

■ Summary of main supplementary explanations questions and answers at the FY2024 Fourth Quarter GREE results briefing held on August 1, 2024

[Q1] Can you comment on the release timing, targeted scale, and platforms for console games?

[A1] As the console games business is still in the initial planning stage, we cannot provide detailed information regarding release dates at this time.

[Q2] When do you expect to see return on investment in the VTuber business?

[A2] In the past year, we have been making steady progress toward monetization of our talent pool and we have achieved sales growth in line with our initial plan. While operating losses have recently been increasing owing to aggressive investments in talent pool expansion and merchandise production, these losses are within the range of our initial plan and we see no major problems in terms of the progress we have made in this business. Regarding when we expect to see return on these aggressive investments, we expect to enter the black on a monthly basis sometime in FY2026.
