Q3-23 Investor Presentation

Oct 30, 2023

Safe Harbor Statement

Forward-Looking Statements

This presentation contains forward-looking statements made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts. In some cases, you can identify forward-looking statements by references to future periods and use of terminology such as "plan," "believe," "estimate," "intend," "project," "endeavor," "should," "future," "long-term," "outlook," "non-GAAP," "will," "expect," "anticipate," "guidance," "as if," "transition," or similar words or phrases which are predictions of or indicate future events or trends and which do not relate solely to historical matters. These forward-looking statements include, without limitation, Chegg's investment highlights, the use of artificial intelligence (AI) technology at Chegg, including creating new opportunities for Chegg, building our proprietary AI-stack and how that expands our TAM and moat, lowers our costs, allows us to train AI models specifically for education, and leverages our proprietary content and subject matter experts, our expectation of offering a significantly enhanced learning experience over generic AI models and creating tremendous value for Chegg, the timing, functionality, features, and user experience of Cheag's new generative experience (including our expectation of rolling out features to students in the coming months and the first guarter of 2024 and offering multi-turn chat to create a simple and conversational experience as well as personalized AI-enhanced learning aids such as practice tests, assessments, study guides and flashcards), our intention to build the largest connected community of learners around the world, the characteristics and features of our proprietary solution flow technology (including the ability to integrate multiple large language models (LLMs) such as our own LLMs that we are building with ScaleAI and OpenAI's ChatGPT, among others), the characteristics and features of, and our vision for, our proprietary AI stack, the details around and efficacy of Chegg's personal learning assistant, the content of Chegg's illustrative videos, Cheag's long-term strategic focus (including subscriber growth, profitable growth, and Cheag's lifetime value). our ability to maintain margins and cash flow, Chegg's belief that 100 million students could potentially benefit from Chegg, Chegg's unique value and competitive advantages, Chegg's ESG plans, Chegg's support of students' mental health, improving learning and learning outcomes, improving learners' overall return on investment in education, the non-GAAP presentations of Chegg's results of operations, including Adjusted EBITDA, free cash flow, Adjusted EPS and expenses excluding Share Based Compensation and the Content and Related Assets Charge, financial guidance and seasonality, the Reguired Materials transition, including annual future revenue and costs, our ability to forecast our financial results, and all statements about Chegg's financial and business outlook, strategy, priorities and learner outcomes. These statements are not guarantees of future performance and are based on management's expectations as of the date of this presentation and assumptions that are inherently subject to uncertainties, risks and changes in circumstances that are difficult to predict. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results, performance or achievements to differ materially from any future results, performance or achievements. Important factors that could cause actual results to differ materially from those expressed or implied by these forward-looking statements include the following: the effects of AI technology on Chegg's business and the economy generally: Chegg's ability to attract new, and retain existing, students, to increase student engagement, and to increase monetization: Chegg's brand and reputation: changes in employment and wages and the uncertainty surrounding the evolving educational landscape, enrollment and student behavior; Chegg's ability to expand internationally; changes in search engine methodologies that modify Chegg's search result page rankings, resulting in decreased student engagement on Chegg's website; the success of Chegg's new product offerings, including the new Chegg generative AI experience and

personal learning assistant; competition in aspects of Chegg's business, and Chegg's expectation that such competition will increase; Chegg's ability to innovate in response to technological and market developments, including artificial intelligence; Chegg's ability to maintain its services and systems without interruption, including as a result of technical issues, cybersecurity threats, or cyber-attacks; third-party payment processing risks; adoption of government regulation of education unfavorable to Chegg; the rate of adoption of Chegg's offerings; mobile app stores and mobile operating systems making Chegg's apps and mobile website available to students and to grow Chegg's user base and increase their engagement; colleges and governments restricting online access or access to Chegg's services; Chegg's ability to strategically take advantage of new opportunities; competitive developments, including pricing pressures and other services targeting students; Chegg's ability to build and expand its services offerings; Chegg's ability to integrate acquired businesses and assets; the impact of seasonality and student behavior on the business; the outcome of any current litigation and investigations: Chegg's ability to effectively control operating costs: changes in Chegg's addressable market; regulatory changes, in particular concerning privacy, marketing, and education; changes in the education market, including as a result of AI technology and COVID-19; and general economic, political and industry conditions, including inflation, recession and war. All information provided in this presentation and in the conference call is as of the date hereof, and Chegg undertakes no duty to update this information except as required by law. These and other important risk factors are described more fully in documents filed with the Securities and Exchange Commission, including Chegg's Annual Report on Form 10-K for the year ended December 31, 2022 filed with the Securities and Exchange Commission on February 21, 2023, and could cause actual results to differ materially from expectations.

Use of Non-GAAP Measures

To supplement Chegg's financial results presented in accordance with generally accepted accounting principles in the United States (GAAP), this presentation contains non-GAAP financial measures, including Adjusted EBITDA, Adjusted EPS, free cash flow and expenses excluding Share Based Compensation and the Content and Related Assets Charge. For reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures, please see the Appendix to this presentation. The presentation of these non-GAAP financial information prepared and presented in accordance with GAAP and may be different from non-GAAP financial measures used by other companies. Chegg believes that these non-GAAP financial measures used by other companies. Chegg believes that these non-GAAP financial measures when taken together with the corresponding GAAP financial measures, provide meaningful supplemental information regarding Chegg's performance by excluding items that may not be indicative of Chegg's core business, operating results, as well as when planning, forecasting and analyzing future periods and believes that such measures enhance investors' overall understanding of our current financial performance by excluding the comparisons of Chegg's performance to prior periods.

Who Are We?

We put learners first.

Our mission is to improve learning and learning outcomes by putting students first, in school and beyond.

We strive to improve the overall return on investment in education by helping learners learn more in less time and at a lower cost.

The Chegg platform provides products and services to support learners to help them better understand their academic course materials, and also provides personal and professional development skills training, to help them achieve their learning goals

Investment Highlights

- Leading Direct-To-Student Connected Learning Platform
- Large Addressable Markets in Early Stages of Growth including International, Skills, Language Learning, and Non-Academic
- High Margin Model with Strong Free Cash Flow Generation; Increased Focus on Expense Management
- History of Capital Returns through Equity and Convertible Debt Repurchases
- Competitive Moat Given Brand, Reach, Data, Human Expert Network, and Proprietary Content

AI at Chegg – Personal Learning Assistant

The advances in AI create opportunities for Chegg and we've pivoted the company to harness AI to better serve learners. We plan to build the largest connected community of learners around the world with a truly scalable, adaptive learning assistant

Chegg's AI-stack enhances its learning platform

- Expands our TAM and competitive moat, lowers our costs, and allows us to train the models specifically for education
- Leverages our billions of pieces of proprietary content
- 150k subject matter experts help train the AI models and support accuracy in our generative experience. They are a critical part of the process to enhance our own LLMs, ensuring trust and quality remains high
- We expect a significantly enhanced learning experience over generic AI models and tremendous value for Chegg

Rolling out the new Chegg Experience

- In September we started to show the first cohort of users updated capabilities, with a new simple interface and a unified asking experience, which we expect will be fully rolled out by Q1-24. We plan to continually roll-out even more features to more students.
- Chegg can provide answers from our proprietary database, our 150K+ subject matter experts, and now, also from generative AI tools
- In the coming months, we will offer more features including multi-turn chat, which will create a simple and conversational experience, and we will introduce personalized AIenhanced learning aids, such as practices tests, assessments, study guides, and flashcards.

Students prefer help from companies that **specialize in schoolwork help** and understand students¹

85%

Students prefer study help that is **adaptive** to their learning needs¹

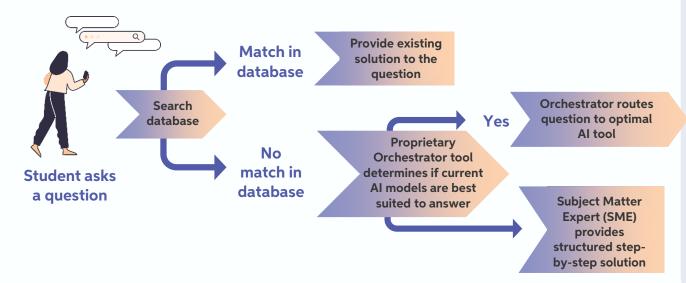

86%

Students prefer study help reviewed by human subjectmatter experts¹

Proprietary Solution Flow Technology

Chegg technology automatically routes questions to the best source that optimizes solution relevancy, speed, accuracy, and cost

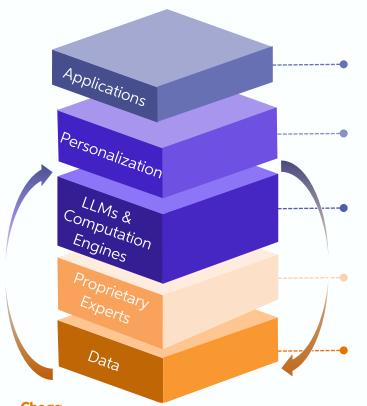

Proprietary question routing technology

We built Orchestrator to be adaptable

- We can plug in multiple models, including our LLMs that we are building with ScaleAI, as well as OpenAI's ChatGPT and others
- Orchestrator will adapt to optimize question routing for relevancy, accuracy, and efficiency
- Orchestrator routes questions based on the type and format of the question, as well as the subject matter
- As models evolve and improve for certain types of content, we will leverage the best of what's available

We Are Building An Industry-Leading Proprietary AI Stack That Will Deliver Personalized Learning at Scale

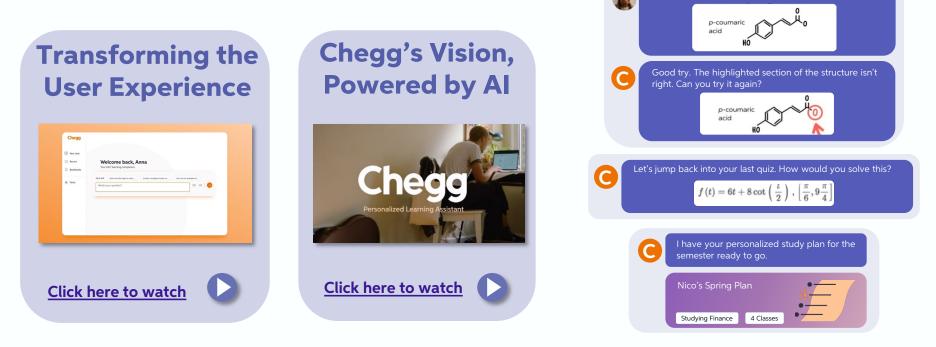

- Integration into Chegg Study and Chegg Skills
- Conversational and guided learning experience based on student needs
- Questions automatically routed to either (1) existing content database, (2) best of various AI models, or (3) human-generated solution. Our proprietary Orchestrator tool helps the routing between AI tools and human experts.
- Personalized learning outcomes based on student proficiency and learning science models
- **Customer Data Profiles** capture and store rich demographic and behavioral information to further customize user experience
- Proprietary subject-specific models built with Scale AI
- Computational Engines, such as Mathway, optimized for education and STEM-B
- Additional Machine Learning models for image transcription, question understanding, and to help with Honor Code enforcement
- Content moderation by 150k+ vetted and trained subject matter experts, supporting high levels of accuracy
- Guality Workbench automates content quality evaluation
- Content correction and feedback to improve model performance and accuracy
- Proprietary training assets: 100M+ pieces of subject matter expert-generated content
- Annotation system to collect and synthesize additional data at scale
- Content Taxonomy: Chegg-owned framework that structures and organizes content to guide AI models and power Orchestrator

F99 This concept visualization illustrates what Chegg envisions building for students in the future. Some technologies and functionalities featured are not yet available, may not be available upon the launched 7 or upgrades to any products, and may not be an exact representation of Chegg products in the future.

We're entering an exciting new chapter, driven by the advances in AI

To help illustrate Chegg's vision for AI, what we're building over the next several years, and how our user experience is changing, we created the following videos:

Is this structure correct?

These videos are concept videos and they illustrate what Chegg offers students today, as well as what Chegg envisions building for students in the future. Some functionalities featured in the video are not yet available, may not be available upon the launch or upgrades to any products, and may not be an exact representation of Chegg products in the future. Except for Calm.com Inc., Chegg is not affiliated, associated, or officially connected with any of the brands, or their subsidiaries or affiliates referenced during and/or in the manner displayed in the video. The names, as well as related names, marks emblems, brands, and images are the registered trademarks and/or copyrights of their respective owners. Except for Calm.com Inc., the use of any trade name or trademark does not imply any association with the trademark holder of their product brand.

Long-Term Strategic Focus

Grow Subscribers

Embrace AI to deliver a personalized, conversational learning companion and increase local product-market fit for new learners around the world

Profitable Growth

Invest responsibly in scalable content, technology, and tools to support future growth

Extend Lifetime Value

Increase lifelong relevance by extending our breadth and depth, adding high-value content and services

High Margin Model

Maintain best-in-class margins

Deliver positive learner outcomes by meeting students where they are

Help Holistically

Help learners beyond academics, including mental health and wellness

Chegg

Source: Results reflect a Chegg online survey conducted among a random sample of U.S. Chegg Study and Chegg Study Pack customers that used Chegg Study or Chegg Study Pack in Q2 2023 and Q3 2023. Respondent base (n=611) among approximately 837K invites where each respondent will be entered into a drawing to win 1 of 10 \$300 e-gift cards. Data shows top 2 box (Agree/strongly agree). Sample size represents this population of customers within a margin of error of 3.96% at 95% confidence. Survey responses are not a guarantee of any particular results as individual experiences may vary. Survey fielded between Sep24 – Oct 12, 2023.

Chegg's Approach to ESG: Our Six Pillars

Public Recognition

- Chegg was upgraded by MSCI to their highest ESG rating, AAA
- We are pleased to share our recognition as a company committed to sustainability in our industry and we are honored to be included in this year's <u>S&P Global Sustainable</u> <u>Yearbook</u>.

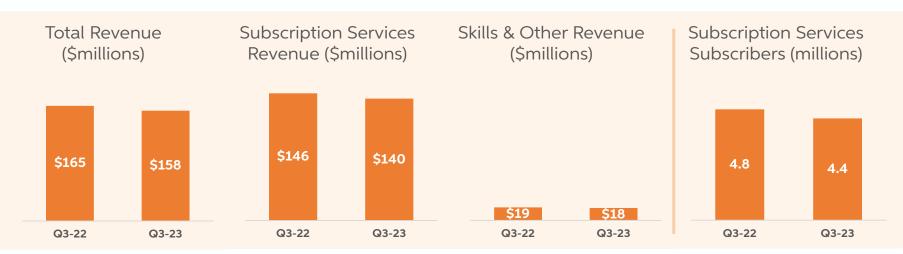

More details & recognition on our ESG site

We are proud to announce we published our second annual **<u>ESG Report</u>** for 2022!!

Please also see our ESG website for additional information and detailed disclosures

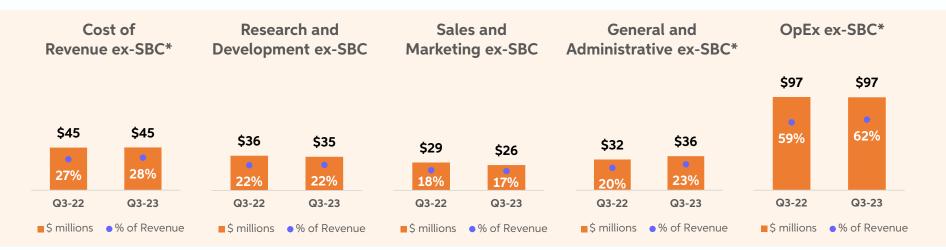

Chegg

Financial Highlights: Q3 2023 Revenue and Subscribers

- The year-over-year decrease in Subscription Services Revenue was primarily due to an 8% decrease in Subscription Services Subscribers. We are encouraged by stable customer acquisition trends as well as increases in overall retention and the take rate of Chegg Study Pack
- The year-over-year decrease in Skills & Other Revenue is driven by the transition in Required Materials which is now a revenue share¹, as well as some advertising softness, both of which more than offset the year-over-year strong increase in Skills Revenue

Financial Highlights: Q3 2023 Expenses ex-Stock Based Comp (SBC) and One-Time **Content and Related Assets Charges***

We remain disciplined on the expense side, aligning investments with our AI-focused strategy

Excluding the one-time charges for content and related assets, Cost of Revenue and Operating expenses were relatively flat year-over-year in 3Q-2023

*This analysis excludes SBC as well as the One-Time Content and Related Assets Charge of \$41.8M in 3Q-2023. This One-Time charge impacted both GAAP Cost of Revenue and GAAP G&A in 3Q-2023, by \$38.2M and \$3.6M, respectively. Chega

Please see Appendix for the reconciliation between GAAP expenses and Expenses excluding SBC and the one-time Content and Related Assets Charge

Financial Highlights: Q3 2023 Adj. EBITDA Margin, Free Cash Flow, and CapEx

 Year-to-date, Free Cash Flow of \$121M is up +20% YoY, benefitting from lower capital expenditures and higher interest income

Adjusted EBITDA and Free Cash Flow are non-GAAP measures. Reconciliations of Net Income (loss) to Adjusted EBITDA and Net Cash Provided by Operating Activities to Free Cash Flow are set forth in the appendix. CapEx includes PP&E and net textbook purchases.

Financial Highlights: Net (loss) income per share, diluted

 Items that impacted Q3-23 net income: \$41.8M content and related assets charge, and a \$32.1 million gain from the repurchase of some of our outstanding convertible debt

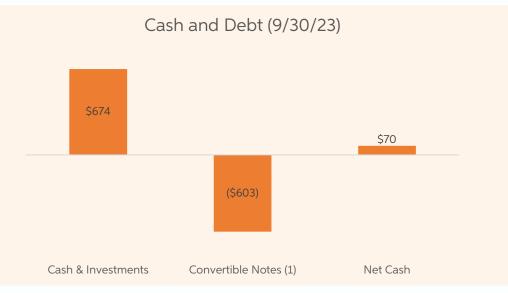

Chegg

In 3Q22 we recognized a \$94 million net gain due to repurchasing some of our outstanding convertible debt at a discount, and we also recognized a \$175 million benefit from income taxes due to the release of the vast majority of our valuation allowance against our deferred tax assets

© 2023 Chegg, Inc. / All Rights Reserved 23

Adjusted EPS is a non-GAAP measure. A reconciliation of GAAP Earnings Per Share to Non-GAAP Earnings Per Share is set forth in the appendix.

Healthy Balance Sheet with History of Returning Capital to Shareholders

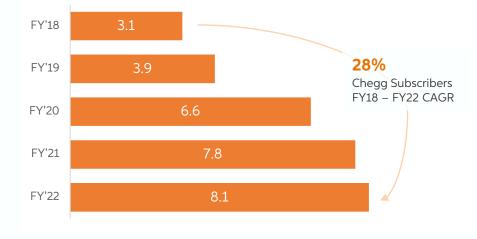

- We have opportunistically retired both convertible debt and equity, returning approximately \$1.2 billion and \$800 million, respectively, to investors through repurchases over the last three years
- Approximately \$603M of par value of the notes remain outstanding as of 9/30/23¹

Growth of Chegg Subscription Services

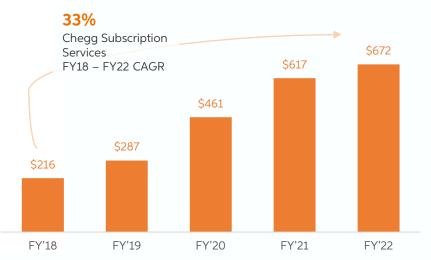

Chegg Subscription Services Subscribers

Annual Subscription Services Subscribers (in millions)

Chegg Subscription Services Revenue

(\$ in millions)

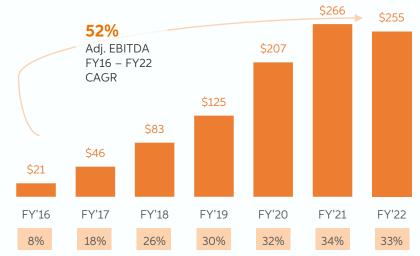

Industry-leading Margin and Profit

Chegg's business model supports operating leverage

- Majority of subscribers are acquired through unpaid channels
- Create content once, used by learners many times
- Much of the content is relevant globally

Adjusted EBITDA

Chegg Adj. EBITDA (\$million) and Margin (%)

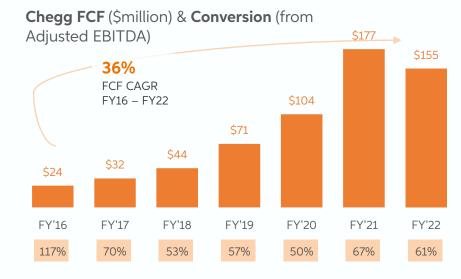

Strong FCF Generation

Chegg continues to deliver strong free cash flow and margins

- Strong free cash flow conversion from adjusted EBITDA (has been ~50%-70%)
- Free cash flow CAGR strong, >30%⁽¹⁾
- Content remains the largest driver of CapEx

Free Cash Flow

Business Outlook

| | Q3 2023 Results | Q4 2023 Guidance |
|-------------------------------|------------------|------------------|
| Total Net Revenue | \$158m | \$185m - \$187m |
| Subscription Services Revenue | \$140m | \$164m - \$166m |
| Gross Margin % | 47% ² | 73%-74% |
| Non-GAAP Gross Margin % | 74% | |
| Adjusted EBTIDA ¹ | \$39m | \$62m - \$64m |
| CapEx | \$23m | |
| Free Cash Flow ¹ | \$9m | \$49m |

(1) Non-GAAP financial measure. (2) Includes one-time \$38.2M charge related to the decision to streamline product experiences and abandon certain content and software assets See appendix for reconciliation of a) Net Income to EBITDA and Adjusted EBITDA, b) Forward-Looking Net Loss to EBITDA and Adjusted EBITDA, and c) Net Cash Provided by Operating: / All Rights Reserved 28 Activities to Free Cash Flow. CapEx includes purchases of property and equipment and proceeds from dispositions of textbooks, when relevant.

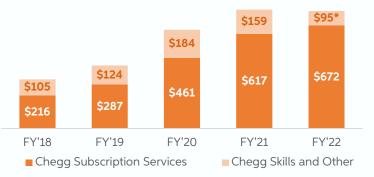

New Revenue Disaggregation

In 2023, we changed the way we disaggregate revenue to better represent Chegg's current business. We believe this new revenue breakout allows our investors to better monitor and evaluate our business trends.

Chegg Revenue

Chegg Subscription Services & Skills and Other* (\$ in millions)

*In 2022, we transitioned our Required Materials ownership model to a partnership revenue-share model. Under the ownership model, we recognized print and eTextbook revenue equal to the total transaction amount, and under the partnership model, we recognize revenue as a percentage of the total.

Historical revenue breakouts are available in the IR Data Sheet found on our Investor Relations site

Chegg

Required Materials Transition

In April 2022, we entered into a partnership with an independent book reseller. This partnership allowed us to transition out of our textbook library and fulfillment logistics responsibilities while still offering print and eTextbooks to students.

- GT¹ purchased our print textbook library in April 2022 for ~\$14M, assuming responsibility for print textbook library investments and fulfillment logistics, and by the end of 2022, we completed the transition for eTextbooks.²
- As a result of the partnership, we no longer incur significant textbook-related costs.³
- We now expect to recognize less than \$5 million in annual print and eTextbook revenue, driven by a single-digit percentage revenue share.

(1) GT Marketplace, LLC. (2) \$14M is subject to payment terms and certain adjustments. (3) We no longer incur order fulfillment fees, publisher content fees, print textbook depreciation and write off expense, direct marketing, and customer support, though we continue to incur costs such as payment processing fees, employee related costs, and platform infrastructure maintenance.
