

RUBICON[™]
ORGANICS

Premium Brand Success Fueled by Operational Execution

TSXV: ROMJ

OTCQX: ROMJF

Investor Presentation, May, 2024

Disclaimer

This presentation is not, and under no circumstances is to be construed as, a prospectus, or advertisement or a public offering of securities of Rubicon Organics Inc. ("Rubicon Organics" or the "Company").

This presentation contains forward-looking information within the meaning of applicable securities laws. All statements that are not historical facts, including without limitation, statements regarding future estimates, plans, programs, forecasts, projections, objectives, assumptions, expectations or beliefs of future performance, statements regarding Rubicon Organics' goal of achieving industry leading profitability are "forward-looking statements". Forward-looking information can be identified by the use of words such as "will" or variations of such word or statements that certain actions, events or results "will" be taken, occur or be achieved. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results, events or developments to be materially different from any future results, events or developments expressed or implied by such forward looking statements.

Risks and uncertainties associated with the forward looking information include, among others, information or statements concerning the Company's expectations of financial resources availability to fund operations; Rubicon Organics' limited operating history and lack of historical profits; obtaining the necessary regulatory approvals; that regulatory requirements will be maintained; general business and economic conditions; the Company's ability to successfully execute its plans and intentions; the Company's ability to obtain financing at reasonable terms though the sale of equity and/or debt commitments; the Company's ability to attract and retain skilled staff; market competition; the products and technology offered by the Company's competitors; that our current good relationships with our suppliers, service providers and other third parties will be maintained; and those factors identified under the heading "Risk Factors" in Rubicon Organic's annual information dated March 27, 2024 filed with Canadian provincial securities regulatory authorities. These factors should be considered carefully, and readers are cautioned not to place undue reliance on such forward-looking statements. Although Rubicon Organics has attempted to identify important risk factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other risk factors that cause actions, events or results to differ from those anticipated, estimated or intended. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in forward-looking statements. Rubicon Organics

assumes no obligation to update any forward-looking statement, even if new information becomes available as a result of future events, new information or for any other reason except as required by law.

We have made numerous assumptions about the forward-looking statements and information contained herein, including among other things, assumptions about: optimizing yield, achieving revenue growth, increasing gross profit, operating cashflow and Adjusted EBITDA profitability. Even though the management of Rubicon Organics believes that the assumptions made, and the expectations represented by such statements or information are reasonable, there can be no assurance that the forward-looking information will prove to be accurate, as actual results and future events could differ materially from those anticipated in forward-looking statements. Investors are cautioned against undue reliance on forward-looking statements or information. Forward-looking statements and information are designed to help readers understand management's current views of our near- and longer-term prospects and may not be appropriate for other purposes. Rubicon Organics assumes no obligation to update any forward-looking statement, even if new information becomes available as a result of future events, changes in assumptions, new information or for any other reason except as required by law.

This presentation contains information obtained by the Company from third parties, including but not limited to market data. The Company believes such information to be accurate but has not independently verified such information. To the extent such information is obtained from third party sources, there is a risk that the assumptions made, and conclusions drawn by the Company based on such representations are not accurate.

An investment in the Company is speculative and involves substantial risk and is only suitable for investors that understand the potential consequences and are able to bear the risk of losing their entire investment. The Company is in the early stage of development and has a limited operational history, making it difficult to accurately predict business operations. The Company has limited resources and may run out of capital prior to becoming profitable. The Company may fail, and investors may lose their entire investment. An investment in the Company may have tax consequences to the investor. The Company assumes no responsibility for the tax consequences of any investment. Investors should confer with their own tax advisors regarding an investment in the Company.

The production, packaging, labelling, handling, distribution, importation, exportation,

licensing, sale and storage of cannabis products are affected by extensive laws, governmental regulations, administrative determinations and similar constraints which are beyond the Company's control. There can be no assurance that the Company is or will be in compliance with all of these laws, regulations, determinations and other constraints. Failure to comply with these laws, regulations, determinations and other constraints or new laws, regulations, determinations or constraints could lead to the imposition of significant penalties or claims and could negatively impact the Company's business. In addition, the adoption of new laws, regulations, determinations other constraints or changes in the interpretations of such requirements may result in significant compliance costs. This may have a material adverse effect on the Company's business, results of operations, cash flows and financial condition.

Figures are presented in Canadian dollars, unless otherwise noted.

Non-GAAP Measures

Adjusted EBITDA is a non-GAAP measure used by management that are not defined by IFRS and may not be comparable to similar measures presented by other companies. Adjusted EBITDA is calculated as earnings (losses) from operations before interest, tax, depreciation and amortization, share-based compensation expense, and fair value changes.

Management believes that these non-GAAP measures are useful indicators of operating performance and are specifically used by management to assess the financial and operational performance of the Company. Accordingly, they should not be considered in isolation nor as a substitute for analysis of our financial information reported under IFRS. The Adjusted EBITDA disclosed within this presentation and within the earnings press release of Rubicon Organics dated May 15, 2024 are explained in the Company's Management Discussion & Analysis report for the three months ended March 31, 2024 filed with Canadian securities regulators, which can be accessed at www.sedarplus.ca.

Corporate Overview

We are a Leader in the Canadian Cannabis Sector Producing Premium & Super-Premium Branded Cannabis Products

- Proudly delivering BC premium & organic certified cannabis nationally
- 3 flagship brands, prominent brand recognition in their segments
- Extensive distribution in largest Canadian markets: Ontario, Quebec, Alberta & BC
- Deliver gross profit with every product sold
- Focused on the lucrative & expanding premium market
- Leveraging our own quality product by proactively shifting to highest margin products
- Experienced cannabis team with a track record of operating execution in cannabis
- Growth strategy built on the strength of our leading premium brand portfolio

Growth Strategy Leveraging Our Brands

Entering next phase of growth strategy

Organic Growth

- Growth of Premium Market over 7% through 2023¹
- 15.9% Market growth to February 2024³
- Focusing Delta Facility production on Gross Profit Accretive Products
- Entering next phase of growth strategy by expanding brand portfolio by entering new product segments and accessing contract grow

Leveraging the Power of Our Premium Brands

- Profitable Brand Growth applying External Capacity including 1964 Supply Co™ vapes launched in Q2 2024
- Manufacturing Relationships established & with new products launched 2023 (i.e. edibles in 2023 and capsules/wellness products 2024)
- Contract grow arrangements established applying our genetics to build quality biomass

Harnessing ROMJ Strength to Take Advantage of a Distressed Industry

- Opportunistic view of landscape
- 2023 evaluation of contract grow opportunities for larger scale adoption of asset lite model 2024+
- As Canadian market normalizes, acquisitions at favorable valuations are present

1. Per Hifyre, 12-month rolling premium and full market sales growth (year-over-year to February 2024)

Launching Vape

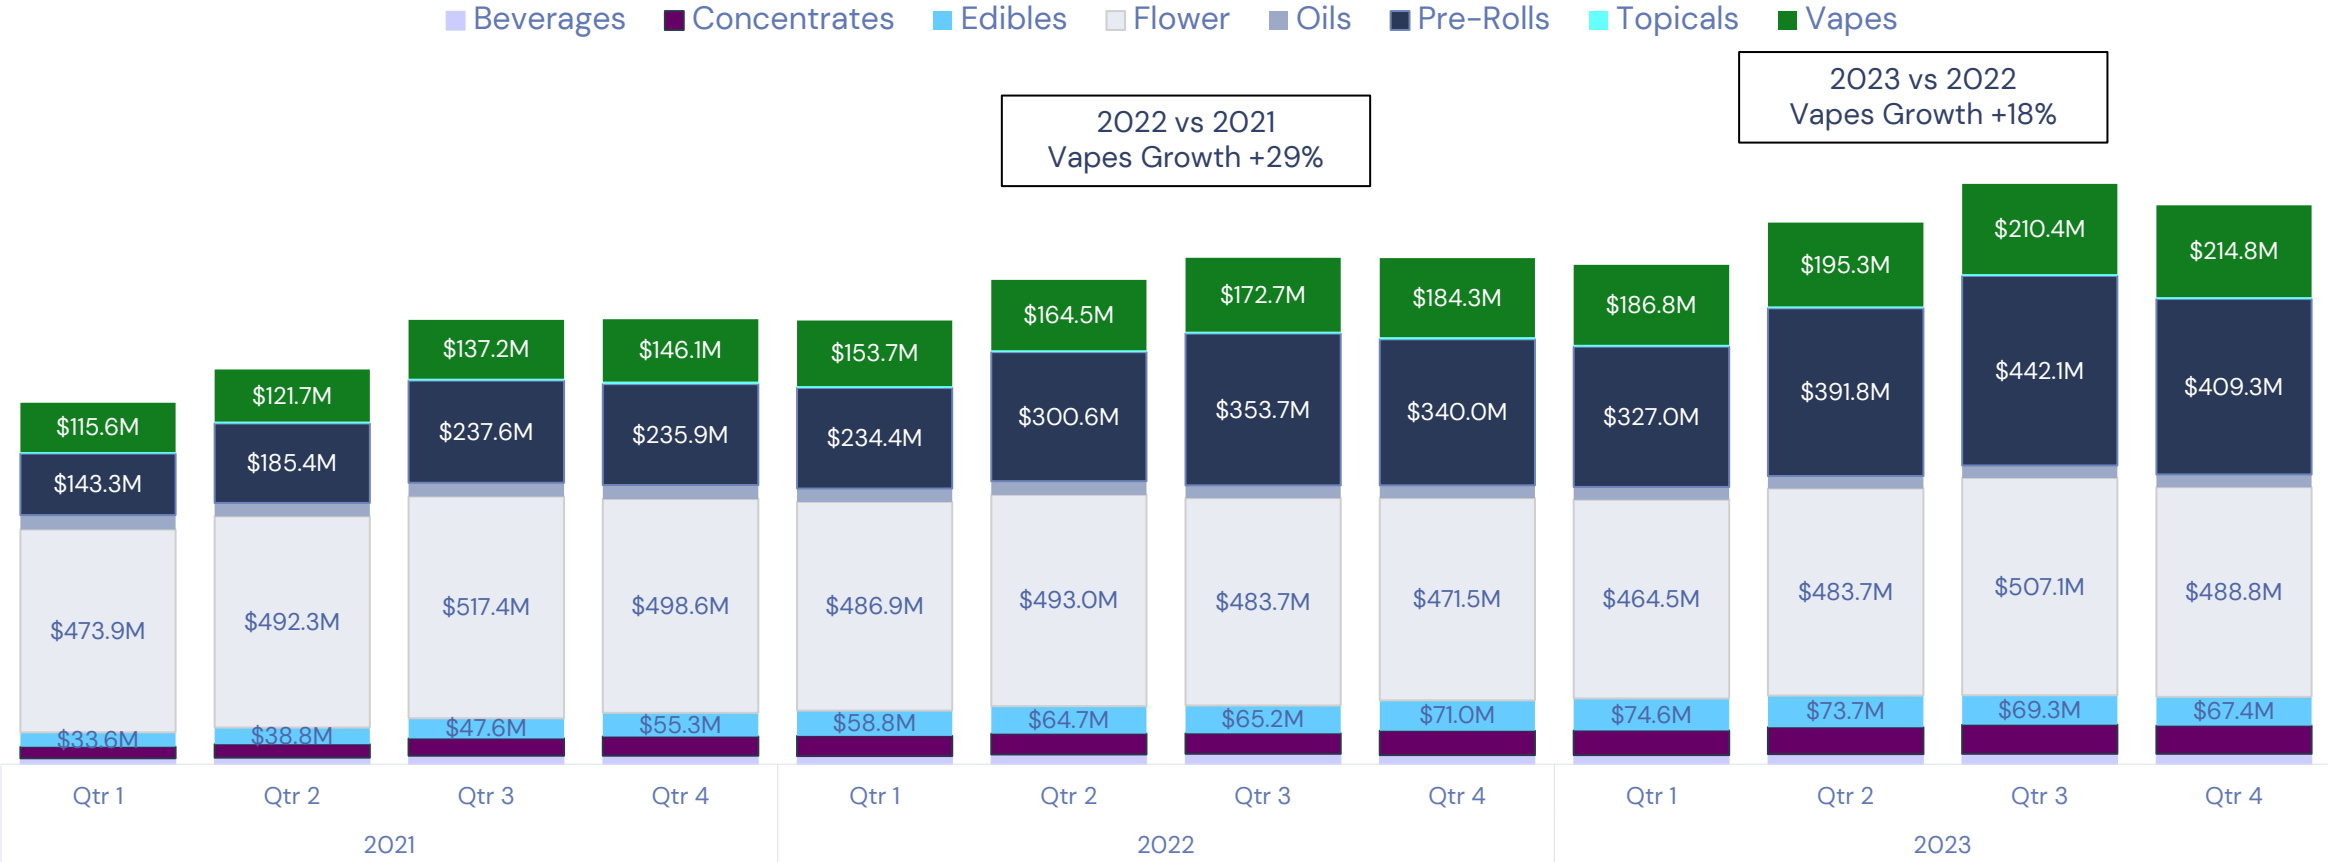

Introducing – 1964 Supply Co™ FSE Resin Vapes

- + Full Spectrum Extracts (FSE) provide more complex, nuanced flavor profile and a smoother consumption experience
- + 1964 is ready to take its share of the fast growing +\$800M Canadian vapes market*
- + Launching with two best selling cultivars: Comatose and Blue Dream (expect four SKUs in market by end of year)
- + Vapes available in 1g FSE Resin 510 carts
- + Expected in market starting May 2024 for British Columbia, Alberta and Ontario

Q1 2024 Rolling 12-month Financial Results

Complete brand portfolio launch and market expansion providing growth and positive gross profit.

Rolling 12-month basis:

 **+3%**
Revenue growth

 **(8)%**
Gross Profit before FV adjustments

2023 Financial Results

Poised for Significant Adjusted EBITDA¹ Growth

For the 12 months ended in Q4 2023, the Company achieved Adjusted EBITDA¹ of \$4.4M

- One of only a handful of LPs to achieve positive Adjusted EBITDA¹

Adjusted EBITDA¹ continues to trend upwards due to the following factors:

- Continued focus on quality/yield
- Operating leverage taking effect over a fixed cost base – incremental gross margin goes straight to the bottom line
- Slow down in Q3 2023 due to adverse product mix impact by recessionary Canadian environment, expected to be short-term and Q4 2023 showed signs of recovering
- Expanding SKU offerings and new product formats
- Use of external capacity including expanded cultivation capacity through thoroughly vetted partners

Select Financial Metrics (C\$ '000's)

Operating Leverage: Increasing Revenues Over a Fixed Cost Base

1. Adjusted EBITDA is a non-GAAP measure used by management that are not defined by IFRS and may not be comparable to similar measures presented by other companies. Adjusted EBITDA is calculated as earnings (losses) from operations before interest, tax, depreciation and amortization, share-based compensation expense, and fair value changes.

Growth Story: Premium Sales Driving Market Growth

Premium market grew faster than total market in Q3 2023 before deceleration with short-term price compression & fire sales. Our outlook for premium growth to rebound in 2024 as competitors & capacity come offline and Canada moves past recessionary environment.

+\$300 million

2021 – 53%

Delivering Our Brand Promise of Quality = Loyal Customer

Hand trimmed. Hand packaged.
Without irradiation.

Powered By The Sun

Full-spectrum, natural sunlight not only allows plants to express their full aroma but it's also a more sustainable approach to cultivating. When the BC weather does not cooperate, we use a supplemental high-efficiency LED system to give the plants the light they need.

Craft Processes

A dedicated team of growers tends to every crop throughout its natural life cycle. When the time comes, we harvest each flower by hand then hang dry them in a controlled curing room for 14 days.

Organic Certified

Everything is grounded in our living soil – a secret blend of natural inputs sourced from the rugged coast of BC. We feed each of our cultivars a proprietary blend of kelp, bark, fish meal and other ingredients to boost their growth and protect them from disease.

Delivered With Care

Producing consistently high-quality organic products takes a lot of expertly trained hands. Fusing traditional growing practices with innovative technology inspired by natural ecosystems, our passionate team keeps moving the cannabis industry forward.

Non-Irradiated

No exposure to radiation or harmful rays

Organic Certified

Sustainably grown and pesticide free

High Terpenes
