***Security Description***

- **Common equity, dividend, voting and preemption rights.**

*Common Stock*

The Articles of Incorporation of the Issuer authorize the issuance of 1,000,000,000 shares of common stock, par value \$0.001 per share. On May 15, 2018, the Company filed an amendment to increase the number of shares that the Company is authorized to issue from 200,000,000 shares of common stock to 1,000,000,000 shares of common stock at \$0.001 par value per share.

Holders of common stock are entitled to one vote per share on all matters to be voted on by the stockholders. Holders of common stock are entitled to receive ratable such dividends, if any, as may be declared by the Board of Directors out of funds legally available thereof. In the event of a liquidation, dissolution, or winding up of the Company, the holders of common stocks are entitled to share rateably in all of our assets, which are legally available for distribution after payment of all debts and other liabilities and liquidation preference of any outstanding stock.

Holders of our common stock have no pre-emptive rights to purchase common stock. There are no conversion or redemption rights or sinking fund provisions with respect to the common stock. The outstanding shares of common stock are validly issued, fully paid and non-assessable.

- **Preferred stock, dividend, voting, conversion, and liquidation rights as well as redemption or sinking fund provisions.**

*Preferred Stock*

The Articles of Incorporation of the Issuer authorize the issuance of 1,000,000 shares of preferred stock, par value \$0.001 per share. At the end of the quarter, 1,000,000 preferred stocks were issued and outstanding.

On January 12, 2015, the Company, by amending its articles of incorporation, authorized one million Series A preferred shares without designation. Resolution was made on January 12, 2015, and filed with the State of Nevada approving the designation of certain rights and privileges to such preferred shares. Included in those designations are conversion rights into common shares of the Company. For each Series "A" preferred share converted, the shareholder shall receive eight common shares of the Company and voting privileges equal to two hundred votes for each Series "A" share where preferred shares are entitled to vote.

On November 1, 2016, the Company issued 500,000 Series A-1 preferred shares at \$0.05 per share in full satisfaction of outstanding debt to one of the shareholders.

The Articles of Incorporation provide the Board with the right from time to time, to issue all or part of the shares of preferred stock remaining undesignated in one or more series, and to fix the number of shares of preferred stock and determine or alter for each series, the voting powers, full, limited, or none, and other designations, preferences, or relative, participating, optional or other special rights and such qualifications, limitations, or restrictions thereof.

- **Other material rights of common or preferred stockholders.**

**4. Business, products and services.**

A. Summarize the Company’s business operations (If the issuer does not have current operations, state “no operations”)

**Description of Business**

The Company currently focuses on Digital Health, Virtual Care, Cardiac Monitoring, Mental Health, Tele-Monitoring, and other emerging opportunities within the dynamic healthcare landscape, with a keen emphasis on the United States/Canadian, African and Latin American markets. The Company aims to create a unified platform for delivering Virtual Health Care services and home medical monitoring. Seeking to acquire controlling interests in value-added companies while preserving their autonomy and entrepreneurial essence, the Company plans to secure additional capital for these acquisitions, although there is a no guarantee that the funds will be secured, or the acquisitions will be done in case funds are available.

As part of its strategy, the Company intends to acquire, license, or invest in various global medical technology entities. It aims to construct a Telehealth platform that efficiently matches patients with appropriate professionals for their specific conditions and to integrate an e-commerce platform facilitating real-time doctor consultations and doctor-patient interactions. Furthermore, the Company is actively establishing an advisory board comprising medical and regulatory experts to drive support for engaging with medical practitioners and expanding outreach.

While management of the Company believes that the Company will be successful in its planned operating activities under its business plan and capital formation activities, there can be no assurance that it will be successful in implementation of its business plan or the formation of sufficient capital such that it will generate adequate revenues to earn a profit or sustain its operations.

B. Describe any subsidiaries, parents, or affiliated companies.

The Company has incorporated four wholly owned subsidiary companies: Modern Mobility Aid Inc., (name changed to Ayden Health Inc. on May 22, 2020), an Ontario, Canada, based company registered on September 09, 2009, and MDRM Group (Canada) Ltd. an Ontario, Canada based company registered on July 14, 2011, and 2458209 Ontario Inc. also an Ontario, Canada based company incorporated on March 17, 2015, and Galileo Life Sciences SA, a company incorporated in Colombia on April 6, 2021.

References in this report refer to Modern Mobility Aid Inc. and all its four subsidiary companies, on a consolidated basis, unless otherwise indicated or the context otherwise requires.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED JUNE 30, 2024, AND 2023**

**1. DESCRIPTION OF BUSINESS**

Modern Mobility Aids, Inc. (the “Company”) was incorporated under the laws of the State of Nevada on December 19, 2007, under the name Glider Inc. with a business plan to sell and distribute products for mobility challenged individuals. The Company changed its name to Modern Mobility Aids, Inc. on April 22, 2010, and to Galileo Life Sciences, Inc. on December 12, 2014. October 3, 2017, the Company changed its name back to Modern Mobility Aids, Inc. The Company again has changed its name to Galileo Life Sciences, Inc. on March 12, 2021. The Company again has changed its name to Modern Mobility Aids Inc. on November 19, 2023.

Since May 2011, The Company is focused on the emerging opportunities in Cannabis space i.e., both medical and recreational, with a special focus on the Canadian market. Earlier the Company was distributing mobility aids products for physically challenged individuals which generated limited revenues.

The Company currently focuses on Digital Health, Virtual Care, Cardiac Monitoring, Mental Health, Tele-Monitoring, and other emerging opportunities within the dynamic healthcare landscape, with a keen emphasis on the United States/Canadian, African and Latin American markets. The Company aims to create a unified platform for delivering Virtual Health Care services and home medical monitoring. Seeking to acquire controlling interests in value-added companies while preserving their autonomy and entrepreneurial essence, the Company plans to secure additional capital for these acquisitions, although there is a no guarantee that the funds will be secured, or the acquisitions will be done in case funds are available.

As part of its strategy, the Company intends to acquire, license, or invest in various global medical technology entities. It aims to construct a Telehealth platform that efficiently matches patients with appropriate professionals for their specific conditions and to integrate an e-commerce platform facilitating real-time doctor consultations and doctor-patient interactions. Furthermore, the Company is actively establishing an advisory board comprising medical and regulatory experts to drive support for engaging with medical practitioners and expanding outreach.

**2. GOING CONCERN**

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United State of America, which contemplate continuation of the Company as a going concern. The Company has not established a source of revenues sufficient to cover its operating costs, and as such, has incurred an operating loss on an ongoing basis. Further, as of June 30, 2024, and 2023, the Company had a working capital deficit of \$749,111 and \$562,611 respectively. These and other factors raise substantial doubt about the Company’s ability to continue as a going concern. The accompanying financial statements do not include any adjustments or classifications that may result from the possible inability of the Company to continue as a going concern.

The Company must raise additional funds to initiate or acquire a business and to fund our continued operations. We may not be successful in our efforts to raise additional funds or achieve profitable operations. Even if we are able to raise additional funds through the sale of our securities or through the issuance of debt securities, or loans from our shareholders or financial institutions, our cash needs could be greater than anticipated in which case we could be forced to raise additional capital.

At present, we have no commitments for any additional financing, and there can be no assurance that, if needed, additional capital will be available to us on commercially acceptable terms or at all. These conditions raise substantial doubt as to our ability to continue as a going concern, which may make it more difficult for us to raise additional capital when needed. If we cannot get the needed capital, we may not be able to become profitable and may have to curtail or cease our operations.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED JUNE 30, 2024, AND 2023**

**3. SIGNIFICANT ACCOUNTING POLICIES**

*Basis of Preparation*

The accompanying audited financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP")

*Development Stage Company*

The Company is in the development stage as defined under the then current Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 915-205 "Development-Stage Entities," and among the additional disclosures required as a development stage company are that our financial statements were identified as those of a development stage company, and that the statements of operations, stockholders' deficit and cash flows disclosed activity since the date of our inception (December 19, 2007) as a development stage company. Effective June 10, 2014, FASB changed its regulations with respect to Development Stage Entities and these additional disclosures are no longer required for annual reporting periods beginning after December 15, 2014, with the option for entities to early adopt these new provisions. The Company has elected to early adopt these provisions and consequently these additional disclosures have not been included in these financial statements.

*Principles of Consolidation*

The Company's consolidated financial statements for the year ended June 30, 2024, include the accounts of its wholly owned subsidiaries Modern Mobility Aid Inc., (name changed to Ayden Health Inc. on May 22, 2020), an Ontario, Canada, based company registered on September 09, 2009, and MDRM Group (Canada) Ltd. an Ontario, Canada based company registered on July 14, 2011, and 2458209 Ontario Inc. also an Ontario, Canada based company incorporated on March 17, 2015. Galileo Life Sciences SA, a company incorporated in Colombia on April 6, 2021. All significant intercompany balances and transactions have been eliminated for consolidation purposes.

*Cash and Cash Equivalents*

For purposes of reporting within the statements of cash flows, the Company considers all cash on hand, cash accounts not subject to withdrawal restrictions or penalties, and all highly liquid debt instruments purchased with a maturity of three months or less to be cash and cash equivalents.

*Revenue Recognition*

The Company is in the development stage and has realized minimal revenues from operations. The Company recognizes revenues when the sale and/or distribution of products is complete, risk of loss and title to the products have transferred to the customer, there is persuasive evidence of an agreement, acceptance has been approved by its customer, the fee is fixed or determinable based on the completion of stated terms and conditions, and collection of any related receivable is probable. Net revenues are comprised of gross revenues less expected returns, trade discounts, and customer allowances that include costs associated with off-invoice markdowns and other price reductions, as well as trade promotions and coupons. These incentive costs are recognized at the later date on which the Company recognizes the related revenue or the date on which the Company offers the incentive.

*Loss per Common Share*

Basic loss per share is computed by dividing the net loss attributable to the common stockholders by the weighted average number of shares of common stock outstanding during the periods. Diluted loss per share is computed similar to basic loss

per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. There were no dilutive financial instruments issued or outstanding for the year ended June 30, 2024, and 2023.

*Income Taxes*

The Company accounts for income taxes pursuant to SFAS No. 109, “*Accounting for Income Taxes*” (“SFAS No. 109”). Under SFAS No. 109, now encompassed under ASC 740, deferred tax assets and liabilities are determined based on temporary differences between the bases of certain assets and liabilities for income tax and financial reporting purposes. The deferred tax assets and liabilities are classified according to the financial statement classification of the assets and liabilities generating the differences.

The Company maintains a valuation allowance with respect to deferred tax assets. Modern Mobility Aid Inc. establishes a valuation allowance based upon the potential likelihood of realizing the deferred tax asset and taking into consideration the Company’s financial position and results of operations for the current period. Future realization of the deferred tax benefit depends on the existence of sufficient taxable income within the carryforward period under the Federal tax laws.

Changes in circumstances, such as the Company generating taxable income, could cause a change in judgment as to whether the related deferred tax asset could be realized. Any change in the valuation allowance will be included in income in the year of the change in estimate.

*Fair Value of Financial Instruments*

The Company estimates the fair value of financial instruments using the available market information and valuation methods. Considerable judgment is required in estimating fair value. Accordingly, the estimates of fair value may not be indicative of the amounts Modern Mobility Aids, Inc. could realize in a current market exchange. As of June 30, 2024, the carrying value of the Company’s financial instruments approximated fair value due to the short-term nature and maturity of these instruments.

*Deferred Offering Costs*

The Company defers as other assets the direct incremental costs of raising capital until such a time as the offering is completed. At the time of the completion of the offering, the costs are charged against the capital raised. Should the offering be terminated, deferred offering costs are charged to operations during the period in which the offering is terminated.

*Impairment of Long-lived Assets*

Capital assets are reviewed for impairment in accordance with SFAS No. 144, “*Accounting for the Impairment of Disposal of Long-lived Assets*,” which was adopted effective January 1, 2002. Under SFAS No. 144, now encompassed under ASC 350, these assets are tested for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the year ended June 30, 2024, and 2023, no events or circumstances occurred for which an evaluation of the recoverability of long-lived assets was required.

*Advertising and Promotion*

The Company expenses all advertising and promotion costs as incurred. The Company incurred \$4,252, as advertising and promotion costs during the year ended June 30, 2024. However, there was no advertisement cost incurred during the same period in the previous period in 2023.

*Stock-based Compensation*

The Company accounts for employee and non-employee stock awards under ASC 718, whereby equity instruments issued to employees for services are recorded based on the fair value of the instrument issued and those issued to non-employees are recorded based on the fair value of the consideration received or the fair value of the equity instrument, whichever is more reliably measurable.

*Foreign Currency Transactions*

Foreign currency transaction gains and losses are recorded in the statements of operation as a component of other income/ (expense).

*Use of Estimates and Assumptions*

The accompanying financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States of America. Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements for a period necessarily involves the use of estimates which have been made using careful judgment. Actual results may vary from these estimates.

*Reclassifications*

Certain amounts previously presented for prior periods have been reclassified. The reclassifications had no effect on net loss, total assets, or total shareholders' deficit.

*Recently Adopted Accounting Pronouncements*

The Company has reviewed all recently issued, but not yet effective, accounting pronouncements and does not believe the future adoption of any such pronouncements may be expected to cause a material impact on our financial condition or the results of its operations other than in respect of the early adoption of the new regulations relating to Development Stage Entities as discussed above.

**4. SHORT TERM ADVANCES AND DEPOSITS**

The Company engaged software developing companies to build Telehealth platform to provide Virtual Health Care services and medical monitoring. The Company has made advance payments to acquire medical devices to provide Telehealth services to its clients.

On March 1, 2024, the Company has entered an "Memorandum of Understanding" (the "Agreement") with **MUHIMBILI UNIVERSITY OF HEALTH AND ALLIED SCIENCES** (hereinafter referred to as **MUHAS**) in Dar-es-Salaam, TANZANIA. MUHAS has been mandated by the Ministry of Health in Tanzania. The overall objective of the MOU is to foster research, innovation, capacity building, collaboration, and partnerships in promoting digital transformation and supporting the Government's efforts to promote digital health transformation, knowledge management and dissemination. MUHAS, in collaboration with the Government and partners, organizes the different digital health initiatives include the MUHAS Annual Digital Health and Innovation Week initiative (MADWI), including the Digital Health and Innovation Forum and Exhibition, training, and partnership and network meetings.

The Company and MUHAS shall promote cooperation to achieve the following:

- a) Collaboration in any field of common interest related to digital health.
- b) Capacity building on digital health-related programmers, including digital health leadership and governance, data analytics, among others.

- c) Fields related to cooperation in delivering digital health-related research, consultancy, innovation, emerging technologies, and development matters.
- d) Improving the quality of capacity-strengthening interventions on digital health-related issues that might link to usage /improvement of digital health.
- e) Joint knowledge management and dissemination, including seminars, conferences and public lectures, publications, exchange of publications, academic materials, and other information.
- f) All Parties agree upon other projects or programs for mutual benefit.

Subsequent to this development, the Company identified the need to develop an eHealth educational platform for them. Consequently, a prominent eHealth technology expert was contracted by the Company during the year, who known for the pioneering the world's first telemedicine technician program at Ceridian College in Toronto, ONTARIO, CANADA and for his significant contributions to shaping telemedicine platforms. He has remotely assisted over 25,000 patients and leads MD-Matrix, a prominent healthcare technology firm in Toronto, ONTARIO, CANADA. In pursuant to the agreement, the Company shall receive a Telehealth Educational course platform tailored for the use in universities, colleges and online physician training programs focused on eHealth. The total cost of the service is \$75,000, which was paid in advance by the issuance of the Company's 75,000,000 common stock at the market price of \$0.001 on the date of the issuance of the shares.

#### **5. LOAN FROM SHAREHOLDERS**

In support of the Company's efforts and cash requirements, it may rely on advances from shareholders until such time that the Company can support its operations or attains adequate financing through sales of its equity or traditional debt financing. There is no formal written commitment for continued support by shareholders. Amounts represent advances or amounts paid in satisfaction of liabilities. The advances are considered temporary in nature and have not been formalized by a promissory note.
