

Calculation of Proposed 2024 Cellulosic Biofuel Percentage Standard

All volumes in billion gallons

Variable	2024
RFV _{CB} Cellulosic biofuel required volume	0.88
G Gasoline consumption in 48 contiguous states + Hawaii	139.57
D Diesel consumption in 48 contiguous states + Hawaii	52.59
RG Renewables contained in G	14.89
RD Renewables contained in D	4.93
GS Gasoline consumption in Alaska or territories, if they have opted in	0.00
RGS Renewables contained in GS	0.00
DS Diesel consumption in Alaska or territories, if they have opted in	0.00
RDS Renewables contained in DS	0.00
GE Gasoline produced by exempt small refineries and small refiners	0.00
DE Diesel produced by exempt small refineries and small refiners	0.00
STD _{CB} Cellulosic biofuel standard	0.51%

Values for all variables other than RFV_{CB} from RFS Set Rule. See 88 FR 44519-21 (July 12, 2023).
