

**Paperwork Reduction Act**

This collection of information is approved by OMB under the Paperwork Reduction Act, 44 U.S.C. 3501 et seq. (OMB Control No. 2070-0012). Responses to this collection of information are mandatory for certain persons, as specified at 40 CFR 721 and 725. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The public reporting and recordkeeping burden for this collection of information is estimated to be between 16.97 to 525.85 hours per response. Send comments on the Agency's need for this information, the accuracy of the provided burden estimates and any suggested methods for minimizing respondent burden to the Regulatory Support Division Director, U.S. Environmental Protection Agency (2821T), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.

## Cover Letter

Cargill respectfully requests that EPA prioritize and expedite its review of this PMN for the following reasons:

The PMN substance will increase the energy efficiency and range of Electric Vehicles (EVs) in furtherance of the Administration's and EPA's goals to accelerate the transition to EVs and combat climate change.

The physical-chemical properties and test data for the PMN substance demonstrate this chemical is not likely to present an unreasonable risk of injury to health or the environment.

Please see attached supplemental letter (Attachment Name: PMN Support Document for Expedited Review Request) that contains rationale as to why this PMN review should be expedited by EPA.

Sincerely,  
The Cargill Team

PMN2024P1

Form Approved. OMB No. 2070-0012 Expires 12/31/2025

<b>U.S. ENVIRONMENTAL PROTECTION AGENCY</b>		<b>AGENCY USE ONLY</b>	
 <b>EPA</b>	<b>PREMANUFACTURE NOTICE</b> <b>FOR NEW CHEMICAL SUBSTANCES</b>		Date of receipt: 04/18/2024
			<b>Submission Report Number</b>
When completed, send this form to:	If sending by Courier: Office of Pollution Prevention and Toxics Document Control Office (7407M) US EPA, 1201 Constitution Ave NW WASHINGTON, D.C. 20460 Contact Numbers: 202-564-8930/8940	If sending by US Mail: Office of Pollution Prevention and Toxics Document Control Office (7407M) US EPA, 1200 Pennsylvania Ave NW WASHINGTON, D.C. 20460	
<b>Total Number of Pages</b>		<b>TS Number</b>	
40		CBIT02	
<b>GENERAL INSTRUCTIONS</b>			
<ul style="list-style-type: none"> <li>You must provide all information requested in this form to the extent that it is known to or reasonably ascertainable by you. Make reasonable estimates if you do not have actual data.</li> <li>Before you complete this form, you should read the "Instructions Manual for Premanufacture Notification" (the Instructions Manual is available from the Toxic Substances Control Act (TSCA) Information Service by calling 202-554-1404, or faxing 202-554-5603).</li> <li>If a fee has been remitted for this notice (40 CFR 700.45), indicate in the boxes above the TS fee identification number you have generated. Remember, your fee ID number must also appear on your corresponding fee remittance. For mailing address information see the Help instructions in the e-PMN tool.</li> </ul>			
<b>Part I – GENERAL INFORMATION</b>		<b>TEST DATA AND OTHER DATA</b>	
<p>You must provide the currently correct Chemical Abstracts (CA) Name of the new chemical substance, even if you claim the identity as confidential. You may authorize another person to submit chemical identity information for you, but your submission will not be complete and the review will not begin until EPA receives this information. A letter in support of your submission should reference your TS fee identification number. For all Section 5 Notice submissions (paper or electronic) you must submit an original notice including all test data; if you claimed any information as confidential, an original sanitized copy must also be submitted.</p>		<p>You are required to submit all test data in your possession or control and to provide a description of all other data known to or reasonably ascertainable by you, if these data are related to the health and environmental effects on the manufacture, processing, distribution in commerce, use, or disposal of the new chemical substance. Standard literature citations may be submitted for data in the open scientific literature. <u>Complete test data (written in English), not summaries of data, must be submitted if they do not appear in the open literature.</u> You should clearly identify whether test data is on the substance or on an analog. Also, the chemical composition of the tested material should be characterized. Following are examples of test data and other data. Data should be submitted according to the requirements of §720.50 of the Premanufacture Notification Rule (40 CFR Part 720).</p>	
<b>Part II – HUMAN EXPOSURE AND ENVIRONMENTAL RELEASE</b>		<b>Test Data (Check Below any included in this notice)</b>	
<p>If there are several manufacture, processing, or use operations to be described in Part II, sections A and B of this notice, reproduce the sections as needed.</p>		<input checked="" type="checkbox"/> Environmental fate data <input type="checkbox"/> Other Data	
<b>Part III – LIST OF ATTACHMENTS</b>		<input checked="" type="checkbox"/> Health effects data <input type="checkbox"/> Risk Assessments	
<p>For paper submissions, attach additional sheets if there is not enough space to answer a question fully. Label each continuation sheet with the corresponding section heading. In Part III, list these attachments, any test data or other data and any optional information included in the notice.</p>		<input checked="" type="checkbox"/> Environmental effects data <input type="checkbox"/> Structure/activity relationships	
<b>OPTIONAL INFORMATION</b>		<input checked="" type="checkbox"/> Physical/Chemical Properties (A physical and chemical properties worksheet is located on the last page of this form.)	
<p>You may include any information that you want EPA to consider in evaluating the new substance. On page 11 of this form, space has been provided for you to describe pollution prevention and recycling information you may have regarding the new substance. "Binding" boxes are included throughout this form for you to indicate your willingness to be bound to certain statements you make in this section, such as use, production volume, protective equipment . . . The intention is to reduce delays that routinely accompany the development of consent orders or Significant New Use Rules. Checking a "binding" box in a PMN does not by itself prohibit the submitter from later deviating from the information (except chemical identity) reported in the form; however, in the case of exemption applications (such as TMEA, LVE, LOREX) certain information provided in such notifications is binding on the submitter when the Agency approves the exemption application, especially if the production volume "binding" box is chosen in a LVE.</p>		<input type="checkbox"/> Test data not in the possession or control of the submitter	
<b>CONFIDENTIALITY CLAIMS</b>		<b>TYPE OF NOTICE (Check Only One)</b>	
<p>You may claim any information in this notice as confidential. To assert a claim on the form, mark (X) the confidential box next to the information that you claim as confidential. To assert a claim in an attachment, circle or bracket the information you claim as confidential. <u>If you claim information in the notices as confidential, you must also provide a sanitized version of the notice, (including attachments).</u> For additional instructions on claiming information as confidential, read the Instructions Manual.</p>		<input checked="" type="checkbox"/> <b>PMN</b> (Premanufacture Notice)	
		<input type="checkbox"/> <b>SNUN</b> (Significant New Use Notice)	
		<input type="checkbox"/> <b>TMEA</b> (Test Marketing Exemption Application)	
		<input type="checkbox"/> <b>LVE</b> (Low Volume Exemption) @ 40 CFR 723.50(c)(1)	
		<input type="checkbox"/> <b>LOREX</b> (Low Release/Low Exposure Exemption) @ 40 CFR 723.50(c)(2)	
		<input type="checkbox"/> <b>LVE Modification</b>	
		<input type="checkbox"/> <b>LOREX Modification</b>	
		<input type="checkbox"/> <b>Mock Submission</b>	
		<input type="checkbox"/> Mark (X) if pending Letter of Support	
		<input type="checkbox"/> IS THIS A CONSOLIDATED PMN (Y/N)?	
		<input type="checkbox"/> # of chemicals or polymers (Prenotice Communication # required, enter # on p. 3).	
		<input checked="" type="checkbox"/> Mark (X) if any information in this notice is claimed as confidential.	

The public reporting and recordkeeping burden for this collection of information is estimated to average 93 hours per response. Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822T), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed EPA Form 7710-25 to this address.

**CERTIFICATION --** A printed copy of this signature page, with original signature, must be submitted with CD or paper submission.

I hereby certify to the best of my knowledge and belief that all information entered on this form is complete and accurate. I further certify that, pursuant to 15 U.S.C. § 2613(c), for all claims for protection for any confidential information made with this submission, all information submitted to substantiate such claims is true and correct, and that it is true and correct that the person submitting the claim has:

- (i) taken reasonable measures to protect the confidentiality of the information;
- (ii) determined that the information is not required to be disclosed or otherwise made available to the public under any other Federal law
- (iii) a reasonable basis to conclude that disclosure of the information is likely to cause substantial harm to the competitive position of the person; and
- (iv) a reasonable basis to believe that the information is not readily discoverable through reverse engineering.

Any knowing and willful misrepresentation is subject to criminal penalty pursuant to 18 U.S.C. § 1001.

**Additional Certification Statements:**

If you are submitting a PMN, SNUN, LoREX, LVE, or TMEA, check the following Fees Certification statement that applies:

- The Company named in Part I, Section A is a "small business concern" as defined under 40 CFR 700.43 and will remit the fee as specified in 40 CFR 700.45(c).
- The Company named in Part I, Section A will remit the fee as specified in 40 CFR 700.45(c).
- This joint submission includes at least one Company which is a "small business concern" and at least one Company which is not a "small business concern," as defined under 40 CFR 700.43. The fee will be remitted with the joint submission. Any remaining balance due for this joint submission is to be paid by the secondary submitter(s).
- The company named in Part I, Section A is submitting a sustainable futures TME. The company has graduated from EPA's Sustainable Futures program and is therefore exempt from fees for this sustainable futures TME.

If you are submitting a **Low Volume Exemption (LVE)** application in accordance with 40 CFR 723.50(c)(1) or a **Low Release and Low Exposure Exemption (LoRex)** application in accordance with 40 CFR 723.50(c)(2), check the following certification statements:

- The manufacturer submitting this notice intends to manufacture or import the new chemical substance for commercial purposes, other than in small quantities solely for research and development, under the terms of 40 CFR 723.50.
- The manufacturer is familiar with the terms of this section and will comply with those terms; and
- The new chemical substance for which the notice is submitted meets all applicable exemption conditions.
- If this application is for an LVE in accordance with 40 CFR 723.50(c)(1), the manufacturer intends to commence manufacture of the exempted substance for commercial purposes within 1 year of the date of the expiration of the 30 day review period.

Section A -- INDUSTRIAL SITES CONTROLLED BY THE SUBMITTER

Mark (X) the "Confidential" box next to any item you claim as confidential

The information on pages 8 and 8a refer to consolidated chemical number(s): [ ] 1 [ ] 2 [ ] 3 [ ] 4 [ ] 5 [ ] 6

Complete section A for each type of manufacture, processing, or use operation involving the new chemical substance at industrial sites you control. Importers do not have to complete this section for operations outside the U.S.; however, you may still have reporting requirements if there are further industrial processing or use operations after import. You must describe these operations. See instructions manual

1. Operation description
a.1 Identity -- Enter the identity of the site at which the operation will occur. Confidential

Name
Site address (number and street)
City County
State ZIP code

a.2 If the same operation will occur at more than one site, enter the number of sites. Identify the additional sites on a continuation sheet, and if any of the sites have significantly different production rates or operations, include all the information requested in this section for those sites as attachments. ->

Mark (X) this box if the data continues on the next page.

b. Type -- Manufacturing [ ] Processing [ ] Use [ ]
Mark (X)

c. Amount and Duration -- Complete 1 or 2 as appropriate Confidential

Table with 4 columns: Batch/Continuous, Maximum kg/batch/day, Hours/batch/day, Batches/Days/year

d. Process description
Mark (X) to indicate your willingness to have your process description binding. ->

- (1) Diagram the major unit operation steps and chemical conversions. Include interim storage and transport containers (specify- e.g. 5 gallon pails, 55 gallon drum, rail car, tank truck, etc.).
(2) Provide the identity, the approximate weight (by kg/day or kg/batch on a 100% new chemical substance basis), and entry point of all starting materials and feedstocks (including reactants, solvents, catalysts, etc.), and of all products, recycle streams, and wastes. Include cleaning chemicals (note frequency if not used daily or per batch.).
(3) Identify by number the points of release, including small or intermittent releases, to the environment of the new chemical substance. If releasing to two media at the same step, assign a second release number for the second medium.

Large empty box for detailed process description with a Confidential checkbox on the right.

- 2. Occupational Exposure** -- You must make separate confidentiality claims for the description of worker activity, physical form of the new chemical substance, number of workers exposed, and duration of activity. Mark (X) the "Confidential" box next to any item you claim as confidential.
- (1) -- Describe the activities (i.e. bag dumping, tote filling, unloading drums, sampling, cleaning, etc.) in which workers may be exposed to the substance.
  - (2) -- Mark (X) this column if entry in column (1) is confidential business information (CBI).
  - (3) -- Describe any protective equipment and engineering controls used to protect workers.
  - (4),(7),(10) -- Indicate your willingness to have the information provided in column (3), (6) or (9) binded.
  - (5),(8),(11) -- Mark (X) this column if entries in columns (3), (6) or (9) are confidential business information (CBI).
  - (6) -- Indicate the physical form(s) of the new chemical substance (e.g., solid: crystal, granule, powder, or dust)
  - (9) -- Indicate the % new chemical substance (if part of a mixture) at the time of exposure.
  - (12) -- Estimate the maximum number of workers involved in each activity for all sites combined.
  - (13) -- Mark (X) this column if entry in column (12) is confidential business information (CBI).
  - (14) and (15) -- Estimate the maximum duration of the activity for any worker in hours per day and days per year.
  - (16) -- Mark (X) this column if entries in columns (14) or (15) are confidential business information (CBI).

Worker activity (i.e., bag dumping, filling drums) (1)	CBI (2)	Protective Equipment/ Engineering Controls (3)	Binding Option Mark (X) (4)	CBI (5)	Physical form(s) (6)	Binding Option Mark (X) (7)	CBI (8)	% new substance (9)	Binding Option Mark (X) (10)	CBI (11)	# of Workers Exposed (12)	CBI (13)	Maximum Duration		CBI (16)
													Hrs/Day (14)	Days/Yr (15)	

Mark (X) this box if the data continues on the next page.

Enter Attachment filename for Part II, Section A on the bottom of page 9a.

**3. Environmental Release and Disposal** -- You must make separate confidentiality claims for the release number and the amount of the new chemical substance released and other release and disposal information. Mark (X) the "Confidential" box next to each item you claim as confidential.

(1) – Enter the number of each release point identified in the process description, part II, section A, subsection 1d(3).  
 (2) – Mark (X) this column if entries in column (1) is confidential business information (CBI).  
 (3) – Estimate the amount of the new substance released (a) directly to the environment or (b) into control technology (in kg/day or kg/batch).  
 (4) – Mark (X) this column if entries in columns (3a) or (3b) are confidential business information (CBI).  
 (5) – Identify the media (stack air, fugitive air (optional-see Instruction Manual), surface water, on-site or off-site land or incineration, POTW, or other (specify)) to which the new substance will be released from that release point. (specify)) to which the new substance will be released from that release point.  
 (6) – Mark (X) this column if entries in column (5) is confidential business information (CBI).  
 (7) – (a) Describe control technology, if any, and control efficiency that will be used to limit the release of the new substance to the environment. For releases disposed of on land, characterize the disposal method and state whether it is approved for disposal of RCRA hazardous waste. On a continuation sheet, for each site describe any additional disposal methods that will be used and whether the waste is subject to secondary or tertiary on-site treatment. (b) Estimate the amount released to the environment after control technology (in kg/day).  
 (8) – Mark (X) this column if entries in columns (7(a) or (7(b)) are confidential business information (CBI).  
 (9) – Identify the destination(s) of releases to water. Please supply NPDES (National Pollutant Discharge Elimination System) numbers for direct discharges or NPDES numbers of the POTW (Publicly Owned Treatment Works). Mark (X) if the POTW name or NPDES # is confidential business information (CBI).

Part II-- HUMAN EXPOSURE AND ENVIRONMENTAL RELEASE – Continued

Section B -- INDUSTRIAL SITES CONTROLLED BY OTHERS

The information on pages 10 and 10a refer to consolidated chemical number(s):  1  2  3  4  5  6

Complete section B for typical processing or use operations involving the new chemical substance at sites you do not control. Importers do not have to complete this section for operations outside the U.S.; however, you must report any processing or use activities after import. See the Instructions Manual. Complete a separate section B for each type of processing, or use operation involving the new chemical substance. If the same operation is performed at more than one site describe the typical operation common to these sites. Identify additional sites on a continuation sheet.

1(a). Operation Description -- To claim information in this section as confidential, bracket (e.g. {}) the specific information that you claim as confidential.

- (1) -- Diagram the major unit operation steps and chemical conversions, including interim storage and transport containers (specify - e.g. 5 gallon pails, 55 gallon drums, rail cars, tank trucks, etc). On the diagram, identify by letter and briefly describe each worker activity.
- (2) -- Either in the diagram or in the text field 1(b) below, provide the identity, the approximate weight (by kg/day or kg/batch, on an 100% new chemical substance basis), and entry point of all feedstocks (including reactants, solvents and catalysts, etc) and all products, recycle streams, and wastes. Include cleaning chemicals (note frequency if not used daily or per batch).
- (3) -- Either in the diagram or in the text field 1(b) below, identify by number the points of release, including small or intermittent releases, to the environment of the new chemical substance.
- (4) -- Please enter the # of sites (remember to identify the locations of these sites on a continuation sheet):

	<b>Number of Sites</b>	10	Confidential	<input type="checkbox"/>
--	------------------------	----	--------------	--------------------------

See Attachment (Sanitized Document: 4 PFD 1 Processing - EV Tra... )

1(b). (Optional) This space is for a text description to clarify the diagram above. Confidential

See attached process flow diagram and process description (PFD #1 Processing - EV Transmission Fluid) and attached supplemental letter (Attachment Name: PMN Support Document for Expedited Review Request)

2. Worker Exposure/Environmental Release

- (1) – From the diagram above, provide the letter for each worker activity. Complete 3-13 for each worker activity described.
- (2), (4), (6), (8), (10), (12), (14), (17), (19) and (21) – Mark (X) this column if any of the preceding entries are confidential business information (CBI).
- (3) – Estimate the number of workers exposed for all sites combined.
- (5) – Estimate the typical duration of exposure per worker in (5a) hours per day and (5b) days per year.
- (7) – Describe physical form of exposure and any protective equipment and engineering controls, if any, used to protect workers.
- (9) – Provide the physical form of exposure.
- (11) – Enter the % new chemical substance (if in mixture).
- (13) – Estimate the percent of the new substance as formulated when packaged or used as a final product
- (15) – From the process diagram above, enter the number of each release point. Complete 16-18 for each release point identified.
- (16) – Estimate the amount of the new substance released (a) directly to the environment or (b) into control technology to the environment (in kg/day or kg/batch).
- (18) – Describe media of release i.e. stack air, fugitive air (optional-see Instructions Manual), surface water, on-site or off-site land or incineration, POTW, or other (specify) and control technology, if any, that will be used to limit the release of the new substance to the environment.
- (20) – Identify byproducts which may result from the operation.

<p>Off-site Incineration Samples disposed through facility waste stream process, likely incinerated by a 3rd party</p>			

**OPTIONAL POLLUTION PREVENTION INFORMATION**

To claim information in the following section as confidential, bracket (e.g. {}) the specific information that you claim as confidential.

In this section you may provide information not reported elsewhere in this form regarding your efforts to reduce or minimize potential risks associated with activities surrounding manufacturing, processing, use and disposal of the PMN substance. Please include new information pertinent to pollution prevention, including source reduction, recycling activities and safer processes or products available due to the new chemical substance. Source reduction includes the reduction in the amount or toxicity of chemical wastes by technological modification, process and procedure modification, product reformulation, and/or raw materials substitution. Recycling refers to the reclamation of useful chemical components from wastes that would otherwise be treated or released as air emissions or water discharges, or land disposal. Quantitative or qualitative descriptions of pollution prevention, source reduction and recycling should emphasize potential risk reduction in addition to compliance with existing regulatory requirements. The EPA is interested in the information to assess overall net reductions in toxicity or environmental releases and exposures, not the shifting of risks to other media (e.g., air to water) or nonenvironmental areas (e.g., occupational or consumer exposure). To the extent known, information about the technology being replaced will assist EPA in its relative risk determination. In addition, information on the relative cost or performance characteristics of the PMN substance to potential alternatives may be provided.

Describe the expected net benefits, such as

- (1) an overall reduction in risk to human health or the environment;
- (2) a reduction in the generation of waste materials through recycling, source reduction or other means;
- (3) a reduction in the use of hazardous starting materials, reagents, or feedstocks;
- (4) a reduction in potential toxicity, human exposure and/or environmental release; or
- (5) the extent to which the new chemical substance may be a substitute for an existing substance that poses a greater overall risk to human health or the environment.

**Information provided in this section will be taken into consideration during the review of this substance. See PMN Instructions Manual and Pollution Prevention Guidance manual for guidance and examples.**

Please see attached supplemental letter (Attachment Name: PMN Support Document for Expedited Review Request) that contains pollution prevention information.

Enter Attachment filename for Pollution Prevention Page 11.

Part III -- LIST OF ATTACHMENTS

Attach continuation sheets for sections of the form, test data and other data (including physical/chemical properties and structure/activity information), and optional information after this page. Clearly identify the attachment and the section of the form to which it relates, if appropriate. Number consecutively the pages of any paper attachments. In the Number of Pages column below, enter the inclusive page numbers of each attachment for paper submissions or enter the total number of pages for each attachment for electronic submissions. Electronic attachments can be identified by filename.

Mark (X) the "Confidential" box next to any attachment name or filename you claim as confidential. Read the Instructions Manual for guidance on how to claim any information in an attachment as confidential. You must include with the sanitized copy of the notice form a sanitized version of any attachment in which you claim information as confidential.

Table with 6 columns: #, Attachment Name, Attachment Filename, Number of Pages, Associated PMN Section Number, CBI. Contains 7 rows of attachment data.

Mark (X) this box if the data continues on the next page.

## PHYSICAL AND CHEMICAL PROPERTIES WORKSHEET

The information on this page refers to chemical number(s):  1  2  3  4  5  6

To assist EPA's review of physical and chemical properties data, please complete the following worksheet for data you provide and include it in the notice. Identify the property measured, the value of the property, the units in which the property is measured (as necessary), and whether or not the property is claimed as confidential. Give the attachment number (found on page 12) in column (b). The physical state of the neat substance should be provided. These measured properties should be for the neat (100% pure) chemical substance. Properties that are measured for mixtures or formulations should be so noted (% PMN substance in \_\_\_). You are not required to submit this worksheet; however, EPA strongly recommends that you do so, as it will simplify the review and ensure that confidential information is properly protected. You should submit this worksheet as a supplement to your submission of test data. This worksheet is not a substitute for submission of test data.

**CBI SUBSTANTIATION**

The user has opted out from substantiating CBI Claims

Reason: The submitter is claiming the following information as confidential business information that is exempt from substantiation according to TSCA Section 14(c)(2). The submitter intends to substantiate the chemical identity claims when filing a Notice of Commencement to begin manufacturing the chemical substance for commercial purposes after the PMN review period is complete.

Information exempt from substantiation prior to first commercial distribution of the substance according to TSCA Section 14(c)(2):

- Chemical identity (Part I Section B.1.b through B.1.e) including chemical name, Chemical Abstracts Service Registry Number, chemical structure, molecular formula, and CAS IES report
- Trade identification (Part 1 Section B.5)

Information that is exempt from substantiation according to TSCA Section 14(c)(2):

- Production volume (Part I Section C.1)
- Production % (Part I Section C.2.a.5)
- % in Formulation (Part I Section C.2.a.7)
- Process descriptions contained in four process flow diagram attachments (Part II Section B.1.a)

All health and safety studies including physical/chemical properties, spectra, toxicity, ecotoxicity, environmental fate data, SDS, and the supplemental letter (Attachment Name: PMN Support Document for Expedited Review Request) have been marked as confidential business information because each of these attachments contains chemical identity information that is exempt from substantiation prior to first commercial distribution of this substance. The submitter has redacted only the chemical identity information in these attachments including chemical name, Chemical Abstracts Service Registry Number, chemical structure, molecular formula, and trade name.
