#### Non-GAAP

This presentation includes information about the Company's non-GAAP subscription cost of revenue, non-GAAP professional services cost of revenue, non-GAAP Taegis Subscription Solutions cost of revenue, non-GAAP Managed Security Services cost of revenue, non-GAAP gross profit, non-GAAP gross margin, non-GAAP Taegis Subscription Solutions gross profit, non-GAAP Taegis Subcription Solutions gross margin, non-GAAP Managed Security Services gross profit, non-GAAP Managed Security Services gross margin, non-GAAP operating income (loss), non-GAAP operating margin, non-GAAP net income (loss), non-GAAP net income (loss) before income taxes, non-GAAP income tax expense (benefit), non-GAAP earnings (loss) per share before income taxes, non-GAAP net earnings (loss) per share, weighted-average shares used in computing non-GAAP earnings (loss) per share, diluted, adjusted EBITDA, which are non-GAAP financial measures provided as a supplement to the results provided in accordance with accounting principles generally accepted in the United States of America ("GAAP"). A reconciliation of each non-GAAP financial measure to the most directly comparable GAAP financial measure is provided herein for each fiscal year indicated.

The Company believes that these non-GAAP financial measures provide useful information about our financial performance by enhancing the overall understanding of our past performance and future outlook, while increasing transparency with respect to important metrics used by management in its decision-making. Investors are encouraged to review the related GAAP financial measures and the reconciliation of each non-GAAP financial measure to the most directly comparable GAAP financial measure, while not relying on any single financial measure to evaluate the Company's business.

### **Operating Metrics**

We believe that annual recurring revenue (ARR) is a key operating metric that is useful to measure our business because it is driven by our ability to acquire new subscriptions and expand relationships with existing customers. The Company defines ARR as the value of its subscription contracts as of a particular date. Because the Company uses recurring revenue as a leading indicator of future annual revenue, it includes operational backlog. Operational backlog is defined as the recurring revenue associated with pending contracts, which are contracts that have been sold but for which the service period has not yet commenced.

### **Special Note on Forward-Looking Statements**

Statements in this material that relate to future results and events are forward-looking statements and are based on SecureWorks Corp.'s current expectations. These forwardlooking statements include, but are not limited to, the statements in this presentation with respect to the Company's expectations regarding total revenue, non-GAAP net earnings per share, and adjusted EBITDA for the third quarter of fiscal 2025, and total revenue, total annual recurring revenue ("ARR"), non-GAAP net income (loss), non-GAAP net earnings per share, and adjusted EBITDA for full year fiscal 2025, all of which reflect the Company's current analysis of existing trends and information. In some cases, you can identify these statements by such forward-looking words as "anticipate," "believe," "could," "estimate," "expect," "intend," "confidence," "may," "plan," "potential," "should" and "would." or similar expressions. Actual results and events in future periods may differ materially from those expressed or implied by these forward-looking statements because of a number of risks, uncertainties and other factors, including those discussed in SecureWorks Corp.'s periodic reports filed with the Securities and Exchange Commission. These forward-looking statements speak only as of the date of this presentation. We assume no obligation to update its forward-looking statements.
