ABOUT THE GREEN TRANSPORTATION CAPITAL GRANT PROGRAM

The Washington State Department of Transportation (WSDOT) is pleased to present its prioritized project list for the Green Transportation Capital Grant program to the Washington State Legislature.

The purpose of the grant program is to aid any transit authority in funding cost-effective capital projects to reduce the carbon intensity of the Washington transportation system ([RCW 47.66.120](#)). The Legislature funded the program in [E2SHB 2042, Sec. 18 \(1\)\(a\)](#) during the 2019 session.

Projects funded through the grant program will help reduce harmful air pollution from exhaust emissions, including greenhouse gas emissions. The objective of the grant program is to accelerate the transition from fossil fuels to a clean energy economy. The grant program's support for clean alternative fuel infrastructure can also help increase adoption of green transportation by citizens across the state.

The Green Transportation Capital Grant program is supported by state funding from Washington's Climate Commitment Act (CCA) (76.7 percent). The CCA supports Washington's climate action efforts by putting cap-and-invest dollars to work reducing climate pollution, creating jobs, and improving public health. Information about the CCA is available at www.climate.wa.gov.

This grant is also supported by funding from the Multimodal Account (23.3 percent).

SELECTION PROCESS

WSDOT followed the evaluation and ranking process established by the Zero-Emission Advisory Committee¹ for the Green Transportation Capital Grant program competitive award process. The evaluation panel included members of the committee, a representative from the Washington State University Energy Program, one transit agency representative, and two WSDOT Public Transportation Division capital staff members. WSDOT based its recommended grant awards on results of the panel's evaluation and ranking.

WSDOT received 14 applications, representing 11 transit agencies across the state, requesting approximately \$61.7 million for the 2025-2027 biennium and \$4.8 million for the 2027-2029 biennium.

Changes to the program for the 2025-2027 biennium:

- Construction projects may be two or four years in duration. Vehicles, equipment, and zero-emission fleet transition planning grants remain two-year projects only. Funds requested for the 2027-2029 biennium will support completion of construction projects.
- In partnership with the Washington State Transit Association, the Public Transportation Division developed a tiered match system to determine the minimum required match an applicant must provide. Match is determined by the transit agency's most recent operating budget and ranges from 0-20 percent.
- In partnership with the Washington State Transit Association, the Public Transportation Division implemented a set aside of at least 10 percent of the total amount of the legislative budget for the program for rural or small urban transit agencies with an operating budget of less than \$15 million. The City of Selah and Lewis County Transit projects qualify for the set aside funding and

¹ The committee includes representatives from the Department of Ecology, Department of Commerce, and Utilities and Transportation Commission.

are noted on the prioritized list. Any remaining funding in the 10 percent set aside for rural or small urban transit agencies will be awarded to other competitive projects.

- In [ESHB 1125, Sec. 717 \(1\)\(c\)](#), the Legislature amended RCW 47.66.120 to add the following selection criteria:

During the 2023-2025 fiscal biennium, the department must incorporate principles into the grant selection process with the goal of increasing the distribution of funding to communities based on addressing environmental harms and providing environmental benefits for overburdened communities, as defined in RCW 70A.02.010, and vulnerable populations.

For the 2025-2027 biennium, the Public Transportation Division incorporated this new requirement into the project benefits evaluation criteria.

Planning projects were eligible as a project type, but WSDOT received no planning applications in the 2025-2027 grant solicitation.

AVAILABLE FUNDING

WSDOT anticipates \$49,360,000 in funding for the 2025-2027 Green Transportation Capital Grant program (Multimodal Account: \$12,000,000; Climate Transit Programs Account: \$37,360,000).

Legislative staff instructed WSDOT to submit a prioritized list of projects without a funding line or contingency list to the Legislature by Dec. 1, 2024. The table on pp. 4-6 is a prioritized list of projects. WSDOT looks forward to working with these potential grantees to help the state meet its goal of a clean transportation future.

PROGRAM ADMINISTRATION

WSDOT submitted the estimated costs for the minimum level of resources for administering the Green Transportation Capital Grant program in the fiscal note for E2SHB 2042. These estimates totaled \$272,000 for fiscal year 2023 and \$272,000 for fiscal year 2024 for a total of \$544,000 per biennia (4.5 percent of the overall \$12,000,000 budget amount provided through the Multimodal Account) for two full-time employees at the Transportation Planning Specialist 4 level and standard staffing costs.

WSDOT continues to use the one percent allowed for program administration to support the additional funding from the Climate Commitment Act. This enables the Public Transportation Division to carry out its responsibilities in meeting the goals of Move Ahead Washington and the Climate Commitment Act.

Specific staff activities associated with grant and project support include:

Designing, developing, and vetting grant solicitation criteria.

- Administering the solicitation process.
- Managing the scoring of applications.
- Refining and finalizing scopes of work.
- Executing contracts.
- Providing engineering support and field inspections of construction projects.
- Providing appropriate oversight, technical support, and fiscal and procurement assistance to ensure compliance and project success.

2025-2027 GREEN TRANSPORTATION CAPITAL GRANT PRIORITIZED PROJECT LIST

Project identification number	Applicant	Project title	Legislative district(s)	Project description	2025-2027 Recommended award	2027-2029 Recommended award	Project total
GT252701	Community Transit	Community Transit - Charging Infrastructure at Hardeson Campus	1, 10, 12, 21, 32, 38, 39, 44	Upgrade the Hardeson Campus base to design and construct the infrastructure needed to support deployment of 50 battery-electric buses. This begins a phased conversion of the base to an all-electric bus facility and moves Community Transit toward its goal of converting its entire bus fleet to 100 percent zero emission by 2044.	\$8,000,000	\$1,000,000	\$9,000,000
GT252702	City of Everett	City of Everett - Inductive Charging at Everett Station	21, 38, 44	Purchase approximately two inductive chargers and corresponding infrastructure. The chargers will be located at Everett Station, which the agency will use to service its electric fleet. The agency projects its fixed-route fleet to be 70 percent electric by the end of 2025. This project supports Everett Transit's electrification growth progress.	\$2,550,000	\$0	\$2,550,000
GT252703	Spokane Transit Authority	Spokane Transit Authority - Battery Electric Bus Charging Infrastructure	3, 4, 6	Expand on-route battery electric bus-charging infrastructure in support of electrification of current and future High-Performance Transit corridors, including along Sprague (Route 9), Division (Route 25), and several intersecting routes, which may include routes 21, 96, 98 and 124.	\$3,208,000	\$1,805,600	\$5,013,600
GT252704	Link Transit	Link Transit - Replace Bus Fleet and Add Electric Charging Infrastructure	7, 12	Complete the electrification of Link Transit's urban bus fleet by deploying four zero-emission, 30-foot, low-floor, battery-electric buses as replacements for four aging gasoline powered fixed route cutaway buses. The project will also provide DC charging infrastructure needed to charge the agency's next generation of electric buses.	\$4,568,750	\$0	\$4,568,750
GT252705	King County Metro	King County Metro 40ft Transit Battery Electric Bus Purchase	5, 11, 30, 31, 33, 34, 37, 41, 47	Purchase 28, 40-foot, battery-electric buses to replace aging hybrid diesel-electric buses that are beyond their useful life. The new buses would support converting 26 routes that operate out of Metro's South Base Campus to full zero-emissions operations and will be a significant step toward a fully electric fleet.	\$7,823,200	\$0	\$7,823,200

2025-2027 GREEN TRANSPORTATION CAPITAL GRANT PROGRAM PRIORITIZED PROJECT LIST

Project identification number	Applicant	Project title	Legislative district(s)	Project description	2025-2027 Recommended award	2027-2029 Recommended award	Project total
GT252706	Spokane Transit Authority	Spokane Transit Authority - Electric Operations Support Vehicles	3, 4, 6, 9	Purchase Spokane Transit Authority's first battery electric, non-revenue vehicles by replacing five gas-powered vehicles. These vehicles will support efficient driver transitions, relief operators, and fixed-route supervisors, while reducing greenhouse-gas emissions and enhancing the overall sustainability of the transit system.	\$210,325	\$0	\$210,325
GT252707	Everett Transit	Everett Transit Maintenance Facility Engineering and Design	21, 38, 44	Preliminary engineering and design of a future transit maintenance facility which Everett Transit will use to service the agency's electric fleet. The agency projects its fixed-route fleet to be 70 percent electric by the end of 2025. As Everett Transit advances toward full electrification, the current facility has become inadequate.	\$1,976,250	\$1,976,250	\$3,592,500
GT252708	King County Metro	King County Metro Central Base Campus Zero Electrification - Design	11, 32, 33, 34, 36, 37, 43, 46	Convert King County Metro's Central Base Campus to support a 100 percent battery-electric bus fleet of 245 buses that operate on 15 routes. Includes installing charging infrastructure, modifying existing base structures to support battery-electric bus operations and maintenance, and installing utility-provided infrastructure. (Design phase support requested.)	\$2,990,834	\$0	\$2,990,834
GT252709	Skagit Transit System	Skagit Transit Construct Maintenance, Operations, and Admin Facility	10, 39, 40	Support construction of phase 3 of Skagit Transit's new Maintenance, Operations, and Administration 2 facility. Work will include completion of building A and North parcel site work, utilities and 4000A transformer, eight electric-vehicle charging stations, construction of building B, 40kW solar array, and ancillary tanks for operations.	\$7,910,603	\$0	\$7,910,603

2025-2027 GREEN TRANSPORTATION CAPITAL GRANT PROGRAM PRIORITIZED PROJECT LIST

Project identification number	Applicant	Project title	Legislative district(s)	Project description	2025-2027 Recommended award	2027-2029 Recommended award	Project total
GT252710	C-TRAN	C-TRAN Hydrogen Fueling Station Infrastructure	18, 49	Construct C-TRAN's first liquid hydrogen fueling station at the agency's campus at 2425 NE 65th Ave, Vancouver, WA. This station will fuel 50 hydrogen-fuel-cell buses daily. It supports C-TRAN's goal of a 100 percent zero-emission fleet by FY2043, serving nearly 500,000 residents in Clark County and Southwest Washington.	\$705,000	\$0	\$705,000
GT252711	Pierce Transit	Pierce Transit - Lakewood Transit Center Electrification Project	28	Install four InductEV 300 kW fast, wireless charging pads for four new 40-foot battery-electric buses at the Lakewood Transit Center. Includes adding two more replacement 40-foot battery-electric buses to the fleet, both with the compatible wireless and contactless inductive undercarriage coils for fast charging.	\$2,273,440	\$0	\$2,273,440
GT252712	Intercity Transit	Intercity Transit Battery Electric Coach Replacement Project	2, 22, 28, 29, 35	Acquire two battery-electric buses with chargers to replace two diesel-hybrid buses at the end of their useful life. Intercity Transit will assess the range and reliability of these vehicles across its fixed-route system.	\$3,737,600	\$0	\$3,737,600
GT252713	Lewis County Transit (formerly Twin Transit)	Lewis County Transit e-Transit Stations	19, 20, 35	Build two e-transit stations to expand multimodal access and improve connectivity between regional transit networks. Through the integration of these e-transit stations, Lewis County Transit will boost local mobility, reduce emissions, and foster seamless, sustainable public transportation in its region.	\$2,208,398	\$0	\$2,208,398
GT252714	City of Selah	Selah Civic Center Electric Vehicle Charging Stations	14	Add new EV charging stations to the parking lot at the Selah Civic Center. The Selah Civic Center acts as the transportation hub for Selah Transit. This project will allow Selah Transit to install an electric-vehicle/hybrid-bus fleet in Selah, as well as promote multimodal transportation.	\$280,000	\$0	\$280,000
Totals					\$48,442,400	\$4,781,850	\$53,224,250

Title VI Notice to Public

It is the Washington State Department of Transportation's (WSDOT) policy to assure that no person shall, on the grounds of race, color, national origin, as provided by Title VI of the Civil Rights Act of 1964, be excluded from participation in, be denied the benefits of, or be otherwise discriminated against under any of its programs and activities. Any person who believes his/her Title VI protection has been violated, may file a complaint with WSDOT's Office of Equity and Civil Rights (OECR). For additional information regarding Title VI complaint procedures and/or information regarding our non-discrimination obligations, please contact OECR's Title VI Coordinator at (360) 705-7090.

Notificación de Título VI al Público

La política del Departamento de Transporte del Estado de Washington (Washington State Department of Transportation, WSDOT) es garantizar que ninguna persona, por motivos de raza, color u origen nacional, según lo dispuesto en el Título VI de la Ley de Derechos Civiles de 1964, sea excluida de la participación, se le nieguen los beneficios o se le discrimine de otro modo en cualquiera de sus programas y actividades. Cualquier persona que considere que se ha violado su protección del Título VI puede presentar una queja ante la Oficina de Equidad y Derechos Civiles (Office of Equity and Civil Rights, OECR) del WSDOT. Para obtener más información sobre los procedimientos de queja del Título VI o información sobre nuestras obligaciones contra la discriminación, comuníquese con el coordinador del Título VI de la OECR al (360) 705-7090.
