Meeting Summary: Representatives from ADAMA (registrant for novaluron) met with the PRD novaluron team members to discuss the upcoming Interim Decision (ID) and mitigation updates for novaluron. After introductions, PRD reviewed the additional advisory language being added to mitigate down the drain exposure and spray drift language. After discussing the additions to the mitigation proposed in the PID, ADAMA representatives agreed with the Agency's mitigation strategy and is in support of the process moving forward. The ID is expected to be signed at the end of September.
