The following list reflects unaudited securities holdings (excluding cash and derivatives positions) as of April 30, 2022.

Holdings information may differ if presented as of trade date. This is intended for informational purposes only and should not be substituted for quarter-end portfolio holdings filed with the SEC. Portfolio information is subject to change due to active management. Data provided by USBancorp Fund Services, LLC

"Quantity" values are denominated in issues' local currency. "Market Value" is denominated in US Dollars.

Investing in the Fund involves risks, including the risk that you may receive little or no return on your investment or that you may lose part or even all of your investment. The Fund invests in **high yield bonds**, commonly referred to as "**junk bonds**," including **distressed securities**, which are subject to greater credit risk (the risk that an issuer won't make timely payments of principal and interest) and market risk (the risk that the value of the Fund's investments may fall, sometimes rapidly or unpredictably, as a result of increasing interest rates or otherwise); **loans** and **derivative securities**, which may carry market, credit and **liquidity risk** (the risk that the Fund's investments may be difficult to sell at an advantageous time or price); **foreign securities**, which are subject to additional risks including political and economic risks. The Fund employs **leveraging techniques**, which may magnify losses, increase portfolio expenses, cause the Fund's NAV and distributions to be more volatile, and are subject to **non-diversification risk**, which may subject the Fund to greater losses in response to a single economic, political or regulatory development than funds that are more diversified. The Fund may trade at a discount to its net asset value and is subject to anti-takeover provisions that may delay, defer or prevent a transaction or a change in control that might otherwise be in the best interests of Fund shareholders. Portfolios investing in derivatives could lose more than the principal amount invested in those instruments. Before investing you should consider carefully the Fund's investment objectives, risks, charges and expenses. For more complete information about the Fund, please see the prospectus.
