

3Q21 Earnings Presentation

November 3, 2021

Forward-looking statements

This presentation and the accompanying oral presentation contain forward-looking statements. All statements of historical fact contained in this presentation, including statements concerning our business, future results of operations and financial position, planned products and services, achievement of our strategic priorities, warehouse line and credit commitment, third quarter and full-year outlook, business strategy and plans and objectives of management for future operations of Oportun Financial Corporation ("Oportun" or the "Company"), are forward-looking statements. These statements involve known and unknown risks, uncertainties, assumptions and other factors that may cause the Company's actual results and financial position, as well as our plans, objectives and expectations for our performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. These risks and uncertainties include those risks described in Oportun's filings with the Securities and Exchange Commission under the caption "Risk Factors", including the Company's most recent annual report on Form 10-K and the most recent quarterly report on Form 10-Q, and include, but are not limited to: the impact of COVID-19 on our business and the economy as a whole; Oportun's future financial performance, including trends in revenue, net revenue, operating expenses, and net income; changes in market interest rates; increases in loan delinquencies and charge-offs; Oportun's ability to operate successfully in a highly regulated industry; the effect of management changes; Oportun's ability to compete successfully with companies that are currently in, or may in the future enter, the business of providing consumer loans to low- and moderate-income customers underserved by traditional, mainstream financial institutions.

In some cases, you can identify forward-looking statements by terminology such as "aim," "anticipate," "contemplate," "contemplate," "continue," "could," "due," "estimate," "expect," "goal," "intend," "may," "objective," "plan," "predict," "potential," "positioned," "seek," "should," "target," "will," "would," or the negative of these terms or other similar words. These forward-looking statements are subject to the safe harbor provisions under the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended. These statements are only predictions. Oportun has based these forward-looking statements largely on its current expectations and projections about future events and financial trends that it believes may affect its business, financial condition and results of operations. Also, these forward-looking statements represent the Company's estimates and assumptions only as of the date of this presentation. The Company assumes no obligation to update any forward-looking statements after the date of this presentation.

This presentation also contains estimates and other statistical data made by independent parties and by the Company relating to market size and growth and other industry data. These data involve a number of assumptions and limitations, and you are cautioned not to give undue weight to such estimates. The Company has not independently verified the statistical and other industry data generated by independent parties and contained in this presentation and, accordingly, it cannot guarantee their accuracy or completeness. In addition, projections, assumptions and estimates of its future performance and the future performance of the industries in which it operates are necessarily subject to a high degree of uncertainty and risk due to a variety of factors. These and other factors could cause results to differ materially from those expressed in the estimates made by the independent parties and by Oportun.

You should view this presentation and the accompanying oral presentation with the understanding that our actual future results, levels of activity, performance and achievements may be materially different from what we expect, particularly given the uncertainties caused by the COVID-19 pandemic.

This presentation includes certain non-GAAP financial measures. Non-GAAP financial measures are presented in addition to, and not as a substitute for, and are not superior to, financial measures calculated in accordance with GAAP. The Company believes these Non-GAAP measures can be useful measures for period-to-period comparisons of our core business and provide useful information to investors and others in understanding and evaluating our operating results. Non-GAAP financial measures are provided in addition to, and not as a substitute for, and are not superior to, financial measures calculated in accordance with GAAP. In addition, the non-GAAP measures we use, as presented, may not be comparable to similar measures used by other companies. See the Appendix for a reconciliation of non-GAAP financial measures to the most comparable measure, calculated in accordance with GAAP.

Key definitions

- 30+ Day Delinquency Rate is the unpaid principal balance for our owned loans and credit card receivables that are 30 or more calendar days contractually past due as of the end of the period divided by Owned Principal Balance as of such date
- Active Customers is the number with an outstanding loan or an active credit card owned or serviced by us at the end of a period. Active Customers include customers whose loans or accounts were originated by us or under a bank partnership program that we service. Customers with charged-off accounts are excluded from Active Customers
- Adjusted EBITDA is a non-GAAP financial measure calculated as net income (loss), adjusted for the impact of our election of the fair value option and further adjusted to eliminate the effect
 of the following items: income tax expense (benefit), stock-based compensation expense, depreciation and amortization, certain non-recurring charges, origination fees for Fair Value loans,
 net and fair value mark-to-market adjustment
- Adjusted EBITDA Margin is calculated as Adjusted EBITDA divided by total revenue; prior to January 1, 2020, Adjusted EBITDA Margin was calculated as Adjusted EBITDA divided by FVPF
 Total Revenue
- · Adjusted Earnings Per Share (EPS) is a non-GAAP financial measure calculated by dividing Adjusted Net Income by adjusted weighted-average diluted common shares outstanding
- Adjusted Net Income is a non-GAAP financial measure calculated by adjusting our net income (loss), for the impact of our election of the fair value option, and further adjusted to exclude income tax expense (benefit), stock-based compensation expense, and certain non-recurring charges
- Adjusted Operating Efficiency is a non-GAAP financial measure calculated by dividing total operating expenses (excluding stock-based compensation expense and certain non-recurring charges) by total revenue
- · Adjusted Return on Equity ("ROE") is a non-GAAP financial measure calculated by dividing annualized Adjusted Net Income by average total stockholders' equity
- Aggregate Originations is the aggregate amount disbursed to borrowers and credit granted on credit cards during a specific period, including amounts originated by us or loans or accounts that were originated under a bank partnership program. Aggregate Originations exclude any fees in connection with the origination of a loan
- Annualized Net Charge-Off Rate is calculated as annualized loan and credit card principal losses (net of recoveries) divided by the Average Daily Principal Balance of owned loans and credit card receivables for the period
- APR is the Annual Percentage Rate
- · Asset-Backed Notes at Fair Value (or "Fair Value Notes") are all asset-backed notes issued by Oportun on or after January 1, 2018
- · Average Daily Debt Balance is the average of outstanding debt principal balance at the end of each calendar day during the period
- · Average Daily Principal Balance is the average of outstanding principal balance of owned loans and credit card receivables at the end of each calendar day during the period
- Customer Acquisition Cost (or "CAC") is calculated as sales and marketing expenses, which include the costs associated with various paid marketing channels, including direct mail, digital marketing and brand marketing and the costs associated with our telesales and retail operations divided by number of loans originated and new credit cards activated to new and returning customers during a period

Key definitions (cont'd)

- Fair Value Loans (or "Loans Receivable at Fair Value") are all loans receivable held for investment that were originated on or after January 1, 2018. Upon the adoption of ASU 2019-05 as of January 1, 2020 all loans receivable held for investment are reported in this line item for all prospective reporting periods
- Fair Value Notes (or "Asset-Backed Notes at Fair Value") are all asset-backed notes issued by Oportun on or after January 1, 2018
- Fair Value Pro Forma (or "FVPF") in order to facilitate comparisons to periods prior to January 1, 2018, certain metrics included in this presentation have been shown on a pro forma basis, or the Fair Value Pro Forma, as if we had elected the fair value option since our inception for all loans originated and held for investment and all asset-backed notes issued. Beginning in 2021 the Company no longer includes any Fair Value Pro Forma adjustments because all loans originated and held for investment and asset-backed notes issued are recorded at fair value
- Fair Value Pro Forma Cost of Debt is calculated as Fair Value Pro Forma interest expense divided by average Fair Value Pro Forma balance sheet value of debt. Beginning in 2021, Cost of Debt is calculated as annualized interest expense divided by Average Daily Debt Balance
- Fair Value Pro Forma Debt to Equity is calculated as Fair Value Pro Forma total debt divided by Fair Value Pro Forma total equity. Beginning in 2021, Debt to Equity is calculated as total debt divided by total equity
- GAAP Generally Accepted Accounting Principles
- · Leverage is Average Daily Debt Balance divided by Average Daily Principal Balance
- · Loans Receivable at Fair Value (or "Fair Value Loans") are all loans receivable held for investment that were originated on or after January 1, 2018
- Managed Principal Balance at End of Period is the total amount of outstanding principal balance for all loans and credit card receivables, including loans and receivables sold, which we continue to service, at the end of the period
- Net Revenue is calculated by subtracting interest expense from total revenue and adding the net increase (decrease) in fair value
- · Operating Efficiency is calculated as total operating expenses divided by total revenue
- Owned Principal Balance at End of Period is the total amount of outstanding principal balance for all loans and credit card receivables, excluding loans and receivables sold or retained by a bank partner, at the end of the period
- Personal Loan Opex is total operating expenses excluding new product expenses, such as secured personal loans, credit card, bank partnerships and expenses associated with our prior bank charter application and certain non-recurring expenses
- · Return on Equity is calculated as annualized net income divided by average stockholders' equity for a period

- (1) Beginning in 2021 the Company no longer includes any Fair Value Pro Forma adjustments because all loans originated and held for investment and asset-backed notes issued are recorded at fair value. Therefore, 3Q21 and 2Q21 are presented on a GAAP basis and the prior-year quarters include Fair Value Pro Forma adjustments related to the Company's asset-backed notes at amortized cost.
- (2) Refer to page 32 for estimate methodology to calculate fair value premium on loans receivable by quarter. *Note: Numbers may not foot or cross-foot due to rounding.*
