Investment Objective and Policy

Barings Corporate Investors (the "Trust") is a closed-end management investment company, first offered to the public in 1971, whose shares are traded on the New York Stock Exchange under the trading symbol "MCI". The Trust's share price can be found in the financial section of most newspapers under either the New York Stock Exchange listings or Closed-End Fund Listings.

The Trust's investment objective is to maintain a portfolio of securities providing a current yield and, when available, an opportunity for capital gains. The Trust's principal investments are privately placed, below-investment grade, long-term debt obligations including bank loans and mezzanine debt instruments. Such private placement securities may, in some cases, be accompanied by equity features such as common stock, preferred stock, warrants, conversion rights, or other equity features. The Trust typically purchases these investments, which are not publicly tradable, directly from their issuers in private placement transactions. These investments are typically made to small or middle market companies. In addition, the Trust may invest, subject to certain limitations, in marketable debt securities (including high yield and/or investment grade securities), marketable common stocks and special situations investments. The Trust's special situations investments generally consist of investments in corporate debt instruments and equity instruments of issuers that are stressed or distressed. Below-investment grade or high yield securities (including securities of stressed or distressed issuers) have predominantly speculative characteristics with respect to the capacity of the issuer to pay interest and repay principal.

The Trust distributes substantially all of its net income to shareholders each year. Accordingly, the Trust pays dividends to shareholders four times per year. The Trust pays dividends to its shareholders in cash, unless the shareholder elects to participate in the Dividend Reinvestment and Share Purchase Plan.

Form N-PORT

The Trust files its complete schedule of portfolio holdings with the U.S. Securities and Exchange Commission ("SEC") for the first and third quarters of each fiscal year on part F of Form N-PORT. This information is available (i) on the SEC's website at <http://www.sec.gov>; and (ii) at the SEC's Public Reference Room in Washington, DC (which information on their operation may be obtained by calling 1-800-SEC-0330). A complete schedule of portfolio holdings as of each quarter-end is available upon request by calling, toll-free, 866-399-1516.

Proxy Voting Policies & Procedures; Proxy Voting Record

The Trustees of the Trust have delegated proxy voting responsibilities relating to the voting of securities held by the Trust to Barings LLC ("Barings"). A description of Barings' proxy voting policies and procedures is available (1) without charge, upon request, by calling, toll-free 866-399-1516; (2) on the Trust's website at <https://www.baring.com/mci>; and (3) on the SEC's website at <http://www.sec.gov>. Information regarding how the Trust voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available (1) on the Trust's website at <https://www.baring.com/mci>; and (2) on the SEC's website at <http://www.sec.gov>.

Legal Matters

The Trust has entered into contractual arrangements with an investment adviser, transfer agent and custodian (collectively "service providers") who each provide services to the Trust. Shareholders are not parties to, or intended beneficiaries of, these contractual arrangements, and these contractual arrangements are not intended to create any shareholder right to enforce them against the service providers or to seek any remedy under them against the service providers, either directly or on behalf of the Trust.

Under the Trust's Bylaws, any claims asserted against or on behalf of the Trust, including claims against Trustees and officers must be brought in courts located within the Commonwealth of Massachusetts.

The Trust's registration statement and this shareholder report are not contracts between the Trust and its shareholders and do not give rise to any contractual rights or obligations or any shareholder rights other than any rights conferred explicitly by federal or state securities laws that may not be waived.

TO OUR SHAREHOLDERS

July 31, 2024

We are pleased to present the June 30, 2024, Quarterly Report of Barings Corporate Investors (the “Trust”).

PORTFOLIO PERFORMANCE

The Board of Trustees declared a quarterly dividend of \$0.40 per share, payable on September 13, 2024 to shareholders of record on August 26, 2024. This represents an increase of \$0.01 per share or 2.6% over the previous dividend of \$0.39 per share and the eighth consecutive quarterly increase. The Trust earned \$0.42 per share of net investment income, net of taxes, for the second quarter of 2024, compared to \$0.40 per share in the previous quarter. The increase in net investment income was predominantly related to \$0.03 per share of non-recurring income (repayment of past due income) received in the second quarter, coupled with lower operating expenses compared to the first quarter.

	June 30, 2024⁽¹⁾⁽²⁾	March 31, 2024⁽¹⁾⁽²⁾	% Change
Quarterly Dividend per share	0.39 ⁽³⁾	0.39	2.6 %
Net Investment Income ⁽⁴⁾	\$ 8,623,460	\$ 8,072,939	6.8 %
Net Assets	\$ 350,112,108	\$ 350,763,288	(0.2)%
Net Assets per share ⁽⁵⁾	\$ 17.22	\$ 17.28	(0.3)%
Share Price	\$ 18.62	\$ 17.19	8.3 %
Dividend Yield at Share Price	8.6 %	9.1 %	(5.5)%
(Discount) / Premium	1.1 %	(0.5)%	

(1) Past performance is no guarantee of future results

(2) Figures are unaudited

(3) Payable on September 13, 2024

(4) Figures are shown net of excise tax

(5) Based on shares outstanding at the end of the period of 20,298,644 as of 3/31/2024 and 20,334,874 as of 6/30/2024, respectively.

- Quarterly total returns at June 30, 2024 and March 31, 2024 were 1.91% and 0.3%, respectively. Longer term, the Trust returned 10.9%, 9.7%, 9.8%, 9.6% and 11.1% for the 1, 3, 5, 10, and 25-year periods, respectively, based on the change in the Trust’s net assets assuming the reinvestment of all dividends
- The Trust’s average quarter-end (discount) / premium for the 1, 3, 5 and 10-year periods was 2.7%, (7.8)%, (7.2)%, and (0.1)% respectively
- U.S. fixed income markets, as approximated by the Bloomberg Barclays U.S. Corporate High Yield Index and the Credit Suisse Leveraged Loan Index, returned 1.1% and 1.9% for the quarter, respectively

PORTFOLIO BENEFITS

- We believe the Trust benefits from being part of the larger Barings North American Private Finance (“NAPF”) platform, which as of June 30, 2024, has over 30 years of experience and had commitments of over \$26 billion to private credit.
- The NAPF platform has provided two primary benefits to the Trust: Direct deal origination and credit underwriting. NAPF has served as the Lead or Co-Lead on over 80% of its originated transactions and has a senior loan loss rate of 0.03% since inception. The benefit of being the Lead or Co-Lead lender is the ability to lead negotiations on terms and have influence over the credit agreement.
- The Trust has continued to benefit from NAPF’s strong origination relationships with private equity sponsors. Every private placement investment in the portfolio was directly originated by Barings via a sponsor (without a financial intermediary), where one hundred percent of the economics are passed through to investors.
- The Trust has consistently generated a stable dividend yield for investors, which to date has been paid exclusively from investment income and capital gains – no return of capital, all while employing a limited amount of leverage 0.09x.
- The Trust continues to invest in what we believe are high-quality companies in defensive sectors and remains well diversified with 27 different industries across 172 assets, where over 65% of those investments are first lien senior secured loans that we believe provide strong risk adjusted returns. The Trust continues to invest in senior subordinated debt when we believe the risk adjusted return is appropriate. Approximately 14.1% of the market value of the Trust was equity, generating ~\$23.1 million (\$1.14 per share) in unrealized appreciation as of June 30, 2024.

PORTFOLIO ACTIVITY

Consistent with the stated investment objective of the Trust, we continued to search for relative value across the capital structure of potential investments that provide current yield with an opportunity for capital gains. The Trust closed five new private placement investments and add-on investments to 22 existing portfolio companies during the second quarter of 2024. The total amount invested by the Trust in these transactions was \$9.9 million.

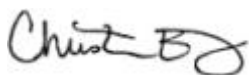

PORTFOLIO LIQUIDITY

The Trust maintained a liquidity position comprised of a combination of its available cash balance and short-term investments of \$26.9 million or 6.5% of total assets, in addition to a low leverage profile at 0.09x as of June 30, 2024. Given the migration of the portfolio towards more senior secured investments and a larger cash balance, the Trust paid down the credit facility in its entirety in the second quarter. The available credit facility balance coupled with the current cash balance provides liquidity to support our current portfolio companies as well as invest in new portfolio companies. As always, the Trust continues to benefit from strong relationships with our carefully chosen financial sponsor partners. These relationships provide clear benefits to the portfolio companies including potential access to additional capital if needed and strategic thinking to compliment a company's management team. High-quality and timely information about portfolio companies, which is only available in a private market setting, allows us to work constructively with financial sponsors and maximize the portfolio companies' long-term health and value.

The Trust's recently announced dividend of \$0.40 per share is the eighth consecutive quarterly dividend increase. With more than 65% of the Trust in first lien floating rate loans, the Trust's net investment income has increased as interest rates have risen. We believe the increase in interest rates coupled with the overall strong credit quality of the Trusts supports the increase in the quarterly dividend. In determining the quarterly dividend, the Board of Trustees seeks to ensure that the Trust will be able to pay sustainable dividends over the long term.

Thank you for your continued interest in and support of Barings Corporate Investors.

Sincerely,

Christina Emery

President

Portfolio Composition as of 06/30/24*

(A) In each of the convertible note, warrant, convertible preferred and common stock investments, the issuer has agreed to provide certain registration rights.

(B) Non-income producing security.

(C) Security valued at fair value using methods determined in good faith by or under the direction of the Board of Trustees.

(D) Defaulted security; interest not accrued.

(E) Illiquid securities. As of June 30, 2024, the value of these securities amounted to \$332,371,484 or 94.93% of net assets.

(F) Held in CI Subsidiary Trust.

(G) A portion of these securities contain unfunded commitments. As of June 30, 2024, total unfunded commitments amounted to \$21,064,593 and had unrealized appreciation of \$115,489 or 0.03% of net assets. See Note 7.

(H) Security exempt from registration under Rule 144a of the Securities Act of 1933. These securities may only be resold in transactions exempt from registration, normally to qualified institutional buyers.

(I) Security received at zero cost through a restructuring of previously held debt or equity securities.

[^] Effective yield at purchase.

1. History

Barings Corporate Investors (the “Trust”) commenced operations in 1971 as a Delaware corporation. Pursuant to an Agreement and Plan of Reorganization dated November 14, 1985, approved by shareholders, the Trust was reorganized as a Massachusetts business trust under the laws of the Commonwealth of Massachusetts, effective November 28, 1985.

The Trust is a diversified closed-end management investment company. Barings LLC (“Barings”), a wholly-owned indirect subsidiary of Massachusetts Mutual Life Insurance Company (“MassMutual”), acts as its investment adviser. The Trust’s investment objective is to maintain a portfolio of securities providing a current yield and, when available, an opportunity for capital gains. The Trust’s principal investments are privately placed, below-investment grade, long-term debt obligations including bank loans and mezzanine debt instruments. Such direct placement securities may, in some cases, be accompanied by equity features such as common stock, preferred stock, warrants, conversion rights, or other equity features. The Trust typically purchases these investments, which are not publicly tradable, directly from their issuers in private placement transactions. These investments are typically made to small or middle market companies. In addition, the Trust may invest, subject to certain limitations, in marketable debt securities (including high yield and/or investment grade securities) and marketable common stocks. Below-investment grade or high yield securities have predominantly speculative characteristics with respect to the capacity of the issuer to pay interest and repay capital.

On January 27, 1998, the Board of Trustees authorized the formation of a wholly-owned subsidiary of the Trust (“CI Subsidiary Trust”) for the purpose of holding certain investments. The results of CI Subsidiary Trust are consolidated in the accompanying financial statements. Footnote 2.D below discusses the Federal tax consequences of the CI Subsidiary Trust.

2. Significant Accounting Policies

The following is a summary of significant accounting policies followed consistently by the Trust in the preparation of its consolidated financial statements in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

The Trustees have determined that the Trust is an investment company in accordance with Accounting Standards Codification (“ASC”) 946, *Financial Services – Investment Companies*, for the purpose of financial reporting.

A. Fair Value Measurements:

Under U.S. GAAP, fair value represents the price that should be received to sell an asset (exit price) in an orderly transaction between willing market participants at the measurement date.

Determination of Fair Value

The net asset value (“NAV”) of the Trust’s shares is determined as of the close of business on the last business day of each quarter, as of the date of any distribution, and at such other times as Barings, as the Trust’s valuation designee under Rule 2a-5 of the 1940 Act, shall determine the fair value of the Trust’s investments, subject to the general oversight of the Board.

Barings has established a Pricing Committee which is responsible for setting the guidelines used in fair valuation and ensuring that those guidelines are being followed. Barings considers all relevant factors that are reasonably available, through either public information or information directly available to Barings, when determining the fair value of a security. Barings reports to the Board each quarter regarding the valuation of each portfolio security in accordance with the procedures and guidelines referred to above, which include the relevant factors referred to below. The consolidated financial statements include private placement restricted securities valued at \$332,371,484 (94.93% of net assets) as of June 30, 2024, the values of which have been estimated by Barings based on the process described above in the absence of readily ascertainable market values. Due to the inherent uncertainty of valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the securities existed, and the differences could be material.

Independent Valuation Process

The fair value of bank loans and equity investments that are unsyndicated or for which market quotations are not readily available, including middle-market bank loans, will be submitted to an independent provider to perform an independent valuation on those bank loans and equity investments as of the end of each quarter. Such bank loans and equity investments will be held at cost until such time as they are sent to the valuation provider for an initial valuation subject to override by the Adviser should it determine that there have been material changes in interest rates and/or the credit quality of the issuer. The independent valuation provider applies various methods (synthetic rating analysis, discounting cash flows, and re-underwriting analysis) to establish the rate of return a market participant would require (the “discount rate”) as of the valuation date, given market conditions, prevailing lending standards and the

perceived credit quality of the issuer. Future expected cash flows for each investment are discounted back to present value using these discount rates in the discounted cash flow analysis. A range of value will be provided by the valuation provider and the Adviser will determine the point within that range that it will use in making valuation determinations. The Adviser will use its internal valuation model as a comparison point to validate the price range provided by the valuation provider. If the Advisers' Pricing Committee disagrees with the price range provided, it may make a fair value determination that is outside of the range provided by the independent valuation provider, such determination to be reported to the Trustees in the Adviser's quarterly reporting to the Board. In certain instances, the Trust may determine that it is not cost-effective, and as a result is not in the shareholders' best interests, to request the independent valuation firm to perform the Procedures on certain investments. Such instances include, but are not limited to, situations where the fair value of the investment in the portfolio company is determined to be insignificant relative to the total investment portfolio.

Following is a description of valuation methodologies used for assets recorded at fair value:

Corporate Public Securities at Fair Value – Bank Loans, Corporate Bonds, Preferred Stocks and Common Stocks

The Trust uses external independent third-party pricing services to determine the fair values of its Corporate Public Securities. At June 30, 2024, 100% of the carrying value of these investments was from external pricing services. In the event that the primary pricing service does not provide a price, the Trust utilizes the pricing provided by a secondary pricing service.

Public debt securities generally trade in the over-the-counter market rather than on a securities exchange. The Trust's pricing services use multiple valuation techniques to determine fair value. In instances where significant market activity exists, the pricing services may utilize a market based approach through which quotes from market makers are used to determine fair value. In instances where significant market activity may not exist or is limited, the pricing services also utilize proprietary valuation models which may consider market characteristics such as benchmark yield curves, option adjusted spreads, credit spreads, estimated default rates, coupon rates, anticipated timing of principal underlying prepayments, collateral, and other unique security features in order to estimate the relevant cash flows, which are then discounted to calculate the fair value.

The Trust's investments in bank loans are normally valued at the bid quotation obtained from dealers in loans by an independent pricing service in accordance with the Trust's valuation policies and procedures approved by the Trustees.

Public equity securities listed on an exchange or on the NASDAQ National Market System are valued at the last quoted sales price of that day.

At least annually, Barings conducts reviews of the primary pricing vendors to validate that the inputs used in that vendors' pricing process are deemed to be market observable as defined in the standard. While Barings is not provided access to proprietary models of the vendors, the reviews have included on-site walk-throughs of the pricing process, methodologies and control procedures for each asset class and level for which prices are provided. The reviews also include an examination of the underlying inputs and assumptions for a sample of individual securities across asset classes, credit rating levels and various durations. In addition, the pricing vendors have an established challenge process in place for all security valuations, which facilitates identification and resolution of prices that fall outside expected ranges. Barings believes that the prices received from the pricing vendors are representative of prices that would be received to sell the assets at the measurement date (exit prices) and are classified appropriately in the hierarchy.

Corporate Restricted Securities at Fair Value – Bank Loans, Corporate Bonds

The fair value of certain notes is determined using an internal model that discounts the anticipated cash flows of those notes using a specific discount rate. Changes to that discount rate are driven by changes in general interest rates, probabilities of default and credit adjustments. The discount rate used within the models to discount the future anticipated cash flows is considered a significant unobservable input. Increases/(decreases) in the discount rate would result in a (decrease)/increase to the notes' fair value.

The fair value of certain distressed notes is based on an enterprise waterfall methodology which is discussed in the equity security valuation section below.

Corporate Restricted Securities at Fair Value – Common Stock, Preferred Stock and Partnerships & LLC's

The fair value of equity securities is determined using an enterprise waterfall methodology. Under this methodology, the enterprise value of the company is first estimated and that value is then allocated to the company's outstanding debt and equity securities based on the documented priority of each class of securities in the capital structure. Generally, the waterfall proceeds from senior debt, to senior and junior subordinated debt, to preferred stock, then finally common stock.

To estimate a company's enterprise value, the company's trailing twelve months earnings before interest, taxes, depreciation and amortization ("EBITDA") is multiplied by a valuation multiple.

Both the company's EBITDA and valuation multiple are considered significant unobservable inputs. Increases/ (decreases) to the company's EBITDA and/or valuation multiple would result in increases/ (decreases) to the equity value.

Short-Term Securities

Short-term securities with more than sixty days to maturity are valued at fair value, using external independent third-party services. Short-term securities, of sufficient credit quality, having a maturity of sixty days or less are valued at amortized cost, which approximates fair value.

New Accounting Pronouncement

In March 2020, the FASB issued Accounting Standards Update, 2020-04, Facilitation of the Effects of Reference Rate Reform on Financial Reporting ("ASU 2020-04"). The amendments in ASU 2020-04 provide optional expedients and exceptions for applying U.S. GAAP to contracts, hedging relationships and other transactions affected by reference rate reform if certain criteria are met. ASU 2020-04 is effective for all entities as of March 12, 2020 through December 31, 2022. In December 2022, the FASB issued Accounting Standards Update 2022-06, Reference Rate Reform (Topic 848): Deferral of the Sunset Date of Topic 848, which deferred the sunset day of this guidance to December 31, 2024. The Trust has evaluated the guidance and does not expect a significant impact on its consolidated financial statements.

In June 2022, the FASB issued Accounting Standards Update, 2022-03, Fair Value Measurement (Topic 820), which affects all entities that have investments in equity securities measured at fair value that are subject to a contractual sale restriction ("ASU 2022-03"). The amendments in ASU 2022-03 clarify that a contractual restriction on the sale of an equity security is not considered part of the unit of account of the equity security and, therefore, is not considered in measuring the fair value. The amendments also require additional disclosures for equity securities subject to contractual sale restrictions that are measured at fair value in accordance with Topic 820. The effective date for the amendments in ASU 2022-03 is for fiscal years beginning after December 15, 2023 and interim periods within those fiscal years. At this time, management is evaluating the implications of these changes on the Trust's financial statements.

Fair Value Hierarchy

The Trust categorizes its investments measured at fair value in three levels, based on the inputs and assumptions used to determine fair value. These levels are as follows:

Level 1 – quoted prices in active markets for identical securities

Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 – significant unobservable inputs (including the Trust’s own assumptions in determining the fair value of investments)

The following table summarizes the levels in the fair value hierarchy into which the Trust’s financial instruments are categorized as of June 30, 2024.

The fair values of the Trust’s investments disaggregated into the three levels of the fair value hierarchy based upon the lowest level of significant input used in the valuation as of June 30, 2024 are as follows:

Assets:	Total	Level 1	Level 2	Level 3
Restricted Securities				
Corporate Bonds	\$ 11,743,952	\$ —	\$ 8,454,142	\$ 3,289,810
Bank Loans	277,966,908	—	9,638	277,957,270
Common Stock - U.S.	5,143,370	—	—	5,143,370
Preferred Stock	1,521,552	—	—	1,521,552
Partnerships and LLCs	44,449,844	—	—	44,449,844
Public Securities				
Bank Loans	3,768,748	—	2,796,248	972,500
Common Stock	315	315	—	—
Short-Term Securities	14,965,253	14,965,253	—	—
Total	\$ 359,559,942	\$ 14,965,568	\$ 11,260,028	\$ 333,334,346

See information disaggregated by security type and industry classification in the Unaudited Consolidated Schedule of Investments.

Quantitative Information about Level 3 Fair Value Measurements

The following table represents quantitative information about Level 3 fair value measurements as of June 30, 2024.

	Fair Value	Valuation Technique	Unobservable Inputs	Range	Weighted*
Bank Loans	\$250,550,102	Income Approach	Implied Spread	9.2% - 17.9%	12.0%
	\$5,134,587	Market Approach	Revenue Multiple	6.8x - 9.0x	8.7x
Corporate Bonds	\$1,583,119	Income Approach	Implied Spread	22.4%	22.4%
	\$1,594,359	Market Approach	Revenue Multiple	0.2x	0.2x
Equity Securities**	\$49,634,204	Enterprise Value Waterfall Approach	Valuation Multiple	3.3x - 32.0x	11.6x
	\$296,153	Market Approach	Revenue Multiple	6.8x - 9.0x	7.8x

Certain of the Trust's Level 3 equity securities investments may be valued using unadjusted inputs that have not been internally developed by the Trust, including recently purchased securities held at cost. As a result, fair value of assets of \$24,541,822 have been excluded from the preceding table.

* The weighted averages disclosed in the table above were weighted by relative fair value

** Including partnerships and LLC's

Following is a reconciliation of Level 3 assets for which significant unobservable inputs were used to determine fair value:

Assets:	Beginning balance at 12/31/2023	Included in earnings	Purchases	Sales	Prepayments	Transfers into Level 3	Transfers out of Level 3	Ending balance at 06/30/2024
Restricted Securities								
Corporate Bonds	\$ 10,783,333	\$ (61,567)	\$ 27,526	\$ —	\$ (7,459,482)	\$ —	\$ —	\$ 3,289,810
Bank Loans	297,191,545	(1,898,130)	31,904,245	(2,024,441)	(47,165,465)	—	(50,484)	277,957,270
Common Stock - U.S.	5,064,000	1,221,930	1,321,450	(2,464,010)	—	—	—	5,143,370
Preferred Stock	3,254,063	(1,318,251)	14,778	(429,038)	—	—	—	1,521,552
Partnerships and LLCs	41,933,060	3,583,399	862,780	(1,929,395)	—	—	—	44,449,844
Public Securities								
Bank Loans	—	(17,500)	990,043	(43)	—	—	—	972,500
	\$ 358,226,001	\$ 1,509,881	\$35,120,822	\$ (6,846,927)	\$ (54,624,947)	\$ —	\$ (50,484)	\$333,334,346

* For the six months ended June 30, 2024, transfers out of Level 3 were the result of changes in observability of significant inputs for certain portfolio companies.

OID Amortization, Gains and Losses on Level 3 assets included in Net Increase in Net Assets resulting from Operations for the period are presented in the following accounts on the Statement of Operations:

	Net Increase / (Decrease) in Net Assets Resulting from Operations	Change in Unrealized Appreciation / (Depreciation) in Net Assets from assets still held
Interest - OID Amortization	\$ 565,706	\$ —
Net realized gain (loss) on investments before taxes	666,308	—
Net change in unrealized appreciation (depreciation) of investments before taxes	277,867	1,109,852.00

B. Accounting for Investments:

Investment Income

Investment transactions are accounted for on the trade date. Interest income, including the amortization of premiums and accretion of discounts on bonds held using the yield-to-maturity method, is recorded on the accrual basis to the extent that such amounts are expected to be collected. Generally, when interest and/or principal payments on a loan become past due, or if the Trust otherwise does not expect the borrower to be able to service its debt and other obligations, the Trust will place the investment on non-accrual status and will cease recognizing interest income on that investment for financial reporting purposes until all principal and interest have been brought current through payment or due to a restructuring such that the interest income is deemed to be collectible. The Trust writes off any previously accrued and uncollected interest when it is determined that interest is no longer considered collectible. As of June 30, 2024, the fair value of the Trust's non-accrual assets was \$1,706,691, or 0.5% of the total fair value of the Trust's portfolio, and the cost of the Trust's non-accrual assets was \$3,894,376, or 1.2% of the total cost of the Trust's portfolio.

Payment-in-Kind Interest

The Trust currently holds, and expects to hold in the future, some investments in its portfolio that contain Payment-in-Kind ("PIK") interest provisions. The PIK interest, computed at the contractual rate specified in each loan agreement, is added to the principal balance of the investment, rather than being paid to the Trust in cash, and is recorded as interest income. Thus, the actual collection of PIK interest may be deferred until the time of debt principal repayment. PIK interest, which is a non-cash source of income at the time of recognition, is included in the Trust's taxable income and therefore affects the amount the Trust is required to distribute to its stockholders to maintain its qualification as a "regulated investment company" for federal income tax purposes, even though the Trust has not yet collected the cash.

Generally, when current cash interest and/or principal payments on an investment become past due, or if the Trust otherwise does not expect the borrower to be able to service its debt and other obligations, the Trust will place the investment on PIK non-accrual status and will cease recognizing PIK interest income on that investment for financial reporting purposes until all principal and interest have been brought current through payment or due to a restructuring such that the interest income is deemed to be collectible. The Trust writes off any accrued and uncollected PIK interest when it is determined that the PIK interest is no longer collectible. As of June 30, 2024, the Trust held no PIK non-accrual assets.

Realized Gain or Loss and Unrealized Appreciation or Depreciation of Portfolio Investments

Realized gains and losses on investment transactions and unrealized appreciation and depreciation of investments are reported for financial statement and Federal income tax purposes on the identified cost method.

C. Use of Estimates:

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and the differences could be material.

D. Federal Income Taxes:

The Trust has elected to be taxed as a "regulated investment company" under the Internal Revenue Code, and intends to maintain this qualification and to distribute substantially all of its net taxable income to its shareholders. In any year when net long-term capital gains are realized by the Trust, management, after evaluating the prevailing economic conditions, will recommend that the Trustees

either designate the net realized long-term gains as undistributed and pay the Federal capital gains taxes thereon or distribute all or a portion of such net gains.

The Trust is taxed as a regulated investment company and is therefore limited as to the amount of non-qualified income that it may receive as the result of operating a trade or business, e.g. the Trust's pro rata share of income allocable to the Trust by a partnership operating company. The Trust's violation of this limitation could result in the loss of its status as a regulated investment company, thereby subjecting all of its net income and capital gains to corporate taxes prior to distribution to its shareholders. The Trust, from time-to-time, identifies investment opportunities in the securities of entities that could cause such trade or business income to be allocable to the Trust. The CI Subsidiary Trust (described in Footnote 1 above) was formed in order to allow investment in such securities without adversely affecting the Trust's status as a regulated investment company.

The CI Subsidiary Trust is not taxed as a regulated investment company. Accordingly, prior to the Trust receiving any distributions from the CI Subsidiary Trust, all of the CI Subsidiary Trust's taxable income and realized gains, including non-qualified income and realized gains, is subject to taxation at prevailing corporate tax rates. As of June 30, 2024, the CI Subsidiary Trust has incurred income tax expense of \$22,202.

Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of the existing assets and liabilities and their respective tax basis. As of June 30, 2024, the CI Subsidiary Trust has a deferred tax liability of \$919,135.

E. Distributions to Shareholders:

The Trust records distributions to shareholders from net investment income and net realized gains, if any, on the ex-dividend date. The Trust's net investment income dividend is declared four times per year. The Trust's net realized capital gain distribution, if any, is declared in December.

3. Investment Services Contract

A. Services:

Under an Investment Services Contract (the "Contract") with the Trust, Barings agrees to use its best efforts to present to the Trust a continuing and suitable investment program consistent with the investment objectives and policies of the Trust. Barings represents the Trust in any negotiations with issuers, investment banking firms, securities brokers or dealers and other institutions or investors relating to the Trust's investments. Under the Contract, Barings also provides administration of the day-to-day operations of the Trust and provides the Trust with office space and office equipment, accounting and bookkeeping services, and necessary executive, clerical and secretarial personnel for the performance of the foregoing services.

B. Fee:

For its services under the Contract, Barings is paid a quarterly investment advisory fee of 0.3125% of the net asset value of the Trust as of the last business day of each fiscal quarter, which is approximately equal to 1.25% annually. A majority of the Trustees, including a majority of the Trustees who are not interested persons of the Trust or of Barings, approve the valuation of the Trust's net assets as of such day.

4. Borrowings

Senior Secured Indebtedness

MassMutual holds the Trust's \$30,000,000 Senior Fixed Rate Convertible Note (the "Note") issued by the Trust on November 15, 2017. The Note is due November 15, 2027 and accrues interest at 3.53% per annum. MassMutual, at its option, can convert the principal amount of the Note into common shares. The dollar amount of principal would be converted into an equivalent dollar amount of common shares based upon the average price of the common shares for ten business days prior to the notice of conversion. For the six months ended June 30, 2024 the Trust incurred total interest expense on the Note of \$526,557.

The Trust may redeem the Note, in whole or in part, at the principal amount proposed to be redeemed together with the accrued and unpaid interest thereon through the redemption date plus a Make Whole Premium. The Make Whole Premium equals the excess of (i) the present value of the scheduled payments of principal and interest which the Trust would have paid but for the proposed redemption, discounted at the rate of interest of U.S. Treasury obligations whose maturity approximates that of the Note plus 0.50% over (ii) the principal of the Note proposed to be redeemed.

Credit Facility

On July 22, 2021 (the “Effective Date”), MassMutual provided to the Trust, a five-year \$30,000,000 committed revolving credit facility. Borrowings under the revolving credit facility bear interest, at the rate of LIBOR plus 2.25%. The Trust will also be responsible for paying a commitment fee of 0.50% on the unused amount. On December 13, 2023, the Trust amended the credit agreement with MassMutual to increase the aggregate commitment amount by \$15,000,000 to a total aggregate commitment amount of \$45,000,000, extend the maturity date to December 13, 2028, and set the interest accrual to a rate of SOFR plus 2.20% on the outstanding borrowings. Deferred financing fees in the amount of \$168,859 are presented on the Consolidated Statement of Assets & Liabilities.

The average principal balance and interest rate for the period during which the credit facility was utilized for the six months ended June 30, 2024, was approximately \$8,500,000 and 7.60%, respectively. As of June 30, 2024, the credit facility had no outstanding principal balance.

5. Purchases and Sales of Investments

	For the six months ended 06/30/2024	
	Cost of Investments Acquired	Proceeds from Sales or Maturities
Corporate restricted securities	\$ 36,088,623	\$ 64,787,534
Corporate public securities	1,237,875	2,265,308

6. Risks

Investment Risks

In the normal course of its business, the Trust trades various financial instruments and enters into certain investment activities with investment risks. These risks include:

Below Investment Grade (high yield/junk bond) Instruments Risk

Below investment grade securities, commonly known as “junk” or “high yield” bonds, have speculative characteristics and involve greater volatility of price and yield, greater risk of loss of principal and interest, and generally reflect a greater possibility of an adverse change in financial condition that could affect an issuer’s ability to honor its obligations. Below investment grade debt instruments are considered to be predominantly speculative investments. In some cases, these obligations may be highly speculative and have poor prospects for reaching investment grade standing. Below investment grade debt instruments are subject to the increased risk of an issuer’s inability to meet principal and interest payment obligations. These instruments may be subject to greater price volatility due to such factors as specific corporate developments, interest rate sensitivity, negative perceptions of the financial markets generally and less secondary market liquidity. The prices of below investment grade debt instruments may be affected by legislative and regulatory developments. Because below investment grade debt instruments are difficult to value and are more likely to be fair valued, particularly during erratic markets, the values realized on their sale may differ from the values at which they are carried on the books of the Trust.

Borrowing and Leverage Risk

The Trust may borrow, subject to certain limitations, to fund redemptions, post collateral for hedges or to purchase loans, bonds and structured products prior to settlement of pending sale transactions. Any such borrowings, as well as transactions such as when-issued, delayed-delivery, forward commitment purchases and loans of portfolio securities, can result in leverage. The use of leverage involves special risks, and makes the net asset value of the Trust and the yield to shareholders more volatile. There can be no assurance that the Trust’s leveraging strategies would be successful. In addition, the counterparties to the Trust’s leveraging transactions will have priority of payment over the Trust’s shareholders.

Credit Risk

Credit risk is the risk that one or more debt obligations in the Trust’s portfolio will decline in price, or fail to pay dividends, interest or principal when due because the issuer of the obligation experiences an actual or perceived decline in its financial status. Credit ratings issued by credit rating agencies are designed to evaluate the safety of principal and interest payments of rated instruments. They do not, however, evaluate the market value risk of below investment grade debt instruments and, therefore, may not fully reflect the true risks of an investment. In addition, credit rating agencies may or may not make timely changes in a rating to reflect changes in the economy or in the conditions of the issuer that affect the market value of the instruments. Consequently, credit ratings are used only as a preliminary indicator of investment quality. Investments in below investment grade and comparable unrated obligations will be more

dependent on Barings's credit analysis than would be the case with investments in investment grade instruments. Barings employ their own credit research and analysis, which includes a study of existing debt, capital structure, ability to service debt and to pay dividends, sensitivity to economic conditions, operating history and current earnings trends.

One or more debt obligations in the Trust's portfolio may decline in price, or fail to pay dividends, interest or principal when due because the issuer of the obligation experiences an actual or perceived decline in its financial status or due to changes in the specific or general market, economic, industry, political, regulatory, public health or other conditions.

Cybersecurity Risk

A cyber incident is considered to be any adverse event that threatens the confidentiality, integrity or availability of the information resources of us, Barings or our portfolio investments. These incidents may be an intentional attack or an unintentional event and could involve gaining unauthorized access to our or Barings' information systems or those of our portfolio investments for purposes of misappropriating assets, stealing confidential information, corrupting data or causing operational disruption. Barings' employees may be the target of fraudulent calls, emails and other forms of activities. The result of these incidents may include disrupted operations, misstated or unreliable financial data, liability for stolen assets or information, increased cybersecurity protection and insurance costs, litigation and damage to business relationships. The Trust's business operations rely upon secure information technology systems for data processing, storage, and reporting. The Trust depends on the effectiveness of the information and cybersecurity policies, procedures, and capabilities maintained by its affiliates and their respective third-party service providers to protect their computer and telecommunications systems and the data that reside on or are transmitted through them.

Substantial costs may be incurred in order to prevent any cyber incidents in the future. The costs related to cyber or other security threats or disruptions may not be fully insured or indemnified by other means. As the Trust's and our portfolio investments' reliance on technology has increased, so have the risks posed to the Trust's information systems, both internal and those provided by Barings and third-party service providers, and the information systems of the Trust's portfolio investments. Barings has implemented processes, procedures and internal controls to help mitigate cybersecurity risks and cyber intrusions, but these measures, as well as the Trust's increased awareness of the nature and extent of a risk of a cyber incident, do not guarantee that a cyber incident will not occur and/or that the Trust's financial results, operations or confidential information will not be negatively impacted by such an incident. In addition, cybersecurity continues to be a key priority for regulators around the world, and some jurisdictions have enacted laws requiring companies to notify individuals or the general investing public of data security breaches involving certain types of personal data, including the SEC, which, on July 26, 2023, adopted amendments requiring the prompt public disclosure of certain cybersecurity breaches. If the Trust fails to comply with the relevant laws and regulations, the Trust could suffer financial losses, a disruption of the Trust's business, liability to investors, regulatory intervention or reputational damage.

Defaults by Portfolio Investments

A portfolio investment's failure to satisfy financial or operating covenants imposed by the Trust or other lenders could lead to defaults and, potentially, termination of its loans and foreclosure on its secured assets, which could trigger cross-defaults under other agreements and jeopardize a portfolio investment's ability to meet its obligations under the debt or equity securities that the Trust holds. The Trust may incur expenses to the extent necessary to seek recovery upon default or to negotiate new terms, which may include the waiver of certain financial covenants, with a defaulting portfolio investment.

Duration Risk

The Trust may invest in investments of any duration or maturity. Although stated in years, duration is not simply a measure of time. Duration measures the time-weighted expected cash flows of a security, which can determine the security's sensitivity to changes in the general level of interest rates (or yields). Securities with longer durations tend to be more sensitive to interest rate (or yield) changes than securities with shorter durations. Duration differs from maturity in that it considers potential changes to interest rates, and a security's coupon payments, yield, price and par value and call features, in addition to the amount of time until the security matures. Various techniques may be used to shorten or lengthen the Trust's duration. The duration of a security will be expected to change over time with changes in market factors and time to maturity.

Inflation Risk

Certain of the Trust's portfolio investments are in industries that could be impacted by inflation. If such portfolio investments are unable to pass any increases in their costs of operations along to their customers, it could adversely affect their operating results and impact their ability to pay interest and principal on the Trust's loans, particularly if interest rates rise in response to inflation. In addition, any projected future decreases in the Trust's portfolio investments' operating results due to inflation could adversely impact the fair value of those investments. Any decreases in the fair value of the Trust's portfolio investments could result in future realized or unrealized losses and therefore reduce the Trust's net assets resulting from operations.

Liquidity Risk

The Trust may, subject to certain limitations, invest in illiquid securities (i.e., securities that cannot be disposed of in current market conditions in seven calendar days or less without the disposition significantly changing the market value of the security). Illiquid securities may trade at a discount from comparable, more liquid investments, and may be subject to wide fluctuations in market value. Some securities may be subject to restrictions on resale. Illiquid securities may be difficult to value. Also, the Trust may not be able to dispose of illiquid securities at a favorable time or price when desired, and the Trust may suffer a loss if forced to sell such securities for cash needs. Below investment grade loans and other debt securities tend to be less liquid than higher-rated securities.

Loan Risk

The loans in which the Trust may invest are subject to a number of risks. Loans are subject to the risk of non-payment of scheduled interest or principal. Such non-payment would result in a reduction of income to the Trust, a reduction in the value of the investment and a potential decrease in the net asset value of the Trust. There can be no assurance that the liquidation of any collateral securing a loan would satisfy the borrower's obligation in the event of non-payment of scheduled interest or principal payments, or that such collateral could be readily liquidated. In the event of bankruptcy of a borrower, the Trust could experience delays or limitations with respect to its ability to realize the benefits of the collateral securing a loan. Loan participations and assignments involve credit risk, interest rate risk, liquidity risk, and the risks of being a lender. Loans are not as easily purchased or sold as publicly traded securities and there can be no assurance that future levels of supply and demand in loan trading will provide the degree of liquidity which currently exists in the market. In addition, the terms of the loans may restrict their transferability without borrower consent.

These factors may have an adverse effect on the market price of the loan and the Trust's ability to dispose of particular portfolio investments. A less liquid secondary market also may make it more difficult for the Trust to obtain precise valuations of the high yield loans in its portfolio. The settlement period (the period between the execution of the trade and the delivery of cash to the purchaser) for some loan transactions may be significantly longer than the settlement period for other investments, and in some cases longer than seven days. It is possible that sale proceeds from loan transactions will not be available to meet redemption obligations, in which case the Trust may be required to utilize cash balances or, if necessary, sell its more liquid investments or investments with shorter settlement periods. Some loans may not be considered "securities" for certain purposes under the federal securities laws, and purchasers, such as the Trust, therefore may not be entitled to rely on the anti-fraud protections of the federal securities laws.

Management Risk

The Trust is subject to management risk because it is an actively managed portfolio. Barings apply investment techniques and risk analyses in making investment decisions for the Trust, but there can be no guarantee that such techniques and analyses will produce the desired results.

Market Risk

The value of the Trust's portfolio securities may decline, at times sharply and unpredictably, as a result of unfavorable market-induced changes affecting particular industries, sectors, or issuers. Stock and bond markets can decline significantly in response to issuer, market, economic, industry, political, regulatory, geopolitical, public health and other conditions, as well as investor perceptions of these conditions. Such conditions may include, but are not limited to, war, terrorism, natural and environmental disasters and epidemics or pandemics (including the recent coronavirus pandemic), which may be highly disruptive to economies and markets. Such conditions may also adversely affect the liquidity of the Trust's securities. The Trust is subject to risks affecting issuers, such as management performance, financial leverage, industry problems, and reduced demand for goods or services.

Prepayment and Extension Risk

Prepayment and extension risk is the risk that a loan, bond or other investment might be called or otherwise converted, prepaid or redeemed before maturity. This risk is primarily associated with mortgage-backed and other asset-backed securities and floating rate loans. If the investment is converted, prepaid or redeemed before maturity, particularly during a time of declining interest rates or spreads, the Trust may not be able to invest the proceeds in other investments providing as high a level of income, resulting in a reduced yield to the Trust. Conversely, as interest rates rise or spreads widen, the likelihood of prepayment decreases and the maturity of the investment may extend. The Trust may be unable to capitalize on securities with higher interest rates or wider spreads because the Trust's investments are locked in at a lower rate for a longer period of time.

Valuation Risk

Under the 1940 Act, the Trust is required to carry our portfolio investments at market value or, if there is no readily available market value, at fair value as determined in good faith by the Board of Trustees. The Board has designated Barings as valuation designee to perform the Trust’s fair value determinations relating to the value of our assets for which market quotations are not readily available.

Typically there is not a public market for the securities in which we have invested and will generally continue to invest. Barings conducts the valuation of such investments, upon which the Trust’s net asset value is primarily based, in accordance with its valuation policy, as well as established and documented processes and methodologies for determining the fair values of investments on a recurring basis in accordance with the 1940 Act and ASC Topic 820. The Trust’s current valuation policy and processes were established by Barings and have been approved by the Board. The Adviser has established a pricing committee that is, subject to the oversight of the Board, responsible for the approval, implementation and oversight of the processes and methodologies that relate to the pricing and valuation of assets held by the Trust. Barings uses independent third-party providers to price the portfolio, but in the event an acceptable price cannot be obtained from an approved external source, Barings will utilize alternative methods in accordance with internal pricing procedures established by Barings’ pricing committee.

The determination of fair value and consequently, the amount of unrealized appreciation and depreciation in the Trust’s portfolio, is to a certain degree subjective and dependent on the judgment of Barings. Certain factors that may be considered in determining the fair value of the Trust’s investments include the nature and realizable value of any collateral, the portfolio investment’s earnings and its ability to make payments on its indebtedness, the markets in which the portfolio investment does business, comparison to comparable publicly-traded companies, discounted cash flows and other relevant factors. Because such valuations, and particularly valuations of private securities and private companies, are inherently uncertain, may fluctuate over short periods of time and may be based on estimates, Barings’ determinations of fair value may differ materially from the values that would have been used if a ready market for these securities existed. Due to this uncertainty, Barings’ fair value determinations may cause our net asset value on a given date to materially understate or overstate the value that the Trust may ultimately realize upon the sale or disposition of one or more of its investments. As a result, investors purchasing the Trust’s securities based on an overstated net asset value would pay a higher price than the value of the Trust’s investments might warrant. Conversely, investors selling shares during a period in which the net asset value understates the value of our investments will receive a lower price for their shares than the value of the Trust’s investments might warrant.

7. Commitments and Contingencies

During the normal course of business, the Trust may enter into contracts and agreements that contain a variety of representations and warranties. The exposure, if any, to the Trust under these arrangements is unknown as this would involve future claims that may or may not be made against the Trust and which have not yet occurred. The Trust has no history of prior claims related to such contracts and agreements.

At June 30, 2024, the Trust had the following unfunded commitments:

Delayed Draw Term Loans	Unfunded Amount	Unfunded Value
AdaCore Inc	\$ 571,797	\$ 571,673
Best Lawyers	300,641	306,104
California Custom Fruits & Flavors	380,513	380,391

Net realized and unrealized loss on investments (net of taxes)	(1,990,190)	(0.10)

9. Results of Shareholder Meeting

The Annual Meeting of Shareholders was held on Thursday, May 16, 2024. The shareholders were asked to vote to re-elect Edward P. Grace and Clifford M. Noreen as Trustees, each for a three-year term. The shareholders approved the proposal. The Trust’s other Trustees, Michael H. Brown, Barbara M. Ginader, Susan B. Sweeney, Maleyne M. Syracuse and David M. Mihalick, continued to serve their respective terms following the May 16, 2024 Annual Shareholder Meeting. The results of the voting are set forth below.

	Shares for	Withheld
Edward P. Grace	13,257,466	248,250
Clifford M. Noreen	13,289,288	216,428

10. Subsequent Events

The Trust has evaluated the possibility of subsequent events after the balance sheet date of June 30, 2024, through the date that the financial statements are issued. The Trust has determined that there are no material events that would require recognition or disclosure in this report through this date, except as provided below.

On August 6, 2024, the Board appointed Itzbell Branca to serve as Chief Compliance Officer of the Trust, effective as of September 1, 2024, to replace Gregory MacCordy, who was serving as Chief Compliance Officer of the Trust.

Ms. Branca is a Director in Sales Practices Compliance and assists in the development, maintenance, and management of Barings’ compliance programs and activities relevant to its registered closed-end funds, business development companies, and its investment adviser. Ms. Branca has worked in the industry since 2000 and has extensive experience in compliance, regulatory examinations, broker-dealer supervision, and business risk management. Prior to joining Barings in 2019, Ms. Branca worked at LPL Financial in various positions that included Co-Head of Complex Products Supervision. Ms. Branca holds a B.S. in Finance, Marketing and Multinational Business from Florida State University and an M.B.A. from DeVry University. Ms. Branca holds FINRA licenses series 4, 7, 24, 51, 63, and 66.

There is no arrangement or understanding between Ms. Branca and any other person pursuant to which she was appointed as Chief Compliance Officer. Further, with regard to Ms. Branca, there are no transactions since the beginning of our last fiscal year, or any currently proposed transaction, in which the Trust is a participant that would require disclosure under Item 404(a) of Regulation S-K promulgated by the SEC.

THIS PRIVACY NOTICE IS BEING PROVIDED ON BEHALF OF BARINGS LLC AND ITS AFFILIATES: BARINGS SECURITIES LLC; BARINGS AUSTRALIA PTY LTD; BARINGS JAPAN LIMITED; BARINGS INVESTMENT ADVISERS (HONG KONG) LIMITED; BARINGS GLOBAL SHORT DURATION HIGH YIELD FUND; BARINGS BDC, INC.; BARINGS CORPORATE INVESTORS AND BARINGS PARTICIPATION INVESTORS (TOGETHER, FOR PURPOSES OF THIS PRIVACY NOTICE, “BARINGS”).

When you use Barings you entrust us not only with your hard-earned assets but also with your personal and financial data. We consider your data to be private and confidential, and protecting its confidentiality is important to us. Our policies and procedures regarding your personal information are summarized below.

We may collect non-public personal information about you from:

- Applications or other forms, interviews, or by other means;
- Consumer or other reporting agencies, government agencies, employers or others;
- Your transactions with us, our affiliates, or others; and
- Our Internet website.

We may share the financial information we collect with our financial service affiliates, such as insurance companies, investment companies and securities broker-dealers. Additionally, so that we may continue to offer you products and services that best meet your investment needs and to effect transactions that you request or authorize, we may disclose the information we collect, as described above, to companies that perform administrative or marketing services on our behalf, such as transfer agents, custodian banks, service providers or printers and mailers that assist us in the distribution of investor materials or that provide operational support to Barings. These companies are required to protect this information and will use this information only for the services for which we hire them, and are not permitted to use or share this information for any other purpose. Some of these companies may perform such services in jurisdictions other than the United States. We may share some or all of the information we collect with other financial institutions with whom we jointly market products. This may be done only if it is permitted by the state in which you live. Some disclosures may be limited to your name, contact and transaction information with us or our affiliates.

Any disclosures will be only to the extent permitted by federal and state law. Certain disclosures may require us to get an “opt-in” or “opt-out” from you. If this is required, we will do so before information is shared. Otherwise, we do not share any personal information about our customers or former customers unless authorized by the customer or as permitted by law.

We restrict access to personal information about you to those employees who need to know that information to provide products and services to you. We maintain physical, electronic and procedural safeguards that comply with legal standards to guard your personal information. As an added measure, we do not include personal or account information in non-secure e-mails that we send you via the Internet without your prior consent. We advise you not to send such information to us in non-secure e-mails.

This joint notice describes the privacy policies of Barings, the Funds and Barings Securities LLC. It applies to all Barings and the Funds accounts you presently have, or may open in the future, using your social security number or federal taxpayer identification number - whether or not you remain a shareholder of our Funds or as an advisory client of Barings. As mandated by rules issued by the Securities and Exchange Commission, we will be sending you this notice annually, as long as you own shares in the Funds or have an account with Barings.

Barings Securities LLC is a member of the Financial Industry Regulatory Authority (FINRA) and the Securities Investor Protection Corporation (SIPC). Investors may obtain information about SIPC including the SIPC brochure by contacting SIPC online at www.sipc.org or calling (202)-371-8300. Investors may obtain information about FINRA including the FINRA Investor Brochure by contacting FINRA online at www.finra.org or by calling (800) 289-9999.

DIVIDEND REINVESTMENT AND SHARE PURCHASE PLAN

Barings Corporate Investors (the "Trust") offers a Dividend Reinvestment and Share Purchase Plan (the "Plan"). The Plan provides a simple way for shareholders to add to their holdings in the Trust through the receipt of dividend shares issued by the Trust or through the investment of cash dividends in Trust shares purchased in the open market. A shareholder may join the Plan by filling out and mailing an authorization card to SS&C GIDS, the Transfer Agent.

Participating shareholders will continue to participate until they notify the Transfer Agent, in writing, of their desire to terminate participation. Unless a shareholder elects to participate in the Plan, he or she will, in effect, have elected to receive dividends and distributions in cash. Participating shareholders may also make additional contributions to the Plan from their own funds. Such contributions may be made by personal check or other means in an amount not less than \$10 nor more than \$5,000 per quarter. Cash contributions must be received by the Transfer Agent at least five days (but no more than 30 days) before the payment date of a dividend or distribution.

Whenever the Trust declares a dividend payable in cash or shares, the Transfer Agent, acting on behalf of each participating shareholder, will take the dividend in shares only if the net asset value is lower than the market price plus an estimated brokerage commission as of the close of business on the valuation day. The valuation day is the last day preceding the day of dividend payment.

When the dividend is to be taken in shares, the number of shares to be received is determined by dividing the cash dividend by the net asset value as of the close of business on the valuation date or, if greater than net asset value, 95% of the closing share price. If the net asset value of the shares is higher than the market value plus an estimated commission, the Transfer Agent, consistent with obtaining the best price and execution, will buy shares on the open market at current prices promptly after the dividend payment date.

The reinvestment of dividends does not, in any way, relieve participating shareholders of any federal, state or local tax. For federal income tax purposes, the amount reportable in respect of a dividend received in newly-issued shares of the Trust will be the fair market value of the shares received, which will be reportable as ordinary income and/or capital gains.

As compensation for its services, the Transfer Agent receives a fee of 5% of any dividend and cash contribution (in no event in excess of \$2.50 per distribution per shareholder.)

Any questions regarding the Plan should be addressed to SS&C GIDS, Transfer Agent for Barings Corporate Investors' Dividend Reinvestment and Share Purchase Plan, P.O. Box 219086, Kansas City, MO 64121-9086.
