Our high-quality portfolio remains 99% occupied, with rent coverage of 4.6 times. Importantly, we acquired another \$49.3 million of properties in the quarter, bringing our year-to-date acquisition volume to \$163.2 million, and increasing our in-place annualized base rent to more than \$100 million. Our strong and steady performance so far in 2021 can be attributed to our focused efforts and the hard work of our entire team.”

Financial Results

Rental revenue for the third quarter of 2021 increased 19.6% year-over-year to \$30.0 million, reflecting the growth in the Company’s portfolio.

Total expenses for the third quarter were \$24.6 million, compared to \$34.7 million for the comparable prior year period, with this decrease primarily reflecting the non-recurring expenses incurred in the third quarter of 2020 related to the internalization of management. Interest expense for the third quarter was \$4.8 million, compared to \$4.9 million for the comparable prior year period. This change reflects the net impact of slightly higher average borrowings during the quarter and a lower cost of funds compared to the prior year period.

Net income attributable to common stockholders for the third quarter totaled \$3.7 million, or \$0.06 per diluted share, compared to a net loss of \$(10.3) million, or \$(0.22) per diluted share, in the comparable prior year period.

The Company reported FFO of \$0.23 per share and unit for the third quarter, as compared to \$(0.03) per share and unit in the comparable prior year period. AFFO was \$0.24 per share and unit for the third quarter versus \$0.23 per share and unit in the comparable prior year period.

Investment Activity

During the third quarter of 2021, the Company completed five acquisitions, encompassing an aggregate 187,067 leasable square feet, for an aggregate purchase price of \$49.3 million. The properties were purchased at a 7.6% weighted average cap rate.

As of November 2, 2021, the Company has three properties under contract for an aggregate purchase price of \$23.9 million. The properties are currently in the due diligence period and we can make no assurances that the acquisitions will close on a timely basis if at all.

On October 13, 2021, the Company sold a medical office building in Prescott, Arizona, for gross proceeds of \$5.5 million, generating a gain of approximately \$1.1 million.

Also in October 2021, the Company entered into a contract to sell one of its four medical office buildings in Belpre, Ohio, for gross proceeds of \$44.6 million. The Company’s book basis in this property was approximately \$29.7 million as of September 30, 2021. The transaction is expected to be completed no earlier than March 2022. The buyer is in the due diligence period and the transaction is subject to various closing contingencies. Accordingly, the transaction may not close on a timely basis or the buyer may terminate the purchase

agreement and not close the transaction. The Company intends to reinvest the sales proceeds in 2022.

Portfolio Update

As of September 30, 2021, the Company's portfolio was 98.9% occupied and comprised of 4.2 million leasable square feet with an annualized base rent of \$100.8 million. ABOUT GLOBAL MEDICAL REIT

Global Medical REIT Inc. is net-lease medical office REIT that acquires purpose-built specialized healthcare facilities and leases those facilities to strong healthcare systems and physician groups with leading market share.

NON-GAAP FINANCIAL MEASURES

General

Management considers certain non-GAAP financial measures to be useful supplemental measures of the Company's operating performance. For the Company, non-GAAP measures consist of EBITDAre, Adjusted EBITDAre, FFO and AFFO. A non-GAAP financial measure is generally defined as one that purports to measure financial performance, financial position or cash flows, but excludes or includes amounts that would not be so adjusted in the most comparable measure determined in accordance with GAAP. The Company reports non-GAAP financial measures because these measures are observed by management to also be among the most predominant measures used by the REIT industry and by industry analysts to evaluate REITs. For these reasons, management deems it appropriate to disclose and discuss these non-GAAP financial measures.

The non-GAAP financial measures presented herein are not necessarily identical to those presented by other real estate companies due to the fact that not all real estate companies use the same definitions. These measures should not be considered as alternatives to net income, as indicators of the Company's financial performance, or as alternatives to cash flow from operating activities as measures of the Company's liquidity, nor are these measures necessarily indicative of sufficient cash flow to fund all of the Company's needs. Management believes that in order to facilitate a clear understanding of the Company's historical consolidated operating results, these measures should be examined in conjunction with net income and cash flows from operations as presented elsewhere herein.

FFO and AFFO

FFO and AFFO are non-GAAP financial measures within the meaning of the rules of the United States Securities and Exchange Commission ("SEC"). The Company considers FFO and AFFO to be important supplemental measures of its operating performance and believes FFO is frequently used by securities analysts, investors, and other interested parties in the evaluation of REITs, many of which present FFO when reporting their results. In accordance with the National Association of Real Estate Investment Trusts' ("NAREIT") definition, FFO means net income or loss computed in accordance with GAAP before non-controlling interests of holders of OP units and LTIP units, excluding gains (or losses) from sales of property and extraordinary items, less preferred stock dividends, plus real estate-related depreciation and amortization (excluding amortization of debt issuance costs and above and below market lease amortization expense), and after adjustments for unconsolidated partnerships and joint ventures. Because FFO excludes real estate-related depreciation and amortization (other than amortization of debt issuance costs and above and below market lease amortization expense), the Company believes that FFO provides a performance measure that, when compared period-over-period, reflects the impact to operations from trends in occupancy rates, rental rates, operating costs, development activities and interest costs, providing perspective not immediately apparent from the closest

GAAP measurement, net income or loss.

AFFO is a non-GAAP measure used by many investors and analysts to measure a real estate company's operating performance by removing the effect of items that do not reflect ongoing property operations. Management calculates AFFO by modifying the NAREIT computation of FFO by adjusting it for certain cash and non-cash items and certain recurring and non-recurring items. For the Company these items include: (a) recurring acquisition and disposition costs, (b) loss on the extinguishment of debt, (c) recurring straight line deferred rental revenue, (d) recurring stock-based compensation expense, (e) recurring amortization of above and below market leases, (f) recurring amortization of debt issuance costs, (g) recurring lease commissions, (h) management internalization costs and (i) other items.

Management believes that reporting AFFO in addition to FFO is a useful supplemental measure for the investment community to use when evaluating the operating performance of the Company on a comparative basis.

EBITDAre and Adjusted EBITDAre

We calculate EBITDAre in accordance with standards established by NAREIT and define EBITDAre as net income or loss computed in accordance with GAAP plus depreciation and amortization, interest expense, gain or loss on the sale of investment properties, and impairment loss, as applicable.

We define Adjusted EBITDAre as EBITDAre plus non-cash stock compensation expense, non-cash intangible amortization related to above and below market leases, preacquisition expense and other normalizing items. Management considers EBITDAre and Adjusted EBITDAre important measures because they provide additional information to allow management, investors, and our current and potential creditors to evaluate and compare our core operating results and our ability to service debt.

RENT COVERAGE RATIO

For purposes of calculating our portfolio weighted-average EBITDARM coverage ratio ("Rent Coverage Ratio"), we excluded credit-rated tenants or their subsidiaries for which financial statements were either not available or not sufficiently detailed. These ratios are based on latest available information only. Most tenant financial statements are unaudited and we have not independently verified any tenant financial information (audited or unaudited) and, therefore, we cannot assure you that such information is accurate or complete. Certain other tenants (approximately 12% of our portfolio) are excluded from the calculation due to (i) lack of available financial information or (ii) receipt of significant COVID-19 relief funds that may cause reported coverage to differ materially from underlying performance. Additionally, our Rent Coverage Ratio adds back physician distributions and compensation. Management believes all adjustments are reasonable and necessary.

ANNUALIZED BASE RENT

Annualized base rent represents monthly base rent for most recent month or month of acquisition, multiplied by 12 (or actual NOI where more reflective of property performance). In addition, two of our properties are presented on a cash-collected basis. Accordingly, this methodology produces an annualized amount as of a point in time but does not take into

account future contractual rental rate increases.

FORWARD-LOOKING STATEMENTS

Certain statements contained herein may be considered “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995, and it is the Company’s intent that any such statements be protected by the safe harbor created thereby. These forward-looking statements are identified by their use of terms and phrases such as “anticipate,” “believe,” “could,” “estimate,” “expect,” “intend,” “may,” “should,” “plan,” “predict,” “project,” “will,” “continue” and other similar terms and phrases, including references to assumptions and forecasts of future results.
