Hi again,

Attached is 2nd round passback on the preamble for EPA's proposed rule, "Stationary Combustion Turbines New Source Performance Standards (NSPS) Technology Review," RIN 2060-AW21. Also following up to note that, if a call is needed on the RIA, here are some slots tomorrow that work for reviewers: 9:30-10:30am, 12:30-2pm, after 4pm.

That's the entirety of 2nd round passback on this package, although I expect that EPA will tweak other documents as it responds to fundamental asks in the RIA and associated BPT memo.

Best,

Sofie

Hi John & team,

Sending 2nd round passback on the RIA to you ahead of the rest of the package as I think EPA should start working on responses sooner rather than later. I'll follow up with passback on the remainder of the package later today. After taking a look, let me know if you think a call would help to clarify any of the reviewers' asks.

Take care,

Sofie
