U.S. 281 resurfacing set in Barton, Stafford counties

Resurfacing will start soon on U.S. 281 in Barton and Stafford counties.

This is a continuation of a Kansas Department of Transportation resurfacing project, and it involves a mill and overlay on U.S. 281 from the K-19 junction in Stafford County to Southeast 30th Road in Barton County. The length is about 11 miles.

The work is expected to begin around Oct. 7 and be completed around Oct. 31.

During the work, traffic will be controlled by flaggers and a pilot car, and motorists should be prepared to stop and expect delays of up to 15 minutes.

The map below shows the approximate project location, marked in red.

Venture Corp., of Great Bend, is the primary contractor for the project.

For updated information on this and other KDOT highway projects and road conditions across the state, go to www.kandrive.gov.
