Confidential Business Information Center (CBIC)
EPA East Building, room 6428
1201 Constitution Avenue
Washington, D.C. 20004-3302

Dear Sir/Madam:

REFERENCE: PMN for TS-CR23A1

On behalf of Allnex USA Inc., I am submitting an amended premanufacturing notice under Section 5 of the Toxic Substances Control Act:

- 1. Ume Hassan requested additional information in Part II, Section A Industrial Sites Controlled By The Submitter: THERE ARE NO INDUSTRIAL SITES CONTROLLED BY THE SUBMITTER. Part II, Section A of EPA Form 7710-25 is therefore blank.
- 2. 2. Ume Hassan requested additional information in Part II, Section B-Industrial Sites Controlled By Others. See Part II, Section B of EPA Form 7710-25 for the additional requested information. The identity of these sites is unknown as these sites are customers of our customer and claimed as confidential information by our customer.

If you have any questions, please contact me at (203) 834-0426.

Regards,

Daniel Liebowitz

Regulatory Compliance Manager, Americas

22		CR23A1 GENERAL INSTRUCTIONS								
 You must provide all information requested in this form to the extent that it is known to or reasonably ascertainable by you. Make reasonable estimates if you do not have actual data. Before you complete this form, you should read the "Instructions Manual for Premanufacture Notification" (the Instructions Manual is available from the Toxic Substances Control Act (TSCA) Information Service by calling 202-554-1404, or faxing 202-554-5603). If a fee has been remitted for this notice (40 CFR 700.45), indicate in the boxes above the TS fee identification number you have generated. Remember, your fee ID number must also appear on your corresponding fee remittance. For mailing address information see the Help instructions in the e-PMN tool. 										
Part I – GENERAL INFORMATION TEST DATA AND OTHER DATA										
You must provide the currently correct Chemical Abstracts Name of the new chemical substance, even if you claim the identity as confidential. You may authorize another person t submit chemical identity information for you, but your submit will not be complete and the review will not begin until EPA receives this information. A letter in support of your submiss should reference your TS fee identification number. For all Section 5 Notice submissions (paper or electronic) you must submit an original notice including all test data; if you claims information as confidential, an original sanitized copy must submitted.	io ission ission ission ist isteed any	descripti related t commer be subm not sum should c chemica of test d	on of all other data know o the health and environ ce, use, or disposal of thitted for data in the oper maries of data, must be learly identify whether te I composition of the teste	vn to or reasonably asomental effects on the rule new chemical substate in scientific literature. Consubmitted if they do no sist data is on the substated material should be a should be submitted a	cion or control and to provide a certainable by you, if these data are manufacture, processing, distribution in ance. Standard literature citations may omplete test data (written in English), at appear in the open literature. You cance or on an analog. Also, the characterized. Following are examples according to the requirements of FR Part 720).					
Part II – HUMAN EXPOSURE AND ENVIRONMEN	TAL	Test Data (Check Below any included in this notice)								
RELEASE If there are several manufacture, processing, or use operati be described in Part II, sections A and B of this notice, repre the sections as needed.			Environmental fate d	ata	Other Data Risk Assessments					
Part III – LIST OF ATTACHMENTS		\Box			7					
For paper submissions, attach additional sheets if there is n enough space to answer a question fully. Label each contin sheet with the corresponding section heading. attachments). For additional instructions on claiming information as confidential, read the Instructions Manual.		X	Mark (X) if any inforn	nation in this notice is o	claimed as confidential.					

The public reporting and recordkeeping burden for this collection of information is estimated to average 93 hours per response. Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the Director, Collection Strategies Division, U.S. Environmental Protection Agency (2822T), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed EPA Form 7710-25 to this address.

CERTIFICATION -- A printed copy of this signature page, with original signature, must be submitted with CD or paper submission.

I hereby certify to the best of my knowledge and belief that all information entered on this form is complete and accurate. I further certify that, pursuant to 15 U.S.C. § 2613(c), for all claims for protection for any confidential information made with this submission, all information submitted to substantiate such claims is true and correct, and that it is true and correct that the person submitting the claim has:

- (i) taken reasonable measures to protect the confidentiality of the information:
- (ii) determined that the information is not required to be disclosed or otherwise made available to the public under any other Federal law
- (iii) a reasonable basis to conclude that disclosure of the information is likely to cause substantial harm to the competitive position of the person; and
- (iv) a reasonable basis to believe that the information is not readily discoverable through reverse engineering.

If you are submitting a PMN, SNUN, LoREX, LVE, or TMEA, check the following Fees Certification

Any knowing and willful misrepresentation is subject to criminal penalty pursuant to 18 U.S.C. § 1001.

Additional Certification Statements:

statement	that applies:
	The Company named in Part I, Section A is a "small business concern" as defined under 40 CFR 700.43 and will remit the fee as specified in 40 CFR 700.45(c).
X	The Company named in Part I, Section A will remit the fee as specified in 40 CFR 700.45(c).
	This joint submission includes at least one Company which is a "small business concern" and at least one Company which is not a "small business concern," as defined under 40 CFR 700.43. The fee will be remitted with the joint submission. Any remaining balance due for this joint submission is to be paid by the secondary submitter(s).
	The company named in Part I, Section A is submitting a sustainable futures TME. The company has graduated from EPA's Sustainable Futures program and is therefore exempt from fees for this sustainable futures TME.
If you are	submitting a Law Valuma Examption /LVE) application in accordance with 40 CER 722 50(a)(1) or a

Low Rele	you are submitting a Low Volume Exemption (LVE) application in accordance with 40 CFR 723.50(c)(1) or a Low Release and Low Exposure Exemption (LoRex) application in accordance with 40 CFR 723.50(c)(2), check ne following certification statements:									
	The manufacturer submitting this notice intends to manufacture or import the new chemical substance for commercial purposes, other than in small quantities solely for research and development, under the terms of 40 CFR 723.50.									
	The manufacturer is familiar with the terms of this section and will comply with those terms; and									
	The new chemical substance for which the notice is submitted meets all applicable exemption conditions.									
		is for an LVE in accordance with 40 CFR 723.50(c)(1), ostance for commercial purposes within 1 year of the da

- 3. Environmental Release and Disposal -- You must make separate confidentiality claims for the release number and the amount of the new chemical substance released and other release and disposal information. Mark (X) the "Confidential" box next to each item you claim as confidential.
 - (1) -- Enter the number of each release point identified in the process description, part II, section A, subsection 1d(3).
 - (2) -- Estimate the amount of the new substance released (a) directly to the environment or (b) into control technology (in kg/day or kg/batch).
 - (3) -- Mark (X) this column if entries in columns (1) and (2) are confidential business information (CBI).
 - (4) -- Identify the media (stack air, fugitive air (optional-see Instruction Manual), surface water, on-sité or off-site land or incineration, POTW, or other (specify)) to which the new substance will be released from that release point.
 - (5) -- a. Describe control technology, if any, and control efficiency that will be used to limit the release of the new substance to the environment. For releases disposed of on land, characterize the disposal method and state whether it is approved for disposal of RCRA hazardous waste. On a continuation sheet, for each site describe any additional disposal methods that will be used and whether the waste is subject to secondary or tertiary on-site treatment. b. Estimate the amount released to the environment after control technology (in kg/day).
 - (6) -- Mark (X) this column if entries in columns (4) and (5) are confidential business information (CBI).
 - (7) -- Identify the destination(s) of releases to water. Please supply NPDES (National Pollutant Discharge Elimination System) numbers for direct discharges or NPDES numbers of the POTW (Publicly Owned Treatment Works). Mark (X) if the POTW name or NPDES # is confidential business information (CBI).

2. Worker Exposure/Environmental Release

- (1) -- From the diagram above, provide the letter for each worker activity. Complete 2-8 for each worker activity described.
- (2) -- Estimate the number of workers exposed for all sites combined.
- (4) -- Estimate the typical duration of exposure per worker in (a) hours per day and (b) days per year.
- (6) -- Describe physical form of exposure and % new chemical substance (if in mixture), and any protective equipment and engineering controls, if any, used to protect workers.
- (7) -- Estimate the percent of the new substance as formulated when packaged or used as a final product.
- (9) -- From the process diagram above, enter the number of each release point. Complete 9-13 for each release point identified.
- (10) -- Estimate the amount of the new substance released (a) directly to the environment or (b) into control technology to the environment (in kg/day or kg/batch).
- (12) -- Describe media of release i.e. stack air, fugitive air (optional-see Instructions Manual), surface water, on-site or off-site land or incineration, POTW, or other (specify) and control technology, if any, that will be used to limit the release of the new substance to the environment.
- (14) -- Identify byproducts which may result from the operation.
 - (3), (5), (8), (11), (13) and (15) -- Mark (X) this column if any of the proceeding entries are confidential business information (CBI).

SANITIZED SUBMISSION

OPTIONAL POLLUTION PREVENTION INFORMATION

To claim information in the following section as confidential, bracket (e.g. {}) the specific information that you claim as confidential.

In this section you may provide information not reported elsewhere in this form regarding your efforts to reduce or minimize potential risks associated with activities surrounding manufacturing, processing, use and disposal of the PMN substance. Please include new information pertinent to pollution prevention, including source reduction, recycling activities and safer processes or products available due to the new chemical substance. Source reduction includes the reduction in the amount or toxicity of chemical wastes by technological modification, process and procedure modification, product reformulation, and/or raw materials substitution. Recycling refers to the reclamation of useful chemical components from wastes that would otherwise be treated or released as air emissions or water discharges, or land disposal. Quantitative or qualitative descriptions of pollution prevention, source reduction and recycling should emphasize potential risk reduction in addition to compliance with existing regulatory requirements. The EPA is interested in the information to assess overall net reductions in toxicity or environmental releases and exposures, not the shifting of risks to other media (e.g., air to water) or nonenvironmental areas (e.g., occupational or consumer exposure). To the extent known, information about the technology being replaced will assist EPA in its relative risk determination. In addition, information on the relative cost or performance characteristics of the PMN substance to potential alternatives may be provided.

Describe the expected net benefits, such as

- (1) an overall reduction in risk to human health or the environment:
- (2) a reduction in the generation of waste materials through recycling, source reduction or other means;
- (3) a reduction in the use of hazardous starting materials, reagents, or feedstocks:
- (4) a reduction in potential toxicity, human exposure and/or environmental release; or

(5) the extent to which the new chemical substance may be a substitute for a health or the environment.	an existing substance that poses a greater overall risk to human	
Information provided in this section will be taken into consideration during and Pollution Prevention Guidance manual for guidance and examples.	ng the review of this substance. See PMN Instructions Manual	_
and I challen I revention outdance manda for guidance and examples.	_	_

Part III -- LIST OF ATTACHMENTS

Attach continuation sheets for sections of the form, test data and other data (including physical/chemical properties and structure/activity information), and optional information after this page. Clearly identify the attachment and the section of the form to which it relates, if appropriate. Number consecutively the pages of any paper attachments. In the Number of Pages column below, enter the inclusive page numbers of each attachment for paper submissions or enter the total number of pages for each attachment for electronic submissions. Electronic attachments can be identified by filename.

Mark (X) the "Confidential" box next to any attachment name or filename you claim as confidential. Read the Instructions Manual for guidance on how to claim any information in an attachment as confidential. You must include with the sanitized copy of the

notice form a sanitized version of any attachment in which you claim information as confidential.
