NOVEMBER 2024

FORWARD LOOKING STATEMENTS AND MARKET DATA

Madison Square Garden Entertainment Corp. (the "Company" or "MSG Entertainment") has filed with the Securities and Exchange Commission an Annual Report on Form 10-K for the year ended June 30, 2024 (the "Annual Report") and a Quarterly Report (the "Quarterly Report") on Form 10-Q for the quarter ended September 30, 2024. The Annual Report and the Quarterly Report contain extensive disclosure about the Company and its business, including selected historical financial information and risk factors that an investor should consider before deciding whether to invest in securities of the Company.

This presentation may contain statements that constitute forward looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements include, but are not limited to, certain expectations, goals, projections, and benefits. Words or phrases "expects," "anticipates," "believes," "estimates," "may," "will," "should," "could," "potential," "continue," "intends," "plans," and similar words and terms used in the discussion of future operating and future financial performance identify forward looking statements. Investors are cautioned that any such forward looking statements are not guarantees of future performance or results and are subject to known and unknown risks, uncertainties and other factors. Actual results, developments or events may differ materially from those in the forward looking statements as a result of various factors, including, but not limited to, the performance of the Company and its business and operations, its financial condition, factors affecting the industries in which it operates and the factors described in the Annual Report and the Company's subsequent filings with the Securities and Exchange Commission, including the sections titled "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" contained therein. Forward looking statements speak only as of the date they are made. The Company disclaims any obligation to update or revise any forward-looking statements contained herein, whether written or oral, that may be made from time to time, whether as a result of new information, future developments or for any other reason, except to the extent required by law. Investors should not place undue reliance on such forward-looking statements and should not regard the inclusion of such statements as representations by the Company that its plans and objectives will be achieved or realized. Investors are further advised to consult any further disclosures by the Company in its subsequent filings with the Securities and Exchange Commission.

Market Data

This presentation also contains market data and other information based on industry publications, reports by market research firms or published independent sources. The Company believes that these external sources and estimates are reliable but has not independently verified them. Statements as to the Company's market position are based on market data currently available to the Company. Although the Company is not aware of any misstatements regarding the market data and other information presented herein, these estimates involve inherent risks and uncertainties and are based on assumptions that are subject to change. Some market data and information is also based on the Company's good faith estimates, which are derived from management's knowledge of its industry and such independent sources.

NON-GAAP FINANCIAL MEASURES

During the fiscal 2024 third quarter, we amended the definition of adjusted operating income (loss) ("AOI") so that the impact of the non-cash portion of operating lease revenue related to our Arena License Agreements with Madison Square Garden Sports Corp. ("MSG Sports") is no longer excluded in all periods presented.

We define AOI, which is a non-GAAP financial measure, as operating income (loss) excluding (i) depreciation, amortization and impairments of property and equipment, goodwill and other intangible assets, (ii) share-based compensation expense or benefit, (iii) restructuring charges or credits, (iv) merger, spin-off and acquisition-related costs, including merger related litigation expenses, (v) gains or losses on sales or dispositions of businesses and associated settlements, (vi) the impact of purchase accounting adjustments related to business acquisitions, (vii) amortization for capitalized cloud computing arrangement costs, and (viii) gains and losses related to the remeasurement of liabilities under the executive deferred compensation plan. We believe that the exclusion of share-based compensation expense or benefit allows investors to better track the performance of our business without regard to the settlement of an obligation that is not expected to be made in cash. We eliminate merger, spin-off and acquisition-related costs, when applicable, because the Company does not consider such costs to be indicative of the ongoing operating performance of the Company as they result from an event that is of a non-recurring nature, thereby enhancing comparability. In addition, management believes that the exclusion of gains and losses related to the remeasurement of liabilities under the executive deferred compensation plan, provides investors with a clearer picture of the Company's operating performance given that, in accordance with GAAP, gains and losses related to the remeasurement of liabilities under the executive deferred compensation plan are recognized in Operating (income) loss whereas gains and losses related to the remeasurement of the assets under the executive deferred compensation plan, which are equal to and therefore fully offset the gains and losses related to the remeasurement of liabilities, are recognized in Other income (expense), net, which is not reflected in Operating income (loss).

We believe AOI is an appropriate measure for evaluating the operating performance of the Company on a consolidated and combined basis. AOI and similar measures with similar titles are common performance measures used by investors and analysts to analyze our performance. Internally, we use revenues and AOI as the most important indicators of our business performance, and evaluate management's effectiveness with specific reference to these indicators. AOI should be viewed as a supplement to and not a substitute for operating income (loss), net income (loss), cash flows from operating activities, and other measures of performance and/or liquidity presented in accordance with U.S. generally accepted accounting principles ("GAAP"). Since AOI is not a measure of performance calculated in accordance with GAAP, this measure may not be comparable to similar measures with similar titles used by other companies. For a reconciliation from Operating Income (U.S. GAAP Basis) to AOI please refer to the appendix within this presentation.
