DHS Record of Environmental Consideration (REC) for Categorically Excluded Actions under NEPA

INTRODUCTION

The purpose of this Record of Environmental Consideration (REC) is to provide a record that the potential for impacts to the quality of the human environment has been considered in the decision to implement the Proposed Action described below, in accordance with the National Environmental Policy Act of 1969 (NEPA)

and DHS Directive 023-01 and Instruction Manual 023-01-001-01 on implementation of NEPA. DHS integrates the NEPA process with review and compliance requirements under other Federal laws, regulations, Executive Orders, and other requirements for the stewardship and protection of the human environment, as reflected in Section II (8) of this REC. Signature of the DHS Proponent on this REC demonstrates that they have considered the potential for impacts to the human environment in their decision to implement the Proposed Action as required by NEPA, and are committing to any conditions listed in Section IV of this REC that may be required for implementation of the project. When completed, the form is to be signed by the Preparer, the Environmental Approver, and the Action Proponent. The completed REC becomes a part of the administrative record for the Proposed Action.				
SECTION I - Description of Proposed Action				
1. Name of Component Authorizing the Proposed Action:				
U.S. Coast Guard USCG Civil Engineering Unit – Miami Fl				
2. Title of Proposed Action:				
Kemah Boardwalk Fireworks Show Safety Zone NPRM - Amendment				
3. Identifying Number of Proposed Action:				
DSS-USCG-2024-20194				
4. Estimated Start Date and Useful Life of Proposed Action:				
Start Date: 09/01/2024 - End Date: 12/31/20				
5. Location of Proposed Action:				
U.S. Territorial Water: This is an amendment to an already approved regulation for a Safety Zone in Upper Galveston Bay in Kemah, TX. No Environmental impact is anticipated from this amendment.				
6. Description of Proposed Action:				
This is an amendment to an already approved regulation for a Safety Zone in Upper Galveston Bay in Kema TX. No Environmental impact is anticipated from this amendment. This regulation will only be establishing a safety zone to prohibit members of the community from approaching the fireworks barge while the display is taking place.				
SECTION II - Analysis of Extraordinary Circumstances				
7. ☑ Proposed Action is not a piece of a larger action ☐ Proposed Action is a piece of a larger action Remarks:				
8. For A through K, check the appropriate box and provide an explanation when appropriate. Include a summary of any coordination or consultation that occurred with a resource or regulatory agency, if relevant.				
☐ ☑ A. Will the Proposed Action have a potentially significant effect on public health or safety? Yes No Remarks:

- 9. This action is not expected to result in any significant adverse environmental impacts as described in the National Environmental Policy Act of 1969 (NEPA). The proposed action has been thoroughly reviewed by the U.S. Coast Guard and it has been determined, by the undersigned, that this action is categorically excluded under current DHS CATEX **L60(a)*** from further environmental documentation, in accordance with Section 3 of DHS Directive 023-01, Environmental Planning Program since implementation of this action:
- I. Clearly fits within one or more of the categories of excludable actions listed in Appendix A of DHS Instruction 023-01-001-01;
- II. Is not a piece of a larger action which has been segmented into smaller parts in order to avoid a more extensive evaluation of the potential for significant environmental impacts;
- III. Does not involve any extraordinary circumstances, as defined in DHS Instruction 023-01-001-01, Section V(B)(2), that would create the potential for a normally excluded action to have a significant environmental effect.

SECTION IV - Conditions

- 10. The following conditions are required to implement the Proposed Action:
- Any change to the Proposed Action that may cause a physical interaction with the human environment will require re-evaluation for compliance with NEPA and other EP&HP requirements before the action can proceed.
- EThis review addresses NEPA and other EP&HP requirements as described in DHS Directive 023-01. This review may identify the need for additional federal, state, and/or local permits, approvals, etc. required for the Proposed Action. However, this review may not satisfy those requirements and the Proponent is responsible for ensuring that all other appropriate federal, state, and/or local permits, approvals, etc. have been obtained.

SECTION V - Signatures					
11a. Preparer of this REC					
Name: Christopher Morgan	Digitally signed by Christopher Morgan at 07/26/2024 10:48 AM Christopher Morgan	Date: 07/26/2024			
11b. Environmental Approver of this REC					
Name: Mark Merritt (Level I)	Digitally signed by Mark Merritt (Level I) at 07/26/2024 11:04 AM Mark Merritt (Led I)	Date: 07/26/2024
