## ABOUT VYANT BIO

Vyant Bio has developed a drug discovery engine centered on revolutionary human-derived biology that incorporates advanced technology driven chemistry, data science, and engineering with global regulatory expertise. Through multiple *in silico*, *in vitro*, and *in vivo* modalities, Vyant Bio rapidly identifies and designs small and large molecule therapeutics that are derisked in human biology much earlier, and have lower costs and failure rates compared to traditional discovery platforms. The Company is focused on efficiently discovering neurology and oncology drugs and, going forward, plans to file two investigational new drug applications annually. Vyant Bio is headquartered in the US, with offices in Europe, and research facilities in Australia. The Company has five state-of-the-art labs and a scientific team with world experts in key areas who have been involved in over 200 investigational new drug applications and over 50 CNS and oncology studies and trials.
