Westbound McClugage inspection begins April 22

PEORIA – The Illinois Department of Transportation announced that a routine inspection of the westbound McClugage Bridge, which carries U.S. 150 over the Illinois River at Peoria, begins April 22.

The inspection will reduce the westbound span to one lane and is expected to last through the end of the week, weather permitting.

Motorists can expect delays and should allow extra time for trips through this area. To avoid the work area, when feasible, use of alternate routes should be considered. Drivers are urged to pay close attention to changed conditions and signs in the work zones, obey the posted speed limits, refrain from using mobile devices and be alert for workers and equipment.
