General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally, their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
REQUEST FOR MODIFICATION OF CONSERVATION RESTRICTION
PUBLIC HEARING

TAKE NOTICE that, in accordance with the New Jersey Conservation Restriction and Historic Preservation Restriction Act, N.J.S.A. 13:8B-5, the New Jersey Department of Environmental Protection, Division of Land Resource Protection (the “Department”) has received an application for the modification of a recorded conservation restriction/easement by and between the New Jersey Department of Environmental Protection and the Applicant-Owner listed below for the property identified below.

The conservation restriction was a requirement of a Waterfront Development Permit, which was issued by the Department on February 27, 2019, DLRP File No. 0506-18-0010.1 WFD180001. The conservation restriction required that all future bulkhead replacements be in the same location as the previously existing bulkhead and required the use of non-polluting materials on any future bulkhead replacements. Due to an attempt by the contractor to tie the bulkhead into the neighboring bulkheads and create a watertight seal, the as-built bulkhead is not in the precise location authorized by the 2019 permit. The Applicant is requesting a modification of the conservation restriction/easement location to reflect the as-built location of the bulkhead.

APPLICANT: Colleen DeFelice
FILE NUMBER: 0506-18-0010.1 WFD180001
PROJECT DESCRIPTION: Request for Modification of Conservation Restriction/Easement
