MEMORANDUM

TO: Docket ID: EPA-OAR-HQ-2004-0022

FROM: U.S. EPA

SUBJECT: Proposed Regulation Edits for 40 CFR Part 63, Subpart EEE: National Emission Standards for Hazardous Air Pollutants from Hazardous Waste Combustors Malfunction and Electronic Reporting Amendments

This memorandum provides the proposed regulation edits associated with the proposed rulemaking titled, “National Emission Standards for Hazardous Air Pollutants from Hazardous Waste Combustors Malfunction and Electronic Reporting Amendments.” Attachment 1 to this memorandum, for the convenience of interested parties, presents the subject subpart of the CFR, including proposed regulation edits shown in redline/strikeout format.

As described in the preamble to the proposed rule, the EPA is proposing amendments to the national emission standards for hazardous air pollutants (NESHAP) from hazardous waste combustor (HWC) units as listed below.

- Remove the exemptions and revise other provisions associated with emission standards exemptions for periods of malfunction, including some recordkeeping and reporting requirements and General Provisions applicability.
- Amend emergency safety vent provisions, including recordkeeping requirements.
- Add electronic reporting provisions.
- Make a technical correction related to the use of Method 23 to determine compliance with the dioxin and furan standards.

Attachment 1: Regulatory text with proposed edits in redline/strikeout
