Claudia,

I realized this week that I inadvertently omitted 40 CFR Part 60, subpart KKKK (and its effect on subpart GG) from the applicability determination for the CO2 plant. I have attached an updated applicability determination for inclusion with the permit application.

Please let me know if you have any questions.

Thanks,

Ethan Hinkley

Subject: Red Cedar Gathering - CO2 Facility Minor NSR permit application

Claudia,

Attached please find a permit application for Red Cedar's CO2 Capture Facility. This application will replace the one that we sent you in March of this year.

If you have any questions, please do not hesitate to contact me.

Thanks,

Ethan Hinkley
