## CORPORATE RESPONSIBILITY INITIATIVES

We own one of the largest and most geographically diverse portfolios of rooms-focused hotels in the United States and are dedicated to making a positive impact on the many communities our hotels serve. We are mindful of our environmental footprint and committed to reducing our impact over time. We have always worked to uphold high environmental, social and governance (“ESG”) standards and believe these key areas of focus are an integral part of driving long-term value for our shareholders. We are committed to continuous improvement, and it is our expectation that we will continue to enhance and expand our ESG-related disclosures as our progress deepens and industry-wide standards evolve.

Our Corporate Responsibility Report details our ESG performance, strategy and initiatives and features our commitment to environmental sustainability, corporate employees, hotel associates and guests, communities, and other stakeholders. The Company’s 2023 Corporate Responsibility Report utilizes both the Global Reporting Initiative (“GRI”) Standards and Task Force on Climate-related Financial Disclosures (“TCFD”) to provide a comprehensive overview of the Company’s corporate responsibility performance and climate-related risk management. Apple Hospitality’s enhanced disclosures are intended to provide stakeholders with a better understanding of the Company’s strategy, policies, programs, procedures, performance and initiatives related to environmental stewardship, social responsibility, and corporate governance and resiliency. The Company’s 2023 Corporate Responsibility Report and other ESG-related materials can be found within the Corporate Responsibility section of our website.

Apple Hospitality is committed to enhancing and incorporating sustainability opportunities into our investment and asset management strategies, with a focus on minimizing our environmental impact through reductions in energy and water usage and through improvements in waste management.

## Non-GAAP Financial Measures

The Company considers the following non-GAAP financial measures useful to investors as key supplemental measures of its operating performance: Funds from Operations (“FFO”); Modified FFO (“MFFO”); Earnings Before Interest, Income Taxes, Depreciation and Amortization (“EBITDA”); Earnings Before Interest, Income Taxes, Depreciation and Amortization for Real Estate (“EBITDAre”); Adjusted EBITDAre; Adjusted Hotel EBITDA; Comparable Hotels Adjusted Hotel EBITDA; and Same Store Hotels Adjusted Hotel EBITDA. These non-GAAP financial measures should be considered along with, but not as alternatives to, net income (loss), cash flow from operations or any other operating GAAP measure. FFO, MFFO, EBITDA, EBITDAre, Adjusted EBITDAre, Adjusted Hotel EBITDA, Comparable Hotels Adjusted Hotel EBITDA and Same Store Hotels Adjusted Hotel EBITDA are not necessarily indicative of funds available to fund the Company’s cash needs, including its ability to make cash distributions. Although FFO, MFFO, EBITDA, EBITDAre, Adjusted EBITDAre, Adjusted Hotel EBITDA, Comparable Hotels Adjusted Hotel EBITDA and Same Store Hotels Adjusted Hotel EBITDA, as calculated by the Company, may not be comparable to FFO, MFFO, EBITDA, EBITDAre, Adjusted EBITDAre, Adjusted Hotel EBITDA, Comparable Hotels Adjusted Hotel EBITDA and Same Store Hotels Adjusted Hotel EBITDA, as reported by other companies that do not define such terms exactly as the Company defines such terms, the Company believes these supplemental measures are useful to investors when comparing the Company’s results between periods and with other REITs.

## EBITDA, EBITDAre, Adjusted EBITDAre and Adjusted Hotel EBITDA

EBITDA is a commonly used measure of performance in many industries and is defined as net income (loss) excluding interest, income taxes, depreciation and amortization. The Company believes EBITDA is useful to investors because it helps the Company and its investors evaluate the ongoing operating performance of the Company by removing the impact of its capital structure (primarily interest expense) and its asset base (primarily depreciation and amortization). In addition, certain covenants included in the agreements governing the Company’s indebtedness use EBITDA, as defined in the specific credit agreement, as a measure of financial compliance.

In addition to EBITDA, the Company also calculates and presents EBITDAre in accordance with standards established by the National Association of Real Estate Investment Trusts (“Nareit”), which defines EBITDAre as EBITDA, excluding gains and losses from the sale of certain real estate assets (including gains and losses from change in control), plus real estate related impairments, and adjustments to reflect the entity’s share of EBITDAre of unconsolidated affiliates. The Company presents EBITDAre because it believes that it provides further useful information to investors in comparing its operating performance between periods and between REITs that report EBITDAre using the Nareit definition.

The Company also considers the exclusion of non-cash straight-line operating ground lease expense from EBITDAre useful, as this expense does not reflect the underlying performance of the related hotels (Adjusted EBITDAre).

The Company further excludes actual corporate-level general and administrative expense for the Company as well as Adjusted EBITDAre from the non-hotel property from Adjusted EBITDAre (Adjusted Hotel EBITDA) to isolate property-level operational performance over which the Company’s hotel operators have direct control. The Company believes Adjusted Hotel EBITDA provides useful supplemental information to investors regarding operating performance and is used by management to measure the performance of the Company’s hotels and effectiveness of the operators of the hotels.

# DEFINITIONS CONTINUED

## FFO and MFFO

The Company calculates and presents FFO in accordance with standards established by Nareit, which defines FFO as net income (loss) (computed in accordance with generally accepted accounting principles ("GAAP")), excluding gains and losses from the sale of certain real estate assets (including gains and losses from change in control), extraordinary items as defined by GAAP, and the cumulative effect of changes in accounting principles, plus real estate related depreciation, amortization and impairments, and adjustments for unconsolidated affiliates. Historical cost accounting for real estate assets implicitly assumes that the value of real estate assets diminishes predictably over time. Since real estate values instead have historically risen or fallen with market conditions, most real estate industry investors consider FFO to be helpful in evaluating a real estate company's operations. The Company further believes that by excluding the effects of these items, FFO is useful to investors in comparing its operating performance between periods and between REITs that report FFO using the Nareit definition. FFO as presented by the Company is applicable only to its common shareholders, but does not represent an amount that accrues directly to common shareholders.

The Company calculates MFFO by further adjusting FFO for the exclusion of amortization of finance ground lease assets, amortization of favorable and unfavorable operating leases, net and non-cash straight-line operating ground lease expense, as these expenses do not reflect the underlying performance of the related hotels. The Company presents MFFO when evaluating its performance because it believes that it provides further useful supplemental information to investors regarding its ongoing operating performance.

## COMPARABLE HOTELS

Comparable Hotels is defined as the 223 hotels owned and held for use by the Company as of September 30, 2024, and excludes the non-hotel property. For hotels acquired during the periods noted, the Company has included, as applicable, results of those hotels for periods prior to the Company's ownership, and for dispositions and assets held for sale, results have been excluded for the Company's period of ownership. Results for periods prior to the Company's ownership have not been included in the Company's actual Consolidated Financial Statements and are included only for comparison purposes. Results included for periods prior to the Company's ownership are based on information from the prior owner of each hotel and have not been audited or adjusted.

## SAME STORE HOTELS

Same Store Hotels is defined as the 215 hotels owned and held for use by the Company as of January 1, 2023, and during the entirety of the periods being compared, and excludes the non-hotel property. This information has not been audited.
