In 2Q 2024, rental income was reduced by \$3.0 million for Steward Health revenue reserves. This consisted of \$2.2 million for April and prepetition rent for May as well as \$0.8 million for March. In addition, the Company reversed \$2.2 million of straight-line rent receivable against rental income.

 $^{3\}mbox{Q}$ 2024 and $4\mbox{Q}$ 2023 normalizing items primarily include severance-related costs.

Potential common shares are not included in the computation of diluted earnings per share when a loss exists, as the effect would be an antidilutive per share amount. As a result, the outstanding limited partnership units in the Company's operating partnership ("OP"), totaling 3,649,637 units were not included.

- Funds from operations ("FFO") and FFO per share are operating performance measures adopted by NAREIT. NAREIT defines FFO as "net income (computed in accordance with GAAP) excluding depreciation and amortization related to real estate, gains and losses from the sale of certain real estate assets, gains and losses from change in control, and impairment write-downs of certain real assets and investments in entities when the impairment is directly attributable to decreases in the value of depreciable real estate held by the entity."
- FFO, Normalized FFO and Funds Available for Distribution ("FAD") do not represent cash generated from operating activities determined in accordance with GAAP and are not necessarily indicative of cash available to fund cash needs. FFO, Normalized FFO and FAD should not be considered alternatives to net income attributable to common stockholders as indicators of the Company's operating performance or as alternatives to cash flow as measures of liquidity.
- Potential common shares are not included in the computation of diluted earnings per share when a loss exists, as the effect would be an antidilutive per share amount. For 1Q 2024, basic weighted average common shares outstanding was the denominator used in the per share calculation.
- 3Q 2024 includes \$46.8 million of credit loss reserves and \$0.2 million gain on other assets. 2Q 2024 includes \$11.2 million of credit loss reserves and \$2.2 million writeoff of prior period Steward Health straight-line rent, offset by \$4.9 million gain on other assets.
- Includes the Company's proportionate share of normalizing items related to unconsolidated joint ventures such as lease intangibles and acquisition and pursuit costs.
- Includes the amortization of deferred financing costs, discounts and premiums, and non-cash financing receivable amortization.
- 2Q 2024 includes \$0.8 million related to the Steward Health revenue reserve for March.
- Includes the Company's proportionate share of straight-line rent, net and rent reserves, net related to unconsolidated joint ventures.
- The Company utilizes the treasury stock method, which includes the dilutive effect of nonvested share-based awards outstanding of 760,552 for the three months ended September 30, 2024. Also includes the diluted impact of 3,649,637 OP units outstanding.
