

Phio Pharmaceuticals Announces Presentation at the 9th Annual CAR-TCR Summit in Boston, MA

Phio's INTASYL self-delivering RNAi technology enhances cell potency and yield in Adoptive Cell Therapy

Marlborough, Massachusetts--(Newsfile Corp. - September 16, 2024) - Phio Pharmaceuticals Corp. (NASDAQ: PHIO), a clinical stage biotechnology company whose proprietary INTASYL® siRNA gene silencing technology is designed to make immune cells more effective in killing tumor cells, today announced that it is presenting data about its INTASYL technology platform which represents an innovative and flexible solution for adoptive cell therapy providing compounds designed specifically to enhance cell potency and improve overall yield, offering a more effective approach for treating cancer.

The data will be presented at the CAR-TCR Summit taking place September 17-20 in Boston, MA.

Presentation Details are as follows:

Title: INTASYL Self-Delivering RNAi: A Flexible Platform to Improve Adoptive Cell Therapy
Presenting Author: Melissa Maxwell
Date and Time: Tuesday, September 17th from 6:00 -7:30 pm
Location: Hynes Convention Center, 900 Boylston St, Boston, MA

About Phio Pharmaceuticals Corp.

Phio Pharmaceuticals Corp. (NASDAQ: PHIO) is a clinical stage biotechnology company whose proprietary technology, INTASYL, precisely silences virtually any gene in the human genome. In addition to targeting solid tumors, INTASYL can effectively enhance applications in adoptive cell therapy.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by words such as "intends," "believes," "anticipates," "indicates," "plans," "expects," "suggests," "may," "would," "should," "potential," "designed to," "will," "ongoing," "estimate," "forecast," "target," "predict," "could" and similar references, although not all forward-looking statements contain these words. These statements are based only on our current beliefs, expectations and assumptions and are subject to inherent uncertainties, risks and changes in circumstances that are difficult to predict and many of which are outside of our control. Our actual results may differ materially from those indicated in the forward-looking statements as a result of a number of important factors, including, but not limited to, the impact to our business and operations by inflationary pressures, rising interest rates, recession fears, the development of our product candidates, results from our preclinical and clinical activities, our ability to execute on business strategies, our ability to develop our product candidates with collaboration partners, and the success of any such collaborations, the timeline and duration for advancing our product candidates into clinical development, the timing or likelihood of regulatory filings and approvals, the success of our efforts to commercialize our product candidates if approved, our ability to manufacture and supply our product candidates for clinical activities, and for commercial use

if approved, the scope of protection we are able to establish and maintain for intellectual property rights covering our technology platform, our ability to obtain future financing, market and other conditions and those identified in our Annual Report on Form 10-K and subsequent Quarterly Reports on Form 10-Q under the caption "Risk Factors" and in other filings the Company periodically makes with the SEC. Readers are urged to review these risk factors and to not act in reliance on any forward-looking statements, as actual results may differ from those contemplated by our forward-looking statements. Phio does not undertake to update forward-looking statements to reflect a change in its views, events or circumstances that occur after the date of this release, except as required by law.
