INDEPENDENT AUDITOR'S REPORT

Members of the Board Southeastern Pennsylvania Transportation Authority Philadelphia, Pennsylvania

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the business-type activities and the aggregate remaining fund information of the SOUTHEASTERN PENNSYLVANIA TRANSPORTATION AUTHORITY (the "AUTHORITY"), as of and for the years ended June 30, 2023 and 2022, and the related notes to the financial statements, which collectively comprise the AUTHORITY's basic financial statements as listed in the table of contents.

In our opinion, based on our audit, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and the aggregate remaining fund information of the AUTHORITY, as of June 30, 2023 and 2022, and the respective changes in financial position, and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the AUTHORITY and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The AUTHORITY's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the AUTHORITY's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud

Zelenkofske Axelrod LLC

CERTIFIED PUBLIC ACCOUNTANTS

EXPERIENCE | EXPERTISE | ACCOUNTABILITY

may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or
 error, and design and perform audit procedures responsive to those risks. Such procedures include
 examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
 appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of
 the AUTHORITY's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the AUTHORITY's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Adoption of Governmental Accounting Standards Board Statements

As described in Note 1 to the financial statements, in 2023 the AUTHORITY adopted the provisions of Governmental Accounting Standards Board's Statement No. 96, "Subscription-Based Information Technology Arrangements". Our opinions are not modified with respect to this matter.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedule of Changes in the Net Pension Liability and Related Ratios, Schedule of Employer Pension Contributions – Last 10 Years, Schedule of Pension Fund Investment Returns – Last 10 Years, and Schedule of Changes in the Total OPEB Liability and Related Ratios on pages 4 through 11 and pages 73 through 82, respectively, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the AUTHORITY's basic financial statements. The Statements of Plan Net Position and the Statements of Changes in Plan Net Position on pages 83 through 87 are presented for purposes of additional analysis and are not a required part of the basic financial statements.

CERTIFIED PUBLIC ACCOUNTANTS

EXPERIENCE | EXPERTISE | ACCOUNTABILITY

The Statements of Plan Net Position and the Statements of Changes in Plan Net Position are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Statements of Plan Net Position and the Statements of Changes in Plan Net Position are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

SOUTHEASTERN PENNSYLVANIA TRANSPORTATION AUTHORITY

Management's Discussion and Analysis For the Fiscal Years Ended June 30, 2023 and 2022

This section of the Southeastern Pennsylvania Transportation Authority's ("Authority") annual financial statements presents a discussion and analysis of the Authority's performance during the fiscal years that ended June 30, 2023 and 2022. In Fiscal Year 2022, the Authority adopted GASB Statement No. 87, "Leases." This, Statement increases the usefulness of the Authority's financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. Fiscal Year 2021 financial statements are restated in the amount of \$1.7 million to reflect implementation. In Fiscal Year 2023, the Authority adopted GASB Statement No. 96, "Subscription-Based Information Technology Arrangements" (SBITA). The Authority is a lessee for some noncancellable leases of certain subscription-based technology arrangements. The Authority recognizes a SBITA liability and an intangible right-to-use lease asset in the financial statements. Under this Statement the lessee is required to recognize amortization of the subscription asset as an outflow of resources over the subscription term. The Fiscal Year 2022 financial statements are restated in the amount of \$1.0 million. See Note 13 for more details.

We encourage readers to consider the information presented here in conjunction with the Authority's financial statements which immediately follows this section.

2023 FINANCIAL HIGHLIGHTS

Passenger revenues increased 11.3% from \$227.5 million to \$253.4 million primarily due to employer's continual adaptation of work from home policy on the Authority's ridership which increased by 11.4%, which saw commuter rail revenue and ridership gains of 30.3%. Passenger revenue and ridership has continued to increase from the low points recorded in March 2020, the first year of the COVID-19 pandemic. As pandemic restrictions were relaxed or lifted, businesses in the City of Philadelphia moved to new, hybrid ways of working. Other operating revenue was also negatively impacted and decreased 5.8% from \$45.8 million to \$43.2 million primarily due to lower advertising and a one-time insurance recovery in Fiscal Year 2022, offset by higher state Shared Ride Program reimbursements, and real estate rentals.

Operating expenses increased 7.9% from \$1,714.0 million to \$1,850.8 million primarily due to higher labor and fringe benefits, services, fuel and lubricant costs, utilities, purchased transportation, lease rentals, and depreciation offset by lower casualty and liability expenses. The higher costs were realized due to an increase in service with the lifting of the pandemic restrictions and pension costs offset by decreased OPEB costs.

Total government subsidies needed to support operations increased 6.9% from \$1,154.7 million to \$1,234.4. On March 27, 2020, the U.S. Congress passed, and the President signed into law the Coronavirus Aid, Relief, and Economic Security (CARES) Act. The CARES Act provides emergency assistance and health care response for individuals, families and businesses affected by the COVID-19 pandemic. The Authority was awarded \$644 million in CARES Act funding, a portion of which offset the significant passenger revenue shortfall resulting from lower ridership related to the COVID-19 pandemic. The CARES Act Grant was awarded by the Federal Transit Administration on June 3, 2020. Subsequently the U.S. Congress passed two more relief bills: the Coronavirus Response and Relief Supplemental Act (CRRSA) on December 27, 2020, and the American Rescue Plan Act (ARPA) on March 11, 2021. The Authority recognized \$8.7 million in federal CARES Act, \$45.5 million in CRRSAA, \$360.0 million in ARPA in funding to help offset lower passenger revenues.

Total assets increased 8.2% from \$5,609.6 million to \$6,071.0 million primarily due to an increase in current assets. Total liabilities increased 15.0% from \$3,671.1 to \$4,223.6 primarily due to an increase in long-term debt of \$275.1 million and net pension liabilities of \$284.4 million offset by a decrease in other postemployment benefits liabilities of \$196.3 million. There was an increase in deferred outflows from pensions of \$90.0 million and a decrease in deferred inflows from pensions of \$210.4 million related to GASB Statement No. 68 and 71. There was a decrease in deferred outflows from other postemployment benefits of \$24.9 million and an increase in deferred inflows of \$95.9 million related to GASB Statement No. 75.

OVERVIEW OF THE FINANCIAL STATEMENTS

Total Net Position increased 5.1% from \$1,698.1 million to \$1,784.0 million due to capital grants and nonoperating revenues being greater than the net loss from operations. The financial statements consist of: management's discussion and analysis (this section), basic financial statements, and notes to the financial statements.

The Statements of Net Position, Statements of Revenues, Expenses and Changes in Net Position, and Statements of Cash Flows provide information about the Authority's financial position and recent activities. The financial statements also include notes that explain some of the information in the financial statements, provide more detailed data, and provide additional information regarding the Authority's overall financial status. The Authority's financial statements are prepared on an accrual basis in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. Under this basis, revenues are recognized in the period in which they are earned, and expenses are recognized in the period in which they are incurred.

FINANCIAL ANALYSIS OF THE AUTHORITY

Net position. Total net position of the Authority as of June 30, 2023, increased \$86.0 million compared to June 30, 2022. At June 30, 2023, total assets increased \$461.4 million or 8.2% to \$6,071.0 million and total liabilities increased \$552.4 million or 15.0% to \$4,223.6 million. At June 30, 2022, total assets had increased 1.1% and total liabilities had decreased 7.2% compared to June 30, 2021.

The \$392.1 million increase in current assets includes increases in restricted funds of \$361.5 million, net receivables of \$49.1 million, prepaid expenses of \$6.4 million, and material and supplies of \$5.7 offset by decreases in unrestricted funds of \$30.6 million. The restricted funds increase is primarily due to an increase in the Service Stabilization Fund, and unspent bond proceeds from the issuance of the 2022 Revenue Bonds. The net receivable increase of \$49.1 million is primarily due to delay in receipts in federal and state capital grants, and subsidies receivables in Fiscal 2023 offset by other receivables due to lower receivable amounts from third-party agents. The decrease in receivables in Fiscal 2022 was due to the delay in the receipt of federal and state grants. Material and supplies increased \$5.7 million due to the increased costs in the supply chain and manufacturing. Prepaid expenses were \$6.4 million higher than the prior year primarily related to higher prepayments for Amtrak Access Rights offset, and an increase in imprest funds offset by lower information technology hardware maintenance contracts, and insurance policies.

The \$109.6 million increase in current assets as of June 30, 2022, from the previous year was primarily due to increases in restricted and unrestricted funds, and prepaid expenses offset by decreases in net receivables, with a negligible change in material and services.

The \$34.3 million increase in noncurrent restricted funds as of June 30, 2023, is primarily due to a \$36.6 million addition of the debt service reserve fund for the 2022 Revenue Bonds offset by a market value decrease of \$0.3 million in the M-4 Lease Collateral Fund and a \$2.0 million withdrawal from the Haunch Fund.

In addition to restricted funds, the Authority maintains various unrestricted designated funds, a majority of which were adopted by resolution of the Authority's Board to cover a portion of the public liability, property damage and workers' compensation claims for which the Authority is self-insured. These Board designated amounts totaled \$52.6 million as of June 30, 2023, \$52.5 million as of June 30, 2022, and \$55.1 million as of June 30, 2021. The Authority used to maintain an unrestricted designated fund, derived from swaption proceeds received in March 2003, which was being amortized over the remaining life of the related outstanding bonds. The swaption fund balance was fully amortized as of June 30, 2022.

For Fiscal Year ending June 30, 2023, total capital assets increased \$515.1 million, less \$130.4 million of retirements, and accumulated depreciation increased \$452.6 million, less \$103.4 million of accumulated depreciation retirements, resulting in a net capital asset increase of \$35.5 million. At June 30, 2022, net capital assets had increased \$41.5 million over the prior year. Major expenditures during both Fiscal Years 2023 and 2022 were incurred for various transit and Regional Rail infrastructure improvements such as the SEPTA Key, new buses, locomotives, vehicle overhaul program, substations and stations, loops, signals and technology improvements, safety and security, and parking improvements.

The decrease in other assets of \$0.3 million in Fiscal Year 2023 and Fiscal 2022 is due to the decreased amortization costs in connection with the Authority's outstanding debt.

Total liabilities at June 30, 2023 increased \$552.5 million primarily due to increases in the net pension liability of \$284.4 million, long-term debt of \$275.1 million, unearned revenue of \$129.3 million, line of credit borrowings of \$85.0 million, accounts payable of \$5.1 million, and long-term lease obligation of \$0.5 million offset by a decrease in other postemployment benefit obligations of \$196.3 million, public liability, property damage, and workers compensation claims liability of \$19.7 million, accrued expenses of \$3.3 million, other liabilities of \$2.0 million, and lease and subscription liability of \$5.7 million. The accounts payable increase is primarily related to higher capital accruals and in increase in capital asset invoices processed near the end of June 30, 2023. The long-term debt increase was due to additional loan borrowings during the year of \$510.6 million to fund various capital improvement projects across the system, and refinancing certain outstanding debt used to fund certain capital projects for the system, \$43.3 million increase in bond premium with the issuance of the 2022 Revenue Bonds, and amortization of bond premium costs of \$8.7 million. Offsetting the June 30, 2023 long-term debt increase were debt service payments of \$270.1 million. The unearned revenue increase is due to an increase in the Act 44 state and locally matched service stabilization restricted cash and investments balance which will be used to support the operations in Fiscal 2024, and receipt of debt service funds for future payments. Accrued expenses decreased \$3.3 million, or 3.5%, partially due to payroll wages and taxes. The line of credit increase reflects a \$155.0 million outstanding balance as compared to a balance of \$70.0 million at Fiscal Year-end 2022. Additionally, there were decreases in the public liability, property damage and workers' compensation claims liability of \$19.7 million due in part to a slowdown in claim payouts and decrease in outstanding claims resulting from the change in ridership

Total liabilities at June 30, 2022 decreased \$285.3 million primarily due to decreases in the net pension liability of \$307.7 million, in other postemployment benefit obligations of \$62.3 million, and long-term debt of \$48.7 million, offset by an increase in unearned revenue of \$97.1 million, public liability, property damage, and workers compensation claims liability of \$0.9 million, line of credit borrowings of \$10.0 million, accounts payable of \$9.9 million, accrued expenses of \$4.1 million, lease and subscription liability of \$11.0 million, and other liabilities of \$260 thousand.

Net investment in capital assets consists of capital assets net of accumulated depreciation, reduced by the amount of long-term debt and liabilities attributable to the acquisition of those assets. Restricted net position represents deposits that are not available for general use because of third-party restrictions. Unrestricted net position represents net assets that are available for general use. The unrestricted net position deficit decreased \$15.4 million and \$101.1 million in Fiscal Years 2023 and 2022, respectively, to a total deficit amount of \$2,451.1 million at June 30, 2023. The Fiscal Year 2022 unrestricted net position deficit decrease reflects a decreased recognition of the accrued other postemployment benefit obligation decrease of \$62.3 million, and a decrease of \$307.7 million for net pension liability in Fiscal Year 2022. The deficit in unrestricted net position is not expected to have an adverse impact on continuing operations primarily due to the amount of noncurrent liabilities for other postemployment benefits, the net pension liability and public liability, property damage, and worker's compensation claims. These liabilities previously served, directly or indirectly, to increase the deficit; however, the liability amounts are not expected to be significantly liquidated in the upcoming year, which therefore would not require the use of monetary assets.

In Fiscal Year 2008, the Authority began receiving State funding pursuant to Act 44 which was enacted by the State legislature in July 2007 and signed into law by the Governor on July 18, 2007. This legislation established a Public Transportation Trust Fund ("PTTF") in the State Treasury and completely restructured the way public transportation was funded in Pennsylvania. The former system of funding transit agencies from the State General Fund, Lottery Fund, Act 26 of 1991, and Act 3 of 1997, was repealed and replaced with the PTTF dedicated fund. The PTTF provides State funding, in conjunction with required local matching funds, for five programs, namely: operating, asset improvement, capital improvements, programs of statewide significance, and new initiatives. In March 2010, the Pennsylvania Turnpike Commission was unable to obtain approval of the Federal Highway Administration to begin tolling Interstate 80. As a result, PTTF funding for transportation in the Commonwealth was significantly impacted. With the reduction in PTTF funding, the Authority's annual capital budget was cut by 25 percent, or \$110 million, beginning in Fiscal Year 2011 which continued into Fiscal Year 2014 with a total capital budget of \$308.0 million. The capital budget in Fiscal Years 2023 and 2024 was \$1,162.2 million and \$976.8 million, respectively. The Fiscal 2024 and Fiscal 2023 capital budgets increased significantly over prior years because of increases in federal funding resulting from the November 2021 enactment of the Infrastructure Investment and Jobs Act (IIJA), also referred to as the Bipartisan Infrastructure Law (BIL), and the planned transition of Pennsylvania Act 89 Public Transportation funding sources from reliance on the Pennsylvania Turnpike Commission bonds to the state's Motor Vehicle Sales and Use Tax as of July 1, 2022. The enhanced federal capital assistance through Fiscal 2026, along with transition of state funding to a sustainable and bondable funding source allow the Authority to address its state of good repair backlog and service improvements. The decrease in the Fiscal Year 2024 capital budget resulted from a \$16.4 million decrease in projected State funding and the projected utilization of \$169.9 million of bond proceeds, which is significantly less than prior year projected bond proceed utilization. The Authority issued \$510.6 million of bonds in October 2022 and projected utilizing \$271.6 million of those proceeds in Fiscal 2023 and Fiscal 2024. The enhanced federal capital assistance through Fiscal 2026, along with transition of state funding to a sustainable and bondable funding source allow the Authority to address its state of good repair backlog and service improvements.

Changes in Net Position. Net position for the Fiscal Year ended June 30, 2023 increased \$86.0 million to \$1,784.0. The increase in net position as compared to Fiscal Years 2022 and 2021 is described below. For Fiscal Year 2023, total operating revenues increased 8.5% and total operating expenses increased 8.0%. In Fiscal Year 2022, total operating revenues increased 37.7% and total operating expenses had decreased 1.0%.

Passenger revenue increased 11.4%, in Fiscal Year 2023 due to the pandemic restrictions that were relaxed or lifted, businesses in the City of Philadelphia moved to new, hybrid ways of working, and increased 51.4% in Fiscal Year 2022 primarily due to the lifting of COVID-19 pandemic restrictions. Other income decreased 5.7% in Fiscal Year 2023 primarily due to lower advertising and a one-time insurance recovery in Fiscal 2022 offset by higher Shared Ride Program reimbursements.

Subsidies increased 6.9% in Fiscal Year 2023 to meet the budgeted expense increases and revenue ridership losses based on pre-pandemic level benchmarks. On March 27, 2020, the U.S. Congress passed, and the President signed into law the Coronavirus Aid, Relief, and Economic Security (CARES) Act. The CARES Act provides emergency assistance and health care response for individuals, families and businesses affected by the COVID-19 pandemic. The Authority was awarded \$644 million in CARES Act funding, a portion of which offset the significant passenger revenue shortfall resulting from lower ridership related to the COVID-19 pandemic. The CARES Act Grant was awarded by the Federal Transit Administration on June 3, 2020. Subsequently the U.S. Congress passed two more relief bills: the Coronavirus Response and Relief Supplemental Act (CRRSA) on December 27, 2020, and the American Rescue Plan Act (ARPA) on March 11, 2021. The Authority recognized \$8.7 million in CARES Act, \$45.5 million in CRRSAA, \$360.0 million in ARPA in funding in Fiscal 2023. In Fiscal 2022, subsidies decreased \$21.7 due to a reduction in the loss from operations resulting in higher operating revenues and lower operating expenses. The Authority recognized \$80.0 million in CARES Act, \$116.3 million in CRRSAA, and \$113.5 million in ARPA in funding in Fiscal 2022.

Other non-operating expenses, which increased by \$22.2 million in Fiscal Year 2023, include an interest expense increase of \$13.3 million, loss on the disposal of capital assets of \$25.1 million, gain on a lease termination of \$128 thousand and an investment income increase of \$16.1 million. The interest expense increase is primarily related debt service payments. The investment income increase in Fiscal Year 2023 was due to the favorable change in the market value of investments as compared to Fiscal Year 2022. In Fiscal Year 2022, other non-operating expenses increased \$2.1 million, including lower interest on debt of \$0.8 million and an investment decrease of \$2.9 million related to an unfavorable market value change of investments.

Capital grant funding increased \$48.2 million in Fiscal Year 2023 partially due to an increased budget and was comprised of increases in federal and state funding of \$44.3 million and \$4.9 million, respectively, partially offset by a decrease in local funding of \$1.0 million. Capital grant funding decreased \$3.2 million in Fiscal Year 2022 primarily due to a reduced budget and was comprised of decreases state funding and local funding, offset by an increase in federal funding.

Operating Expenses (thousands of dollars)

For the Years ended June 30,

	2023	2022 as restated		2021	as restated

Leases and rentals	59,348		29,616		51,809
Miscellaneous	9,500		4,747		6,622
Depreciation	452,592		442,343		434,284
Total operating expenses	\$ 1,850,818	\$	1,713,980	\$	1,731,768

Salaries and wages increased \$22.0 million, or 3.9%, in Fiscal Year 2023 primarily due to contractual and planned increases. In Fiscal 2022 salaries and wages increased 3.4% primarily due to increase in service due to lifting of the COVID-19 restrictions. Fringe Benefit expenses increased \$11.3 million, or 3.1%, in Fiscal Year 2023, primarily due to a higher actuarial pension costs offset by lower other postemployment benefit costs. In Fiscal Year 2022, fringe benefits decreased \$54.9 million, or 13.2%, primarily due to lower actuarial pension and other postemployment benefits costs.

Services increased 37.2% in Fiscal Year 2023 primarily related to contract service, consulting, ticket vending, banking and software maintenance costs offset by lower legal and snow removal costs. The service expense increase in Fiscal Year 2022 was primarily related to higher consulting, advertising, contract service, banking and software maintenance costs offset by lower legal, snow removal, and ticket vending pollution remediation costs.

Fuel and lubricants increased 54.3% in Fiscal Year 2023 primarily due to hedging of diesel fuel. The expense increased 14.3% in Fiscal 2022 primarily due to higher consumption and the increases in service caused by lifting of the COVID-19 pandemic restrictions.

Tires and tubes expenses increased 2.5% in Fiscal Years 2023 due to a contractual CPI increase and increased 3.4% in Fiscal 2022 related to an increase in operating service a contractual CPI increase.

Other material and supplies increased 5.2% in Fiscal Year 2023 due to higher infrastructure and vehicle maintenance material costs and increased 18.3% in Fiscal 2022 due to higher infrastructure and vehicle maintenance material costs caused by the COVID-19 pandemic disruption of the supply chain leading to higher pricing.

Utilities increased 27.9% in Fiscal Year 2023, primarily due to higher propulsion power, electric, and telephone costs offset by lower heating, water and sewer costs. In Fiscal Year 2022, utilities decreased 1.9%.

Casualty and liability expenses decreased \$17.1 million in Fiscal Year 2023 compared to Fiscal 2022, related to a decrease in claims filed due to the change in ridership patterns with no measurable change in costs to settle cases compared to Fiscal 2022. In Fiscal Year 2022 expenses increased \$5.8 million due to a decrease in claims filed due to the COVID-19 mitigation efforts offset by increased costs expected to settle claims.

Purchased transportation expenses increased 21.9% in Fiscal Year 2023 and 11.0% in Fiscal 2022 primarily due to higher demands for paratransit service with the easing of COVID-19 pandemic restrictions.

Lease and rental expenses increased 100.4% in Fiscal Year 2023 primarily due to an increase in Amtrak lease costs offset by lower rental costs for leased service vehicles. In Fiscal 2022 lease and rental expenses decreased 42.8% due to reduced Amtrak lease costs offset by higher rental costs for leased service vehicles.

Miscellaneous expenses increased 100.1% in Fiscal Year 2023 primarily due to cost of issuance and underwriter discounts related to the 2022 Revenue Bonds and decreased \$1.9 million in Fiscal 2022 due to a lower funding of the M-4 lease collateral due to higher-than-expected returns to meet the future obligation.

Depreciation and amortization expenses increased 2.3% in Fiscal Year 2023 and 1.9% in Fiscal 2022, primarily due to the investment in capital assets in both fiscal years which was being impacted by the increase in available capital grant funds, and energy performance projects funded by energy savings contracts (ESCOs).

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets. As of June 30, 2023, the Authority's investment in capital assets, which included revenue vehicles, transit facilities, track, roadway, and signals, was \$12,581.6 million. Net of accumulated depreciation of \$7,817.8 million, net capital assets totaled \$4,763.8 million. This amount represents a net increase, including additions and disposals net of depreciation, of \$35.5 million, or 0.8% from June 30, 2022.

As of June 30, 2023, the Authority has commitments for various unexpended construction and design contracts of approximately \$337 million and commitments for unexpended revenue vehicle purchases of approximately \$1.1 billion primarily for hydrogen fuel cell and hybrid buses, multi-level rail cars, and the trolley modernization program. The Authority's capital budget for Fiscal Year 2024 includes capital asset additions in the amount of \$872.1 million. A significant portion of the additions is scheduled for the normal replacement and overhaul of vehicles, and various critical infrastructure improvement capital programs which includes maintenance shops and offices, passenger stations, New Payment (SEPTA Key) technology project, substation and power improvements, and other communications, signal systems and technology improvements.

Debt Administration. As of June 30, 2023, the Authority's long-term debt, including current maturities, was \$770.2 million. This amount excludes \$66.9 million in unamortized premiums (or \$837.1 million in total). Long-term debt increased \$240.6 million due to the issuance of the 2022 Revenue Bonds in the amount of \$510.6 million offset by regularly scheduled debt service payments.

CONTACTING THE AUTHORITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our bondholders, customers, and other interested parties with a general overview of the Authority's finances and to demonstrate the Authority's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Office of the Chief Financial Officer, Southeastern Pennsylvania Transportation Authority, 1234 Market Street, 9th Floor Philadelphia, PA 19107-3780.

SOUTHEASTERN PENNSYLVANIA TRANSPORTATION AUTHORITY NOTES TO FINANCIAL STATEMENTS

(AMOUNTS IN THOUSANDS OF DOLLARS EXCEPT WHERE OTHERWISE STATED) JUNE 30, 2023 AND 2022

1. Summary of Significant Accounting Policies

Basis of Presentation and Nature of Authority

The Southeastern Pennsylvania Transportation Authority ("Authority" or "SEPTA"), an instrumentality of the Commonwealth of Pennsylvania created by the State legislature, operates transportation facilities in the five-county Philadelphia metropolitan area which encompasses approximately 2,200 square miles. The Authority's operations are accounted for in the following separate divisions: City Transit, Regional Rail and Suburban Operations (Victory and Frontier). All material interdivisional transactions have been eliminated.

The City Transit Division serves the City of Philadelphia ("City") with a network of 86 heavy rail, street car rail, trolley bus, and bus routes, as well as demand response services, providing approximately 326 thousand passenger trips per day. The Regional Rail Division serves all five counties with a network of 13 commuter rail lines, providing approximately 62 thousand passenger trips per day. The Suburban Operations Division serves the western and northern suburbs with a network of 48 heavy rail, street car rail, and bus routes, as well as demand response services, providing approximately 32 thousand passenger trips per day.

There are two principal sources of revenue: passenger revenue and governmental subsidies. The subsidies are dependent upon annual appropriations, which are not determinable in advance, from Federal, State, and local sources. The subsidies for Fiscal Years 2023 and 2022 are summarized as follows:

	2023		2022
Federal subsidies:			
Leasehold/debt service reimbursements	\$ 5,2	.07 \$	23,130
Federal Emergency Grant - CARES Act	8,7	11	80,019
Federal Emergency Grant - CRRSAA	45,4	52	116,351
Federal Emergency Grant - ARPA	360,0	100	113,471
State and local subsidies:			
Act 44 operating subsidies	781,0	169	785,890
Act 44 leasehold/debt service reimbursements	33,9	71	35,882
Total subsidies	\$1,234,4	.10 \$	1,154,743

The Federal Transit Program, as codified in the United States law within Chapter 53 of Title 49 of the United States Code, provides the basis for federal funding that SEPTA receives. This Funding is in the form of formula and competitive grants from the U.S Department of Transportation's Federal Transit Administration (FTA).

On November 15,2021, the Infrastructure Investment and Jobs Act (IIJA), commonly referred to as the Bipartisan Infrastructure law (BIL), was signed into law. IIJA provides the federal transit programs more than \$108 billion for public transit operators in Federal Fiscal Years 2022 through 2026. The formula programs provide predictable annual federal subsidies for reimbursement of bus and rail transit capital projects, preventive maintenance, debt service and certain capital lease expense.

On March 27, 2020, the \$2.2 trillion Coronavirus Aid, Relief, and Economic Security (CARES) Act was signed into law by the President in response to public health and economic impacts of the COVID-19 pandemic in the United States. The Federal Transit Administration was appropriated \$25 billion of CARES Act funding to allocate to

Summary of Significant Accounting Policies (Continued)

Basis of Presentation and Nature of Authority (Continued)

recipients of urbanized and rural area formula funds. Beginning on January 20, 2020, CARES funds were eligible to be used for operating and capital expenses incurred by rural and urban recipients. Funding was provided at 100% federal share, with no local match required and is available to support capital, operating, and other eligible expenses to prevent, prepare for, and respond to COVID-19. SEPTA will utilize apportioned CARES Act funds in the amount oof \$644 million for operating and capital expenses incurred in Fiscal Years 2020, 2021, 2022, and 2023.

On December 27, 2020, the Coronavirus Response and Relief Supplemental Appropriations Act of 2021 (CRRSAA) was signed into law. CRRSAA provides more than \$900 billion of federal funding nationwide in response to the COVID-19 pandemic. The public transportation provisions of CRRSAA provide \$14 billion in emergency relief funds for transit operators to prevent, prepare for, and respond to the coronavirus. On January 11, 2021, the FTA released apportionments for the CRRSAA funding and SEPTA was allocated \$252 million. SEPTA will utilize apportioned CRRSAA Act funds for operating and capital expenses incurred in Fiscal Years 2022 and 2023.

On March 11, 2021, the American Rescue Plan Act of 2021 (ARP) was signed into law. ARP provides \$1.9 trillion to combat the COVID-19 pandemic, including public health and economic impacts. The public transportation provisions of ARP provide \$30.5 billion in emergency relief funds for transit operators to prevent, prepare for, and respond to the coronavirus. SEPTA will utilize apportioned ARPA funds of \$776 million for operating expenses incurred in Fiscal Years 2022, 2023, and 2024.

The three COVID-19 relief bills provide federal subsidy beyond funding levels established via the federal transit program.

Since Fiscal Year 2008, State funding had been pursuant to Act 44 of 2007 ("Act 44"). Act 44 was enacted by the State legislature in July 2007 and signed into law by the Governor on July 18, 2007. This legislation established a Public Transportation Trust Fund ("PTTF") in the State Treasury and restructured the way public transportation is funded in Pennsylvania. The former system of funding transit agencies from the State General Fund, Lottery Fund, Act 26 of 1991, and Act 3 of 1997 was repealed and replaced with the PTTF dedicated fund. The PTTF provided State funding, in conjunction with required local governmental matching funds, from the five-county SEPTA region for five programs, namely: operating, asset improvement, capital improvements, programs of statewide significance, and new initiatives. On November 25, 2013, the Governor signed into law Act 89 of 2013. This law, which amended Act 44 of 2007, became effective January 1, 2014.

Act 44 of 2007, as amended by Act 89 of 2013, is a comprehensive transportation funding bill for the Commonwealth of Pennsylvania. For the Authority, the transportation funding bill provides a predictable, growing source of funds to make critical infrastructure repairs and improvements. Act 44 of 2007, as amended by Act 89, provides state funding in conjunction with required local governmental matching funds from the five-county SEPTA region for operating, the Asset Improvement Program, Programs of Statewide significance, Capital Improvement Program and Alternative Energy Capital Investments program.

State funding represents the largest single source of subsidy revenue and the City is the largest single provider of local subsidies. The state also provides a subsidy for senior citizens under the State Shared Ride Program. It is the Authority's policy to record all subsidies on a basis consistent with the time-period specified in the governmental grant for federal and state subsidies. Local government subsidies were recorded based upon the matching funding requirements of Act 44 and Act 89.

Accounting and Financial Reporting

The Authority follows Governmental Accounting Standards Board (GASB) Statement No. 34, "Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments", which requires a Management's Discussion and Analysis to provide an analytical overview and discussion of financial activities.

1. Summary of Significant Accounting Policies (Continued)

Accounting and Financial Reporting (Continued)

In Fiscal Year 2021, the Authority adopted GASB Statement. No. 84 "Fiduciary Activities." This statement establishes criteria for identifying fiduciary activities and clarifies how these funds should be treated in the financial statements. As a result of adopting this statement, the Authority included the Statement of Fiduciary Net Position and the Statement of Changes in Fiduciary Net Position in its financial statements and included additional note disclosures related to the Authority's pension plans.

In Fiscal Year 2022, the Authority adopted GASB Statement No. 87 "Leases." This Statement increases the usefulness of the Authority's financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The Authority has lease arrangements in which it is a lessee and lessor. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The Authority recognizing lease liabilities with a value of \$5,000 and greater. Fiscal Year 2021 financial statements are restated to reflect implementation. See Note 3 and 6 for more detail.

In Fiscal Year 2023, the Authority adopted GASB Statement No. 96 "Subscription-Based Information Technology Agreements." This Statement provides accounting and financial reporting guidance for subscription-based technology agreements, (SBITAs) for governmental users. The Statement defines a SBITA, establishes if a SBITA results in a right-to-use intangible asset and corresponding liability.

The Authority's financial statements are prepared using the economic resources measurement focus and the accrual basis in conformity with accounting principles generally accepted in the United States of America as applied to government units. Revenues are recognized in the period in which they are earned, and expenses are recognized in the period in which they are incurred. The Authority distinguishes operating revenues and expenses from nonoperating items in the preparation of its financial statements. Operating revenues and expenses generally result from the Authority's principal operation of providing passenger service.

The principal operating revenues are passenger fares and essentially all operating expenses relate to the delivery of passenger transportation. All other revenues and expenses are reported as nonoperating revenues or expenses, or capital grants. The cash flow statement is prepared using the direct method.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.

Renewal and Replacement

A previous agreement with the City required the Authority to provide a portion of its gross revenues to be used for renewal and replacements of operating property, including, when approved, the matching of State or Federal grant funding for the acquisition of capital assets. These funds are included in the restricted cash and investments by the Authority.

Investments

The Authority accounts for investments at fair value. Fair value is the amount at which an investment could be exchanged in a current transaction between willing parties. Investments are more fully described in Note 2.

Materials and Supplies

The inventory of materials and supplies of maintenance parts is valued on an average cost basis.

1. Summary of Significant Accounting Policies (Continued)

Capital Assets

It is the Authority's policy to capitalize and depreciate capital assets acquired with capital grants, renewal and replacement and other operating funds, as more fully described in Note 4.

Deferred Outflows/Inflows of Resources

Deferred outflows of resources represent a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources or expense until then. The Authority has three items that qualify for reporting in this category within its Statements of Net Position. Deferred inflows of resources represent an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources or revenue until that time. The Authority has four items, including deferred pension, OPEB gains, and leases which qualify for reporting in this category.

Pensions 1

The Authority maintains five trusteed, single-employer, defined benefit pension plans covering substantially all of its full-time employees, other than regional rail union employees are covered under pension provisions of the Railroad Retirement Act. In accordance with GASB No. 84 "Fiduciary Activities", the Authority has determined the pension plans to be fiduciary component units of the Authority. The Pension Plans are included in the financial reporting entity as a fiduciary fund because the pension plans are (1) considered to be separate legal entities, (2) the Authority appoints a voting majority of the governing board, and (3) the pension plans impose a financial burden on the Authority as it is legally obligated to make contributions to the plans. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Pension Plans and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by the Plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The pension plans are more fully described in Note 7.

Other Postemployment Benefits

During Fiscal Year 2018, the Authority adopted GASB Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions". The Statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expenses.

This statement identifies the methods and assumptions that are required to be used to project benefit payments, discounted projected benefit payments to their actuarial present value, and attribute that present value to periods of employee service. The impact of GASB Statement No. 75 is more fully described in Note 8.

Self-Insurance

The Authority provides for the present value of the self-insurance portion of public liability, property damage, workers' compensation claims, and pollution remediation obligations. The Authority is also self-insured for medical coverage and prescription drug benefits it provides to most employees and certain retirees through third-party administrators. As of January 1, 2015, the Authority elected to self-insure, through two third-party administrators, the dental coverage it provides to most employees. The Authority's self-insurance is more fully described in Note 11.

Grants and Subsidies

All capital grants, meeting the timing and eligibility requirements of the grant agreement, are recorded as an increase in the Statement of Revenues, Expenses and Changes in Net Position.

Statements of Cash Flows

For the purpose of the Statements of Cash Flows, the Authority considers cash equivalents to be all highly liquid investments with a maturity of ninety days or less at the time of purchase.

2. Cash, Cash Equivalents and Investments

The investments in the accompanying financial statements are reported at fair value.

The components of cash and cash equivalents as of June 30 are:

	2023	2022
Cash on hand	\$ 880	\$ 912
Cash in bank	65,833	36,662
Money market funds	597,567	389,676

For fiscal years ending June 30, 2023 and 2022, SEPTA categorizes its fair value measurements within the fair value hierarchy established by the generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. U.S Government agencies, classified as Level 2, were valued using a matrix pricing technique. Mutual funds, classified as Level 1, were valued using quoted prices for identical assets in an active market in Fiscal Year 2023 and 2022.

For fiscal years ending June 30, 2023 and 2022, SEPTA categorizes its money market funds classified as cash and cash equivalents in the Statements of Net Position as Level 2 using quoted market prices of similar assets.

2. Cash, Cash Equivalents and Investments (Continued)

The Authority has set aside cash, cash equivalents and investments primarily to provide for the payment of a portion of its future obligations. These include amounts restricted primarily for: State dedicated funds in accordance with Act 44 and contractual agreements between the Authority and external parties. The amounts restricted, as of June 30, are as follows:

	2023	<u>2022</u>
Restricted: State dedicated funding provided by Act 44, including local match State Funding provided for Sub-recipients	\$ 480,273 163	\$ 385,728 682

2. Cash, Cash Equivalents and Investments (Continued)

As of June 30, 2023, allowable investments of the Authority were specified by Act 3 of 1994 ("Act 3") and Act 10 of 2016 ("Act 10"). In general, the Authority may invest in obligations of the U. S. Government and its agencies, repurchase agreements, which are secured by investments allowable by Act 3 and Act 10, and mutual funds which invest in the foregoing items. Act 3 and/or Act 10 does specifically limit investments in municipal bonds and commercial paper to any of the three highest and the highest rating categories, respectively, issued by nationally recognized statistical rating organizations. All the Authority's investment transactions are executed with recognized and established securities dealers and commercial banks and conducted in the open market at competitive prices.

As of June 30, 2023, the Authority's investments in money market funds, mutual funds and bonds of U.S. agencies were rated Aaa by Moody's Investor Service. The Authority's general investment policy is to apply the prudent-person rule while adhering to the investment restrictions as prescribed in Act 3 and Act 10, the Authority's enabling legislation: Investments are made as a prudent person would be expected to act, with discretion and intelligence, to seek reasonable income, preserve capital, and, in general, avoid speculative investments.

The Authority places no limit on the amount the Authority may invest in any one issuer. More than five percent of the Authority's cash equivalents and investments are in the money market, mutual funds and government securities held by Goldman Sachs Financial Square Government Fund, Dreyfus Government Cash Management Institutional Shares, and the Federal Home Loan Bank. These cash equivalents and investments are 50.94%, 11.25%, and 7.15%, respectively, of the Authority's total cash equivalents and investments.

For a deposit, custodial credit risk is the risk that, in the event of a bank failure, the Authority's deposits may not be returned to it. As of June 30, 2023, \$65,583 of the Authority's cash in the bank of \$65,833 was fully collateralized with securities held by the pledging financial institution, or by its trust department or agent, but not in the Authority's name.

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Authority will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. As of June 30, 2023, \$691,910 of the Authority's cash equivalent and investment balance of \$904,850 was exposed to custodial credit risk as follows:

Money market funds	\$ 597,567
Mutual funds	94,343
Total	\$ 691,910

The money market funds and mutual funds invest solely in securities that are issued or guaranteed by the U.S. Government, its agencies or instrumentalities. Fund shares are not insured or guaranteed. SEPTA's policy requires that all deposits with financial institutions must be collateralized to the extent not protected by F.D.I.C. insurance and in accordance with the Commonwealth of Pennsylvania Act No. 72 of 1971. Securities that can be accepted as collateral are limited to U.S. Government Securities, Federal Agency Securities and Municipal Securities. Also, in accordance with its policy, SEPTA's investments, except for money market funds and mutual funds, are held in the Authority's name by a third-party safe-keeping custodian that is separate from the counterparty or in the custody of a trust department, as required by bond covenants.

2. Cash, Cash Equivalents and Investments (Continued)

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Duration is a measure of an investment's sensitivity to changes in interest rates and is a measure of the cash-weighted average term to maturity of the investment. The higher the duration, the greater the changes in fair value when interest rates change. The Authority measures interest rate risk using effective duration expressed in years. Effective duration takes into consideration the changes in expected cash flows for securities with embedded options or redemption features when the prevailing interest rates change. As of June 30, 2023, the Authority had the following investments in its portfolio:

	Effective
<u>Fair Value</u>	<u>Duration</u>
\$ 212,939	0.322
597,567	0.002
94,343	0.002
904,849	
65,833	
\$ 970,682	
	0.32
	\$212,939 597,567 94,343 904,849 65,833

Through its investment policy, the Authority manages its exposure to fair value losses arising from increasing interest rates by limiting the effective duration of its operating cash investments to less than one year, and its entire invested portfolio to less than three years. The Authority's entire invested portfolio at fiscal year-end was \$970.7 million with an effective duration of 0.32 years.

The nature and composition of the Authority's deposits and investments during the year were similar to those at year-end.

2. Cash, Cash Equivalents and Investments (Continued)

Fiduciary Activities - Pension Plan Master Trust

The Master Trust (the "Plan") consists of five defined benefit pension plans established to provide retirement benefits to participants in accordance with the benefit structure adopted by the Southeastern Pennsylvania Transportation Authority ("SERTA"). SEPTA's five retirement benefit plans are the Retirement Plan for Supervisory, Administrative and Management Employees, Retirement Plan for Transit Police, Pension Plan for Certain Bargaining Employees City Transit Division, Pension Plan for Certain Bargaining Employees Red Arrow Division, and Pension Plan for Certain Bargaining Employees Frontier Division. The investments of the Plan will be made for the exclusive benefit of the Plan participants and beneficiaries. Assets of the Plan shall be invested to ensure growth that is adequate to meet both the annual payment obligations and long-term benefits for all retirees. The Plan's assets should be invested in a manner that both preserves and enhances principal over the long term, both in real and nominal terms.

Achieving the Plan's actuarial assumption rate of 6.5% is SEPTA's primary investment goal. This is the total return projected to provide a high probability of achieving SEPTA's long-term investment objectives within acceptable risk levels. The Committee has adopted the asset allocation policy outlined below:

	Target	Exposure	Policy
Asset Class	Allocation (%)	Range (%)	Benchmark
Equities	55	45-65%

For fiscal years ending June 30, 2023 and 2022, SEPTA categorizes its fair value measurements within the fair value hierarchy established by the generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Common stock, convertible or exchangeable securities, and fixed income securities, classified as Level 1, were valued using prices quoted in active markets issued by pricing vendors for these securities. Preferred securities, common stock, and fixed income securities, classified as Level 2, were valued using prices determined by the use of matrix pricing techniques maintained by the various pricing vendors for these securities. Alternative investments, common stock, natural resources, private equity, and real estate classified as Level 3 were valued using the fair value hierarchy of securities whose stated market price is unobservable by the market place. Many of these securities are priced by the issuers or industry groups for these securities.

2. Cash, Cash Equivalents and Investments (Continued)

Fiduciary Activities - Pension Plan Master Trust (Continued)

Fair value is defined as the quoted market value on the last trading day of the period. These prices are obtained from various pricing sources by the Fiduciary's custodian bank.

For fiscal years ending June 30, 2023 and 2022, SEPTA categorizes its money market funds classified as cash and cash equivalents in the Statements of fiduciary Net Position as Level 2 using quoted market prices of similar assets.

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Authority will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. None of the pension plan's investments at June 30, 2023 and 2022 were exposed to custodial credit risk. The pension plans do not have a policy to limit its exposure to custodial credit risk.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Duration is a measure of an investment's sensitivity to changes in interest rates and is a measure of the cash-weighted average term to maturity of the investment. The higher the duration, the greater the changes in fair value when interest rates change. The Authority measures interest rate risk using effective duration expressed in years. Through the pension plan's investment policy, the Pension Plans manage its exposure to fair value losses arising from increasing interest rates by limiting the effective duration of its fixed income investments to not exceed 120% of their assigned policy benchmark's effective duration. The Pension Plan's fixed income securities portfolio of \$328,040 million had an effective duration of 5.71 years as of June 30, 2023.

Credit risk. Below investment grade securities shall be permitted but must not make more that 5% of the Core & Core Plus Fixed Income Portfolio. The minimum overall average quality of the U.S. high yield and Emerging Market Debt portfolio shall be a "BB" rating or equivalent unless otherwise approved by the Committee. The following is the credit rating for the pension plan's fixed income securities as of June 30, 2023:

Fixed income securities	\$	90,714	AAA
Fixed income securities		10,120	AA
Fixed income securities		25,333	AA
Fixed income securities		38,571	BBB
Fixed income securities		29,511	BB
Fixed income securities		23,031	В

	(5		

2. Cash, Cash Equivalents and Investments (Continued)

Fiduciary Activities – Pension Plan Master Trust (Continued)

Concentration of Credit Risk. Pension Plan's investment policy states that equity and international equity holdings in any one company, except mutual funds or commingled funds, should not exceed 10% of the market value of the portfolio without the consent of the Committee. The policy also states that no more than 5% of the Core & Core Fixed Income portfolio will be held in securities of any one issuer, excluding securities issued or guaranteed by the U.S. Government, U.S. Government Agencies, and/or U.S. Government Sponsored Enterprises. No more than 10% of the U.S. High Yield, Private Credit Specialist, Bank Loan, or the Emerging Market Debt portfolio will be held in securities of any one issuer, excluding securities issued or guaranteed by the U.S. Government, U.S. Government Agencies, and/or U.S. Government Agencies, and/or U.S.

Lease Receivable

The Authority has lease arrangements with outside entities for the right to use office and retail space, fiber optic, and fuel pipelines on the Authority's property. The Authority has various leases agreements for offices and retail space with start and ending dates from July 1, 2020, through July 1, 2048, with principal and interest payments ranging from \$.038 to \$1.7 million per year. The Authority leases space for fuel pipelines with start and end dates from July 1, 2020, through June 30, 2044, with principal and interest payments ranging from \$.006 to \$.060 million per year. The Authority has various fiber optic leases with dates ranging from July 1, 2020, through June 30, 2041, with principal and interest payments ranging from \$.021 to \$.359 million per year. The Authority adopted GASB 87 in Fiscal Year 2022, and restated Fiscal Year 2021 for comparative purposes. At the commencement of lease, the Authority initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of the lease payments received. The deferred inflow of resources is initially measurec as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

The effect on lease revenue and interest income is:

Year	Leas	se Revenue	Inte	erest Income	Total
2022	\$	4,974	\$	1,777	\$ 6,751
2023		4,780		1,836	6,616
Total	\$	9,754	\$	3,613	\$ 13,367

As of June 30, 2023, the present value of the Authority's lease payments amounted to \$52,945. The Authority has a deferred inflow of resources associated with the lease payments that will be recognized over the lease terms. As of June 30, 2023, the balance of the deferred inflow of resources was \$51,199. The future principal and interest lease payments as of June 30, 2023, were as follows:

Year	Р	rincipal	lr	Interest		Total
2024	\$	4,905	\$	1,696	\$	6,601
2025		4,902		1,553		6,455
2026		4,683		1,412		6,095
2027		4,616		1,279		5,895
2028		4,317		1,148		5,465

4. Capital Assets (Continued)

Capital assets are acquired with capital grants, renewal and replacement and other operating funds. Capital assets are stated at cost and depreciation is computed by the straight-line method over the estimated useful lives of the assets. The estimated useful lives are generally 12 to 30 years for revenue vehicles, 30 years for structures, track and roadway, and 4 to 10 years for intangibles, signals, and other equipment. Vehicle overhaul costs are capitalized and depreciated as capital assets over the extended useful lives of the vehicles estimated at 4 or 5 years. Capital assets which are inexhaustible and intangible assets with indefinite useful lives are not subject to depreciation.

As of June 30, 2023, construction in process principally consists of infrastructure improvements and revenue vehicles which will be primarily funded by capital grants.

As of June 30, 2023, the Authority has commitments for various unexpended construction contracts of approximately \$337 million and commitments for unexpended revenue vehicle purchases for regional rail cars, buses, and trollies of approximately \$1.142 billion.

As of June 30 2023, the Authority recognized an impairment of 25 electric buses and 20 Market Frankford Subway cars. The total loss from impairment is approximately \$25.1 million of which \$18.3 applies to the electric buses and \$6.8 million to the Market Frankford Subway Cars. The impairment loss is recorded in the statement of revenues, expenses, and changes in net position as a nonoperating expense.

Long-Term Debt (Continued) Long-Term Debt:

In 1968, the Authority and the City entered into concurrent lease agreements whereby the Authority leased the former Philadelphia Transportation Company owned properties, which the Authority acquired in 1968, to the City and the City leased those properties, as well as certain City-owned transit properties, to the Authority. The agreements provided for the City to make rental payments to the Authority in amounts equal to the debt service (principal and interest) on the Authority's Rental Revenue Bonds which matured during Fiscal Year 2003. Also, the Authority had paid fixed rent to the City in the amounts necessary to meet the debt service on the self-supporting City bonds. The final fixed rent payment was made in 2005 as planned. The Authority was to also pay to the City, out of the net revenues from leased property, cumulative additional rent in amounts equal to the debt service on the Authority's Rental Revenue Bonds and non-cumulative additional rents. The Authority's obligation to meet the cumulative additional rent requirements has been forgiven with the exception of fiscal years 1969, 1970, 1995 through 1998 and fiscal years 2001 through 2003. The Authority has paid the cumulative additional rent for Fiscal Years 1995 and 1996. The Authority had an unrecorded contingent liability, which was discharged under the new lease agreement effective July 1, 2014, for cumulative additional rent for Fiscal Years 1969, 1970, 1997, 1998 and 2001 through 2003 totaling approximately \$24.7 million. These leases were to exprewhen the Authority would make the last payment of fixed rent or cumulative additional rent, or December 31, 2005, whichever would be later.

It had been the Authority's position that the lease and leaseback agreements did not expire on December 31, 2005, but that, in accordance with their terms, the agreements continue in full force and effect, *inter alia*, while cumulative additional rent and debt service on the Authority's bonds remained outstanding. In October 2005, the Authority and the City entered into a standstill agreement by which they agreed that the lease and leaseback agreements would remain in full force and effect during the term of the standstill agreement without waiver, admission, or prejudice to the parties' respective positions. The standstill agreement, initially in effect until December 31, 2007, was subsequently extended for two additional one-year terms which expired December 31, 2009. In December 2009, the standstill agreement was amended to continue on a month-to-month basis unless terminated by either party or upon completion of a master agreement.

On July 15, 2014, the City of Philadelphia (City) and the Authority entered into a new City Transit Division Properties Lease Agreement (Lease Agreement) effective as of July 1, 2014. The new Lease Agreement terminated the existing 1968 lease agreement between the City and the Authority. The Lease Agreement provides that the City will lease to the Authority certain City owned transit properties, including the City owned Suburban Station Concourse property and certain rolling stock, to enable the Authority to continue operating the City Transit Division as part of the SEPTA system. The initial term of the Lease Agreement is for thirty years and expires June 30, 2044. The Lease Agreement provides for automatic extensions of 2-additional terms of fifteen years each unless the Authority provides notice to the City not to renew prior to each extended term. Under the Lease Agreement, the Authority made a nominal fixed rent payment to the City and will be responsible for keeping the City owned transit properties in good operating condition, including alterations and replacements. The Authority will also pay to the City additional rent, an amount equal to forty percent of new sources of net revenues less certain Concourse expenditures generated by the City owned transit properties. Project expenditures incurred to generate the new sources of revenue are permitted to be recovered in full so any unreimbursed project expenditures shall be carried forward to future years until fully recovered. For the Fiscal Year ending June 30, 2023, the Authority has calculated and determined that no additional rent is due to the City under the Lease Agreement.

In February 1999, the Authority issued \$262.0 million of Special Revenue Bonds, Series of 1999A ("1999A Bonds") and 1999B ("1999B Refunding Bonds"), due in varying amounts through 2029, with annual interest from 3.25% to 5.25%. The net proceeds of the 1999A Bonds were used to finance a portion of the Market-Frankford Subway-Elevated line vehicle acquisition program; refinance a bridge loan for payment of a portion of the vehicle acquisition program; reimburse the Authority for a portion of the costs of certain capital projects and pay a portion of the premium for a debt service reserve fund insurance policy. The net proceeds of the 1999B Refunding Bonds were used to refund \$73.2 million of the 1995A Bonds and pay a portion of the premium for a debt service reserve fund insurance policy. In October 2010, the Authority terminated

5. Long-Term Debt (Continued)

Long-Term Debt: (Continued)

the 1999 Series Bonds and issued \$222.5 million of Revenue Refunding Bonds, Series of 2010 ("2010 Bonds"), due in varying amounts through 2028 with remaining annual interest rates between 3.7% and 5.0%. The proceeds of the 2010 Bonds along with other funds of the Authority were used to refund the Authority's outstanding Special Revenue Bonds, Series of 1999A and 1999B, fund termination payments in connection with the Swap Agreements relating to the 1999 Bonds, fund accrued amounts payable on the Swap Agreements through the date of termination and fund certain costs and expenses incurred in connection with the issuance of the 2010 Bonds. Excluding the additional debt issued associated with termination of the swap, the net refunding transaction decreased the Authority's debt service payments by \$34.5 million and resulted in an economic gain of \$23.4 million. This amount represents the difference between the present value of the debt service on the old and new bonds. The Basis Swap in connection with the 1999 Bonds was amended so that it is now associated with the 2010 Bonds.

In March 2007, the Authority issued \$131.7 million of Variable Rate Revenue Refunding Bonds, Series of 2007 ("2007 Bonds"), due in varying amounts through 2022. The net proceeds of the 2007 Bonds were used to retire the Authority's outstanding Special Revenue Bonds, Series of 1997 ("1997 Bonds") due in varying amounts through 2022, with annual interest from 4.00% to 5.75% and pay the premium for a debt service reserve fund insurance policy. The net proceeds of the 1997 Bonds were used to reimburse the Authority for a portion of the costs of certain capital projects; refund certain leases entered into by the Authority for a building and related equipment; pay the costs of certain capital projects and pay the premium for a debt service reserve fund insurance policy. On October 5, 2010, in conjunction with the issuance of the 2010 Bonds, the Authority converted the interest rate mode of its 2007 Bonds from a weekly mode to a daily mode based on SIFMA (Securities Industry and Financial Markets Association). On December 20, 2012, the Authority converted the interest rate mode of \$98.0 million of its then outstanding principal amount Variable Rate Revenue Refunding Bonds, Series 2007, from a daily mode to an indexed mode. The interest rate on the bonds is now set monthly at a rate equal to 67% of 1-month LIBOR (London Interbank Offered Rate) plus 105 basis points. The converted indexed Variable Rate Revenue Refunding Bonds, Series 2007, may not be converted from an indexed mode to a different mode. On March 1, 2022, the bonds were fully repaid and therefore there is no outstanding balance as of June 30,2022.

Advanced Refundings:

On October 11, 2017, the Authority issued Revenue Refunding Bonds, Series 2017 ("2017 Bonds"), in the amount of \$59.97 million. The principal on these bonds is payable in annual installments ranging from \$6.38 million in 2021 to \$8.02 million in 2028. Interest on the outstanding principal shall be due semi-annually on March 1 and September 1 of each year, beginning March 1, 2018. The bonds were issued at a premium of \$11.91 million and have yields ranging between 1.25% and 2.3% and bear a 5% interest rate. The proceeds from the sale of the 2017 Bonds in the amount of \$71.88 million were used to (a) advance refund a portion of the Authority's Revenue Refunding Bonds, Series of 2010 ("Refunded 2010 Bonds") in the aggregate principal amount of \$65.84 million, and (b) fund certain costs and expenses incurred by the Authority in connection with the issuance and sale of the 2017 Bonds. Concurrently with the issuance of the 2017 Bonds, a portion of the proceeds along with other available moneys of the Authority, were irrevocably deposited into an escrow account pursuant to the terms of an Escrow Agreement and invested in Government Obligations, the maturing principal of and interest on which will be sufficient to pay the interest and principal on the Refunded 2010 Bonds as such payments become due. Upon the deposit of the funds for the advance refunding of the Refunded 2010 Bonds pursuant to the terms of the Escrow Agreement, the Refunded 2010 Bonds were deemed to no longer be outstanding under the Indenture. The bonds decreased debt service by \$7.93 million and resulted in an economic gain of \$7.02 million. The principal balance outstanding on the 2017 bonds as of June 30, 2023, is \$39.9 million.

5. Long-Term Debt (Continued)

Long-Term Debt: (Continued)

On October 19, 2017, the Authority issued \$102.3 million par amount of Capital Grant Receipts Refunding Bonds, CGR Series 2017 (Federal Transit Administration Section 5337 State of Good Repair Formula Program Funds), ("2017 Refunding Bonds"). The 2017 Refunding Bonds are due in varying amounts with maturity dates of June 1, 2018, and June 1, 2022, through and including June 1, 2029. The 2017 Refunding Bonds were issued with a premium of \$20.77 million and have yields ranging between 1.20% and 2.51% and bear a 5% annual interest rate. The proceeds from the sale of the 2017 Refunding Bonds in the amount of \$123.07 million, together with other available moneys of the Authority, were used to (a) advance refund a portion of the Authority's Capital Grant Receipts Bonds, Series 2011 (Federal Transit Administration Section 5309 Fixed Guideway Modernization Formula Funds) ("2011 Bonds"), in the aggregate principal amount of \$110.45 million, and (b) fund certain costs and expenses incurred by the Authority in connection with the issuance and sale of the 2017 Refunding Bonds. Concurrently with the issuance of the 2017 Refunding Bonds, a portion of the proceeds of the 2017 Refunding Bonds and other moneys of the Authority were irrevocably deposited into an escrow account pursuant to an Escrow Agreement and invested in Government Obligations, the maturing principal of and interest on which will be sufficient to pay the interest and principal on the Refunded 2011 Bonds as such payments become due. Upon the deposit of the funds for the advance refunding of the Refunded 2011 Bonds pursuant to the terms of the Escrow Agreement, the Refunded 2011 Bonds were deemed to no longer be outstanding under the Indenture. The bonds decreased debt service by \$14.32 million and resulted in an economic gain of \$9.51 million. The principal balance outstanding on the 2017 bonds as of June 30, 2023, is \$78.5 million.

On December 5, 2019, the Authority issued \$17.825 million of Revenue Refunding Bonds, Series of 2019 ("2019 Refunding Bonds"). The 2019 Refunding Bonds are due in varying amounts with maturity dates of March 1, 2020, through and including March 1, 2028. The 2019 Revenue Refunding Bonds were issued with a premium of \$2.76 million and have yields ranging from 1.21% to 1.67% and bear a 3% to 5% annual interest rate. The proceeds from the sale of the 2019 Revenue Refunding Bonds, were used to (a) current refund a portion of the Authority's Revenue refunding Bonds, Series of 2010, in the aggregate principal amount of \$19.84 million, and (b) fund certain costs and expenses incurred by the Authority in connection with the issuance and sale of the 2019 Revenue Refunding Bonds. The bonds decreased debt service by \$2.97 million and resulted in an economic gain of \$2.79 million. The principal balance outstanding on the bonds as of June 30, 2023 is \$11.7 million.

The 2007, 2017, and 2019 Refunding Bonds and 2022 AIP Bonds are secured by dedicated funding received pursuant to Act 44.

In November 2015, the Authority partnered with Constellation New Energy Inc., a GESA energy saving company (ESCO) to complete an \$18.3 million energy saving project, pursuant to the Pennsylvania Guaranteed Energy Saving Act (GESA). To finance the project, the Authority entered into a master equipment lease/purchase agreement with Banc of America Public Capital Corporation. The project includes the replacement of onboard lighting with high efficiency LED technology for the majority of SEPTA's regional rail fleets, and rail transit fleets of the Norristown High Speed Line and the Broad Street Subway and other energy savings improvements. The equipment to be installed will serve to reduce the Authority's energy consumption and the resultant operating savings are guaranteed by the ESCO to equal or exceed the debt service payments throughout the term of the agreement. PennDOT has agreed for the Authority to use Section 1513 operating funds to pay for the capital lease rental payments in lieu of using those same dollars to pay for higher utility expenses. The lease consists of two tranches of debt. The first tranche has a principal amount of \$4.2 million and a final maturity of June 1, 2026; the second tranche has a principal amount of \$14.0 million and a final maturity of June 1, 2033.

5. Long-Term Debt (Continued)

Long-Term Debt: (Continued)

On January 1, 2016, the Authority entered into an EB-5 Loan Agreement with DVRC SEPTA II, LP (Delaware Valley Regional Center, LLC) for an amount not to exceed \$300 million at 2% per annum to fund design, development, construction and purchase of materials, equipment and machinery necessary to complete the Elwyn-Wawa Rail Service Restoration, to rehabilitate 15th Street and City Hall Stations, to complete the Substation Rehabilitation Program, and to expand Frazer Yard including the acquisition of Locomotives and Multi-Level Regional Rail Cars. On April 28, 2017, the Authority borrowed \$100 million. The loan will mature on July 1, 2022.

On November 1, 2017, the Authority borrowed an additional \$90 million. The loan will mature on November 1, 2022. On September 20, 2018, the Authority borrowed an additional \$33 million. The loan will mature on September 20, 2023. On March 11, 2019, the Authority borrowed an additional \$14 million. The loan will mature on March 11, 2024. On November 15, 2019, the Authority borrowed an additional \$2.5 million. The loan was to mature on November 15, 2024, but was repaid in full and there is no outstanding balance as of June 30, 2023.

In November 2016, the Authority entered into a master equipment lease/purchase agreement with PNC Equipment Finance LLC for up to \$37.9 million due in varying amounts through March 30, 2034, with an annual nominal interest rate of 2.83%. The equipment to be leased/purchased will include the installation of various energy conservation measures through a third-party agreement which will also serve to reduce the Authority's energy consumption and operating expenses. The measures to be taken include the construction of a Combined Heat and Power Plant ("CHP") that will provide electricity to the Wayne Junction substation and Midvale bus maintenance facility, the installation of interior and exterior LED lighting upgrades to certain Authority owned buildings, and other work to conserve energy. The resultant operating savings are guaranteed by the ESCO to equal or exceed the debt service payments and other yearly costs associated with the projects throughout the term of the agreement. PennDOT has agreed for the Authority to use Section 1513 operating funds to pay for the capital lease rental payments in lieu of using those same dollars to pay for higher utility expenses. The total outstanding balance is \$30.0 million as of June 30, 2023.

On July 30, 2019, the Authority partnered with Constellation New Energy Inc., a GESA energy saving company (ESCO) to complete a \$12.8 million energy saving project, pursuant to the Pennsylvania Guaranteed Energy Saving Act (GESA). To finance the project, the Authority entered into a Master Equipment Lease/ Purchase Agreement (the "Agreement") with Banc of America Public Capital Corporation, due in varying amounts through February 1, 2037, with an annual nominal interest rate of 2.969%. The equipment to be leased/ purchased will include the installation of various energy conservation measures through a third-party agreement which will serve to reduce the Authority's energy consumption and operating expenses. The measures to be taken include programmable doorframe retrofit kits; lighting wireless wall dimers; envelope improvements (weatherstripping, door sweeps, window film, caulking); EMCS upgrades (DDC controls); natural gas steam boiler plant; water conservation (aerators, toilets, urinals); cooling tower refurbishment and water submeter; generator improvement (heat pump); electric submetering; VFD/induction pumps; air handler improvements; destratification fans; computer plug load controllers/PC power management; electric window shades at the Authority's Headquarters on 1234 Market Street. The equipment to be installed will serve to reduce the Authority's energy consumption and the resultant operating savings are guaranteed by the ESCO to equal or exceed the debt service payments throughout the term of the agreement. PennDOT has agreed for the Authority to use Section 1513 operating funds to pay for the capital lease rental payments in lieu of using those same dollars to pay for higher utility expenses. As of June 30, 2023, the outstanding balance is \$11.3 million.

On July 29, 2020, the Authority issued \$97.23 million of Capital Grant Receipt Revenue Bonds, Series 2020. The "2020 CGR Bonds" are due in varying amounts with maturity dates of June 1, 2021, through and including June 1, 2032. The Bonds were issued with a premium of \$23.49 million and have yields ranging from 0.41% to 1.43% and bear a 5% annual interest rate. The proceeds from the sale of the 2020 CGR Bonds in the amount of \$120.72 million, together with other available moneys of the Authority,

5. Long-Term Debt (Continued)

Long-Term Debt: (Continued)

were used to finance the acquisition of approximately 140 diesel-electric hybrid buses and related project costs as well as payment of the cost of issuance of the 2020 CGR Bonds. As of June 30, 2023, the outstanding balance of these bonds is \$78.1 million.

On October 18, 2022, the Authority issued \$510.7 million of Asset Improvement Program (AIP) Revenue Bonds Series 2022 due in varying amounts through 2052 with annual interest rates ranging from 5% to 5.25%. The AIP Bonds were issued at a premium of \$43.3 million. The net proceeds from the sale of the AIP Bonds are used to fund various capital improvement projects across the system and to refinance the Authority's EB-5 loan. The AIP Revenue Bond funds are limited obligations of the Authority, and the principal and interest thereon are payables from the revenues received by the Authority from the Pennsylvania Consolidated Statues.

At June 30, 2023, the aggregate debt service requirements of business type activities of the Authority's debt are as follows:

		Business Type Activities									
		Е	Bonds			Not	es from Dire	ct Bo	rrow ings		
	<u> </u>	rincipal		Interest		<u>P</u>	rincipal	- 5	Interest		
2024	\$	37,855	\$	36,692		\$	3,767	\$	1,480		
2025		39,745		34,800			4,098		1,371		
2026		41,730		32,813			3,959		1,254

5. Long-Term Debt and Swaps (Continued)

Line of Credit:

During Fiscal Year 2023, the Authority repaid \$100 million that was outstanding on the line of credit. On May 1, 2023, the Authority renewed the unsecured line of credit decreasing it from \$300 million to \$200 million with PNC Bank, with an expiration date of April 30, 2024. Amounts outstanding will bear interest at a rate per annum equal to the sum of (A) daily SOFR plus (B) an unadjusted spread of seventy-five basis points (0.75%) plus (C) a SOFR adjustment of ten basis points (0.10%). Interest is due and payable on the first day of each month. There were \$155 million in borrowings on the line, and no repayments for the year ended June 30, 2023. As of June 30, 2023, the available balance on the line of credit is \$45 million.

There is an Unused Fee due on each anniversary date equal to a rate per annum of fifteen basis points (0.15%) if equal to or less than 50% drawn on the loan expiring April 30, 2023, on the average daily amount of the Unused Revolving Line of Credit. However, an Unused Fee of ten basis points (0.10%) shall be due for such period if the average unused amount is more than 50% of the amount of the revolving line of credit at the beginning of the period. The Unused Fee accrues on the date of the agreement and shall cease to accrue on the expiration date.

6. Leases and Other Liabilities

Leased property consists primarily of transit properties and equipment. Leased transit properties related to long-term debt obligations are described in Note 5. The leased properties, described within this note, are lease/leaseback agreements and leases that are accounted for in accordance with the provisions of GASB 87.

Lease/leaseback Agreements

During Fiscal Year 2002, the Authority entered into a head lease agreement to lease for approximately 28 years 219 rail cars that are currently in service on the Market-Frankford subway-elevated line, and simultaneously lease the vehicles back. The Authority received prepayments under the head lease of \$336.1 million, of which it paid \$269.9 million to two debt payment undertakers to defease rents payable under the debt portion of the agreement, \$41.6 million to the equity payment undertaker to defease rents payable under the equity portion of the agreement, and \$3.2 million in transaction expenses. The rental obligations under the lease/leaseback, except for \$30.1 million as of June 30, 2023, are considered to be defeased in substance and therefore the related debt, as well as the trust assets, are excluded from the Authority's financial statements. The proceeds, net of expenses, from the transaction of \$21.4 million were used, starting in Fiscal Year 2007, as reimbursement of state share on capital grants, which use has been approved by the Federal Transit Administration. The leaseback includes a purchase option, which upon exercise, will be funded in installments from funds used to defease the debt during the period from January 2, 2030, through December 15, 2030, that will allow the Authority to buy out the equity investor's remaining rights under the agreement, thereby terminating the entire transaction. In December 2008, the Authority terminated its lease debt and equity payment undertaking agreements with the payment undertaker and received \$89.9 million upon termination. Of this amount, the Authority deposited \$75.2 million with a trustee and U.S. Treasury Securities were purchased to defease the remaining lease payments under the Equity Payment Undertaking Agreement (EPUA). The securities purchased are scheduled to mature in amounts and on dates required to make the lease payments. The remaining \$14.7 million was restricted and invested to satisfy payments due under the Supplemental Payment Undertaking

6. <u>Leases and Other Liabilities</u> (Continued)

Other Liabilities

In Fiscal Year 2012, the Authority received two settlements of \$8.0 million and \$6.3 million related to work performed in previous years on the Market-Frankford Elevated Project. The Authority has received insurance refunds and proceeds from certain scrap sales of \$875 thousand, \$2.0 million, \$2.4 million, and \$2.7 million in Fiscal Years 2019, 2018, 2017, 2015, and 2014, respectively. The Federal Transit Administration (FTA) has approved the Authority's request to use proceeds of \$8.0 million toward the renovation of Dilworth Plaza and \$9.7 million toward the repair of the Market-Frankford Elevated haunch failures. As of June 30, 2016, Dilworth Plaza was completed and \$8.0 was fully expended.

In Fiscal Year 2016, the Authority entered into the Federal Equitable Sharing Agreement with the Department of Justice. Under this Equitable Sharing Program, the Authority received \$54 thousand. Per the agreement, the funds must be used for law enforcement purposes only. As of June 30, 2023, the balance of these funds is \$211 thousand.

In the Fiscal Year 2018, SEPTA became the new fiscal agent for the Pennsylvania Unified Certification Program. Under this Program the Authority received \$274 thousand. Per the agreement the funds must be used for certification decisions on behalf of all agencies and organizations in the Commonwealth with respect to participation in the DBE Program. As of June 30, 2023, the balance of these funds is \$23 thousand.

Available proceeds included in other liabilities as of June 30, 2023, include \$1.1 million for the repair of the Market-Frankford Elevated haunch failures, \$211 thousand from the Equitable Sharing Program, and \$23 thousand in the Pennsylvania Unified Certification Program (PA UCP) fund.

	Beginning	3		Investment	Ending
Other Liabilities	Balance	<u>Additions</u>	Reductions	<u>Earnings</u>	<u>Balance</u>
2023	\$ 3,541	\$ 250	\$ (2,227)	\$ -	\$ 1,564
2022	3,281	333	(76)	3	3,541

Lease Liabilities and Subscription Based Information Technology Agreements (SBITA):

The Authority is a lessee for noncancellable leases of antennas for vehicle dispatching towers, warehouse storage space, and parking lots. These leases have various start and ending dates ranging from July 1, 2020, through December 1, 2040, with principal and interest payments ranging from \$.013 to \$.534 million per year. The Authority is a lessee for noncancellable agreements for right to use another vendors information technology software. These agreements have various start and ending dates ranging from July 1, 2022, through June 30, 2026, with principal and interest payments ranging from \$.419 to \$ 1.7 million per year. The Authority recognizes a lease and subscription liability and an intangible right-to-use lease or subscription asset in the financial statements for such leases and subscription agreements that exceed \$5,000 per year.

At the commencement of a lease or subscription agreement, the Authority initially measures the lease or subscription liability at the present value of payments expected to be made during the lease or subscription term. Subsequently, the lease or subscription liability is reduced by the principal portion of the lease or subscription payments made. The lease or subscription-based asset is initially measured at the initial amount of the lease or subscription liability, adjusted for the lease and subscription payments made at or before the commencement date, plus certain initial direct costs. Subsequently, the lease or subscription-based asset is amortized on a straight-line basis over its useful life.

6. Leases and Other Liabilities (Continued)

The Authority has implemented GASB 96, Subscription based information technology agreements in Fiscal year 2023 and 2022 to account for the right to use a vendor's software. The right to use asset and liability are recorded initially in the Authority's financial statements at the present value of future payments and amortized for the period of the asset.

As of June 30, 2023, the future principal and interest payments are as follows:

	Lease I	Paya	ble	Subscription (SBITA) Payable			Total			
Year	Principal		Interest	Principal		Interest		Principal		Interest
2024	\$ 436	\$	302	\$ 1,660	\$	12	\$	2,096	\$	314
2025	476		286	633		5		1,109		291
2026	426		270	417		2		843		272
2027	403		255	-		32		403		255
2028	442		241	2		%		442		241
2029-2033	2,899		929	(4)		300		2,899		929
2034-2038	2,946		353	(#)		7. 0 .0		2,946		353
2039-2041	785		37	 *		(F)		785		37
Total	\$ 8,813	\$	2,673	\$ 2,710	\$	19	\$	11,523	\$	2,692

The balance of the Authority's intangible right to use asset (leased transit facilities) and related accumulated amortization was \$10,273 and \$2,093 respectively, at June 30, 2023. The balance of the Authority's SBITA intangible right to use asset is \$11,637. The accumulated depreciation was \$8,366 at June 30, 2023.

7. Pension Plans

General Information about the Pension Plans

Plan Descriptions

The Authority maintains five trusteed, single-employer, defined benefit pension plans covering substantially all of its full-time employees, other than regional rail union employees, and the plans are administered by the Pension Board and the Authority's Human Resources Department. The Pension Board consists of six members. Regional rail union employees are covered under pension provisions of the Railroad Retirement Act. Administrative costs of all pension plans are financed through the plan' investment earnings. The Authority does not issue separate financial reports for the Plans. The Authority's five single-employer pension plans are as follows:

Retirement Plan for Supervisory, Administrative and Management Employees (SAM)

This plan covers all regular full-time non-bargaining employees immediately upon date of hire. Effective July 1, 1994, career part-time, job-sharer or co-op (until September 1, 2007) employees are covered provided they work 1,040 hours per year (975 hours prior to January 1, 1995 for career part-time and job-sharer employees).

7. Pension Plans (Continued)

General Information about the Pension Plans (Continued)

Retirement Plan for Transit Police (TP)

This plan covers full-time employees who are members of the transit police bargaining unit. Employees become members of this plan on the first day of the month following the date they have become a full-time employee.

Retirement Plan for City Transit Division (CTD)

This plan covers full-time City Transit employees who are members of the TWU Local 234 or IBT Local 500. Employees become members of this plan on the July 1 following completion of six months of employment.

Retirement Plan for the Suburban Transit Division (STD)

This plan covers full-time employees of the Suburban Transit Division (previously referred to as Red Arrow Division) who are members of the TWU Local 234 or UTU Local 1594. Employees become members of this plan on the July 1 following completion of six months of employment.

Retirement Plan for the Frontier Division (FD)

This plan covers full-time employees of the Frontier Division who are members of the TWU Local 234. Employees become members of this plan on the July 1 following employment.

Benefits Provided

The SEPTA Board has the authority to establish and amend benefit provisions to each of the pension plans; however, the plans for Transit Police and certain Bargaining Employees - CTD, STD and FD - are based on the respective union bargaining agreement in effect at the time of retirement.

A bargaining unit employee (except for transit police) may retire with an unreduced pension benefit at age 62 with completion of 5 years of credited service or with 30 years of credited service with no restriction on age. A transit police employee may retire with an unreduced pension benefit at age 50 with completion of 25 years of credited service, and a SAM employee may retire with an unreduced pension benefit at age 62 with completion of at least 5 years of credited service or age 55 with 30 years of credited service, if hired prior to August 1, 2015. For a SAM employee hired after August 1, 2015, a SAM employee may retire at the age of 65 and completion of at least 10 years of credited service or the age of 60 and completion of at least 30 years of credited service.

The investment return assumption was decreased from 7.0% to 6.75% in 2018, and from 6.75% to 6.50% in 2021 and 2022. The postretirement mortality assumptions has been modified to 105% of the RP-2022 Healthy Annuitant mortality table. Mortality improvements both before and after the measurement date use a 60-year average of Social Security data from 1955 to 2015 using a generational approach. This change slightly decreased the expected number of deaths for retirees. In addition, changes were made to the disability mortality and the preretirement mortality assumptions. The December 27, 2018, study also proposed changes to the form of payment election assumption and the marriage assumption for female members. Upon retirement, 50% of male members and 15% of female members are assumed to elect a joint and survivor annuity. (Previously all members were assumed to elect a single life annuity.) The marriage assumption for female members was reduced from 80% to 50% (male members remained at 80%).

During Fiscal Year 2017, the following modifications were made for certain bargaining employees of the City Transit Division, the Frontier Division, and the Suburban Transit Division. The required contributions for employees were changed from a percentage of compensation to \$50 per week. The calculation of retirement benefits was changed from percentages of compensation or annual wage rates to the sum of \$94 per month for each year of credited service accrued up to November 28, 2016, for TWU; December 15, 2016 for SMART; and February 23, 2017 for IBT employees; and \$100 per month for each year of credited service after those dates. A new benefit option has

7. Pension Plans (Continued)

Benefits Provided (Continued)

been added to these plans, permitting members to receive an actuarially equivalent benefit that is payable for the member's life, with a guarantee of at least 10 years of benefit payments. If the member does not receive 10 years of payments before death, the member's beneficiary receives the balance of 10 years of payments. The average annual compensation for the Transit Police Plan is the greater of the average of compensation earned during the 3 years preceding retirement or termination or the average of the annual rate of basic compensation for the 3 years preceding retirement or termination. A City Transit, Suburban Transit, and Frontier plans employee may retire early upon completion of 25 years of continuous service. The normal retirement benefit is reduced by 4% for each year that the early retirement date precedes age 62.

Effective for retirements on or after July 1, 2015, a SAM employee's normal benefit is 1.8% of average annual compensation for each year of credited service up to 10 years; plus 2.0% of average annual compensation for each year of credited service in excess of 10 years up to 20 years; plus 2.2% of average annual compensation for each year of credited service in excess of 20 years up to 30 years; plus 1.8% of average annual compensation for each year of credited service in excess of 30 years. For SAM employees hired on or after August 1, 2015, the basic plan benefit is 1.6% of average annual compensation for each year of credited service. There is an enhanced plan benefit that amounts to 1.8% of average annual compensation for each year of credited service up to 10 years plus, 2.0% of average annual compensation for each year of credited service in excess of 10 years up to 20 years; plus, 2.2% of average annual compensation for each year of credited service in excess of 20 years up to 30 years; plus, 1.8% of average annual compensation for each year of credited service in excess of 30 years. For SAM employees, for the new formula benefit accrued after December 31, 2015, in determining the grandfathered benefit, a three-year average of the employee's annual salary rate on the day before retirement date and the same date for the two years prior. Any increases received within 90 days of termination are excluded. For service, accrued as of December 31, 2015, in determining the grandfathered benefit, the employee's compensation during the last 36 months of employment prior to retirement (or December 31, 2015 if earlier) divided by three. For members of SAM as of December 31, 2015 (excluding members who were hired prior to December 31, 2015, but transfer into SAM after December 31, 2015), the minimum benefit is based on the prior benefit formula (1.8% of average annual compensation for each year of credited service in excess of 30 years plus 1% of average annual compensation per year of credited service in excess of 30 years) determined as of December 31, 2015 (or date of termination if earlier) plus the new formula for service accrued after December 31, 2015 reflecting the revised definition of average annual compensation. A SAM employee may retire early either at age 55 with completion of 10 years of credited service or upon completion of 25 years of credited service. The normal retirement benefit is reduced by 4% for each year that the early retirement date precedes age 62 for employees hired before August 1, 2015. For SAM employees hired after August 1, 2015, the normal retirement benefit is reduced by 4% for each year that the early retirement date precedes age 65. A Transit Police employee's retirement benefit is based on 53.5% of average annual compensation, plus an additional annual benefit of \$1,200 if at least one year of service is accrued in excess of 25 years.

Death benefits for an active SAM participant who dies with a surviving spouse are equal to the benefit that would have been payable had the participant terminated on his date of death and retired on the later of date of death or age 55 with a 50% contingent annuity. This benefit is payable at the employee's age of 55 or date of death if later, reduced if payment commences prior to normal retirement date.

Transit Police employees are entitled to receive disability benefits for total and permanent disability if they are under the age of 50. The disability benefit equals the normal retirement benefit assuming level compensation and continued vesting and benefit service until the age of 50. The disability benefit is payable at age 50. Death benefits for an active participant who dies with a surviving spouse are equal to the benefit that would have been payable had the participant terminated on his date of death and retired on his normal retirement date with a 50% contingent annuity. This amount is payable at the spouse's attainment of age 65. If the employee was eligible for normal retirement at death, the amount is payable immediately. Active employees who die in the line of duty and leave a surviving spouse receive the benefit that would have been paid to the participant had he or she attained his normal retirement age at the time of his or her death. This benefit is payable immediately to the surviving spouse with no reduction for early commencement.

7. Pension Plans (Continued)

Benefits Provided (Continued)

City Transit employees can receive disability pension benefits for total and permanent disability if they have completed 15 years of continuous service. The disability pension benefit equals \$500 per month payable immediately for life. A City Transit employee can receive disability severance benefits for total and permanent disability if he or she has completed at least one year of continuous service. The disability severance benefit equals a lump sum payment of \$100 for each year of continuous service. Death benefits for an active participant who dies with a surviving spouse are equal to the benefit that would have been payable had the participant terminated on his date of death and retired on his normal retirement date with a 50% contingent annuity. This benefit is payable at the spouse's attainment of age 65 or on a reduced basis if paid between the ages of 55 and 64. Alternatively, if the employee was eligible for normal retirement at death, the amount is payable immediately, at the normal benefit or reduced benefit if at early retirement. A Suburban Transit employee can receive disability benefits for total and permanent disability. The disability benefits are equal to a monthly benefit of \$8 or \$10 for TWU Local 234 or UTU Local 1594, respectively, for each year of continuous service if the employee has completed at least 5 years of continuous service. The disability benefit equals \$500 per month payable immediately for life if the employee has completed at least 15 years of continuous service. A UTU Local 1594 employee who has completed at least 15 years of continuous service has the option to choose a lump sum payment equal to \$25 for each year of continuous service for total and permanent disability. Death benefits for an active participant who dies with a surviving spouse are equal to the benefit that would have been payable had the participant terminated on his date of death and retired on his normal retirement date with a 50% contingent annuity. This benefit is payable at the spouse's attainment of

Frontier Division employees can receive disability pension benefits for total and permanent disability if he or she has completed 15 years of continuous service. The disability pension benefit equals \$500 per month payable immediately for life. A Frontier Division employee can receive disability severance benefits for total and permanent disability if he or she has completed at least one year of continuous service. The disability severance benefit equals a lump sum payment of \$100 for each year of continuous service. Death benefits for an active participant who dies with a surviving spouse are equal to the benefit that would have been payable had the participant terminated on his date of death and retired on his normal retirement date with a 50% contingent annuity. This benefit is payable at the spouse's attainment of age 65 or on a reduced basis if paid between the ages of 55 and 64. Alternatively, if the employee was eligible for normal retirement at death, the amount is payable immediately, at the normal benefit or reduced benefit if at early retirement. All employees vest after five years of continuous service. A plan member who leaves employment may withdraw his or her contributions, plus any accumulated interest.

Employees Covered by Benefit Terms

At January 1, 2021, the date of the actuarial valuation that was used to determine the Authority's total pension liability as of June 30, 2022, the following employees were covered by the benefit terms:

the state of the state of	SAM	Transit <u>Police</u>	City <u>Transit</u>	Suburban <u>Transit</u>	Frontier	Total
Inactive employees or beneficiaries Currently receiving benefits	2,203	110	3,652	292	65	6,322
Inactive employees entitled to but not yet receiving benefits	365	41	616	102	32	1,156
Active employees	1,801	186_	4,934	537_	209	7,667
Total	4,369	337	9,202	931	306	15,145

At January 1, 2020, the date of the actuarial valuation that was used to determine the Authority's total pension liability as of June 30, 2021, the following employees were covered by the benefit terms:

	SAM	Transit <u>Police</u>	City <u>Transit</u>	Suburban <u>Transit</u>	Frontier	Total
Inactive employees or beneficiaries Currently receiving benefits	2,128	105	3,572	269	60	6,134
Inactive employees entitled to but not yet receiving benefits	371	44	622	109	31	1,177
Active employees	1,842	183	5,057	555_	218	7,855
Total	4,341	332	9,251	933	309	15,166

Contributions

The Authority's Board establishes and may amend the employer contribution requirements. While there is no statutory or regulatory contribution requirement, the Authority's policy provides employer contributions for all plans based on actuarially determined rates recommended by an independent actuary. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded liability. The Authority may amend the contribution requirements of SAM Plan members. The contribution requirements for all other plans are based on the respective union agreements in effect during the period of employment.

The Authority and plan members' contribution rates of annual covered payroll for each plan as of June 30, 2023, are as follows:

		Transit	City	Suburban	
Contribution rates:	SAM	<u>Police</u>	<u>Transit</u>	<u>Transit</u>	<u>Frontier</u>
SEPTA	35.00%	35.60%	17.10%	13.50%	12.80%
Plan members	*	3.85%	\$50/pay	\$50/pay	\$50/pay
SEPTA Contributions	\$53,276	\$5,070	\$52,669	\$ 4,475	\$ 1,563

7. Pension Plans (Continued)

Contributions(Continued)

The Authority and plan members' contribution rates of annual covered payroll for each plan as of June 30, 2022, are as follows:

		Transit	City	Suburban	
Contribution rates:	SAM	<u>Police</u>	<u>Transit</u>	<u>Transit</u>	<u>Frontier</u>
SEPTA	37.30%	36.78%	18.60%	16.10%	4.90%
Plan members	*	3.85%	\$50/pay	\$50/pay	\$50/pay
					A 007
SEPTA Contributions	\$55,792	\$5,052	\$56,342	\$ 5,286	\$ 607

^{*} For members hired prior to August 1, 2015, 0.9% of pay up to Social Security covered compensation plus 1.1% of pay in excess of Social Security covered compensation from July 1, 2015, through December 1, 2015 and 2.5% of the annual salary rate thereafter.

Net Pension Liability

The Authority's Fiscal Year 2023 net pension liability was measured as of June 30, 2022 ("measurement date"). The total pension liability was determined by the use of updated procedures to roll forward the pension plan's actuarial valuation dated January 1, 2021, to the measurement date. The Authority's Fiscal Year 2022 net pension liability was measured as of June 30, 2021. The total pension liability was determined by the use of update procedures to roll forward the pension plan's actuarial valuation dated January 1, 2020, to the measurement date.

Actuarial Assumptions

The Fiscal Year 2023 total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	SAM	Transit <u>Police</u>	City <u>Transit</u>	Suburban <u>Transit</u>	Frontier
Investment rate of return ¹	6.50% 3.00%	6.50%	6.50%	6.50%	6.50%
Salary increases, including inflation Inflation	2.50%	2.50%	2.50%	2.50%	2.50%

7. <u>Pension Plans</u> (Continued)

¹ Interest is net of investment-related expenses.

 $^{^{2}}$ Salary scale rates vary by years of service, for actuarial valuation purposes .5% plus inflation

Actuarial Assumptions(Continued)

Mortality rates for all of the plans were based on the RP-2006 Employee Mortality Table for Males and Females for Preretirement, the RP-2006 Healthy Annuitant Mortality Table for Males and Females for beneficiaries, and the RP-2006 Disabled Annuitant Mortality Table for Males and Females for disabled beneficiaries, as appropriate, with adjustments for mortality improvements equal to the 60-year average of Social Security data from 1955 to 2015. The mortality rates for the Transit Police Plan, City Transit Plan, Suburban Transit Plan, and the Frontier Plan include Blue Collar adjustments for Preretirement and Postretirement healthy lives. No Blue Collar adjustments were made for disabled beneficiaries.

The actuarial assumptions that determined the pension liability as of June 30, 2022, were based upon the results of an actuarial experience study, dated December 18, 2020 for the period ending from January 1, 2014 through December 31, 2018, and a mortality study dated December 27, 2018 covering the period from January 1, 2011 to December 31, 2016.

The Fiscal Year 2022 total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	SAM	Transit <u>Police</u>	City <u>Transit</u>	Suburban <u>Transit</u>	Frontier
Investment rate of return ¹ Salary increases, including inflation	6.50% 3.00%	6.50% ²	6.50% 2	6.50% ²	6.50% 2
Inflation	2.50%	2.50%	2.50%	2.50%	2.50%

¹ Interest is net of investment-related expenses.

The actuarial assumptions that determined the pension liability as of June 30, 2021, were based upon the results of an actuarial experience study, dated December 18, 2020 for the period ending from January 1, 2014 through December 31, 2018, and a mortality study dated December 27, 2018 covering the period from January 1, 2011 to December 31, 2016.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected return, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following tables: (Note that the target allocation and long-term expected real rate of return percentages are the same for all five plans.)

² Salary scale rates vary by years of service, for actuarial valuation purposes .5% plus inflation.

7 Pension Plans (Continued)

Discount Rate

The discount rate used to measure the total pension liability for the five plans was 6.50% for June 30, 2022 and 2021 measurement dates. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that SEPTA contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the employee rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2023, SEPTA recognized pension expense of \$100,879 (\$53,567 for the SAM Plan, \$7,131 for the Transit Police Plan, \$36,366 for the City Transit Plan, \$3,773 for the Suburban Transit Plan, and \$42 for the Frontier Plan). At June 30, 2023, SEPTA reported deferred outflows of resources and deferred inflows of resources related to the five pension plans from the following sources:

Deferred Outflows of Resources

	SA		Transit Police	City Transit		Suburban Transit		Frontier		Total	
Differences between expected and actual experience Changes in assumptions Net difference between projected and actual earnings Contributions made subsequent to measurement date	\$	29,130 12,417 46,835 53,276	\$ 5,955 11,763 3,249 5,070	4	22,636 19,355 52,669	\$	1,558 2,474 5,467 4,475	\$	895 693 1,563	\$	36,643 50,185 105,599 117,053

7. Pension Plans (Continued)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

The amounts reported as deferred outflows of resources for each of the five plans resulting from employer contributions subsequent to the measurement date as of June 30, 2023, will be recognized as a reduction of the net pension liability in the year ended June 30, 2024.

Other amounts currently reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

		Transit	City	Suburban		
	SAM	<u>Police</u>	<u>Transit</u>	<u>Transit</u>	<u>Frontier</u>	<u>Total</u>
Year ended June 30:						
2024	\$ 24,314	\$ 4,347	\$ 7,274	\$ 1,404	\$ (788)	\$ 36,551

Plan Reporting as of June 30, 2023

The following disclosures are as of the pensions plan's year end of June 30, 2023. For financial reporting purposes, the Authority has elected to measure its pension related liabilities 1 year before its financial statement date. The information presented below will be used by the Authority to record it pension related liabilities in its June 30, 2024, financial statements.

At January 1, 2022, the date of the actuarial valuation that was used to determine the Authority's total pension liability as of June 30, 2023, the following employees were covered by the benefit terms:

la di caratta da la castinina	SAM	Transit <u>Police</u>	City <u>Transit</u>	Suburban <u>Transit</u>	Frontier	Total
Inactive employees or beneficiaries Currently receiving benefits	2,278	114	3,792	314	70	6,568
Inactive employees entitled to but not yet receiving benefits	367	42	634	116	40	1,199

Total	4,440	327	9,234	936	306	15,243

7. Pension Plans (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected return, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following tables: (Note that the target allocation and long-term expected real rate of return percentages are the same for all five plans.)

		Target	Long-Term Expected Arithmetic
Asset Class	<u>Index</u>	Allocation	Real Rate of Return

7 Pension Plans (Continued)

Discount Rate

The discount rate used to measure the total pension liability for the five plans was 6.50% for June 30, 2023, measurement dates. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that SEPTA contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the employee rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Rate of return

For the year ended June 30, 2023, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, is disclosed below. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

	SAM	Transit Police	City Transit	Suburban Transit	Frontier
Money-weighted rate of return	8.42%	8.60%	8.41%	8.43%	8.49%

Net Pension Liability

The total pension liability was determined by the use of updated procedures to roll forward the pension plan's actuarial valuation dated January 1, 2022, to the pension plan's June 30, 2023 year-end. The components of the net pension liability of the Authority at June 30, 2023 are as follows:

(-	SAM	Transit Police	City Transit	Suburban Transit	Frontier	Total
Total pension liability Plan fiduciary net position	\$ 1,184,671 798,375	\$ 95,239 54,115	\$ 1,277,606 831,915	\$ 119,356 83,812	\$ 38,357 27,955	\$ 2,715,229 1,796,172
Authority net pension liability	\$ 386,296	\$ 41,124	\$ 445,691	\$ 35,544	\$ 10,402	\$ 919,057
Plan fiduciary net position as a percentage of the total pension liability	67.39%	56.82%	65.12%	70.22%	72.88%	66.15%

7. Pension Plans (Continued)

Actuarial Assumptions

The Fiscal Year 2023 total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	SAM	Transit Police	City <u>Transit</u>	Suburban <u>Transit</u>	Frontier
Investment rate of return	6.50%	6.50%	6.50%	6.50%	6.50%
Salary increases, including inflation inflation	3.00% 2.50%	2.50%	2.50%	2.50%	2.50%

¹ Interest is net of investment-related expenses.

Mortality rates for all of the plans are projected on a generational basis using scale MP 2021. As a generational table, it reflects morality improvements both before and after the measurement date, mortality rates were updated to reflect the results of a mortality study dated August 11, 2022.

The actuarial assumptions that determined the total pension liability as of June 30, 2023, were based on the results of an actuarial experience study, dated December 18, 2020 for the period from January 1, 2014 through December 31, 2018, and a mortality study dated August 11, 2022 covering the period from January 1, 2015 to December 31, 2020.

Change in assumptions: mortality rates were updated based on a study dated August 11, 2022.

Change in benefit terms: Actuarial equivalent factors used to determine optional firms of payment were updated for members who terminate employment after June 15, 2023.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the SEPTA Pension Plans for the year ended June 30, 2023, calculated using the discount rate of 6.50 percent, as well as what SEPTA's net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (5.50 percent) or 1-percentage point higher (7.50 percent) than the current rate:

1%	1% Decrease		Current			1% Increase		
\$	516,364		5	386,296		\$	275,799	
	54,121			41,124			30,439

	49,130			35,544			24,027	
	15,010			10,402			6,500	
\$	1,216,264	\$		919,057		\$	666,579	
		\$ 516,364 54,121 581,639 49,130 15,010	\$ 516,364 \$ 54,121 \$ 581,639 \$ 49,130 \$ 15,010	\$ 516,364 \$ 54,121 581,639 49,130 15,010	\$ 516,364 \$ 386,296 54,121 41,124 581,639 445,691 49,130 35,544 15,010 10,402	\$ 516,364 \$ 386,296 54,121 41,124 581,639 445,691 49,130 35,544 15,010 10,402	\$ 516,364 \$ 386,296 \$ 54,121 41,124 581,639 445,691 49,130 35,544 15,010 10,402	

² Salary scale rates vary by years of service, for actuarial valuation purposes .5% plus inflation

8. Other Postemployment Benefits

Plan Description and Benefits Provided

The Authority sponsors a single-employer defined benefit plan that provides postemployment benefits other than pensions ("OPEB") for the following employee groups: Supervisory Administrative and Management employees (SAM), Transit Police (TP), Non-Railroad Union Groups, and Railroad Union Groups. The Authority does not issue financial reports for this plan. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

The Authority provides postemployment medical, prescription drug and life insurance benefits to substantially all employees, which generally commence on the first day an employee retires. Prior to December 1, 2016, health insurance benefits were generally provided for three years, except Health Maintenance Organization (HMO) plan coverage was provided for fifty months. There was a plan change adopted June 25, 2015, for SAM employees electing the HMO plan coverage and retiring on or after January 1, 2017 decreasing the duration of the medical benefits provided from 50 months to 36 months. Beginning December 1, 2016, with varying effective dates by union, health insurance benefits are generally provided for forty months for bargaining unit employees and for thirty-six months for SAM employees. Prescription drug benefits are generally provided over the retiree's lifetime for SAM and Non-Railroad Union Groups, except for employees hired after November 2005 for whom coverage ends at age 65. Prescription drug benefits end at the earlier of three years or age 65 for Railroad Union Groups, and at age 65 for TP. In addition, the Authority provides life insurance coverage to substantially all retirees. Life insurance is provided in various amounts to a maximum of annual final salary for SAM which decreases annually to 20% after four years.

During 2019, plan changes for police and union rail members include the duration of medical coverage upon retirement from 36 months, for PPO coverage and 50 months for HMO coverage to 40 months, regardless of plan election. For union rail members, excluding (TCU), extending prescription drug coverage from 3 years to 5 years, but no later than age 65. The effective date of these changes varies by union agreement.

The Authority provides long-term disability insurance with benefit eligibility after one year of employment for SAM and TP. Disability benefits are not covered by the OPEB valuation since generally the benefits are fully insured and paid while an employee is actively employed. The union employees are eligible for disability benefits from their respective pension plans.

8. Other Postemployment Benefits (Continued)

Plan Description and Benefits Provided (Continued)

Benefits provisions for SAM employees are established and may be amended in accordance with recognized Authority policy. The bargaining union employees receive benefits based on the respective union agreements in effect at the time of retirement. No assets are accumulated in a trust that meets the criteria in Paragraph 4 of Statement 75.

Employees Covered by Benefit Terms

At June 30, 2021, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments 8,681

Active employees 9,067

Total OPEB Liability

The Authority's Fiscal Year 2023 total OPEB liability amounted to \$1,234,765 for Fiscal Year 2022, and \$1,431,020 or Fiscal Year 2021 and was measured as of June 30, 2022, and June 30, 2021, ("Measurement Dates") determined by an actuarial valuation as of June 30,2021. Update procedures were used to roll forward the total OPEB liability from the June 30, 2021 actuarial valuation to the June 30, 2022 measurement date.

The Total OPEB liability was determined using the entry age cost method and the following actuarial assumptions and other inputs:

Discount Rate: 2.16% per annum as of June 30, 2021, and 3.54% per annum as of June 30, 2022 (Bond Buyer General Obligation 20-Bond Municipal Bond Index) Salary Increases: 3.25% per year for SAM members; 2.75% for transit police members, and 2.50% for all other members.

Valuation Compensation: Annualized wage rate as of June 30, 2021.

Health Cost Trend: The healthcare trend assumption is based on the Society of Actuaries-Getzen Model version 2022.2 utilizing the baseline assumptions included in the model, except inflation of 2.5% for medical and prescription drug benefits separately. Further adjustments apply based on percentage of costs associated with administrative expenses, aging factors, and other healthcare reform provisions. The health cost trend assumption for medical and pharmacy benefits at sample years is as follows.

Fiscal	Prescription		
Year-End	<u>Drug</u>	Medical Pre-65	Medical Post-65
2022	6.3%	5.6%	4.4%
2023	6.0	5.4	4.6
2024	5.4	5.2	4.9
2025	5.0	5.0	5.0
2026	5.0	4.9	4.9
2031	4.6	4.6	4.6
2036	4.6	4.6	4.6
2041	4.5	4.5	4.5
2046	4.5	4.5	4.5
2051	4.5	4.5	4.5
2061	4.5	4.5	4.5
2071	4.1	4.1	4.1
2081	3.9	3.9	3.9

8. Other Postemployment Benefits (Continued)

Total OPEB Liability (Continued)

For purposes of applying the Entry Age Normal cost method, the healthcare trend prior to the valuation date is based on the ultimate rate, which is 3.9% for prescription drug. 3.9% for medical costs prior to age 65, and 3.9% of medical costs at age 65 and later.

Mortality: For 2023 and 2022, all mortality rates projected on a generational basis using mortality improvements equal to a 60-year average social security data from 1955 to 2015. As a generational table, it reflects mortality improvements both before and after the measurement date.

Preretirement: For 2023 and 2022, RP-2006 Employee Mortality Table for Males and Females with blue collar adjustments. No Blue Collar adjustments were used for current and future SAM members.

Postretirement Healthy Lives: For 2023 and 2022, RP-2006 Healthy Annuitant Mortality Table for Males and Females with blue collar adjustments multiplied by 115% up to age 90. The adjustment is phased out from ages 90 to 95. For current and future SAM members, no Blue Collar adjustments apply, and the multiplicative adjustment factor is 102%. Postretirement Disabled Lives: for 2023 and 2022, RP-2006 Disabled Annuitant Mortality Table for Males and Females.

The demographic actuarial assumptions that determined the total OPEB liability as of June 30, 2022 were based on the results of an actuarial experience study, dated December 18, 2020 for active members of the retirement and OPEB plans sponsored by SEPTA, covering the period from January 1, 2014 through December 31, 2018, and a mortality study for covered members of the pension plans sponsored by SEPTA dated December 27, 2018 covering the period from January 1, 2011 to December 31, 2016. Healthcare related assumptions are determined as of each valuation date.

The following represents the total OPEB liability of SEPTA Plan for the year ending June 30, 2023, calculated using the current healthcare cost trend rates as well as what SEPTA's total liability would be if it were calculated using trend rates that are 1 percentage point lower or 1 percentage point higher than the current trend rates.

	1% Decrease	Current Trend Rate	1% Increase
Total OPEB liability	\$ 1,084,590	\$ 1,234,765	\$ 1,417,586

The following represents the total OPEB liability of SEPTA Plan for the year ending June 30, 2022, calculated using the current healthcare cost trend rates as well as what SEPTA's total liability would be if it were calculated using trend rates that are 1 percentage point lower or 1 percentage point higher than the current trend rates.

	1% Decrease	Current Trend Rate	1% Increase
Total OPEB liability	\$ 1,252,549	\$ 1,431,020	\$ 1,650,519

8. Other Postemployment Benefits (Continued)

Sensitivity of Total OPEB Liability to Changes in the Discount Rate (Continued)

For the year ending June 30, 2023, SEPTA recognized OPEB expense of (\$19,478). At June 30, 2023, SEPTA reported deferred inflows and outflows of resources related to OPEB from the following sources:

	 erred Inflows Resources	 red Outflows Resources
Differences between expected and actual experience Changes of assumptions Contributions subsequent to the measurement date	\$ (11,302) (499,901)	\$ 2,884 159,306 54,547
Total	\$ (511,203)	\$ 216,737

For the year ending June 30, 2022, SEPTA recognized OPEB expense of \$11,814. At June 30, 2022, SEPTA reported deferred inflows and outflows of resources related to OPEB from the following sources:

	-	red Inflows Resources	Deferred Out	
Differences between expected and actual experience Changes of assumptions Contributions subsequent to the measurement date	\$	(14,809) (400,504)	\$	1,959 188,236 51,489
Total	\$	(415,313)	\$	241,684

The deferred outflows related to the contributions made subsequent to the measurement date of \$54,547 will be recognized as a reduction in the total OPEB liability in FY 2024, the remaining amounts currently reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30:	
2024	\$ (96,019)
2025	(96,019)
2026	(72,261)
2027	(14,578)
2028	(10,836)
Thereafter	(59,300)

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. These amounts are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future.

9 Deferred Compensation

The Authority offers an employee savings/deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all employees, permits employees to defer includible compensation, as defined in the Internal Revenue Code, in an amount generally not to exceed \$22.5 thousand annually on a pre-tax basis. Includible compensation comprises the contributions made by both the employee and employer. Effective January 1, 2000, the Authority began to provide SAM employees with a 10 percent matching contribution, subject to limitations, which amounted to \$987 thousand and \$960 thousand for Fiscal Years 2023 and 2022, respectively. On January 1, 2018, SEPTA increased the matching contributions to the Plan for SAM employees from 10% to 25% of employee contributions with a cap of \$1,000 annually.

The Deferred Compensation Plan (DCP) Trust Agreement provides that all assets and income of the DCP are to be held in the DCP Trust for the exclusive benefit of participants and their beneficiaries and as a result are not recorded in the Authority's financial statements. The costs and expenses of administering the plan are borne by the participants.

10. Commitments and Contingencies

The Authority is involved in various legal matters arising from the normal course of operations. In management's opinion, the resolution of these legal matters will not have a material adverse effect on the Authority's financial position.

<u>Derivate Instruments</u>

To obtain budget certainty and control volatility in fuel prices, the Authority has entered into financial derivative agreements for its fuel purchases. The Authority has collateral posting requirements related to these instruments tied to its credit rating and dollar level of exposure to the counterparty. During the year ended June 30, 2023, the Authority was not required to post collateral for any fuel derivative agreements. At June 30, 2023, the fuel derivative instruments had a net negative market position of \$68 thousand.

11. Self-Insurance

Public Liability, Property Damage and Workers' Compensation Claims

The Authority is self-insured for claims arising from public liability and property damage. The Authority also maintains a self-funded insurance trust for excess amounts of \$5 million to \$20 million as of June 30, 2023. The Authority provides a liability for the self-insured portion based on the present value of the estimated ultimate cost of settling claims, discounted at 1.0%, using past experience adjusted for current trends as of June 30. The valuation incorporates the effects of the statutory limitation on damages (the liability cap). The annual public liability and property damage claims expense for Fiscal Year 2023 decreased \$17.1 million and the total liability decreased \$20.7 million. The expense decrease reflects a drop in the number of cases. In 2023 SEPTA had no expenses for pollution remediation activities at various SEPTA locations where underground storage tanks were previously removed and replaced. The Pennsylvania Department of Environmental Protection (PADEP) Act 2, "Underground Storage Tank Program", involves follow-up testing, site characterization and remediation action plans as mandated by PADEP. The liability was developed by the Authority's engineers specializing in environmental remediation which is similar to situations at other sites with which the Authority has experience. The estimate is subject to change due to price increases, changes in technology, or other factors. The Authority has also recognized within capital grants the expected reimbursement of such costs.

The Authority is self-insured for workers' compensation claims for its employees. The Authority provides a liability for the self-insured amount based on an actuarial valuation that uses the present value of the estimated ultimate cost of settling claims, discounted at 3.0%, utilizing a case-by-case review of all claims, adjusted for estimates of future adverse claims development, as of June 30. The Authority also maintains excess workers' compensation insurance coverage with an insurance carrier for employee claims, on a per accident basis, which exceeds a self-insured retention of \$5 million up to a \$10 million liability limit.

Total claims liabilities, including changes for Fiscal Years 2023 and 2022, are as follows:

	Pub	olic Liability			
		and		Vorker's	
	Property Damage		Compensation		<u>Totals</u>
Balance at June 30, 2021	\$	160,370	\$	31,115	\$ 191,485

	127		_		

(AMOUNTS IN THOUSANDS OF DOLLARS EXCEPT WHERE OTHERWISE STATED)

11. <u>Self-Insurance</u> (Continued)

Employee Health Benefits

As of August 1, 2012, the Authority became self-insured in providing group medical coverage for most of its employees and certain retirees. A third-party administers the group medical coverage for the Authority. The Authority is liable for all claims up to \$600,000 per individual for any one plan year. A stop-loss insurance contract executed with an insurance carrier covers individual claims in excess of \$600,000 per plan year. The liability for unpaid claims, if any, is estimated using the prior period history of actual claims paid.

The total medical claims liability, which is included within Accounts Payable-Trade in the Statements of Net Position, changed in Fiscal Year 2023 as follows:

	Medical <u>Liability</u>
Balance at June 30, 2021	\$ 26,168
Claims expense	118,854
Payment of claims	(123,258)
Balance at June 30, 2022	21,764
Claims expense	112,084
Payment of claims	(112,695)
Balance at June 30, 2023	\$ 21,153
Balance at June 30, 2023 due within one year	\$ 21,153

The Authority is also self-insured for prescription drug benefits through a third-party administrator for all employees and certain retirees. The annual prescription expense for Fiscal Year 2023 and 2022 was \$63.0 million and \$62.3 million, respectively. In addition, the Authority is self-insured in providing dental coverage for most employees. Two third-parties administer the group dental coverage for the Authority. The annual dental expense for each of Fiscal Years 2023 and 2022 was \$5.3 million for each year.

12. Dependency on Governmental Funding

The Authority is dependent upon its external governmental funding sources to provide subsidies in amounts that keep pace with future cost increases due to inflation, infrastructure repairs, revenue fleet replacements, technological advances and changing regulatory requirements. Historically, these funding sources, cost controls, increased ridership, and passenger fare increases, have been adequate to maintain a balanced budget. However, should the external funding sources, which comprise over half the Authority's operating budget and essentially all of its capital budget, not keep pace with future capital or expense levels, the negative effect on future operations could be significant. When Act 44 was enacted in 2007, the Authority anticipated that the Pennsylvania Transportation Trust Fund ("PTTF") would provide a reliable and growing source of funds to meet future budgetary needs...In March 2010 the Pennsylvania Turnpike Commission (PTC) was unable to obtain approval of the Federal Highway Administration to toll Interstate 80. As a result, PTTF funding for transportation in the Commonwealth was significantly impacted. With the reduction in PTTF funding, the Authority's annual capital budget was reduced by 25 percent, or \$110 million, beginning in Fiscal Year 2011. The reduced capital outlay continued into Fiscal Year 2014 with a total capital budget of \$308.0 million. In 2013 the Pennsylvania General Assembly passed transportation funding legislation, Act 89 of 2013, which was signed into law by the Governor in November 2013. Act 89 of 2013 provides a dedicated, long-term funding source for transportation in Pennsylvania that includes funding for public transportation as well as roads, bridges, and multimodal transportation. In Fiscal Years 2023 and 2024, the capital budget was \$1,162.2 million and \$976.8, respectively. The Fiscal 2024 and Fiscal 2023 capital budgets increased significantly over prior years because of increases in federal funding resulting from the November 2021 enactment of the Infrastructur

(AMOUNTS IN THOUSANDS OF DOLLARS EXCEPT WHERE OTHERWISE STATED)

12. Dependency on Governmental Funding (Continued)

Investment and Jobs Act (IIJA), also referred to as the Bipartisan Infrastructure Law (BIL), and the planned transition of Pennsylvania Act 89 Public Transportation funding sources from reliance on the Pennsylvania Turnpike Commission bonds to the state's Motor Vehicle Sales and Use Tax as of July 1, 2022. The enhanced capital funding from the IIJA through Fiscal 2026, along with transition of state funding to a sustainable and bondable funding source allow the Authority to address its state of good repair backlog and service improvements. The decrease in the Fiscal Year 2024 capital budget resulted from a \$16.4 million decrease in projected State funding and the projected utilization of \$169.9 million of bond proceeds, which is significantly less than prior year projected bond proceed utilization. The Authority issued \$510.6 million of bonds in October 2022 and projected utilizing \$271.6 million of those proceeds in Fiscal 2023 and in Fiscal 2024. The increased capital funding from the IIJA through Fiscal 2026, along with transition of state funding to a sustainable and bondable funding source allow the Authority to address its state of good repair backlog and service improvements. The Authority plans to leverage the motor sales tax revenues in order to increase the amount available to fund capital projects beginning in Fiscal Year 2023.

The Authority was eligible to receive \$1.6 billion of grant funds combined from the CARES Act, the Coronavirus Response and Relief Supplemental Act (CRRSA), and the American Relief Plan Act (ARPA). A portion of the funds received from these bills was used to offset the significant passenger revenue shortfall resulting from lower ridership related to the COVID-19 pandemic. By the end of FY 2023, the Authority had fully expended the funding received from the CARES Act and the CRSSA. The Authority anticipates expending the remaining ARPA grant funds by the end of FY 2024.

13. Restatement of Net Position

The Authority recorded the effect of applying the provisions of GASB Statement No. 96 as a restatement of ending net position as of June 30, 2022. In accordance with GASB Statement No. 96 the Authority applied the provisions of GASB Statement No. 96 to the earliest year presented in the financial statements. Net position as of June 30, 2022 increased by \$.991 million as detailed below.

The effect on ending balances for June 30, 2022 is as follows:

	June 30, 2022

Notes to Schedule

January 1, 2021 Valuation date:

Methods and assumptions used to determine contribution rates:

Actuarial cost method Entry age normal Level dollar, closed Amortization method 22 years

Remaining amortization period Asset valuation method

Market value less unrecognized gains/losses over a 5-year period

Inflation

SAM - 3,00% Salary increases

Transit Police, City Transit, Suburban Transit and Frontier - Salary scale rates vary by years of service for actuarial valuation purposes .5% plus inflation 6.5% net of pension plan investment expense Investment rate of return

SAM - For Plan members hired prior to August 1, 2015 that have attained age 62 with 5 years service or age 55 with 30 years of service. If hired after August 1, 2015, Retirement age

Plan members that have attained age 65 with 10 years service or age 60 with 30 years of service.

Transit Police - Plan members that have attained age 50 with 25 years of service

City Transit, Suburban Transit and Frontier - Plan members that have attained 62 with 5 years of service or 30 years of service with no age restriction

Mortality rates for all of the plans are projected on a generational basis using scale MP 2021. As a generational table, it reflects morality improvements both before and after the

measurement date, mortality rates were updated to reflect the results of a mortality study dated August 11, 2022.

Other Information

Mortality

Effective in 2014, the Entry Age Funding Normal Method was used to determine the actuarially determined calculated contribution. Prior to 2014, the Projected Unit Credit Method was used. Effective in 2015, and based upon the results of an experience study for the period January 1, 2007 through December 31, 2013, termination rates and rates of retirement for members between the ages of 62 and 64 were reduced. In addition, the assumed rate of inflation and the rate of return on investment were both reduced by .25%.

Effective in 2019, the Mortality tables were updated from the RP-2000 Annuilant Tables to the RP-2006 Annuilant Tables and the investment rate of return was decreased from 7.0% to 6.75%.

Effective in 2021, the investment rate of return was decreased from 6.75% to 6.50%.

Effective in 2023, mortality rates were updated based on a study dated August 11, 2022 and actuarial equivalent factors used to determine optional firms of payment were updated for members who terminate employment after June 15, 2023.

Notes to Schedule

Changes of Benefit Terms

For 2018, the health plan election percentage was modified for Union and SAM retirements due to plan changes. For 2020, amounts presented reflect changes in duration for the Transit Police medical benefits and a change in the duration of medical and prescription benefits for union rail members excluding TCU and a change in duration of medical benefits for union and TCU members in 2017.

For 2021, amounts present a change in the duration of medical benefits for police and a change to the duration of medical and Rx benefits for union rail members (excluding TCU) in MYE 2019, and a change in the duration of medical benefits for union and TCU members in MYE 2017.

Changes of Assumptions

For 2018, various healthcare assumptions have been updated including the per capita claim cost assumption, health cost trend assumption, and the loads for children.

The dependent coverage assumption for female employees was increased from 30% to 35%,

The promotion assumption was revised for members who are assumed to be promoted to SAM,

For 2019, the mortality tables were updated from RP-2000 Annuitant Tables to the RP-2006 Annuitant Tables and the discount rate was changed from 3,58% to 3,87%,

For 2020, healthcare assumptions including per capita costs, including load for children, and trend assumptions was updated based on recent claim experience, premium rates and future expectations.

For members eligible to make an election between the Personal Choice PPO plan and the Keystone HMO plan, the percentage was increased to 70% electing the PPO plan.

The assumed percentage of female retirees electing dependent coverage was increased from 35% to 40%. The discount rate was changed from 3.87% to 3.50%.

For 2021, the discount rate decreased from 3,50% to 2,21%, which increased the liability.

For 2022, the discount rate decreased from 2.21% to 2.16% and healthcare related assumptions, salary, termination and retirement were updated based on the 2014-2018 experience study,

For 2023, the discount rate increased from 2,16% to 3,54%, which decreased the liability

The Authority adopted GASB 75 on a perspective basis in Fiscal Year 2018; therefore only six years are presented in this schedule.

No assets are accumulated in a trust that meets criteria in paragraph 4 of GASB Statement No. 75.
