¹The Fund estimates that it has distributed more than its income and net-realized capital gains in the current fiscal year; therefore, a portion of your distribution may be a return of capital. A return of capital may occur, for example, when some or all of the shareholder's investment is paid back to the shareholder. A return of capital distribution does not necessarily reflect the Fund's investment performance and should not be confused with 'yield' or 'income'. When distributions exceed total return performance, the difference will reduce the Fund's net asset value per share.

The amounts and sources of distributions reported are only estimates and are being provided to you pursuant to regulatory requirements and are not being provided for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon each Fund's investment experience during the remainder of its fiscal year and may be subject to changes based on tax regulations. The Fund will send you a Form 1099-DIV for the calendar year that will tell you how to report these distributions for federal income tax purposes.

* Portfolio launched within the past 5 years; the performance and distribution rate information presented for this Fund reflects data from inception to 9/30/2022.

Shareholders should not draw any conclusions about a Fund's investment performance from the amount of the Fund's current distributions or from the terms of the Fund's Plan.

BKT and BBN have adopted a Plan whereby the Fund will make fixed monthly distributions to common stockholders and will distribute all available net income to its stockholders, consistent with its investment objective and as required by the Code. **The fixed amount distributed per share is subject to change at the discretion of BKT and BBN's Board.** If sufficient net income is not available on a monthly basis, a Fund will distribute long-term capital gains and/or return capital to its stockholders in order to maintain a level distribution. BKT and BBN are currently not relying on any exemptive relief from Section

19(b) of the Investment Company Act of 1940, as amended (the “1940 Act”). Each Fund expects that distributions under the Plan will exceed current income and capital gains and therefore will likely include a return of capital. BKT and BBN may make additional distributions from time to time, including additional capital gain distributions at the end of the taxable year, if required to meet requirements imposed by the Code and/or the 1940 Act.

BKT and BBN’s estimated sources of the distributions paid as of October 31, 2022 and for its current fiscal year are as follows:

Estimated Allocations as of October 31, 2022

²The Fund estimates that it has distributed more than its income and net-realized capital gains in the current fiscal year; therefore, a portion of your distribution may be a return of capital. A return of capital may occur, for example, when some or all of the shareholder’s investment is paid back to the shareholder. A return of capital distribution does not necessarily reflect the Fund’s investment performance and should not be confused with ‘yield’ or ‘income’. No conclusions should be drawn about BKT or BBN’s investment performance from the amount of the Fund’s distributions or from the terms of the Fund’s Plan.

The amount distributed per share under a Plan is subject to change at the discretion of the applicable Fund’s Board. Each Plan will be subject to ongoing review by the Board to determine whether the Plan should be continued, modified or terminated. The Board may amend the terms of a Plan or suspend or terminate a Plan at any time without prior notice to the Fund’s shareholders if it deems such actions to be in the best interest of the Fund or its shareholders. The amendment or termination of a Plan could have an adverse effect on the market price of the Fund's shares.
