

AUG 22 1975

Mr. Frederick A. Renninger  
Director of Technical Services  
National Crushed Stone Association  
1415 Elliot Place, N.W.  
Washington, D.C. 20007

Dear Mr. Renninger:

A meeting of the National Air Pollution Control Techniques Advisory Committee has been scheduled for September 3 and 4 at Crystal Mall, Building 2, Room 1112, 1921 Jefferson Davis Highway, Arlington, Virginia. The agenda will include a review of the Standard Support-Environmental Impact Statement dealing with the crushed stone industry. A copy of the support document and the meeting agenda are enclosed.

The meeting was announced in the Federal Register of August 15. We thought because of your special interest in these regulations you should be given an opportunity to review the support document prior to the meeting.

The meetings, of course, are open to the general public; but we would appreciate it if you would call my secretary, Mary Jane Clark, if you plan to attend so we can be certain we have adequate accommodations. The telephone number is (301) 683-6146, extension 271.

Sincerely yours,

*Original Signed By Don R. Goodwin*

Don R. Goodwin  
Chairman and Executive Secretary  
National Air Pollution Control  
Techniques Advisory Committee
