Re: Pellet Stove Integrated Duty Cycle (IDC) Test Method.

Dear Mr. Johnson:

The New York State Energy Research and Development Authority (NYSERDA) supported the development of “A Load Profile Test Method for Certification of Pellet or Chip Fuel-fired Automated Stove Emissions: Measurement of Particulate Matter (PM) using a TEOM, Carbon Monoxide (CO), and Heating Efficiency,” (Pellet Stove IDC). Through this letter, NYSERDA hereby approves the U.S. Environmental Protection Agency to post the Pellet Stove IDC in the EPA docket.

If you have any additional questions related to this matter, please do not hesitate to contact me at (518) 862-1090.

Regards,

Ellen Burkhard, Ph.D.
