Overview

We are a business development company (“BDC”) that seeks to generate both current income and capital appreciation through debt and equity investments. Our investment focus is on debt obligations of middle-market companies as well as small businesses. We invest primarily in senior secured and senior unsecured debt investments, as well as in junior loans and mezzanine debt of middle-market companies and small businesses. We will from time to time make equity investments as part of restructuring credits and in rare instances reserve the right to make equity investments directly.

On September 27, 2016, we and Great Elm Capital Management, Inc. (“GECM”), our external manager, entered into an Investment Management Agreement and an Administration Agreement, and, upon closing the Merger (as discussed below), we began to accrue obligations to our external investment manager under those agreements.

Beginning with our tax year starting October 1, 2016, we have elected to be treated as a Regulated Investment Company (“RIC”) for U.S. federal income tax purposes. As a RIC, we will not be taxed on our income to the extent that we distribute such income each year and satisfy other applicable income tax requirements. To qualify as a RIC, we must, among other things, meet source-of-income and asset diversification requirements and annually distribute to our stockholders generally at least 90% of our investment company taxable income on a timely basis. If we qualify as a RIC, we generally will not have to pay corporate level taxes on any income that we distribute to our stockholders.

Formation Transactions

On June 23, 2016, we entered into a Subscription Agreement, under which:

- On June 23, 2016, Great Elm Capital Group, Inc. (“GEC”) contributed \$30,000 in exchange for 1,966,667 shares of our common stock.
- On September 27, 2016, before we elected to be a BDC, funds (the “MAST Funds”) managed by MAST Capital Management, LLC (“MAST”) contributed to us the Initial GECC Portfolio (as discussed in our consolidated financial statements) that we valued at \$90,000 in exchange for 5,935,800 shares of our common stock.

For financial reporting purposes, we have accounted for the contribution of the Initial GECC Portfolio as an asset acquisition per Topic 805, *Business Combinations*, of the Accounting Standards Codification (“ASC”). For tax purposes, we recorded our basis in the Initial GECC Portfolio at the fair market value of the Initial GECC Portfolio as of the date of contribution.

Under the Subscription Agreement, upon consummation of the Merger, we became obligated to reimburse the costs incurred by GEC and the MAST Funds in connection with the Merger and the transactions contemplated by the Subscription Agreement.

Following the closing of the Merger, we entered into a registration rights agreement with GEC and the MAST Funds.

Full Circle Merger

On June 23, 2016, we entered into an Agreement and Plan of Merger (the “Merger Agreement”) with Full Circle. On November 3, 2016:

- We acquired, by operation of the Merger, Full Circle’s portfolio that we valued at \$74,658 at November 3, 2016;
- We became obligated to issue an aggregate of 4,986,585 shares of our common stock to former Full Circle stockholders; and
- Our exchange agent paid a \$5,393 special cash dividend to former Full Circle stockholders.

We accounted for the Merger as a business combination under ASC Topic 805 and Regulation S-X’s purchase accounting guidance. GECC was designated as the acquirer for accounting purposes. The difference between the fair value of Full Circle’s net assets and the consideration was recorded as a purchase accounting loss because the fair value of the assets acquired and liabilities assumed, as of the date of the Merger, was less than that of the merger consideration paid.

Investments

Our level of investment activity varies substantially from period to period depending on many factors, including, among others, the amount of debt and equity capital available from other sources to middle-market companies, the level of merger and acquisition activity, pricing in the high yield and leveraged loan credit markets, our expectations of future investment opportunities, the general economic environment as well as the competitive environment for the types of investments we make.

As a BDC, our investments and the composition of our portfolio are required to comply with regulatory requirements.

Revenues

We generate revenue primarily from interest on the debt investments that we hold. We also may generate revenue from dividends on the equity investments that we hold, capital gains on the disposition of investments, and lease, fee, and other income. Our investments in fixed income instruments generally have an expected maturity of three to five years, although we have no lower or upper constraint on maturity. Our debt investments generally pay interest quarterly or semi-annually. Payments of principal of our debt investments may be amortized over the stated term of the investment, deferred for several years or due entirely at maturity. In some cases, our debt investments and preferred stock investments may defer payments of cash interest or dividends or pay in kind (“PIK”). In addition, we may generate revenue in the form of prepayment fees, commitment, origination, due diligence fees, end-of-term or exit fees, fees for providing significant managerial assistance, consulting fees and other investment-related income.

Expenses

Our primary operating expenses include the payment of a base management fee, administration fees (including the allocable portion of overhead under the administration agreement), and, depending on our operating results, an incentive fee. The base management fee and incentive fee remunerates GECM for work in identifying, evaluating, negotiating, closing and monitoring our investments. Our administration agreement provides for reimbursement of costs and expenses incurred for office space rental, office equipment and utilities allocable to us under the Administration Agreement, as well as costs and expenses incurred relating to non-investment advisory, administrative or operating services provided by GECM or its affiliates to us. We also bear all other costs and expenses of our operations and transactions. Our expenses include interest on our outstanding indebtedness.

Critical Accounting Policies

Valuation of Portfolio Investments

We value our portfolio investments at fair value based upon the principles and methods of valuation set forth in policies adopted by our board of directors (our “Board”). Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date.

Investments for which market quotations are readily available are valued at such market quotations unless the quotations are deemed not to represent fair value. We generally obtain market quotations from recognized exchanges, market quotation systems, independent pricing services or one or more broker-dealers or market makers. Short term debt investments with remaining maturities within ninety days are generally valued at amortized cost, which approximates fair value.

Debt and equity securities for which market quotations are not readily available or for which market quotations are deemed not to represent fair value, are valued at fair value using a valuation process consistent with our Board-approved policy. Our Board approves in good faith the valuation of our portfolio as of the end of each quarter. Due to the inherent uncertainty and subjectivity of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may differ significantly from the values that would have been used had a readily available market value existed for such investments and may differ materially from the values that we may ultimately realize. In addition, changes in the market environment and other events may impact the market quotations used to value some of our investments.

The valuation process approved by our Board with respect to investments for which market quotations are not readily available or for which market quotations are deemed not to represent fair value is as follows:

- The investment professionals of GECM provide recent portfolio company financial statements and other reporting materials to an independent valuation firm (or firms) approved by the Board;
- Such firms evaluate this information along with relevant observable market data to conduct independent appraisals each quarter, and their preliminary valuation conclusions are documented, discussed, and iterated with senior management of GECM;
- The fair value of investments comprising in the aggregate less than 5% of our total capitalization may be determined by GECM in good faith in accordance with our valuation policy without the employment of an independent valuation firm.; and
- Our audit committee recommends, and our Board determines, the fair value of the investments in our portfolio in good faith based on the input of GECM, our independent valuation firms (to the extent applicable) and the business judgment of our audit committee and our Board, respectively.

Those investments for which market quotations are not readily available or for which market quotations are deemed not to represent fair value are valued utilizing a market approach, an income approach, or both approaches, as appropriate. The market approach uses prices and other relevant information generated by market transactions involving comparable assets or liabilities (including a business). The income approach uses valuation techniques to convert future amounts (for example, cash flows or earnings) to a single present amount. In following these approaches, the types of factors that we may take into account in determining the fair value of our investments include, among other factors: available current market data, including relevant and applicable market trading and transaction comparables; applicable market yields and multiples, security covenants, call protection provisions, information rights, the nature and realizable value of any collateral; the portfolio company’s ability to make payments, its earnings and discounted cash flows, the markets in which the portfolio company does business, comparisons of financial ratios of peer companies that are public, merger and acquisition comparables; and enterprise values.

We prefer the use of observable inputs and minimize the use of unobservable inputs in our valuation process. Inputs refer broadly to the assumptions that market participants would use in pricing an asset. Observable inputs are inputs that reflect the assumptions market participants would use in pricing an asset developed based on market data obtained from sources independent of us. Unobservable inputs are inputs that reflect our assumptions about the assumptions market participants would use in pricing an asset developed based on the best information available in the circumstances.

Investments are classified by GAAP into the three broad levels as follows:

- Level 1 Investments valued using unadjusted quoted prices in active markets for identical assets.
- Level 2 Investments valued using other unadjusted observable market inputs, e.g. quoted prices for our securities in markets that are not active or quotes for comparable instruments.
- Level 3 Investments that are valued using quotes for our securities or comparable instruments and other observable market data to the extent available, but which also take into consideration one or more unobservable inputs that are significant to the valuation taken as a whole.

All Level 3 investments that comprise more than 5% of the investments of the fund are valued by independent third parties.

Revenue Recognition

Interest and dividend income, including PIK income, is recorded on an accrual basis. Origination, structuring, closing, commitment and other upfront fees, including original issue discounts (“OID”), earned with respect to capital commitments are generally amortized or accreted into interest income over the life of the respective debt investment, as are end-of-term or exit fees receivable upon repayment of a debt investment if such fees are fixed in nature. Other fees, including certain amendment fees, prepayment fees and commitment fees on broken deals, and end-of-term or exit fees that have a contingency feature or are variable in nature are recognized as earned. Prepayment fees and similar income due upon the early repayment of a loan or debt security are recognized when earned and are included in interest income.

We may purchase debt investments at a discount to their face value. Discounts on the acquisition of corporate debt instruments are generally amortized using the effective-interest or constant-yield method, unless there are material questions as to collectability. For debt instruments where we are amortizing OID, when principal payments on the debt instrument are received in an amount in excess of the debt instrument’s amortized cost, the excess principal payments are recorded as interest income.

Net Realized Gains (Losses) and Net Change in Unrealized Appreciation (Depreciation)

We measure realized gains or losses by the difference between the net proceeds from the repayment or sale of an investment and the amortized cost basis of the investment, without regard to unrealized appreciation or depreciation previously recognized. Realized gains and losses are computed using the first-in, first-out method. Net change in unrealized appreciation or depreciation reflects the net change in portfolio investment values and portfolio investment cost bases during the reporting period, including the reversal of previously recorded unrealized appreciation or depreciation when gains or losses are realized.

Portfolio and Investment Activity

The following is a summary of our investment activity since our inception in April 2016:

Time Period	Acquisitions ⁽¹⁾	Dispositions ⁽²⁾	Weighted Average Interest Rate End of Period ⁽³⁾
Formation Transactions	\$ 90,494	\$ —	
Merger	74,658	—	
November 4, 2016 through December 31, 2016	42,006	(41,738)	10.00%

For the nine months ended September 30, 2017	146,714	(135,212)	
Since inception	\$ 353,872	\$ (176,950)	

- (1) Includes new deals, additional fundings (inclusive of those on revolving credit facilities), refinancings and PIK income. Investments in short-term securities, including United States Treasury Bills and money market mutual funds, were excluded.
- (2) Includes scheduled principal payments, prepayments, sales and repayments (inclusive of those on revolving credit facilities). Investments in short-term securities, including United States Treasury Bills and money market mutual funds, were excluded.
- (3) Weighted average interest rate is based upon the stated coupon rate and par value of outstanding debt securities at the measurement date. Debt securities on non-accrual status are included in the calculation and are treated as having 0.00% as their interest rate for purposes of this calculation.

Portfolio Reconciliation

The following is a reconciliation of the investment portfolio for the nine months ended September 30, 2017 and the period from inception through December 31, 2016:

	For the nine months ended September 30, 2017	For the period from inception through December 31, 2016

Portfolio Investments repaid or sold	(135,212)	(41,738)
Net change in unrealized (appreciation) depreciation on investments ⁽²⁾	(20,643)	(13,455)
Net realized gain (loss) on investments	3,420	274
Ending Investment Portfolio	<u>\$ 153,137</u>	<u>\$ 154,677</u>

- (1) Includes PIK income.
- (2) Does not include any fair value adjustment on PIK interest receivable.

Investments in short-term securities, including United States Treasury Bills and money market mutual funds, were excluded.

During the three and nine months ended September 30, 2017, we recorded net unrealized depreciation of \$(12,361) and \$(22,382), respectively. (\$1,739) of the unrealized depreciation was related to valuation of PIK interest receivable at September 30, 2017.

During the three and nine months ended September 30, 2017, we recorded net realized gains on investments of \$59 and \$3,420, respectively. Included in the net realized gains on investments for the nine months ended September 30, 2017 was our disposition of our investment in JN Medical, which resulted in a \$1,007 gain. We also realized gains of \$1,134 on the sale of our Everi Payments bonds, \$371 on the partial sale and partial prepayments of our loan to Sonifi, and \$341 on the sale of our Chester Downs bonds.

Portfolio Classifications

The following table shows the fair value of our portfolio of investments by asset class as of September 30, 2017:

(1) Amounts are based on a weighted average of 11,988,368 shares for the nine months ended September 30, 2017.

Total expenses for nine months ended September 30, 2017 were \$8,806, prior to giving effect to the impact of our reversal of the administration fee waiver accrual.

Total investment management fees were \$4,470, with \$1,686 of management fees and \$2,784 of incentive fees accrued during the period. We deferred incentive fees per our investment management agreement.

Total administration fees were \$1,054, which includes direct costs reimbursable under our administration agreement and fees paid for sub-administration services. In the quarter ended June 30, 2017, we reversed the previously accrued administration fee waiver based on our updated expenses accrued from November 4, 2016. This reversal had the effect of increasing our total expenses for that quarter. The final cap on costs will be determined after completion of the year ending November 4, 2017.

Interest expense for the period was \$1,979 for the nine months ended September 30, 2017, and includes interest on our 2020 Notes and GECCL Notes for the period subsequent to their issuance. See —Notes Payable for further information.

Net investment income for the nine months ended September 30, 2017 was \$11,142.

Net Realized Gains (Losses) on Investments

During the nine months ended September 30, 2017, we recorded net realized gains of \$3,420, primarily in connection with our disposition of our investment in JN Medical, which resulted in a \$1,007 gain, and sales of our position in Everi Payments, which resulted in realized gains of \$1,134. We also realized gains of \$341 on the sale of our Chester Downs bonds, \$371 on the partial sale and partial prepayments of our loan to Sonifi, and \$281 on the sale of our Trilogy International bonds.

Net Change in Unrealized Appreciation (Depreciation) on Investments

Net change in unrealized appreciation (depreciation) on investments was (\$22,382) for the nine months ended September 30, 2017. The following table summarizes the significant changes in unrealized appreciation (depreciation) of our investment portfolio, for the nine months ended September 30, 2017 by portfolio company.

Liquidity and Capital Resources

At September 30, 2017, we had approximately \$8,018 of cash and cash equivalents, none of which was restricted in nature. At September 30, 2017, we also had \$52,269 invested in a money market fund that is classified as an investment rather than cash and cash equivalents.

At September 30, 2017, we had investments in debt securities of 20 companies, totaling approximately \$152,788 at fair value and equity investments in seven companies, totaling approximately \$349 at fair value. \$4,588 of cumulative accrued PIK income is included in carrying value of our investments.

In the normal course of business, we may enter into investment agreements under which we commit to make an investment in a portfolio company at some future date or over a specified period of time. As of September 30, 2017, we had approximately \$7,088 in unfunded loan commitments, subject to our approval in certain instances, to provide debt financing to certain of our portfolio companies. There were no unrealized gains or losses on these commitments as of September 30, 2017. We had sufficient cash and other liquid assets on our September 30, 2017 balance sheet to satisfy the unfunded commitments.

For the nine months ended September 30, 2017, cash provided by operating activities, consisting primarily of net purchases of investments and the items described in "Results of Operations," was approximately \$56,894, reflecting the purchases and repayments of investments, net investment income resulting from operations, offset by non-cash income related to OID and PIK income, changes in working capital and accrued interest receivable. Net cash used for purchases and sales of investments was approximately \$11,502, reflecting principal repayments and sales of \$135,212, offset by additional investments of \$146,714. Such amounts included draws and repayments on revolving credit facilities. Our Board previously set our distribution rate at \$0.083 per share per month and we intend to re-evaluate our dividend rate from time to time.

Stock Buyback Program

We implemented a stock buyback program pursuant to Rule 10b5-1 and Rule 10b-18 under the Exchange Act to repurchase our shares in an aggregate amount of up to \$15,000 through May 2018 at market prices at any time our shares trade below 90% of NAV, subject to our compliance with our liquidity, covenant, leverage and regulatory requirements. Our Board has increased the overall size of the stock buyback program by a further \$35,000.

Off-Balance Sheet Arrangements

We currently have no off-balance sheet arrangements, including any risk management of commodity pricing or other hedging practices.

Notes Payable

On November 3, 2016, we assumed approximately \$33,646 in aggregate principal amount of Full Circle's 8.25% Notes due June 30, 2020 (the "2020 Notes"). The 2020 Notes were our unsecured obligations and ranked senior in right of payment to our existing and future indebtedness that is expressly subordinated in right of payment to the 2020 Notes; equal in right of payment to our existing and future unsecured indebtedness that is not so subordinated; effectively junior in right of payment to any of our secured indebtedness (including existing unsecured indebtedness that we later secure) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by our subsidiaries or financing vehicles. Interest on the 2020 Notes was paid quarterly in arrears at a rate of 8.25% per annum. The 2020 Notes had a maturity date of June 30, 2020. On October 20, 2017, we redeemed the 2020 Notes completely at their par value plus accrued and unpaid interest.

On September 18, 2017, we sold \$28,375 in aggregate principal amount of 6.50% notes due 2022 (the "GECCL Notes"). On September 29, 2017, we sold an additional \$4,256 of the GECCL Notes upon full exercise of the underwriters' over-allotment option. As a result of the issuance of these Notes, the aggregate principal balance of Notes outstanding is \$32,631.

The GECCL Notes are our unsecured obligations and rank equal with all of our outstanding and future unsecured unsubordinated indebtedness. The GECCL Notes will be effectively subordinated, or junior in right of payment, to any future secured indebtedness that we may incur and structurally subordinated to all future indebtedness and other obligations of our subsidiaries. We will pay interest on the GECCL Notes on January 31, April 30, July 31 and October 31 of each year, beginning October 31, 2017. The GECCL Notes will mature on September 18, 2022 and can be called on, or after, September 18, 2019. Holders of the GECCL Notes will not have the option to have the GECCL Notes repaid prior to the stated maturity date. The GECCL Notes were issued in minimum denominations of \$25 and integral multiples of \$25 in excess thereof.

Recent Developments

On October 20, 2017, the 2020 Notes that were assumed in the Merger were redeemed in full.

In October 2017, the loans to Geo Specialty Chemicals, Inc. were extended to now mature on April 30, 2019.

In October 2017, the DIP loan to Optima Specialty Steel, Inc. was extended to now mature on November 30, 2017.

In October 2017, we purchased an additional \$3.0 million par value of International Wire Group, Inc bonds at a price of approximately 91.5% of par value.

Our Board declared the monthly distributions for the first quarter of 2018 at an annual rate of approximately 8.05% of our September 30, 2017 NAV, which equates to \$0.083 per month. The schedule of distribution payments is as follows:

Month	Rate	Record Date	Payable Date
January	\$ 0.083	January 31, 2018	February 15, 2018
February	\$ 0.083	February 28, 2018	March 15, 2018
March	\$ 0.083	March 30, 2018	April 16, 2018

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We are subject to financial market risks, including changes in interest rates. As of September 30, 2017, 9 debt investments in our portfolio bore interest at a fixed rate, and the remaining 15 debt investments were at variable rates, representing approximately \$76,000 and \$76,826 in debt at fair value, respectively. The variable rates are based upon LIBOR.

To illustrate the potential impact of a change in the underlying interest rate on our net investment income, we have assumed a 1%, 2%, and 3% increase and 1%, 2%, and 3% decrease in the underlying LIBOR rate, and no other change in our portfolio as of September 30, 2017. We have also assumed that we have no outstanding floating rate borrowings. The below table illustrates the effect such assumed rate changes would have had on net investment income for the nine months ended September 30, 2017.

LIBOR Increase (Decrease)	Increase (decrease) of Net Investment Income
3.00%	\$ 2,417
2.00%	\$ 1,631
1.00%	\$ 845
-1.00%	\$ (267)
-2.00%	\$ (312)
-3.00%	\$ (312)

This analysis does not adjust for changes in the credit quality, size and composition of our portfolio, and other business developments that could affect the net increase in net assets resulting from operations. Accordingly, no assurance can be given that actual results would not differ materially from the results under this hypothetical analysis.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

As of September 30, 2017, we, including our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Exchange Act). Based on that evaluation, our management, including our Chief Executive Officer and Chief Financial Officer, concluded that our disclosure controls and procedures were effective and provided reasonable assurance that information required to be disclosed in our periodic SEC filings is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. However, in evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Changes in Internal Controls Over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) during the quarter ended September 30, 2017 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings.

From time to time, we or GECM may be a party to certain legal proceedings in the ordinary course of business, including proceedings relating to the enforcement of our rights under contracts with our portfolio companies. See Note 6 to our unaudited consolidated financial statements.

Item 1A. Risk Factors.

Investing in our common stock involves a number of significant risks. There have been no material changes from the risk factors previously disclosed in our Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None.

Issuer Purchases of Equity Securities

In the prospectus for the Merger, we announced that we would initiate a stock buyback program in an aggregate amount of \$15,000. This program expires in May 2018. For the nine months ended September 30, 2017, we purchased 2,061,049 shares under our stock buyback program and our tender offer, at a weighted average price of \$11.23 per share. As of November 6, 2017 we have cumulatively purchased 1,357,079 shares under our stock buyback program at a weighted average price of \$10.98 per share, resulting in \$14,900 of cumulative cash paid, under the program since November 4, 2016.

The accompanying notes are an integral part of these financial statements

- (1) The Company's investments are generally acquired in private transactions exempt from registration under the Securities Act of 1933 and, therefore, are generally subject to limitations on resale, and may be deemed to be "restricted securities" under the Securities Act of 1933.
- (2) A majority of the Company's variable rate debt investments bear interest at a rate that is determined by reference to LIBOR ("London Interbank Offered Rate") or the U.S. prime rate, and which is reset daily, monthly, quarterly or semiannually. For each debt investment, the Company has provided the interest rate in effect as of September 30, 2017. If no reference to LIBOR or the U.S. prime rate is made, the rate is fixed. A floor is the minimum rate that will be applied in calculating an interest rate. A cap is the maximum rate that will be applied in calculating an interest rate.
- (3) "Controlled Investments" are investments in those companies that are "Controlled Investments" of the Company, as defined in the Investment Company Act. A company is deemed to be a "Controlled Investment" of the Company if the Company owns more than 25% of the voting securities of such company.
- (4) "Affiliate Investments" are investments in those companies that are "Affiliated Companies" of the Company, as defined in the Investment Company Act, which are not "Controlled Investments." A company is deemed to be an "Affiliate" of the Company if the Company owns 5% or more, but less than 25%, of the voting securities of such company.
- (5) Investments classified as Level 3 whereby fair value was determined by the Company's board of directors.
- (6) The interest rate on these loans is subject to the greater of a LIBOR floor, if any, or 1 month LIBOR plus a base rate. The 1 month LIBOR as of September 30, 2017 was 1.24%.
- (7) Security pays, or has the option to pay, all of its interest in kind.
- (8) Non-income producing security.
- (9) Investment was on non-accrual status as of September 30, 2017.

- (10) Indicates assets that the Company believes do not represent “qualifying assets” under Section 55(a) of the Investment Company Act. Qualifying assets must represent at least 70% of the Company’s total assets at the time of acquisition of any additional non-qualifying assets. Of the Company’s total assets, 18.45% were non-qualifying assets as of September 30, 2017.
- (11) Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. Such security may be sold in certain transactions (normally to qualified institutional buyers) and remain exempt from registration.
- (12) The interest rate on these loans includes a default interest rate.
- (13) The interest rate on these loans is subject to the greater of a LIBOR floor or 3 month LIBOR plus a base rate. The 3 month LIBOR as of September 30, 2017 was 1.34%.
- (14) As of September 30, 2017, the aggregate gross unrealized appreciation for all securities in which there was an excess of value over tax cost was \$2,717; the aggregate gross unrealized depreciation for all securities in which there was an excess of tax cost over value was \$40,414; the net unrealized depreciation was \$37,697; the aggregate cost of securities for Federal income tax purposes was \$243,103.

- (1) The Company's investments are generally acquired in private transactions exempt from registration under the Securities Act of 1933 and, therefore, are generally subject to limitations on resale, and may be deemed to be "restricted securities" under the Securities Act of 1933.
- (2) A majority of the Company's variable rate debt investments bear interest at a rate that is determined by reference to LIBOR ("London Interbank Offered Rate") or the U.S. prime rate, and which is reset daily, monthly, quarterly or semiannually. For each debt investment, the Company has provided the interest rate in effect as of December 31, 2016. If no reference to LIBOR or the U.S. prime rate is made, the rate is fixed. A floor is the minimum rate that will be applied in calculating an interest rate. A cap is the maximum rate that will be applied in calculating an interest rate.
- (3) Investments classified as Level 3 whereby fair value was determined by the Company's board of directors.
- (4) The interest rate on these loans is subject to the greater of a LIBOR floor or 1 month LIBOR plus a base rate. The 1 month LIBOR as of December 31, 2016 was 0.77%.
- (5) Investment was on non-accrual status as of December 31, 2016.
- (6) Security exempt from registration pursuant to Rule 144A under the Securities Act of 1933. Such security may be sold in certain transactions (normally to qualified institutional buyers) and remain exempt from registration.

- (7) Indicates assets that the Company believes do not represent “qualifying assets” under Section 55(a) of the Investment Company Act. Qualifying assets must represent at least 70% of the Company’s total assets at the time of acquisition of any additional non-qualifying assets. Of the Company’s total assets, 20.0% are non-qualifying assets.
- (8) Security pays all or a portion of its interest in kind.
- (9) On January 27, 2017, Avanti announced the completion of its previously announced refinancing, with the settlement of its (1) consent solicitation to permit, among other things, the incurrence of up to \$132,500 in super senior indebtedness (the “PIK Toggle Notes”) and the payment of PIK interest on the Existing Notes in lieu of cash for certain future interest payments due on the Existing Notes, (2) the New Money Offer and (3) offer to holders participating in the New Money Offer to exchange a portion of their Existing Notes for additional PIK Toggle Notes. Holders who elected to backstop the New Money Offer also received their pro rata share of additional common equity issued by Avanti in an aggregate amount equal to 9.09% of Avanti’s total outstanding shares. Through completion of the consent solicitation and the New Money Offer, Avanti received \$80,000 of new cash funding, with an additional \$50,000 of funding available on a delayed draw basis, and will have the ability to defer up to \$112,000 of future interest payments through April 2018. The Company took part in the refinancing, exchanging \$22,900 of Existing Notes for new PIK Toggle Notes and purchasing an additional \$9,200 of PIK Toggle Notes for \$8,900 of funded cash. The Company continues to hold \$47,200 of the Existing Notes.
- (10) In February 2017, the Company sold its loan to JNI Medical Corporation for total consideration, including payment for expenses due under the loan agreement of \$3,000. The Company recognized approximately \$1,000 of realized gain on the sale.
- (11) In February 2016, the Pristine Environments, Inc. loans were refinanced at par plus accrued interest and fees, less approximately \$500 of remaining principal on the Term Loan B.
- (12) Non-income producing security.
- (13) “Affiliate Investments” are investments in those companies that are “Affiliated Companies” of the Company, a defined in the Investment Company Act, which are not “Controlled Investments.” A company is deemed to be an “Affiliate” of the Company if the Company owns 5% or more, but less than 25%, of the voting securities of such company.
- (14) In March 2017, the Optima Specialty Steel, Inc. note was refinanced at par plus accrued interest and fees.
- (15) The interest rate on these loans is subject to the greater of a LIBOR floor or 3 month LIBOR plus a base rate. The 3 month LIBOR as of December 31, 2016 was 1.00%.
- (16) “Controlled Investments” are investments in those companies that are “Controlled Investments” of the Company, as defined in the Investment Company Act. A company is deemed to be a “Controlled Investment” of the Company if the Company owns more than 25% of the voting securities of such company.

1. ORGANIZATION

Great Elm Capital Corp. (the “Company”) was formed on April 22, 2016 as a Maryland corporation. The Company is structured as an externally managed, non-diversified closed-end management investment company. The Company elected to be regulated as a business development company (a “BDC”) under the Investment Company Act of 1940, as amended (the “Investment Company Act”). The Company is managed by Great Elm Capital Management, Inc., a Delaware corporation (“GECM”), a subsidiary of Great Elm Capital Group, Inc., a Delaware corporation (“Great Elm Capital Group”).

The Company seeks to generate current income and capital appreciation through debt and equity investments. The Company invests primarily in secured and senior unsecured debt instruments that it purchases in the secondary markets.

The Company and Full Circle Capital Corporation, a Maryland corporation (“Full Circle”), entered into an Agreement and Plan of Merger, dated as of June 23, 2016 (the “Merger Agreement”). The Merger Agreement provided for the merger of Full Circle with and into the Company (the “Merger”). The Company agreed to provide indemnity to Full Circle’s directors and officers under certain circumstances. The Company has concluded that its indemnification obligation is remote as of the date of the accompanying financial statements. The Merger was completed on November 3, 2016 and the Company began operations on November 4, 2016. The Company accounted for the Merger as a business combination under Accounting Standards Codification (ASC) Topic 805, Business Combinations (“ASC 805”). The consideration for the Merger consisted of 4,986,585 shares of common stock, par value \$0.01 per share, of the Company (the “Common Stock”).

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation. The Company’s functional currency is U.S. dollars and these consolidated financial statements have been prepared in that currency. The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) and pursuant to Regulation S-X and Regulation S-K. The Company is an investment company following accounting and reporting guidance in Accounting Standards Codification Topic 946, *Financial Services – Investment Companies*.

Certain financial information that is normally included in annual financial statements, including certain financial statement footnotes, prepared in accordance with accounting principles generally accepted in the United States of America, is not required for interim reporting purposes and has been omitted from these financial statements. These financial statements should be read in conjunction with the Company’s consolidated financial statements and notes related thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2016. The consolidated financial statements include the accounts of the Company.

The Company’s December 31, 2016 consolidated financial statements were reclassified in order to be consistent with the format used for the September 30, 2017 consolidated financial statements.

Basis of Consolidation. Under the Investment Company Act, Article 6 of Regulation S-X and the American Institute of Certified Public Accountants’ *Audit and Accounting Guide for Investment Companies*, the Company is generally precluded from consolidating any entity other than another investment company or an operating company which provides substantially all of its services and benefits to the Company. The accompanying consolidated financial statements include the Company’s accounts and the accounts of the Company’s previously wholly-owned, subsidiaries TransAmerican Asset Servicing Group, Inc. and FC Shale Inc. All intercompany balances and transactions have been eliminated in consolidation.

Revenue Recognition. Interest and dividend income, including income paid-in-kind, is recorded on an accrual basis. Origination, structuring, closing, commitment and other upfront fees, including original issue discounts, earned with respect to capital commitments, are generally amortized or accreted into interest income over the life of the respective debt investment, as are end-of-term or exit fees receivable upon repayment of a debt investment if such fees are fixed in nature. The Company currently has no investments with exit fees. Other fees, including certain amendment fees, prepayment fees and commitment fees on broken deals, and end-of-term or exit fees that have a contingency feature or are variable in nature are recognized as earned. Prepayment fees and similar income due upon the early repayment of a loan or debt security are generally included in interest income.

Certain of the Company’s debt investments were purchased at a discount to par as a result of the underlying credit risks and financial results of the issuer, as well as general market factors that influence the financial markets as a whole. Discounts on the acquisition of corporate debt instruments are generally amortized using the effective-interest or constant-yield method assuming there are no material questions as to collectability. For debt instruments where the Company received original issue discounts, when principal payments on the

debt instrument are received in an amount in excess of the debt instrument's amortized cost, the excess principal payments are recorded as interest income.

Net Realized Gains (Losses) and Net Change in Unrealized Appreciation (Depreciation). The Company measures realized gains or losses by the difference between the net proceeds from the repayment or sale of an investment and the amortized cost basis of the investment, without regard to unrealized appreciation or depreciation previously recognized. Realized gains and losses are computed using the first-in first-out method. Net change in unrealized appreciation or depreciation reflects the net change in portfolio investment values and portfolio investment cost bases during the reporting period, including the reversal of previously recorded unrealized appreciation or depreciation when gains or losses are realized.

Use of Estimates. The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ materially.

Organization and Merger Related Costs. Organization and Merger-related costs, including costs relating to the formation and incorporation of the business were deemed to be incurred by the Company only subsequent to the Merger being completed.

Cash and Cash Equivalents. Cash and cash equivalents typically consist of bank demand deposits.

Valuation of Portfolio Investments. The Company carries its investments in accordance with ASC Topic 820, *Fair Value Measurements and Disclosures* ("ASC 820"), which defines fair value, establishes a framework for measuring fair value and requires disclosures about fair value measurements. Fair value is generally based on quoted market prices provided by independent pricing services, broker or dealer quotations or alternative price sources. In the absence of quoted market prices, broker or dealer quotations or alternative price sources, investments are measured at fair value as determined by the Company's board of directors (the "Board of Directors").

Due to the inherent uncertainties of valuation, certain estimated fair values may differ significantly from the values that would have been realized had a ready market for these investments existed, and these differences could be material. See Note 4.

The Company values its portfolio investments at fair value based upon the principles and methods of valuation set forth in policies adopted by the Board of Directors. Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Market participants are buyers and sellers in the principal (or most advantageous) market for the asset that (1) are independent of the Company, (2) are knowledgeable, having a reasonable understanding about the asset based on all available information (including information that might be obtained through due diligence efforts that are usual and customary), (3) are able to transact for the asset, and (4) are willing to transact for the asset (that is, they are motivated but not forced or otherwise compelled to do so).

Investments for which market quotations are readily available are valued at such market quotations unless the quotations are deemed not to represent fair value. The Company generally obtains market quotations from recognized exchanges, market quotation systems, independent pricing services or one or more broker-dealers or market makers. Short term debt investments with remaining maturities within ninety days are generally valued at amortized cost, which approximates fair value. Debt and equity securities for which market quotations are not readily available, which is the case for many of the Company's investments, or for which market quotations are deemed not to represent fair value, are valued at fair value using a consistently applied valuation process in accordance with the Company's documented valuation policy that has been reviewed and approved by the Board of Directors, who also approve in good faith the valuation of such securities as of the end of each quarter. Due to the inherent uncertainty and subjectivity of determining the fair value of investments that do not have a readily available market value, the fair value of the Company's investments may differ significantly from the values that would have been used had a readily available market value existed for such investments and may differ materially from the values that the Company may ultimately realize. In addition, changes in the market environment and other events may have differing impacts on the market quotations used to value some of the Company's investments than on the fair values of our investments for which market quotations are not readily available. Market quotations may be deemed not to represent fair value in certain circumstances where the Company believes that facts and circumstances applicable to an issuer, a seller or purchaser, or the market for a particular security cause current market quotations to not reflect the fair value of the security.

The valuation process approved by the Board of Directors with respect to investments for which market quotations are not readily available or for which market quotations are deemed not to represent fair value is as follows:

- The investment professionals of GECM provide recent portfolio company financial statements and other reporting materials to an independent valuation firm (or firms) approved by the Board of Directors;
- Such firms evaluate this information along with relevant observable market data to conduct independent appraisals each quarter, and their preliminary valuation conclusions are documented, discussed, and iterated with senior management of GECM;

- The fair value of investments comprising in the aggregate less than 5% of the Company's total capitalization may be determined by GECM in good faith in accordance with the Company's valuation policy without the employment of an independent valuation firm.

The Company's audit committee recommends, and the Board of Directors determines, the fair value of the investments in the Company's portfolio in good faith based on the input of GECM, the respective independent valuation firms (to the extent applicable) and the inputs of each of the audit committee of the Board of Directors and the Board of Directors;

Those investments for which market quotations are not readily available or for which market quotations are deemed not to represent fair value are valued utilizing a market approach, an income approach, or both approaches, as appropriate. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities (including a business). The income approach uses valuation techniques to convert future amounts (for example, cash flows or earnings) to a single present amount (discounted). The measurement is based on the value indicated by current market expectations about those future amounts. In following these approaches, the types of factors that the Company may take into account in determining the fair value of its investments include, as relevant and among other factors: available current market data, including relevant and applicable market trading and transaction comparables, applicable market yields and multiples, security covenants, call protection provisions, information rights, the nature and realizable value of any collateral, the portfolio company's ability to make payments, its earnings and discounted cash flows, the markets in which the portfolio company does business, comparisons of financial ratios of peer companies that are public, merger and acquisition comparables, and enterprise values.

Foreign Currency Translation. Amounts denominated in foreign currencies are translated into U.S. dollars on the following basis: (1) investments and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based upon currency exchange rates effective on the date of valuation; and (2) purchases and sales of investments and income and expense items denominated in foreign currencies are translated into U.S. dollars based upon currency exchange rates prevailing on the transaction dates. The portion of gains and losses on foreign investments resulting from fluctuations in foreign currencies is included in net realized and unrealized gain or loss from investments.

U.S. Federal Income Taxes. From inception to September 30, 2016, the Company was a taxable association under Internal Revenue Code of 1986, as amended (the "Code"). The Company has elected to be taxed as a regulated investment company ("RIC") under subchapter M of the Code for the partial taxable year beginning on October 1, 2016 and ending December 31, 2016. The Company intends to operate in a manner so as to qualify for the tax treatment applicable to RICs in that taxable year and all future taxable years. In order to qualify as a RIC, among other things, the Company will be required to timely distribute to its stockholders at least 90% of investment company taxable income ("ICTI") including payment-in-kind ("PIK") interest, as defined by the Code, for each taxable year in order to be eligible for tax treatment under subchapter M of the Code. Depending on the level of ICTI earned in a tax year, the Company may choose to carry forward ICTI in excess of current year dividend distributions into the next tax year. Any such carryover ICTI must be distributed prior to the 15th day of the ninth month after the tax year-end. So long as the Company maintains its status as a RIC, the Company generally will not be subject to corporate-level U.S. federal income taxes on any ordinary income or capital gains that it distributes at least annually to its stockholders as distributions. Rather, any tax liability related to income earned by the Company represents obligations of the Company's stockholders and will not be reflected in the financial statements of the Company.

If the Company does not distribute (or is not deemed to have distributed) each calendar year the sum of (1) 98% of its net ordinary income for each calendar year, (2) 98.2% of its capital gain net income for the one-year period ending October 31 in that calendar year and (3) any income recognized, but not distributed, in preceding years (the "Minimum Distribution Amount"), the Company will generally be required to pay an excise tax equal to 4% of the amount by which Minimum Distribution Amount exceeds the distributions for the year. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions from such taxable income, the Company accrues excise taxes, if any, on estimated excess taxable income as taxable income is earned using an annual effective excise tax rate. The annual effective excise tax rate is determined by dividing the estimated annual excise tax by the estimated annual taxable income.

The Company accrued \$80 of excise tax expense in fiscal 2016 and has accrued \$0 of excise tax expense in fiscal 2017.

At December 31, 2016, the Company, for federal income tax purposes, had capital loss carryforwards of \$41,842 which may reduce its taxable income arising from future net realized gains on investment transactions, if any, to the extent permitted by the Code, and thus will reduce the amount of distributions to shareholders, which would otherwise be necessary to relieve the Company of any liability for federal income or excise tax. Under tax regulations, capital losses incurred in taxable years beginning after December 2010 are considered deferred capital losses and are treated as arising on the first day of the Company's next taxable year, retaining the same short-term or long-term character as when originally deferred. Deferred capital losses are required to be used prior to capital loss carryforwards, which carry an expiration date. As a result of this ordering rule, capital loss carryforwards may be more likely to expire if unused. Of the capital loss carryforwards at December 31, 2016, \$34,502 are limited losses and available for use subject to annual limitation under Section 382. Of the deferred capital losses at December 31, 2016, \$7,651 were short-term.

ASC 740 *Accounting for Uncertainty in Income Taxes* (“ASC 740”) provides guidance on the accounting for and disclosure of uncertainty in tax position. ASC 740 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company’s tax returns to determine whether the tax positions are “more-likely-than-not” of being sustained by the applicable tax authority. Tax positions deemed to meet the more-likely-than-not threshold are recorded as a tax benefit or expense in the current year. Based on its analysis of its tax position for all open tax years (the current and prior years, as applicable), the Company has concluded that it does not have any uncertain tax positions that met the recognition or measurement criteria of ASC 740. Such open tax years remain subject to examination and adjustment by tax authorities.

Recent Accounting Developments.

In March 2017, FASB issued ASU No. 2017-08; *Receivables – Nonrefundable Fees and Other Costs (Subtopic 310-20) Premium Amortization on Purchased Callable Debt Securities*. The amendments in this Update shorten the amortization period for certain callable debt securities held at a premium. Specifically, the amendments require the premium to be amortized to the earliest call date. The amendments do not require an accounting change for securities held at a discount; the discount continues to be amortized to maturity. ASU No. 2017-08 is effective for annual reporting periods beginning after December 15, 2018, including interim periods within that reporting period, with early adoption permitted. The application of this guidance is not expected to have a material impact on the accompanying consolidated financial statements and related disclosures.

In October 2016, the U.S. Securities and Exchange Commission (“SEC”) adopted new rules and amended existing rules (together, “final rules”) intended to modernize the reporting and disclosure of information by registered investment companies. In part, the final rules amend Regulation S-X and require standardized, enhanced disclosures about derivatives in investment company financial statements, as well as other amendments. The compliance date for the amendments to Regulation S-X was August 1, 2017. Management adopted the final rules in presenting the accompanying consolidated financial statements and related disclosures.

3. SIGNIFICANT AGREEMENTS AND RELATED PARTIES

Investment Management Agreement. On September 27, 2016, the Company entered into an investment management agreement (the “Investment Management Agreement”) with GECM in connection with the transactions described in Note 8. Beginning on November 4, 2016, the Company began accruing for GECM’s fees for its services under the Investment Management Agreement. This fee consists of two components: a base management fee and an incentive fee.

Management Fee The base management fee is calculated at an annual rate of 1.50% of the Company’s average adjusted gross assets, including assets purchased with borrowed funds. The base management fee will be payable quarterly in arrears. The base management fee is calculated based on the average value of the Company’s gross assets, excluding cash and cash equivalents, at the end of the two most recently completed calendar quarters, and appropriately adjusted for any share issuances or repurchases during the then current calendar quarter. Base management fees for any partial quarter are prorated.

For the three and nine months ended September 30, 2017, management fees amounted to \$547 and \$1,686, respectively. As of September 30, 2017, \$547 remained payable and is included in our Statement of Assets and Liabilities in Due to Affiliates.

Incentive Fee The incentive fee consists of two components, an investment income component and a capital gains component. Under the investment income component, on a quarterly basis, the Company will pay GECM 20% of the amount by which the Company’s pre-incentive fee net investment income (the “Pre-Incentive Fee Net Investment Income”) for the quarter exceeds a hurdle rate of 1.75% (7.0% annualized) of the Company’s net assets at the end of the immediately preceding calendar quarter, subject to a “catch-up” provision pursuant to which GECM receives all of such income in excess of the 1.75% level but less than 2.1875% (8.75% annualized) and subject to a total return requirement (described below). The effect of the “catch-up” provision is that, subject to the total return provision, if pre-incentive fee net investment income exceeds 2.1875% of the Company’s net assets at the end of the immediately preceding calendar quarter, in any calendar quarter, GECM will receive 20.0% of the Company’s pre-incentive fee net investment income as if the 1.75% hurdle rate did not apply. These calculations will be appropriately prorated for any period of less than three months and adjusted for any share issuances or repurchases during the then current quarter.

Pre-Incentive Fee Net Investment Income includes any accretion of original issue discount, market discount, payment-in-kind interest, payment-in-kind dividends or other types of deferred or accrued income, including in connection with zero coupon securities, that the Company and its consolidated subsidiaries have recognized in accordance with GAAP, but have not yet received in cash (collectively, “Accrued Unpaid Income”). Pre-Incentive Fee Net Investment Income does not include any realized capital gains or losses or unrealized capital appreciation or depreciation. Accrued Unpaid Income as of September 30, 2017 was \$14,516. Accrued Unpaid Income includes PIK income of \$4,588 at September 30, 2017 and \$4,610 of accrued interest income that is expected to PIK under PIK toggle elections.

Any income incentive fee otherwise payable with respect to Accrued Unpaid Income (collectively, the “Accrued Unpaid Income Incentive Fees”) is deferred, on a security by security basis, and becomes payable only if, as, when and to the extent cash is received by the Company or its consolidated subsidiaries in respect thereof. Any Accrued Unpaid Income that is subsequently reversed in connection with a write-

down, write-off, impairment or similar treatment of the investment giving rise to such Accrued Unpaid Income will, in the applicable period of reversal, (A) reduce Pre-Incentive Fee Net Investment Income and (B) reduce the amount of Accrued Unpaid Income Incentive Fees previously deferred.

Under the capital gains component of the incentive fee, the Company is obligated to pay GECM at the end of each calendar year 20% of the aggregate cumulative realized capital gains from November 4, 2016 through the end of that year, computed net of aggregate cumulative realized capital losses and aggregate cumulative unrealized depreciation through the end of such year, less the aggregate amount of any previously paid capital gains incentive fees.

Payment of the incentive fee is subject to a total return requirement, which provides that no incentive fee in respect of the Company's pre-incentive fee net investment income will be payable except to the extent that 20% of the cumulative net increase in net assets resulting from operations from and after November 4, 2016 exceeds the cumulative incentive fees accrued and/or paid from and after November 4, 2016. For the purposes of this calculation, the "cumulative net increase in net assets resulting from operations" is the sum of the Company's pre-incentive fee net investment income, realized gains and losses and unrealized appreciation and depreciation from and after November 4, 2016.

For the three and nine months ended September 30, 2017, the Company incurred Incentive Fees based on income of \$890 and \$2,784, respectively. As of September 30, 2017, \$3,647 remained payable of which \$2,903 of the payable at September 30, 2017 was Accrued Unpaid Income Incentive Fees and \$0 was immediately payable after calculating the total return requirement. As of December 31, 2016, \$863 remained payable of which \$840 of the payable at December 31, 2016 was Accrued Unpaid Income Incentive Fees and \$0 was immediately payable after calculating the total return requirement. The payables are included in Due to Affiliates in the accompanying Statements of Assets and Liabilities. For the three and nine months ended September 30, 2017, the Company accrued Incentive Fees based on capital gains of \$0.

The Investment Management Agreement provides that, absent willful misfeasance, bad faith or gross negligence in the performance of its duties or by reason of the reckless disregard of its duties and obligations, GECM and its officers, managers, agents, employees, controlling persons, members and any other person or entity affiliated with it are entitled to indemnification from the Company for any damages, liabilities, costs and expenses (including reasonable attorneys' fees and amounts reasonably paid in settlement) arising from the rendering of GECM's services under the Investment Management Agreement or otherwise as an investment adviser of the Company.

The Company's chief executive officer is also chief investment officer of GECM, and chief executive officer and a member of the board of directors of Great Elm Capital Group. The Company's chief compliance officer is also an executive officer of GECM, and serves as GECM's chief compliance officer.

Administration Fees. On September 27, 2016, the Company entered into an administration agreement (the "Administration Agreement") with GECM to provide administrative services, including furnishing the Company with office facilities, equipment, clerical, bookkeeping record keeping services and other administrative services. The Company will reimburse GECM for its allocable portion of overhead and other expenses of GECM in performing its obligations under the Administration Agreement.

GECM agreed that the aggregate amount of expenses accrued for reimbursement pursuant to the Administration Agreement that pertain to direct compensation costs of financial, compliance and accounting personnel that perform services for the Company, inclusive of the fees charged by any sub-administrator to provide such financial, compliance and/or accounting personnel to the Company (the "Compensation Expenses"), during the year ending November 4, 2017, when taken together with Compensation Expenses reimbursed or accrued for reimbursement by the Company pursuant to the Investment Management Agreement during such period, shall not exceed 0.50% of the Company's average net asset value during such period. GECM's expense cap will be determined retrospectively for the year ending November 4, 2017 and as a result such amount may be reduced.

The Administration Agreement provides that, absent willful misfeasance, bad faith or negligence in the performance of its duties or by reason of the reckless disregard of its duties and obligations, GECM and its officers, managers, partners, agents, employees, controlling persons, members and any other person or entity affiliated with it are entitled to indemnification from the Company for any damages, liabilities, costs and expenses (including reasonable attorneys' fees and amounts reasonably paid in settlement) arising from the rendering of GECM's services under the Administration Agreement or otherwise as administrator for the Company.

For the three and nine months ended September 30, 2017, the Company incurred expenses under the Administration Agreement of \$287 and \$1,054, respectively. As of September 30, 2017 and December 31, 2016, \$625 and \$138 remained payable, respectively, and are included in Due To Affiliates in the Statement of Assets and Liabilities.

The Board reviews the methodology employed in determining how the expenses are allocated to the Company. The Board assesses the reasonableness of such reimbursements for expenses allocated to the Company based on the breadth, depth and quality of such services as compared to the estimated cost to the Company of obtaining similar services from third-party service providers known to be available. In addition, the Board considers whether any third party service provider would be capable of providing all such services at comparable cost

and quality. Finally, the Board compares the total amount paid to GECCM for such services as a percentage of the Company's net assets to the same ratio as reported to other comparable business development companies.

4. FAIR VALUE MEASUREMENT

The fair value of a financial instrument is the amount that would be received to sell an asset or would be paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., the exit price).

The fair value hierarchy under ASC 820 prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The levels used for classifying investments are not necessarily an indication of the risk associated with investing in these securities. The three levels of the fair value hierarchy are as follows:

Basis of Fair Value Measurement

Level 1 - Investments valued using unadjusted quoted prices in active markets for identical assets.

Level 2 - Investments valued using other unadjusted observable market inputs, e.g. quoted prices in markets that are not active or quotes for comparable instruments.

Level 3 - Investments that are valued using quotes and other observable market data to the extent available, but which also take into consideration one or more unobservable inputs that are significant to the valuation taken as a whole. At a minimum, all Level 3 investments that comprise more than 5% of the investments of the Company are valued by independent third parties.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Note 2 should be read in conjunction with the information outlined below.

The table below presents the valuation techniques and the nature of significant inputs generally used in determining the fair value of Level 2 Instruments.

Level 2 Instruments Valuation Techniques and Significant Inputs

Equity and Fixed Income

The types of instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, broker or dealer quotations or alternative pricing sources with reasonable levels of price transparency may include commercial paper, most government agency obligations, certain corporate debt securities, certain mortgage-backed securities, certain bank loans, less liquid publicly listed equities, certain state and municipal obligations, certain money market instruments and certain loan commitments.

Valuations of Level 2 Equity and Fixed Income instruments can be verified to quoted prices, broker or dealer quotations or alternative pricing sources with reasonable levels of price transparency. Consideration is given to the nature of the quotations (e.g. indicative or firm) and the relationship of recent market activity to the prices provided from alternative pricing sources.

The table below presents the valuation techniques and the nature of significant inputs generally used in determining the fair value of Level 3 Instruments.

Level 3 Instruments Valuation Techniques and Significant Inputs

Bank Loans, Corporate Debt, and Other Debt Obligations

Valuations are generally based on discounted cash flow techniques, for which the significant inputs are the amount and timing of expected future cash flows, market yields and recovery assumptions. The significant inputs are generally determined based on an analysis of market comparables, transactions in similar instruments and/or recovery and liquidation analyses.

Equity

Recent third-party investments or pending transactions are considered to be the best evidence for any change in fair value. When these are not available, the following valuation methodologies are used, as appropriate and available:

- Transactions in similar instruments;
- Discounted cash flow techniques;
- Third party appraisals; and
- Industry multiples and public comparables.

Evidence includes recent or pending reorganizations (for example, merger proposals, tender offers and debt restructurings) and significant changes in financial metrics, including:

- Current financial performance as compared to projected performance;
- Capitalization rates and multiples; and
- Market yields implied by transactions of similar or related assets.

The tables below present the ranges of significant unobservable inputs used to value the Company's Level 3 assets and liabilities as of September 30, 2017 and December 31, 2016, respectively. These ranges represent the significant unobservable inputs that were used in the valuation of each type of instrument, but they do not represent a range of values for any one instrument. For example, the lowest yield in 1st Lien/Senior Secured and Unsecured Debt is appropriate for valuing that specific debt investment, but may not be appropriate for valuing any other debt investments in this asset class. Accordingly, the ranges of inputs presented below do not represent uncertainty in, or possible ranges of, fair value measurements of the Company's Level 3.

Level 3 Instruments	Level 3 Assets as of September 30, 2017	Significant Unobservable Inputs by Valuation Techniques ¹	Range ² of Significant Unobservable Inputs (Weighted Average ³) as of September 30, 2017

- The fair value of any one instrument may be determined using multiple valuation techniques. For example, market comparable and discounted cash flows may be used together to determine fair value. Therefore, the Level 3 balance encompasses both of these techniques.
- The range for an asset category consisting of a single investment represents the relevant market data considered in determining the fair value of the investment.
- Weighted average for an asset category consisting of multiple investments is calculated by weighting the significant unobservable input by the relative fair value of the investment. Weighted average for an asset category consisting of a single investment represents the significant unobservable input used in the fair value of the investment.
- Enterprise value of portfolio company as a multiple of earnings before interest, taxes, depreciation and amortization.

As noted above, the income and market approaches were used in the determination of fair value of certain Level 3 assets as of September 30, 2017 and December 31, 2016. The significant unobservable inputs used in the income approach are the discount rate or market yield used to discount the estimated future cash flows expected to be received from the underlying investment, which include both future principal and interest payments. An increase in the discount rate or market yield would result in a decrease in the fair value. Included in the consideration and selection of discount rates is risk of default, rating of the investment (if any), call provisions and comparable company valuations. The significant unobservable inputs used in the market approach are based on market comparable transactions and market multiples of publicly traded comparable companies. Increases or decreases in market multiples would result in an increase or decrease, respectively, in the fair value.

5. DEBT

On November 3, 2016, the Company assumed \$33,646 of Full Circle 8.25% Senior Notes due 2020 (the "2020 Notes") in connection with the Merger by executing the second supplemental indenture dated November 3, 2016.

On November 3, 2016, we assumed approximately \$33,646 in aggregate principal amount of Full Circle's 8.25% Notes due June 30, 2020 (the "2020 Notes"). The 2020 Notes were our unsecured obligations and ranked senior in right of payment to our existing and future indebtedness that is expressly subordinated in right of payment to the 2020 Notes; equal in right of payment to our existing and future unsecured indebtedness that is not so subordinated; effectively junior in right of payment to any of our secured indebtedness (including existing unsecured indebtedness that we later secure) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by our subsidiaries or financing vehicles. Interest on the 2020 Notes was paid quarterly in arrears at a rate of 8.25% per annum. The 2020 Notes had a maturity date of June 30, 2020 and on October 20, 2017 we redeemed them completely at their par value plus accrued and unpaid interest.

On September 13, 2017, we offered \$28,375 in aggregate principal amount of 6.50% notes due 2022 (the "GECCL Notes"). On September 29, 2017, we sold to several underwriters an additional \$4,256 of the GECCL Notes upon full exercise of the underwriters' over-allotment option. As a result of the issuance of these Notes, the aggregate principal balance of Notes outstanding is \$32,631.

The GECCL Notes are our unsecured obligations and rank equal with all of our outstanding and future unsecured unsubordinated indebtedness. The GECCL Notes will be effectively subordinated, or junior in right of payment, to any future secured indebtedness that we may incur and structurally subordinated to all future indebtedness and other obligations of our subsidiaries. We will pay interest on the GECCL Notes on January 31, April 30, July 31 and October 31 of each year, beginning October 31, 2017. The GECCL Notes will mature on September 18, 2022 and can be called on, or after, September 18, 2019. Holders of the GECCL Notes will not have the option to have the GECCL Notes repaid prior to the stated maturity date. The GECCL Notes were issued in minimum denominations of \$25 and integral multiples of \$25 in excess thereof.

The Investment Company Act limits, with certain exceptions, the Company's borrowing such that its asset coverage ratio, as defined in the Investment Company Act, is at least 2 to 1 after such borrowing. As of September 30, 2017, the Company's outstanding borrowings were \$66,277, and the Company's asset coverage ratio was 3 to 1.

Information about the Company's senior securities (including debt securities and other indebtedness) is shown in the following tables as of September 30, 2017.

Year	Total Amount Outstanding ⁽¹⁾	Asset Coverage Ratio Per Unit ⁽²⁾	Involuntary Liquidation Preference Per Unit ⁽³⁾	Average Market Value Per Unit ⁽⁴⁾
Unsecured Debt - 2020 Notes				
September 30, 2017 (unaudited)	\$ 33,646	\$ 2.99	\$ N/A	\$ 1.021

Unsecured Debt - GECCL Notes				
September 30, 2017 (unaudited)	\$ 32,631	\$ 2.99	\$ N/A	\$ 1.006

- (1) Total amount of each class of senior securities outstanding at the end of the period presented.
- (2) Asset coverage per unit is the ratio of the carrying value of the Company's total consolidated assets, less all liabilities and indebtedness not represented by senior securities, to the aggregate amount of senior securities representing indebtedness. Asset coverage per unit is expressed in terms of dollar amounts per \$1 of indebtedness.
- (3) The amount to which such class of senior security would be entitled upon the voluntary liquidation of the issuer in preference to any security junior to it.
- (4) The average market value per unit for the Notes is based on the average daily prices of such notes for the nine months ended September 30, 2017 and the period ended December 31, 2016, respectively, and is expressed per \$1 of indebtedness.

The Indenture's covenants, include compliance with (regardless of whether the Company is subject to) the asset coverage requirements set forth in Section 18(a)(1)(A) as modified by Section 61(a)(1) of the Investment Company Act, as well as covenants requiring the Company to provide financial information to the holders of the Notes and the Trustee if the Company ceases to be subject to the reporting requirements of the Securities Exchange Act of 1934. These covenants are subject to limitations and exceptions that are described in the Indenture. The Company may repurchase the Notes in accordance with the Investment Company Act and the rules promulgated thereunder. As of September 30, 2017, the Company had not repurchased any of the Notes. As of September 30, 2017 and December 31, 2016, the Company was in compliance with all covenants under the Indenture.

The summary information of the 2020 Notes for the three and nine months ended September 30, 2017, is as follows:

6. COMMITMENTS AND CONTINGENCIES

In the normal course of business, the Company may enter into investment agreements under which it commits to make an investment in a portfolio company at some future date or over a specified period of time. As of September 30, 2017, the Company had approximately \$7,088 in unfunded loan commitments, subject to the Company's approval in certain instances, to provide debt financing to certain of its portfolio companies. There were no unrealized gains or losses on these commitments as of September 30, 2017. The Company believes that it had sufficient cash and other liquid assets on its balance sheet to satisfy the unfunded commitments.

Two complaints, captioned *Daniel Saunders, on behalf of himself and all others similarly situated, v. Full Circle Capital Corporation, et al.*, filed on September 23, 2016 (the "Saunders Action"), and *William L. Russell, Jr., individually and on behalf of all others similarly situated, v. Biderman, et al.* filed on September 12, 2016 and amended on September 22, 2016 (the "Russell Action"), were filed in the United States District Court for the District of Maryland and in the Circuit Court for Baltimore City, (the "Circuit Court"), respectively. On October 7, 2016, a complaint captioned *David Speiser, individually and on behalf of all others similarly situated v. Felton, et al.*, was filed in the Circuit Court (the "Speiser Action", and together with the Saunders Action and the Russell Action, the "Actions").

On October 24, 2016, the Company, Full Circle, Great Elm Capital Group, MAST Capital, certain directors of the Full Circle and plaintiffs in the Actions reached an agreement in principle providing for the settlement of the Actions on the terms and conditions set forth in a memorandum of understanding (the "MOU"). Pursuant to the terms of the MOU, without agreeing that any of the claims in the Actions have merit or that any supplemental disclosure was required under any applicable statute, rule, regulation or law, Full Circle and the Company agreed to and did make the supplemental disclosures with respect to the merger. The MOU further provides that, among other things, (a) the parties to the MOU will enter into a definitive stipulation of settlement (the "Stipulation") and will submit the Stipulation to the Circuit Court for review and approval; (b) the Stipulation will provide for dismissal of the Actions on the merits; (c) the Stipulation will include a general release of defendants of claims relating to the transactions contemplated by the Merger Agreement; and (d) the proposed

settlement is conditioned on final approval by the Circuit Court after notice to Full Circle’s stockholders. There can be no assurance that the settlement will be finalized or that the Circuit Court will approve the settlement.

7. INDEMFICATION

Under the Company’s organizational documents, its officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the Company. In addition, in the normal course of business the Company has and expects to enter into contracts that contain a variety of representations which provide general indemnifications. The Company’s maximum exposure under these agreements cannot be known; however, the Company expects any risk of loss to be remote.

8. CAPITAL TRANSACTIONS

Formation Transaction

On June 23, 2016, Great Elm Capital Group contributed \$30,000 to the Company and the Company issued 30 shares of Common Stock. Such shares were recapitalized into an aggregate of 1,966,667 shares of Common Stock upon the contribution of the Initial GECC Portfolio.

The Company, Great Elm Capital Group and funds managed by MAST Capital (the “MAST Funds”) entered into a Subscription Agreement, dated as of June 23, 2016 (the “Subscription Agreement”). The Subscription Agreement provided for (a) the \$30,000 capital contribution by Great Elm Capital Group in exchange for 1,966,667 shares of Common Stock and (b) contribution by the MAST Funds of a portfolio of debt instruments (the “Initial GECC Portfolio”) to the Company in exchange for 5,935,800 shares of Common Stock.

On September 27, 2016, the MAST Funds conveyed the Initial GECC Portfolio to the Company and that transaction settled November 1, 2016. On November 1, 2016, the Company issued 5,935,800 shares of Common Stock in exchange for the Initial GECC Portfolio in settlement of the transaction. Under ASC 805, the Company accounted for the contribution of the Initial GECC Portfolio as an asset acquisition as of the settlement date. The cost amounts reflected in the following table are the price at which the assets were transferred, which is viewed as representative of fair value as of November 1, 2016.

As of November 3, 2016, the Initial GECC Portfolio was comprised of:

Portfolio Company	Industry	Type of Investment	Interest	Maturity	Par Amount/ Quantity	Cost	Fair Value
Avanti Communications Group plc	Wireless Telecommunications Services	Sr. Secured Notes	10.00%	10-1-19	\$ 70,035	\$ 54,629	\$ 53,577
Everi Payments Inc.	Hardware	Sr. Unsecured Notes	10.00%	1-15-22	\$ 12,289	11,581	11,705
Optima Specialty Steel Inc.	Metals and Mining	Sr. Secured Notes	12.50%	12-15-16	\$ 15,100	13,726	14,164
Tallage Lincoln, LLC	Real Estate Services	Sr. Secured Term Loan	10.00%	5-21-18	\$ 372	372	372
Tallage Adams, LLC	Real Estate Services	Sr. Secured Term Loan	10.00%	12-12-16	\$ 169	181	181
Trilogy International Partners	Wireless Telecommunications Services	Sr. Secured Notes	13.375%	5-15-19	\$ 10,000	10,005	10,000
Total						\$ 90,494	\$ 89,999

In the Subscription Agreement, the Company agreed, to reimburse costs associated with the transactions contemplated by the Subscription Agreement and the Merger Agreement incurred by Great Elm Capital Group and the MAST Funds, if the transaction closed.

Merger

On June 23, 2016, the Company entered into the Merger Agreement with Full Circle. Following approval of the Merger on October 31, 2016 by Full Circle’s stockholders, on November 3, 2016:

- Full Circle merged into the Company resulting in the Company’s acquisition, by operation of the Merger, of Full Circle’s portfolio that was valued at \$74,658 at November 3, 2016;
- The Company became obligated to issue an aggregate of 4,986,585 shares of Common Stock to former Full Circle stockholders; and
- The Company’s exchange agent paid a \$5,393 special cash dividend to former Full Circle stockholders.

The Company has accounted for the Merger as a business combination under ASC Topic 805 and Regulation S-X's purchase accounting guidance. The Company was designated as the accounting acquirer for accounting purposes. The difference between the fair value of Full Circle's net assets and the consideration was recorded as a purchase accounting loss because the fair value of the assets acquired and liabilities assumed, as of the date of the Merger, was less than the fair value of the merger consideration paid by the Company. The calculation of the purchase accounting loss is detailed in the table below.

Consideration Paid:	
Common stock issued	\$ 73,541
Assets acquired:	
Cash and cash equivalents	29,109
Investments	74,658
Other assets	2,252
Liabilities assumed:	
Notes payable	(34,574)
Other liabilities	(2,600)
Net assets acquired	68,845
Purchase accounting loss	\$ 4,698

The Company incurred approximately \$3,471 of transaction-related expenses related to the Formation Transaction and Merger. Transaction-related expenses were comprised primarily of legal, accounting and other professional fees and third-party costs.

Issuer Purchases of Equity Securities

During the nine months ended September 30, 2017 the Company purchased 2,061,049 shares under its tender offer and \$15,000 stock buyback program at a weighted average price of \$11.23 per share. As of September 30, 2017, the Company had cumulatively purchased 2,159,221 shares under its tender offer and stock buyback program at a weighted average price of \$11.21 per share, resulting in \$14,207 of cumulative cash paid, under the program since November 4, 2016. Including the tender offer, the Company utilized \$24,207 under its stock buyback and tender program for repurchasing shares

(1) Share amounts in this line include the repurchase of 869,565 shares on May 12, 2017 in accordance with the \$10,000 tender offer announced on March 30, 2017 that expired on May 5, 2017.

9. EARNINGS PER SHARE

The following information sets forth the computation of basic and diluted earnings per share for the three and nine months ended September 30, 2017:

	For the Three Months Ended September 30, 2017
Numerator for basic and diluted earnings per share - increase in net assets resulting from operations	\$ (8,732)
Denominator for basic and diluted earnings per share - weighted average shares outstanding	11,342,048
Basic and diluted earnings per share	\$ (0.77)

	For the Nine Months Ended September 30, 2017
Numerator for basic and diluted earnings per share - increase in net assets resulting from operations	\$ (7,820)
Denominator for basic and diluted earnings per share - weighted average shares outstanding	11,988,368
Basic and diluted earnings per share	\$ (0.65)

Diluted earnings per share equals basic earnings per share because there were no common stock equivalents outstanding during the periods presented. Weighted average shares outstanding represents the weighted average shares outstanding for the three and nine months ended September 30, 2017.

10. FINANCIAL HIGHLIGHTS

Below is the schedule of financial highlights of the Company for the nine months ended September 30, 2017

(1) The per share data was derived by using the weighted average shares outstanding during the period.

(2) The per share data for distributions declared reflects the actual amount of distributions of record per share for the period.

(3) Total return based on net asset value is calculated as the change in net asset value per share from November 4, 2016 through December 31, 2016, assuming the Company's distributions were reinvested through its dividend reinvestment plan. Total return based on market value is calculated as the change in market value per share from November 4, 2016 through December 31, 2016, assuming the Company's distributions were reinvested through its dividend reinvestment plan, and is assumed to be \$12.03 per share on November 4, 2016. \$12.03 per share represents the closing price of Full Circle's common stock on its last day of trading prior to the merger, as adjusted by the exchange ratio in the merger agreement. Total return does not include any estimate of a sales load or commission paid to acquire shares.

(4) Annualized.

(5) Net asset value at the beginning of the period is the net asset value per share as of the consummation of the Merger, as described further in Note 8. Management corrected this heading to correspond to the timing of the Merger. The heading was corrected to read "November 3, 2016 to December 31, 2016," whereas it had previously been presented as "November 4, 2016 (commencement of operations) to December 31, 2016." November 3, 2016 is the date on which the Merger closed; November 4, 2016 is the date on which the Company began operating as the combined entity resulting from the Merger. On November 3, 2016 the Company recognized approximately \$3,444 of organization costs in connection with the Merger, which were included in calculating the beginning of the period net asset value, and amounted to (\$0.27) per share, based on 12,889,104 shares issued and outstanding on November 3, 2016.

(6) Management corrected the expense ratios to reflect \$3,444 of one-time non-recurring organization costs incurred in connection with the merger/formation transaction in the applicable ratio. The ratio of expenses (without management fees, incentive fees and interest and credit facility expenses) to average net assets was corrected to 4.37% (an increase of 1.92 percentage points); the ratio of total expenses to average net assets before waiver was corrected to 10.27% (an increase of 1.92 percentage points), the ratio of total

expenses to average net assets after waiver was corrected to 9.99% (an increase of 1.92 percentage points); and the ratio of net investment income to average net assets was corrected to 10.52% (a reduction of 1.92 percentage points).

11. AFFILIATED INVESTMENTS

Affiliated investment as defined by the Investment Company Act, whereby the Company owns between 5% and 25% of the portfolio company's outstanding voting securities and the investments are not classified as controlled investments. The aggregate fair value of non-controlled, affiliated investments at September 30, 2017 represented 1.87% of the Company's net assets. Fair value as of September 30, 2017 along with transactions during the nine months ended September 30, 2017 in these affiliated investments were as follows:

Non-Controlled, Affiliated Investments	Issue	For the nine months ended September 30, 2017					For the nine months ended September 30, 2017
