

CITY OF RIALTO
PUBLIC WORKS DEPARTMENT
TRAFFIC ADVISORY NOTICE
RIVERSIDE AVENUE AT LOCUST
AVENUE AND RIVERSIDE AVENUE AT
LIVE OAK AVENUE

November 6, 2024

As a result of Public Safety Power Shut-off (PSPS) notification received by Southern California Edison (SCE) due to the current windy conditions, the following intersections have fallen within identified power outage zones until further notice:

- **Riverside Avenue and Locust Avenue**
- **Riverside Avenue and Live Oak Avenue**

To assist with traffic control, the Street Maintenance Division has placed pre-stop ahead warning signage with flashing beacons and stop signs at each intersection.

Safety is very important, while driving through this the windy conditions, please exercise caution. If you encounter any intersections with a loss of power, please report it to the Public Works Department immediately at (909) 820-2602. As a reminder, windy conditions can cause debris and trash to enter traffic lanes. Please operate your vehicle with caution.

If you come across a traffic signal with no lights, drive carefully and treat the intersection as an all-way stop. Here is a reminder of how to proceed: Yield to any vehicle that is already in the intersection or arrives before you do. If two cars arrive at the same time, the car on the right has the right-of-way. Thank you for your patience and support during this SCE PSPS.
