THE GOVERNMENT OF GRENADA DENOUNCES THE LAWLESS ACT COMMITTED AT THE HARVEY VALE PLAYING FIELD, CARRIACOU.

November 4, 2024

St. George's, Grenada—The Government of Grenada unequivocally condemns the actions taken in the burning of debris and attempts to blockade access to the site at the Harvey Vale playing field.

As a result, the fire department was forced to contain the blaze with several tens of gallons of water. Given the water challenges already being experienced in Carriacou & Petite Martinique, we cannot afford such behaviour. Such acts not only endanger lives, but also undermine the community resources meant to benefit everyone.

The intentions of the perpetrators seek to create panic and chaos on the Sister Isle in the aftermath of Hurricane Beryl. This type of disorder is prohibited and will be thoroughly investigated by the Royal Grenada Police Force.

Public property belongs to all of us and is maintained through the hard work and contributions of the community.

The safety and well-being of the communities remain our top priority. With containment and monitoring continuing at Harvey Vale, we advise residents of Carriacou & Petite Martinique to refrain from such lawless acts as we continue to focus on the restoration and recovery of our beautiful Sister Isles.

Let this be the common bond which we share to build back better!
