2. Basis of preparation

[a] Statement of compliance

These condensed consolidated interim financial statements ("Financial Statements") have been prepared in compliance with IAS 34 – *Interim Financial Reporting* ("IAS 34") and using the same accounting policies and methods as those used in the Company's audited consolidated financial statements for the year ended December 31, 2023, unless otherwise noted. Accordingly, certain disclosures normally included in annual financial statements prepared in accordance with International Financial Reporting Standards ("IFRS") have been omitted or condensed.

These Financial Statements should be read in conjunction with the Company's audited consolidated financial statements for the year ended December 31, 2023. Certain comparative figures have been reclassified to conform to the financial presentation adopted for the current period.

These Financial Statements were approved and authorized for issuance by the Board of Directors of the Company on August 7, 2024.

[b] Basis of measurement

These Financial Statements have been prepared on a going-concern basis, using historical cost, except for certain assets and liabilities initially recognized in connection with business combinations, contingent consideration related to business combinations, and investment in associates initially recognized on loss of control of Portage, which are measured at their estimated fair value.

[c] Basis of consolidation

The Financial Statements comprise the financial statements of the Company and its subsidiaries.

Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Company obtains control, and continue to be consolidated until the date when such control ceases. Control is achieved when the Company has power over the investee; is exposed, or has rights, to variable returns from its involvement with the investee; and has the ability to use its power to affect its returns. The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above. The financial information of the subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies. All intracompany balances, transactions, and unrealized gains and losses resulting from intracompany transactions and dividends are eliminated on consolidation.

[d] Investment in associates

Associates are entities over which the Company exercises significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but without control or joint control over those policies. The Company accounts for its investment in associates using the equity method of accounting.

Under the equity method of accounting, the investments are initially recognized at cost and adjusted thereafter to recognize the Company's share of the profits or losses of the investee in profit or loss, and the Company's share of movements in other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognized as a reduction in the carrying amount of the investment. Where the Company's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Company does not recognize further losses, unless it has incurred obligations or made payments on behalf of the other entity. Unrealized gains on transactions between the

Company and its associate are eliminated to the extent of the Company's interest in these entities. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity-accounted investees are consistent with the policies adopted by the Company.

The carrying amount of the investment is assessed for indicators of impairment at each reporting date. An impairment test is performed when there is objective evidence of impairment, such as significant adverse changes in the environment in which the associate operates or a significant or prolonged decline in the fair value of the investment below its carrying amount. An impairment loss is recorded when the recoverable amount becomes lower than the carrying amount.

[e] Functional currency and presentation currency

These Financial Statements are presented in Canadian dollars, which is the Company's functional currency.

[f] Use of estimates and judgments

The preparation of these Financial Statements in conformity with IFRS requires management to make estimates, judgments and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities at the date of the Financial Statements and the reported amounts of revenue and expenses during the period. Actual results could differ from these estimates.

Estimates are based on management's best knowledge of current events and actions that the Company may undertake in the future. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The Company has analyzed the wide-ranging effects of economic uncertainty, encompassing factors such as inflation and higher interest rates. This evaluation also considered the broader impacts stemming from global geopolitical instability on its Financial Statements. As at June 30, 2024, management has concluded that the Company's capacity to carry out its medium- and long-term plans, along with the economic sustainability of its assets—covering the carrying value of long-lived assets and inventory valuations—is not significantly affected. In arriving at this determination, the Company has considered various factors, including existing laws, regulations, orders, disruptions, and potential disruptions in the supply chain, market disturbances for its products, commodity prices, foreign exchange rates, and the measures taken by the Company at its operations to safeguard the health and safety of its workforce and the local community.

3. New standards, amendments and interpretations

New standards, amendments and interpretations adopted by the Company

The following new accounting standards were applied or adopted by the Company on January 1, 2024:

Amendments to IAS 1 In January 2020, IASB issued Classification of Liabilities as "Current" or "Non-current"

The narrow scope of these amendments affect only the presentation of liabilities in the statement of financial position and not the amount or timing of its recognition. The amendments clarify that the classification of liabilities as current or non-current should be based on rights that are in existence at the end of the reporting period and align the wording in all affected paragraphs to refer to the right to defer settlement by at least 12 months. That classification is unaffected by the likelihood that an entity will exercise its deferral right. The adoption of this amendment resulted in no impact on the Company's Financial Statements.

(Unaudited)

For the three and six months ended June 30, 2024 and 2023

Amendments to IFRS 16 in September 2022, IASB issued Lease Liability in a Sale and Leaseback

The amendments specified the requirements that a seller-lessee uses in measuring the lease liability arising in a sale and leaseback transaction, to ensure the seller-lessee does not recognize any amount of the gain or loss that relates to the right of use it retains. A sale and leaseback transaction involves the transfer of an asset by an entity to another entity and the leaseback of the same asset by the seller-lessee. The amendments are intended to improve the requirements for sale and leaseback transactions in IFRS 16. The adoption of these amendments resulted in no impact on the Company's Financial Statements.

Amendments to IAS 7 and IFRS 7 in May 2023, IASB issued Disclosures: Supplier Finance Arrangements

The amendments require an entity to provide information about the impact of supplier finance arrangements on liabilities and cash flows, including the terms and conditions of those arrangements, quantitative information on liabilities related to those arrangements as at the beginning and end of the reporting period, and the type and effect of non-cash changes in the carrying amounts of those arrangements. The information on those arrangements is required to be aggregated unless the individual arrangements have dissimilar or unique terms and conditions. The relief provisions of the amendments allow an exemption for interim financial statements in the first year of adoption and therefore no disclosure has been made in the Financial Statements for the six months ended June 30, 2024. Appropriate disclosures (if required) will be included in the Company's annual consolidated financial statements for the year ending December 31, 2024.

Amendments to IAS 12 in May 2023, IASB issued International Tax Reform – Pillar Two Model Rules

Pillar Two legislation has been enacted or substantively enacted in certain jurisdictions in which the Company operates. The Company has performed an assessment of the Company's potential exposure to Pillar Two income taxes. This assessment is based on the most recent information available regarding the financial performance of the constituent entities in the Company. Based on the assessment performed, the Pillar Two effective tax rates in all jurisdictions in which the Company operates are above 15%. Therefore, the Company does not expect a potential exposure to Pillar Two top-up taxes.

New standards, amendments and interpretations issued but not yet adopted by the Company

The following new and amended standards and interpretations will become effective in future fiscal years. The Company intends to adopt these new and amended standards and interpretations, if applicable, when they become effective:

- Lack of Exchangeability – Amendments to IAS 21
- Classification and Measurement of Financial Instruments – Amendments to IFRS 9 and IFRS 7
- IFRS 18 – Presentation and Disclosures in Financial Statements issued in April 2024
- Sale or Contribution of Assets between an Investor and its Associate or Joint Venture – Amendments to IFRS 10 and IAS 28

For the three and six months ended June 30, 2024 and 2023

4. Investment in associates

On June 27, 2024, the Company fulfilled the criteria necessary for the deconsolidation of Portage by relinquishing control of Portage. The Company entered into a voting agreement with Portage whereby the Company waived its right to majority representation on Portage Board of Directors by limiting the representation to no more than one third. The Company has retained approximately 51% of the outstanding common shares of Portage in addition to the \$25 million principal amount of the long-term unsecured subordinated loan ("Promissory Note") payable by Portage to the Company. The Promissory Note bears interest at 6% per annum and capitalized and paid-in-kind monthly. The promissory note matures on December 27, 2028.

Following the loss of control, the Company has determined that it has significant influence over Portage and the Company's investments in Portage will be accounted for using the equity method of accounting as an investment in associate under IAS 28 *Investment in Associates and Joint Ventures*.

On loss of control, the Company measured its retained investments of equity interest and loan in Portage at fair value of \$29.9 million and derecognized the assets and liabilities including non-controlling interest at the carrying amounts resulting in a loss of \$117.

As at June 30, 2024, the carrying value of investment in associate is \$29,877 and the Company's share of loss from associate for the three and six months ended June 30, 2024 was nil.

Rednet

Under the terms of the Rednet acquisition, the seller had the right to exercise a put option that would require the Company to purchase the seller's remaining 25% NCI, resulting in the recognition of an NCI liability. The terms of the acquisition also included a reciprocal call option, which would require the sellers to sell their 25% ownership interest to the Company. Both the call and put options would be exercised for consideration based on the future earnings before interest, taxes, depreciation and amortization ("EBITDA") of Rednet at the time of exercise. The put option would have become exercisable between the periods August 1, 2024 to October 31, 2024; July 1, 2025 to September 30, 2025; and July 1, 2026 to September 30, 2026. The call option would have become exercisable between the periods January 1, 2025 to June 30, 2025; January 1, 2026 to June 30, 2026; and indefinitely after October 1, 2027. The NCI liability was a financial instrument that was measured at fair value, which was equal to the present value of the future estimated redemption amount. The fair value was reviewed on an ongoing basis, with the impact of any subsequent remeasurement of the valuation of the liability recognized in the condensed consolidated interim statements of income and comprehensive income.

As at December 31, 2022, the Company signed a definitive agreement with the seller that modified the original purchase agreement to allow the Company to acquire the remaining 25% interest in Rednet for \$37,292 (€25,393), which is payable in two installments. On March 15, 2023, the Company made the first payment of \$29,994 (€20,393), with the remaining \$7,298 (€5,000) paid on January 9, 2024.

During the six months ended June 30, 2024, the Company paid deferred consideration of \$11,867 (six months ended June 30, 2023 – \$29,720).

During the three and six months ended June 30, 2024, the Company recognized interest expense on deferred consideration of \$90 and \$215, respectively (2023 – \$156 and \$266).

[c] Contingent consideration

Contingent consideration consists of earn-out payments due to sellers of acquired companies for meeting certain gross profit and EBITDA conditions over three to five years following the date of acquisition. The fair value of contingent consideration is classified as Level 3 in the fair value hierarchy and was determined based on best estimates using various assumptions including gross profit and EBITDA forecast.

The following table details the fair values of the Company's contingent consideration outstanding as at June 30, 2024 and December 31, 2023:

[i] As part of the acquisition of ExactlyIT, the sellers are entitled to future remuneration that becomes payable over a five-year period commencing on January 1, 2022. Remuneration is based on the achievement of certain milestones and is expensed over time, as it becomes earned, in the condensed consolidated interim statements of income and comprehensive income. For the three and six months ended June 30, 2024, \$1,232 and \$2,445 remuneration expense has been recognized, presented within acquisition, integration, restructuring and other costs, respectively (2023 – \$3,057 and \$3,369).

[ii] During the three and six months ended June 30, 2024, the Company recognized an expense of \$1,129 and \$3,273 in the condensed consolidated interim statements of income and comprehensive income (2023 – \$9,209), respectively, which is presented under change in fair value of contingent consideration.

[d] NCI liability

Stone

Under the terms of the Stone acquisition, the seller has the right to exercise a put option that would require the Company to purchase the seller's remaining 11% NCI, resulting in the recognition of an NCI liability. The terms of the acquisition also include a reciprocal call option, which would require the sellers to sell their 11% ownership interest to the Company. Both the call and put options would be exercised for consideration based on the future EBITDA of Stone at the time of exercise. The put option becomes exercisable between the periods February 1, 2026 to February 28, 2026; February 1, 2027 to February 28, 2027; and indefinitely after February 1, 2028. The call option becomes exercisable between the periods January 1, 2026 to January 31, 2026; January 1, 2027 to January 31, 2027; January 1, 2028 to January 31, 2028; and indefinitely after March 1, 2028. The NCI liability is a financial instrument classified as Level 3 in the fair value hierarchy that is measured at fair value, which is equal to the present value of the future estimated redemption amount. The fair value is reviewed on an ongoing basis, with the impact of any subsequent remeasurement of the

7. Share capital

[a] Authorized

The authorized share capital of the Company consists of an unlimited number of Class A common shares (“common shares”), Class B common shares and preference shares. No Class B common shares and preference shares have been issued as at June 30, 2024 and December 31, 2023.

[b] Stock option plans

During the three and six months ended June 30, 2024, 200,000 stock options were granted under the Company’s long-term incentive plan (2023 – 1,200,000). The options vest over a four-year period with one quarter of the options vesting every twelve months from the grant date. The fair value of the options was calculated using the Black-Scholes option pricing model on the grant date.

During the three and six months ended June 30, 2024, 300,000 stock options (2023 – nil) were exercised for cash proceeds of \$875 (2023 – nil) and the related grant date fair value of the options of \$296 (2023 – nil) was reclassified from contributed surplus to capital stock.

During the three and six months ended June 30, 2024, the Company recognized share-based compensation expense related to stock options of \$723 and \$1,414, respectively (2023 – \$1,117 and \$1,836).

[c] Restricted stock units (“RSUs”)

During the three and six months ended June 30, 2024, 652,600, and 1,107,318 RSUs, respectively, were granted under the Company’s long-term incentive plan (2023 – nil). The RSUs vest over a three-year period with one third of the RSUs vesting every 12 months from the grant date. The Company valued the RSUs at fair value based on the closing stock price on the date of the grant.

During the three and six months ended June 30, 2024, the Company recognized share-based compensation expense related to RSUs of \$417 and \$498 (2023 – nil and \$129).

[d] Share purchase plan

On August 9, 2023, the Company announced that the Toronto Stock Exchange approved the Company’s Notice of Intention to make a Normal Course Issuer Bid (“2023 NCIB”). Pursuant to the 2023 NCIB, the Company may purchase for cancellation up to an aggregate of 19,427,276 common shares of the Company representing 10% of the issued and outstanding common shares as at July 28, 2023. The 2023 NCIB commenced on August 9, 2023, and terminates one year after its commencement, or earlier if the maximum number of common shares under the 2023 NCIB have been purchased or the 2023 NCIB is terminated at the option of the Company. All common shares acquired by the Company under the 2023 NCIB will be cancelled.

The Company had also entered into an automatic purchase plan agreement with a broker upon commencement of the 2023 NCIB to allow for purchases of common shares during certain pre-determined blackout periods when the Company ordinarily would not be active in the market due to its own internal trading blackout periods, insider trading rules or otherwise. The surplus paid over the carrying value of the common shares was charged to deficit. During the

10. Fair value measurement

The fair values of cash, trade and other receivables, other assets, investment in associates, trade and other payables, deferred considerations, and other financial liabilities approximate their carrying values due to the immediate or short-term maturity of these financial instruments. The fair value of borrowings approximates their carrying value due to the variable interest rates on these instruments. The Company measures its contingent consideration on acquisitions at fair value.

All assets and liabilities for which fair value is measured or disclosed in these Financial Statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Unadjusted quoted prices as at the measurement date for identical assets or liabilities in active markets.
- Level 2 – Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3 – Significant unobservable inputs that are supported by little or no market activity. The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

During the three and six months ended June 30, 2024 and 2023, there were no transfers of amounts between levels.

11. Segmented information

The Company's Group CEO has been identified as the Chief Operating Decision Maker ("CODM"). During the three months ended June 30, 2024, it was identified that the CODM evaluates the performance of the Company and allocates resources primarily based on revenue, gross profit less selling, general and administrative expenses as provided by the Company's internal management system at the regional level, being North America, Germany and UK. The CODM may also consider industry trends and other externally available financial information when evaluating the performance of the Company. As a result of internal reporting changes undertaken by the Company that affect how the Company views and monitors performance, the Company has determined that it is composed of three operating segments: i) North America, ii) Germany, and iii) UK.

Goodwill is tested annually for impairment on October 1, or more frequently when there is an indication that goodwill may be impaired. As a result of the change in operating segments, the Company performed an impairment test as of June 1, 2024 resulting from a continued decline in Germany business. For the purpose of impairment testing, goodwill is tested at the operating segment level.

The Company performed goodwill impairment tests using the value-in-use model under which the recoverable amount is calculated based on the present value of expected cash flows expected to be derived from the entity. The fair value measurement was categorized as a Level 3 fair value based on the inputs in the valuation technique used. As at June 30, 2024, the Company concluded that the carrying value of the Germany cash generating unit ("CGU") was higher than its recoverable amount and accordingly recognized a non-cash goodwill impairment charge of \$145,935 and intangible assets impairment charge of \$30,189 (2023 – nil) in the condensed consolidated interim statements of income and comprehensive income.

The calculation of the recoverable amount is most sensitive to the following assumptions:

- Discount rates – Discount rates represent the current market assessment of the risks specific to the group of CGUs. The discount rate calculation is based on the specific circumstances of the Company and is derived from its weighted average cost of capital ("WACC"). The WACC reflects the expected return on investment by the Company's investors.
- Terminal growth rates – Growth rates are based on the Company's long-term strategic plans and industry outlook. The Company has applied a rate of 2% growth rate to determine the terminal value of the operating segment.
- Projected EBITDA – Projections around EBITDA are most impacted by management's estimates regarding future revenue growth considering internal and external available information. The cash flow forecasts considers past experience of actual operating results in conjunction with anticipated future growth opportunities. Management also estimates expected costs to be incurred considering historical results, planned operations and external information such as market expectations around inflation.

No indicators of impairment were identified for the Company's other operating segments.

16. Contingencies

In the normal course of operations, the Company is party to legal claims and contingencies. Accruals are made in instances where it is probable that liabilities have been incurred and where such liabilities can be reasonably estimated. Although it is possible that liabilities may be incurred in instances for which no accruals have been made, the Company does not believe that the ultimate outcome of these matters will have a material impact on its financial position.
