MERRILLVILLE, Ind. - NiSource Inc. (NYSE: NI) today announced, on a GAAP basis, net income available to common shareholders for the three months ended June 30, 2024, of \$85.8 million, or \$0.19 of earnings per diluted share, compared to net income available to common shareholders of \$39.9 million, or \$0.09 of earnings per diluted share, for the same period of 2023.

NiSource is reaffirming 2024 adjusted EPS guidance of \$1.70-1.74 as well as annual 6-8% adjusted EPS growth and annual 8-10% rate base growth* for the 2023-2028 period. The 2024-2028 base capital expenditure plan is \$16.4 billion.

****Non-GAAP Disclosure Statement**

Beginning with the first quarter of 2024, NiSource Inc. changed its disclosure of non-GAAP results and guidance for net operating earnings available to common shareholders to adjusted net income available to common shareholders and for net operating EPS to adjusted EPS to better align with the presentation used by many companies to report their non-GAAP results. The change reflects a name change only and the calculations of each of these non-GAAP metrics remains consistent with the historical calculations.

This press release includes financial results and guidance for NiSource with respect to adjusted net income available to common shareholders and adjusted EPS, which are non-GAAP financial measures as defined by the SEC. The company includes these measures because management believes they permit investors to view the company's performance using the same tools that management uses and to better evaluate the company's ongoing business performance. With respect to guidance on adjusted EPS, NiSource reminds investors that it does not provide a GAAP equivalent of its guidance on adjusted net income available to common shareholders due to the impact of unpredictable factors such as fluctuations in weather, impact of asset sales and impairments and other unusual or infrequent items included in the comparable GAAP measures. The company is not able to estimate the impact of such factors on the comparable GAAP measures and, as such, is not providing guidance on a GAAP basis. In addition, the company is not able to provide a reconciliation of its non-GAAP adjusted EPS guidance to the comparable GAAP equivalents without unreasonable efforts.
