Hi John & team,

Attached is round 1 passback on EPA's draft supporting documents for the proposed rule, "Stationary Combustion Turbines New Source Performance Standards (NSPS) Technology Review," RIN 2060-AW21. In addition to cover comments, attached are comments on EPA's EIA and three TSDs. I will get the preamble comments to you later today or early tomorrow, but wanted to be sure you had these on hand before today's calls (particularly Reviewer 2's cover comments).

Take care, and chat soon—
