Meeting Summary

On June 6, 2021, EPA participated in a conference call with ACC on 1,3-butadiene (CASRN 106-99-0), one of the chemicals identified by EPA as a High Priority Substance under the Toxics Substances Control Act (TSCA). ACC described the ongoing existing hazard and exposure projects that they could share with EPA now and in the near future, including information on industrial hygiene.

Attendees

EPA:

Marc Edmonds
Brooke Porter
Michelle Price

American Chemistry Council:

Neeraja Erraguntla
Suzanne Hartigan
