(1) The residual value loss data reported in this table includes all lease contracts purchased by TMCC or the Triling Trust with FICO<sup>®</sup> scores of at least 620 and original terms between 24 and 48 months, excluding full Battery Electric and Hydrogen Fuel Cell Vehicles. The residual value loss data reported in this table also includes lease contracts that have been sold but are still being serviced by TMCC.

(2) For purposes of this table, the "ALG Residual" for each leased vehicle is equal to the related residual value estimate produced by Automotive Lease Guide at the time of origination of the related lease with average condition and standard mileage (15,000 miles/year) or, if such estimate is unavailable, the related Contract Residual Value.

(3) Excludes repossessions, charge-offs, and vehicles in inventory, but includes early terminations.

(4) Includes all vehicles terminating at scheduled maturity, terminating past scheduled maturity and terminating within 30 days prior to scheduled maturity.

(5) Residual gain/(loss) is net of remarketing expenses, and excess wear and tear and excess mileage collections.

(6) Adjusted MSRP includes value added vehicle adjustments.
