The Company's Next Day Tax Refund product in particular has seen excellent demand since the start of the July 2024 tax lodgement season illustrating the Company's ability to cross sell additional financial services at very low incremental cost, to its rapidly growing registered user base.

The One Click Life fintech platform has had a very strong start to the July 2024 tax season with growth of an average of over 1,000 new users per day. This demonstrates the strength of the Company's digital marketing channels and growth in demand for digital financial services.

The Company's lending products contributed to growth in average revenue per user in 2023 and is expected to continue to grow in 2024.

**Managing Director Mark Waller** commented "We are pleased with the significant growth in our registered user numbers. It's great to see the Company proving up its business model with both growth in user numbers and revenue in 2024.

*Seeing user growth of an average of over 1,000 new users a day in July demonstrates the growing demand for digital financial services. With over 150,000 registered users on the One Click Life platform, strong revenue growth and the demonstrated ability to cross sell additional financial services to the Company's user base we see an exciting period ahead."*
