Change in Functional and Presentational¹ Currency

WiseTech Global Limited (ASX: WTC) ('the Group', 'WiseTech', 'The Company') advises that the functional currency of WiseTech Global Limited ('the Parent Company') and other key entities in the Group have changed to U.S. dollars (USD) from Australian dollars (AUD), effective 1 July 2024. Consistent with this change, the presentational currency of the Group has also changed to USD. This change means that the financial information in the Group's half-year and full-year financial reports, will be presented in USD. Dividends will be declared in USD and converted to AUD and New Zealand dollars for dividend payment. Guidance will also be issued in USD.

With recent M&A and overall business growth, USD has become the most significant component of our currency mix. Changing functional and presentational currency to USD allows us to manage our FX exposures more efficiently and aligns us to the predominant currency used in international logistics.

The financial report for the half-year ending 31 December 2024 (1H25) will be presented in USD, including all comparative information.

Key historical financial information for the financial years ended 30 June 2023 and 30 June 2024, and for the half-year ended 31 December 2023, together with financial highlights for 5 years from FY20 to FY24, has been retranslated in USD and is set out in the following pages of this ASX release.

This information is provided ahead of the release of 1H25 results to assist analysts and investors to compare the 1H25 results in USD, when they are released, against historical results in USD.

Explanation of the retranslation of historical financial results⁴

WiseTech Global Limited ('the Parent Company') has changed its functional and presentational currency from AUD to USD effective 1 July 2024. The change in functional currency is determined based on a change in circumstances and is accounted for prospectively from the date of the change. The change in presentational currency of the Company and the Group is a voluntary change that is accounted for retrospectively. All other accounting policies are consistent with those adopted in the annual financial report for the year ended 30 June 2024.

The financial information included on pages 3 to 6, for the full-year's ended 30 June 2024 and 30 June 2023 and for the half-year ended 31 December 2023, previously reported in AUD, has been retranslated to USD using the procedures outlined below:

1. Consolidated statement of profit or loss and other comprehensive income and Consolidated statement of cash flows have been retranslated into USD using average foreign currency rates prevailing for the relevant period.
2. Assets and liabilities in the Consolidated statement of financial position have been retranslated into USD at the closing foreign currency rates on the relevant balance sheet reporting dates.
3. The equity section of the Consolidated statement of financial position, including foreign currency translation reserve, retained earnings, share capital⁵ and the other reserves have been retranslated into USD using historical rates at the various transaction dates the underlying balances were recorded.
4. Earnings per share and dividend disclosures have also been retranslated to USD to reflect the change in reporting currency, using average foreign currency rates prevailing for the relevant period.

The financial information presented in the following pages has not been audited, however it has been extracted from previously audited AUD financial statements and retranslated into USD. We expect these to form the prior comparable period disclosures in the Group's Financial Statements for the half year ended 31 December 2024 (to be reviewed by KPMG) and full year ended 30 June 2025 (to be audited by KPMG).

The five-year financial summary and FY25 guidance on pages 7 to 17 have been prepared by retranslating the Group's financial statements using exchange rates and accounting policies applicable to the relevant period, and consistent with the above-mentioned procedures. Non-IFRS financial information is unaudited, however the numbers have been extracted from previously audited or reviewed AUD financial statements and retranslated to USD.

Guidance

Following the ASX announcement on 22 November 2024 to update FY25 guidance, we have provided below the retranslated FY25 AUD guidance in USD. Guidance is unchanged apart from being retranslated into USD:

Subject to the assumptions set out in WiseTech's FY24 Results, the Company now anticipates FY25 revenue of US\$792 million – US\$858 million representing revenue growth of 16% – 26%⁶ versus FY24 and EBITDA of US\$396 – US\$436 million representing EBITDA growth of 22% – 34%⁴ versus FY24. The Company's full year EBITDA margin is expected to be 50% – 51%.

⁴ Unless otherwise expressly stated, amounts have been rounded off to the nearest whole number of millions of dollars and one place of decimals representing hundreds of thousands of dollars in accordance with ASIC Corporations instrument 2016/191. Amounts shown as '-' represent zero amounts and amounts less than \$50,000 which have been rounded down. There may be differences in casting the values in the Consolidated financial statements due to rounding in millions to one place of decimals.

⁵ On 1 July 2024, the issued Share Capital balance at 30 June 2024 of US\$961.4m will be retranslated at the 30 June 2024 closing rate of AUD/USD 0.663. The revised opening Share Capital balance will amount to US\$903.6m, with an amount of US\$57.8m arising from the Parent Company's change in functional currency to USD being credited to a Currency Change Reserve in equity.

⁶ FY25 USD Revenue and EBITDA % growth versus FY24 are different to FY25 AUD guidance due to the effective FX rate in FY24 of AUD/USD 0.656 being different than the FY25 AUD Guidance which has been translated into USD at AUD/USD 0.660.

FY25 USD Revenue and EBITDA % growth versus FY24 are different to FY25 AUD guidance due to the effective FX rate in FY24 of AUD/USD 0.656 being different than the FY25 AUD Guidance which has been translated into USD at AUD/USD 0.660.

Guidance provided in line with the assumptions in the FY24 Results presentation.

Uncertainty around future economic and industrial production growth.

Prevailing uncertainties relating to sovereign and geopolitical risk may also reduce assumed growth rate.
