**JAMMIN JAVA CORP.**  
**NOTES TO UNAUDITED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2024**

**NOTE 1 - ORGANIZATION AND DESCRIPTION OF BUSINESS**

Jammin Java Corp. (the “Company”) was incorporated in Nevada on September 27, 2004 as Global Electronic Recovery Corp. On February 25, 2008, the Company changed its name to Marley Coffee, Inc. On July 3, 2009, the Company changed its name to Jammin Java Corp. On August 30, 2021, the Company converted to a Florida Corporation.

Effective August 24, 2020, the board of directors accepted the resignations of Scott Johnson as Director to the Company and President of the Company and Chris Plant as Director to the Company and Chief Executive Officer of the Company. The resignation leaves Paul Strickland as the sole remaining Director of the Company.

On December 1, 2020, The Company’s board of directors voted to change the Company’s fiscal year end of January 31st to a calendar year end of December 31st. These financial statements reflect the results of operations on a calendar year basis.

**NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

*Basis of presentation*

The Company’s unaudited financial statements have been prepared in accordance with generally accepted accounting principles in the United States of America (“U.S. GAAP”), and pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”) and reflect all adjustments, consisting of normal recurring adjustments, which management believes are necessary to fairly present the financial position, results of operations and cash flows of the Company as of and for the period ending September 30, 2024 and not necessarily indicative of the results to be expected for the full year ending December 31, 2024.

*Use of estimates*

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include the estimated useful lives of property and equipment. Actual results could differ from those estimates.

*Fair Value of Financial Instruments*

The Company follows paragraph 825-10-50-10 of the FASB Accounting Standards Codification for disclosures about fair value of its financial instruments and paragraph 820-10-35-37 of the FASB Accounting Standards Codification (“Paragraph 820-10-35-37”) to measure the fair value of its financial instruments. Paragraph 820-10-35-37 establishes a framework for measuring fair value in accounting principles generally accepted in the United States of America under U.S. GAAP and expands disclosures about fair value measurements. To increase consistency and comparability in fair value measurements and related disclosures, Paragraph 820-10-35-37 establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels.

The fair value hierarchy gives the highest priority to quoted prices (unadjusted) in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three levels of fair value hierarchy defined by Paragraph 820-10-35-37 are described below:

Level 1: Quoted market prices available in active markets for identical assets or liabilities as of the reporting date.

Level 2: Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date.

Level 3: Pricing inputs that are generally unobservable inputs and not corroborated by market data.

Accounts payable and related-party payables have fair values that approximate the carrying value due to the short-term nature of these instruments. Derivative liabilities are measured using level 3 inputs.

	Fair Value at September 30, 2024	(Level 1)	(Level 2)	(Level 3)
Derivative liabilities	\$ 38,135	\$ -	\$ -	\$ 38,135

	Fair Value at December 31, 2023	(Level 1)	(Level 2)	(Level 3)
Derivative liabilities	\$ 25,948	\$ -	\$ -	\$ 25,948

#### Derivative Financial Instruments

The Company evaluates its convertible notes to determine if such instruments have derivatives or contain features that qualify as embedded derivatives. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported in the statements of operations. For stock-based derivative financial instruments, the Company uses a weighted-average Black-Scholes-Merton option pricing model to value the derivative instruments at inception and on subsequent valuation dates. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period.

#### Basic and Diluted Loss Per Share

Under ASC 260 “Earnings Per Share,” the Company presents basic and diluted earnings (loss) per-share (“EPS”) amounts on the face of the statements of operations. Basic EPS is computed by dividing income (loss) available to common stockholders (the numerator) by the weighted-average number of common shares outstanding (the denominator) during the period. Shares issued during the period and shares reacquired during the period are weighted for the portion of the period that they were outstanding. The computation of diluted EPS is similar to the computation of basic EPS except that the denominator is increased to include the number of additional common shares that would have been outstanding if the dilutive potential common shares had been issued. Potentially diluted shares are not presented when the effect of the computations are anti-dilutive due to the losses incurred. Accordingly, there is no difference in the amounts presented for basic and diluted loss per share.

#### Recently issued accounting pronouncements

The Company has implemented all new accounting pronouncements that are in effect. These pronouncements did not have any material impact on the financial statements unless otherwise disclosed, and the Company does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

### **NOTE 3 - GOING CONCERN**

The Company’s unaudited financial statements are prepared using accounting principles generally accepted in the United States of America applicable to a going concern that contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has not established any source of revenue to cover its operating costs and has an accumulated deficit. These conditions raise substantial doubt about the company’s ability to continue as a going concern. The Company will engage in limited activities without incurring significant liabilities that must be satisfied in cash until a source of funding is secured. The Company will offer noncash consideration and seek equity lines as a means of financing its operations. If the Company is unable to obtain revenue producing contracts or financing or if the revenue or financing it does obtain is insufficient to cover any operating losses it may incur, it may substantially curtail or terminate its operations or seek other business opportunities through strategic alliances, acquisitions or other arrangements that may dilute the interests of existing stockholders.
