State Road (SR) 826/Palmetto Expressway Bridge Repair Project Begins Week of July 5 *At NW 114 Street/W 60 Street*

MIAMI, Fla. – The Florida Department of Transportation (FDOT) is scheduled to begin a bridge repair project the week of July 5, 2022, on SR 826/Palmetto Expressway northbound at NW 114 Street/W 60 Street. This project will cost an estimated \$204,787 and will take approximately three months to complete.

The project includes removing damaged concrete, repairing and replacing the barrier wall, and removing the temporary barrier wall and crash cushions.

Construction will be done in stages with temporary lane closures and detours scheduled to avoid special community events and peak periods of traffic. Temporary sidewalk closures and detours along the frontage roads will be in place when necessary. Access to and from adjacent neighborhoods and businesses will be maintained during construction.

Please note this schedule may change due to bad weather or other unexpected conditions. For more information, please call FDOT's Public Information Office at (305) 470-5349, or Construction Community Outreach Specialist Maria Camacho at (305) 731-7699 or visit www.fdotmiamidade.com.

Drivers are encouraged to log on to www.fl511.com before they travel to get real-time traffic and lane closure information. FDOT would like to remind drivers that wearing a safety belt is one of the most effective ways to protect people and reduce fatalities in motor vehicle crashes. Please drive cautiously in construction zones.

The Florida Department of Transportation's mission is to provide a safe transportation system that ensures the mobility of people and goods, enhances economic prosperity, and preserves the quality of the state's environment and communities. The department is committed to building a transportation system that not only fits the current needs of Florida's residents and visitors, but also enhances mobility throughout the state to accommodate its consistent and rapid growth. The unique nature of the Sunshine State and its year-round warm climate provides numerous opportunities to achieve the department's mission through multiple transportation modes including highways/streets, air, rail, sea, spaceports, transit, and the ever-expanding deployment of bicycle & pedestrian facilities.
