

NOTE

August 11, 1994

FROM: Judy Tracy
TO: Margaret Sheppard
RE: Direct Final Rule Changes

Attached to this note are 1) a list of changes from the direct final notice as signed to the direct final notice revised to conform to the Federal Register requirements, and 2) the direct final notice revised to reflect the list of changes. I also sent you, by fax, an example of a memo from the Division Director to the Assistant Administrator verifying that changes after signature are not substantive in nature, which you may use as a model for a similar memo in this case.

Please let me know if you have any questions.

Changes to Direct Final Rule

"Dates" Section:

1. Move to "Supplementary Information" section all language except "If no adverse comments are received, the effective date of these revisions will be [insert 60 days from the date of publication of this notice]."
2. After "If no adverse comments are received," add "by [insert 30 days from the date of publication of this notice]."
3. After the first sentence, add "If the effective date is delayed, timely notice will be published in the Federal Register."

"Supplementary Information" section, as revised:

1. In the first sentence, substitute "EPA is proposing to revise" for "EPA has issued a notice that it is revising."
2. In the first sentence, delete "as a direct final rule without prior proposal because."
