

1. Growth Strategy for the DX Business
2. FY'22/2 Q1 Segment Results
3. FY'22/2 Q2 Priority Measures
4. Initiatives in FY'22/2 Q2

We will support the growth of client companies through personnel recruiting services and DX services, which will supplement manual labor through the evolution of technology

Vision

‘Labor force solution company’

AI/RPA business was renamed DX business (Apr. 2021)
The business aims to support the DX of SMEs by offering DX tools that enhance work efficiency and assist sales activities using the latest technologies under a one-stop SaaS model

1. Growth Strategy for the DX Business ② Business Environment

There is substantial room for DX in Japan, especially among SMEs

■ Percentage of companies (by number of employees) deploying DX

Reasons for slower adoption of DX by SMEs:

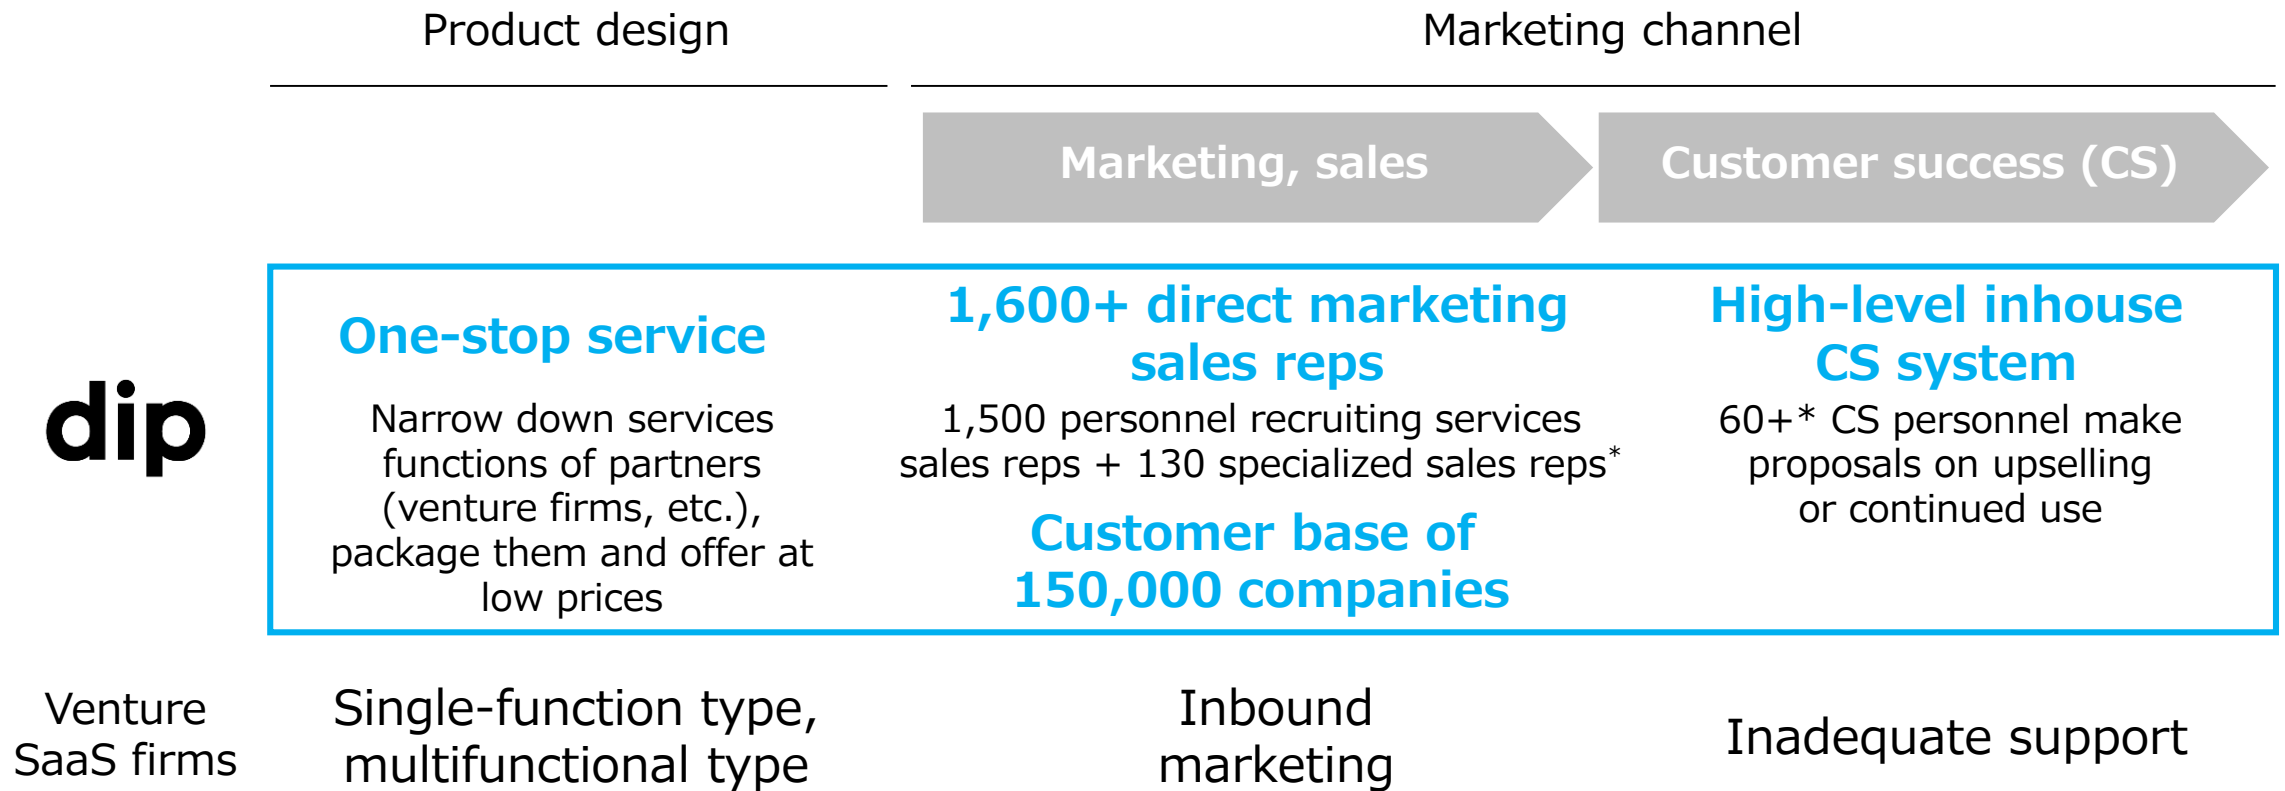

- Lack of awareness of which operations can be streamlined
- The cost and trouble associated with introducing DX
- Inability to fully utilize the functions after deploying the tools

Key points for SMEs to deploy DX:

- Low-cost and simple product design
- Implementation support
- High-level of customer success

Source: Created by dip based on Nikkei BP Intelligence Group Innovation ICT lab's 'Digitalization Survey' in November 2019

We will create a DX market among SMEs based on our unique advantages

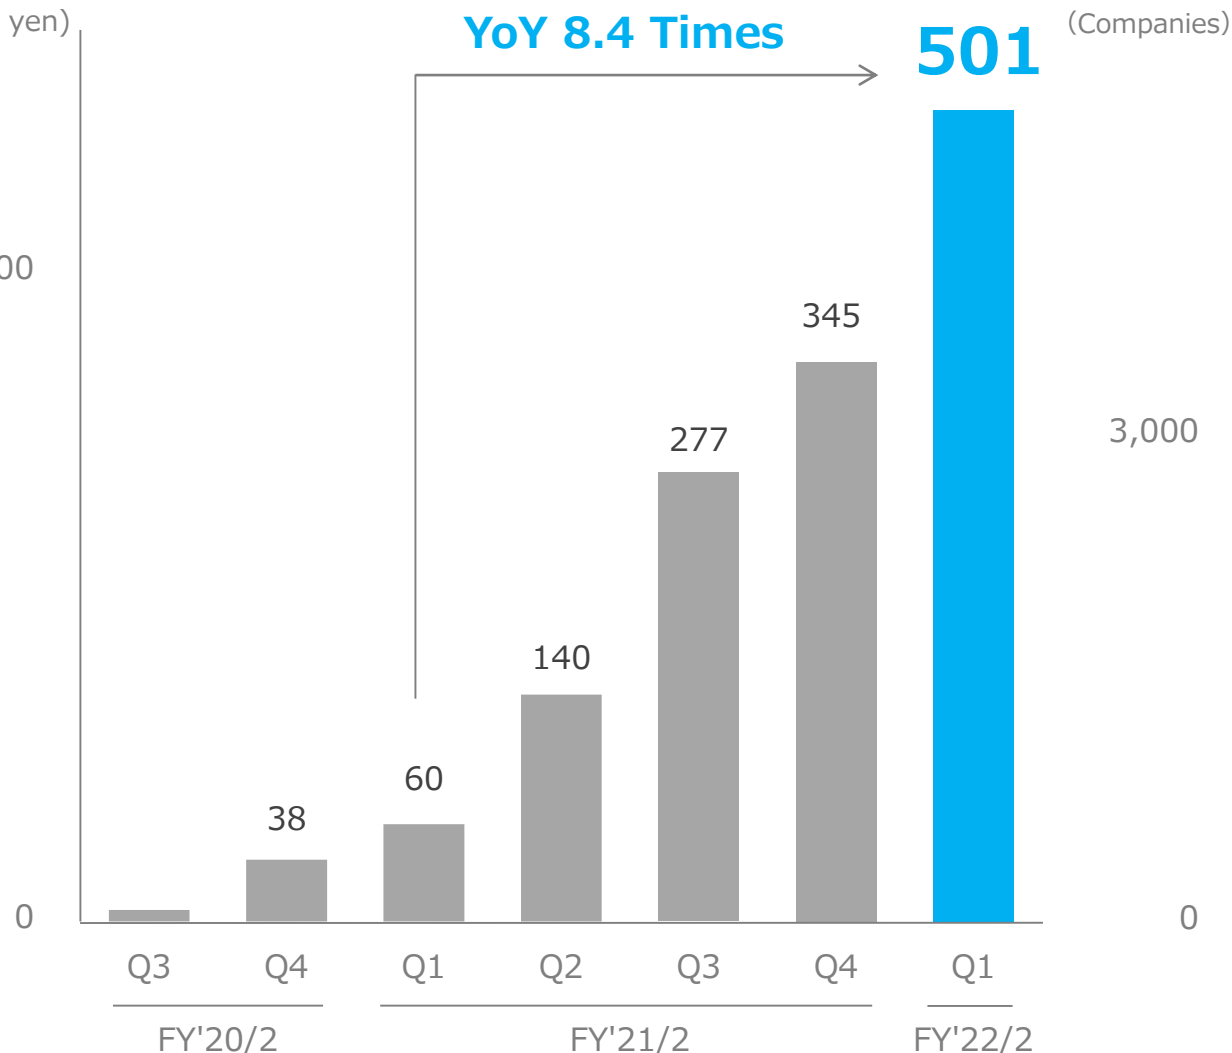

* February 2022 estimate

2. FY'22/2 Q1 Segment Results ①

FY2022 Q2

1 Expand customer base

- Appoint DX product sales manager within the personnel recruiting services business
- Aim for surge in bundled sales of DX products to coincide with the rapid recovery of job ad demand going forward

2 Enhance product lineup

- Launch subscription-based products such as Personnel Administration KOBOT
- Offer one-stop proposals for product packages that suit the workflows of our customers

3 Strengthen “customer success” system

- Substantially increase customer success personnel
- Strengthen proposals for upselling or continued use after service introduction

4. Initiatives in FY'22/2 Q2

Strengthen subscription-based sales by combining job ads and DX products.
Enhance synergy with job ads

In addition to Interview KOBOT, we will offer the subscription-based products Recruiting Page KOBOT and Personnel Administration KOBOT as a one-stop services
Maintain contact with client companies through DX products
to increase opportunities for job ad service proposals

- Dispatch company sales continued to recover mainly in the clerical work sector.

(Note) From its inception, Hatarako.net played the role of a go-between for dispatch companies to solicit applications from those applying for dispatched employees. Since 2017, however, it has become a comprehensive website for dispatch companies and general client companies to solicit job applications directly.

2. FY'22/2 Q1 Topics ①

Video contest “Baitoru de ¥10 Million Championship”

▲ Award ceremony held on July 3, 2021

- The contest attracted a large number of high-quality videos.
- Large-scale, social media promotional campaigns engaging users and workers helped gain a broad reach.

[Aims of the project]

- To enhance Baitoru's advantage by drawing attention to its unique workplace introduction video feature.
- To further expand user base and increase customer loyalty.

The 12 award-winning videos can be viewed on Baitoru's official Youtube channel.

6. DX Business Overview ③

Existing products are well received by the companies that use them. Continue to accelerate the development of these products based on customer feedback in order to facilitate long-term use.

Interview KOBOT user School TOMAS Co.

In the past, it took about 10 minutes for each applicant to receive a reminder and conduct schedule adjustment over the phone. Introducing interview KOBOT greatly increased the rate of setting up interviews. It would be easier to use if the number of supported recruiting media could be further increased.

HR KOBOT user Triangle Corporation

Reduced time spent creating sales lists and tripled the number of business negotiations. In addition, by being able to automatically approach the inquiry form with our strengths, we increased the closing rate on new orders.

Real estate KOBOT user Rental Smile Co.

By automating the property entry process, the work that used to take two people four hours, has been reduced to 15 minutes, and we have also slashed overtime hours significantly. This is a real contribution to the realization of "work style reform". I would like to be able to obtain property information from more sites.
