# Payment Facilitation

Payment Facilitation (PayFac) is the latest innovation in merchant acquiring, providing frictionless merchant onboarding, enrollment and automated risk/underwriting procedures - which have traditionally been very manual processes - to provide for mass adoption and scale in short order by way of a leveraged distribution model (one- to-many). Our differentiated go-to-market strategy creates loyalty and enhances customer value of the Integrated Software Vendors (ISVs) we serve. ISVs are now able to monetize payments flowing through their software applications, turning payments from a cost center to a revenue generating business unit.
