Any references herein to any of the Company's past or present investments or its past or present performance, have been provided for illustrative purposes only. It should not be assumed that these investments were or will be profitable or that any future investments by the Company will be profitable or will equal the performance of these investments.

Past performance is not indicative of future results and there can be no assurance that the Company will achieve comparable results in the future. This presentation contains statements that constitute "forward-looking statements," as such term is defined in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and such statements are intended to be covered by the safe harbor provided by the same. These statements are based on management's current expectations and beliefs and are subject to a number of trends and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements; the Company can give no assurance that its expectations will be attained.

Factors that could cause actual results to differ materially from the Company's expectations include, but are not limited to, applicable regulatory changes; general volatility of the capital markets; changes in the Company's investment objectives and business strategy; the availability of financing on acceptable terms or at all; the availability, terms and deployment of capital; the availability of suitable investment opportunities; changes in the interest rates or the general economy; increased rates of default and/or decreased recovery rates on investments; changes in interest rates, interest rate spreads, the yield curve or prepayment rates; changes in prepayments of Company's assets; the degree and nature of competition, including competition for the Company's target assets; and other factors, including those set forth in the Risk Factors section of the Company's most recent Annual Report on Form 10-K filed with the SEC, and other reports filed by the Company with the SEC, copies of which are available on the SEC's website, www.sec.gov. The Company undertakes no obligation to update these statements for revisions or changes after the date of this release, except as required by law.

This presentation also contains market statistics and industry data which are subject to uncertainty and are not necessarily reflective of market conditions. These have been derived from third party sources and have not been independently verified by the Company or its affiliates. All material presented is compiled from sources believed to be reliable and current, but accuracy cannot be guaranteed. All data is as of September 30, 2024, unless otherwise noted.

This presentation includes certain non-GAAP financial measures, including Distributable Earnings. These non-GAAP financial measures should be considered only as supplemental to, and not as superior to, financial measures in accordance with GAAP. Please refer to the Appendix for the most recent GAAP information.

Executive Summary

- Ready Capital ("RC" or the "Company") is a non-bank lender to both investors in and owners of lower-to-middle-market (LMM) commercial real estate (CRE) properties with book value of approximately \$2.3bn
 - All-weather investment strategy as a direct lender and acquirer of loan portfolios, including distressed portfolios
 - \$9.4bn portfolio of more than 7,500 loans diversified across 50 states & Europe with 98% first lien¹
 - Operating companies supported by 505 employees across the Company's 9 offices
 - Externally managed by Waterfall Asset Management, LLC, a leading \$13.1bn^{2,3} global structured products investment manager with a 19-year track record
 - Structured as a REIT for tax purposes, but with a sizable taxable REIT subsidiary ("TRS") where employees and operations sit
 - This structure provides incremental optionality around dividend policy and retention of earnings over time, providing a path to build capital base
 - We believe our embedded operating companies have franchise value in excess of GAAP book value

The Company believes that this non-U.S. GAAP financial information, in addition to the related U.S. GAAP measures, provides investors greater transparency into the information used by management in its financial and operational decision-making, including the determination of dividends. However, because Distributable Earnings is an incomplete measure of the Company's financial performance and involves differences from net income computed in accordance with U.S. GAAP, it should be considered along with, but not as an alternative to, the Company's net income computed in accordance with U.S. GAAP as a measure of the Company's financial performance. In addition, because not all companies use identical calculations, the Company's financial performance on Distributable Earnings may not be comparable to other similarly-titled measures of other companies.

We calculate Distributable earnings as GAAP net income (loss) excluding the following:

any unrealized gains or losses on certain MBS not retained by us as part of our loan origination businesses

ii) any realized gains or losses on sales of certain MBS

i)

iii) any unrealized gains or losses on Residential MSRs from discontinued operations

iv) any unrealized change in current expected credit loss reserve and valuation allowances

v) any unrealized gains or losses on de-designated cash flow hedges

vi) any unrealized gains or losses on foreign exchange hedges

vii) any unrealized gains or losses on certain unconsolidated joint ventures

viii) any non-cash compensation expense related to stock-based incentive plan

ix) one-time non-recurring gains or losses, such as gains or losses on discontinued operations, bargain purchase gains, or merger related expenses

In calculating Distributable Earnings, Net Income (in accordance with U.S. GAAP) is adjusted to exclude unrealized gains and losses on MBS acquired by the Company in the secondary market but is not adjusted to exclude unrealized gains and losses on MBS retained by Ready Capital as part of its loan origination businesses, where the Company transfers originated loans into an MBS securitization and the Company retains an interest in the securitization. In calculating Distributable Earnings, the Company does not adjust Net Income (in accordance with U.S. GAAP) to take into account unrealized gains and losses on MBS retained by us as part of the loan origination businesses because the unrealized gains and losses that are generated in the loan origination process are considered to be a fundamental part of this business and an indicator of the ongoing performance and credit quality of the Company's historical loan originations. In calculating Distributable Earnings, Net Income (in accordance with U.S. GAAP) is adjusted to exclude unrealized gains and losses on MBS retained by us as part of the loan origination businesses because the unrealized gains and losses that are generated in the loan origination as ecuritization process are considered to be a fundamental part of this business and an indicator of the ongoing performance and credit quality of the Company's historical loan originations. In calculating Distributable Earnings, Net Income (in accordance with U.S. GAAP) is adjusted to exclude realized gains and losses on certain MBS securities considered to be non-distributable. Certain MBS positions are considered to be non-distributable due to a variety of reasons which may include collateral type, duration, and size.

In addition, in calculating Distributable Earnings, Net Income (in accordance with U.S. GAAP) is adjusted to exclude unrealized gains or losses on residential MSRs, held at fair value from discontinued operations. In calculating Distributable Earnings, the Company does not exclude realized gains or losses on either commercial MSRs as servicing income is a fundamental part of Ready Capital's business and is an indicator of the ongoing performance.

To qualify as a REIT, the Company must distribute to its stockholders each calendar year at least 90% of its REIT taxable income (including certain items of non-cash income), determined without regard to the deduction for dividends paid and excluding net capital gain. There are certain items, including net income generated from the creation of MSRs, that are included in distributable earnings but are not included in the calculation of the current year's taxable income. These differences may result in certain items that are recognized in the current period's calculation of distributable earnings not being included in taxable income, and thus not subject to the REIT dividend distribution requirement until future years.
