NASDAQ: ACCD

Accolade Inc.

Investor Presentation

This presentation contains “forward-looking statements” –that is, statements related to future, not past, events. In this context, forward-looking statements often address our expected future business and financial performance and financial condition, and often contain words such “anticipate,” “believe,” “contemplate,” “continue,” “could,” “estimate,” “expect,” “guidance,” “intend,” “may,” “plan,” “potential,” “predict,” “project,” “should,” “target,” “will,” or “would” or similar expressions. Forward-looking statements by their nature address matters that are, to different degrees, uncertain. For us, particular uncertainties that could cause our actual results to be materially different than those expressed in our forward-looking statements include: our ability to achieve or maintain profitability; our reliance on a limited number of customers for a substantial portion of our revenue; our expectations and management of future growth; our market opportunity and our ability to estimate the size of our target market; the effects of increased competition as well as innovations by new and existing competitors in our market; and our ability to retain our existing customers and to increase our number of customers. Important risks and uncertainties that could cause our actual results and financial condition to differ materially from those indicated in the forward-looking statements include, among others, the following: (i) changes in laws and regulations applicable to our business model; (ii) changes in market or industry conditions, regulatory environment and receptivity to our technology and services; (iii) results of litigation or a security incident; (iv) the loss of one or more key customers or partners; (v) the impact of COVID-19 on our business and results of operation; and (vi) changes to our abilities to recruit and retain qualified team members. For a detailed discussion of the risk factors that could affect our actual results, please refer to the risk factors identified in our Quarterly Report on Form 10-Q for the fiscal quarter ended August 31, 2024, Annual Report on Form 10-K for the fiscal year ended February 29, 2024 and subsequent reports that we file.

This presentation includes non-GAAP financial measures. These non-GAAP financial measures are in addition to, and not a substitute for or superior to measures of financial performance prepared in accordance with GAAP. There are a number of limitations related to the use of these non-GAAP financial measures. For example, other companies may calculate similarly-titled non-GAAP financial measures differently. Refer to the Appendix for a reconciliation of these non-GAAP financial measures to the most directly comparable GAAP measures.

Dietician

Social Worker

The Physician Gap impact is real

**Delayed and deferred
doctor visits**

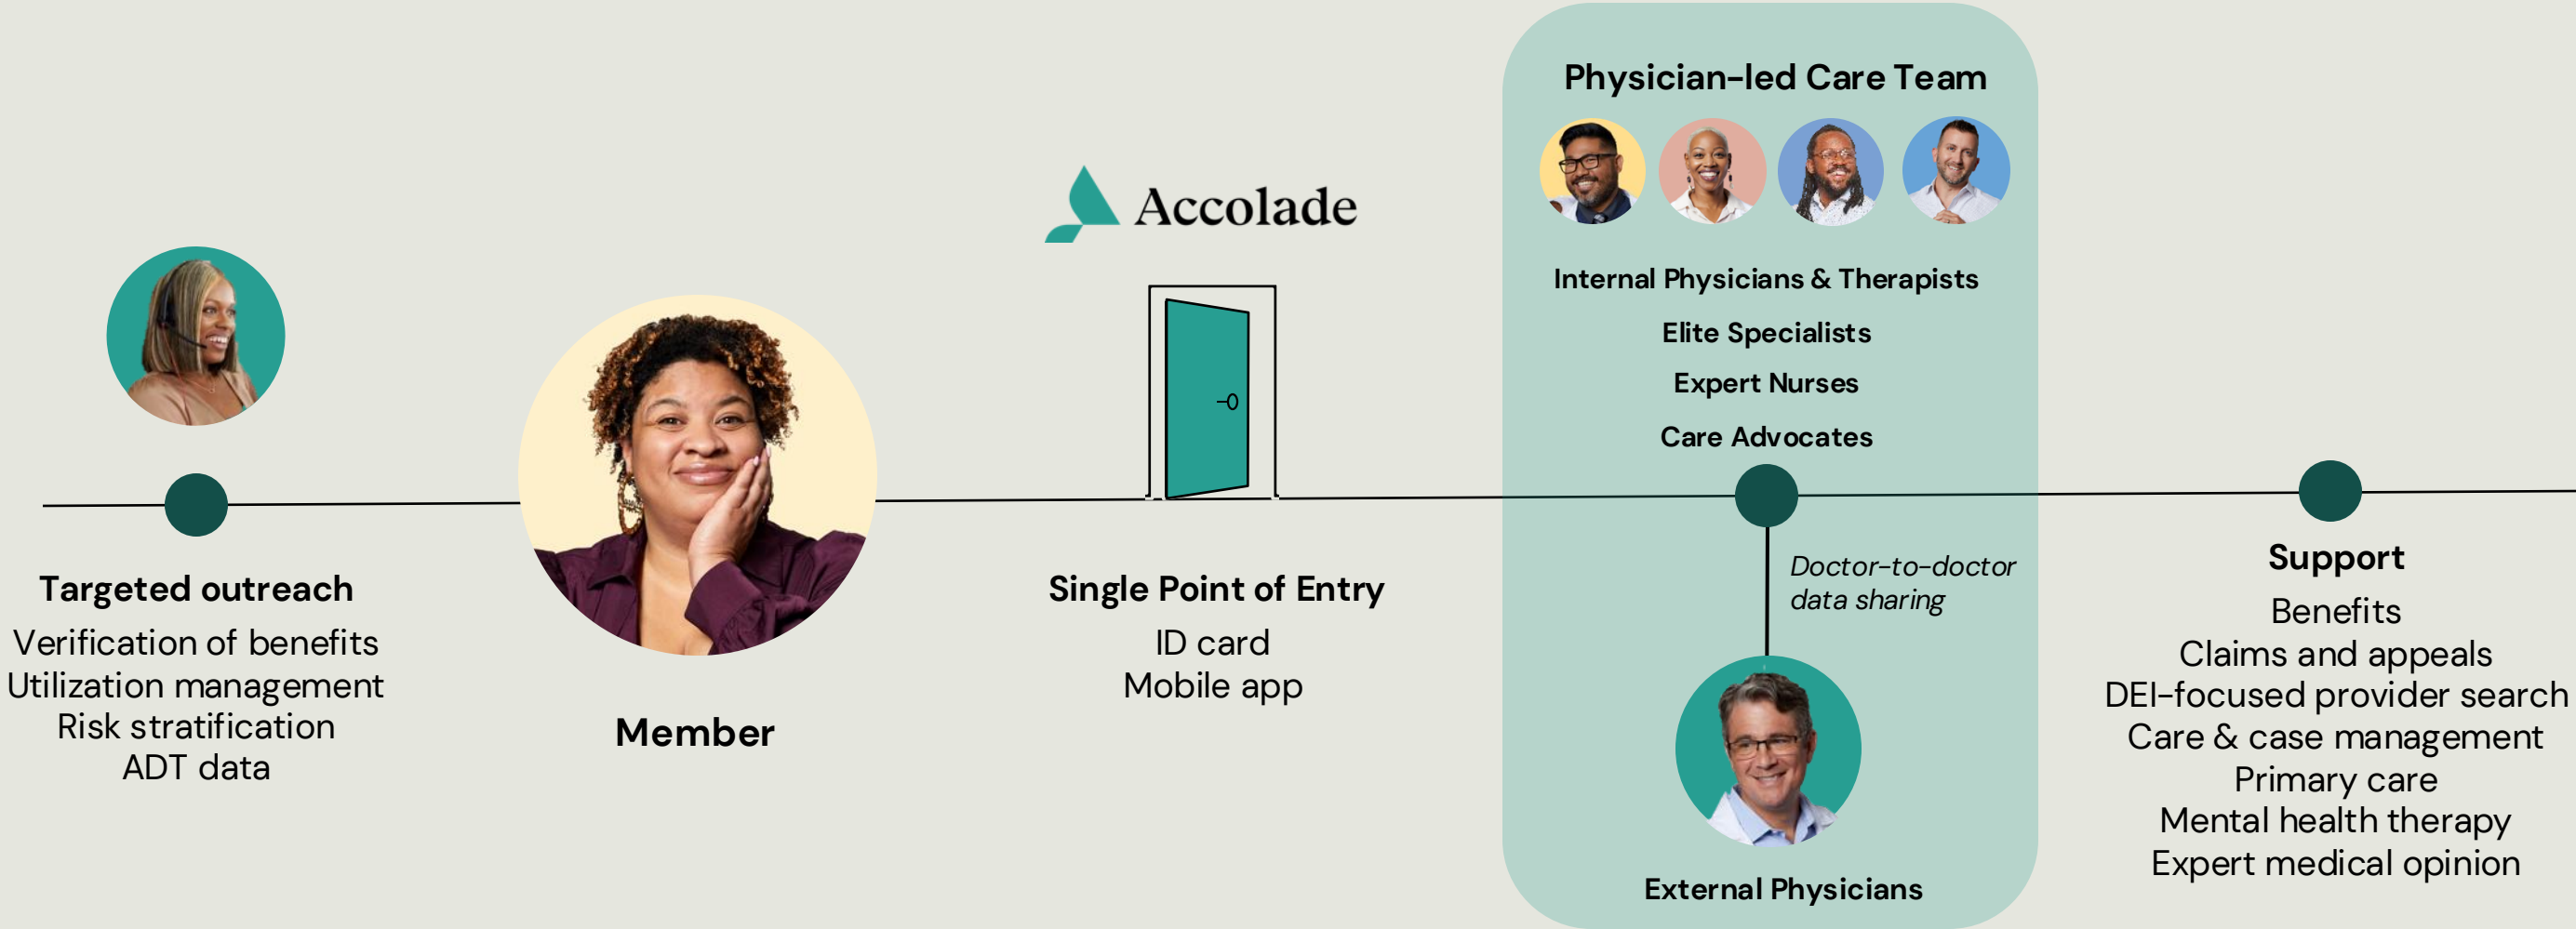

**Fragmented communication
between providers (episodes)**

**Unnecessary surgeries and
wrong treatments**

We put doctors **at the heart** of the solution

Accolade fixes the Physician Gap

**80% of visits
occur same day**

**Data sharing with
outside physicians**
visit summaries and relevant data

Overall savings: 4%+
*EMO: 25% of surgeries cancelled,
85% care plans improved*

True Health Actions Drive Personalized Care Experience

- A Concept – Member Health Snapshot
- B Deployed – Alerts
- C Deployed – True Health Action Recommendations

The screenshot displays a patient profile for John Dale (DOB: 03/22/1992). The page is organized into several sections:

- Need to know:** A yellow box (labeled A) contains a "Health Snapshot" with details: Clinical Risk Level: High Risk; Chronic Conditions: Chronic pain, stiffness of right knee, obesity, and osteoarthritis; Medications (past 6 months): 8 different medications filled. A "View more" link is present.
- Alerts:** A green box (labeled B) contains three alerts: "OON usage" (This member has recently used an OON provider), "Unnecessary ER visits" (Educate Member on urgent care and alternatives to emergency room), and "Preferred language" (Member prefers to primarily speak Spanish).
- True health actions:** A large green box (labeled C) contains three action items, each with a "Next step actions" dropdown menu:
 - Primary Recommendation:** Warm transfer member to Accolade's EMO Intake Coordinator.
 - Enroll member into Musculoskeletal Program (MSK)**
 - Revised Virtual PCP Example (specifically PlushCare)**
- Member account details:** Includes registration date (06/26/21), last mobile login (08/15/22), and last member portal login (08/15/22). A "Member forgot password" button is available, with a note: "HIPAA must be verified before button becomes enabled."
- Current reasons & tasks:** Shows a "Benefit question" with "Open Tasks (2)".
- Unresolved reasons & tasks:** Shows a "Claims question" with "Open Tasks (1)".

Appendix

Reconciliations of Revenue to Adjusted Gross Profit & Net loss to Adjusted EBITDA

Adjusted Gross Profit is a non-GAAP financial measure that we define as revenue less cost of revenue, excluding depreciation and amortization, and excluding stock-based compensation and severance costs. We define Adjusted Gross Margin as our Adjusted Gross Profit divided by our revenue. We believe Adjusted Gross Profit and Adjusted Gross Margin are useful to investors, as they eliminate the impact of certain noncash expenses and allow a direct comparison of these measures between periods without the impact of noncash expenses and certain other nonrecurring operating expenses.

Adjusted EBITDA is a non-GAAP financial measure that we define as net income (loss) adjusted to exclude interest expense (income), net, income tax expense (benefit), depreciation and amortization, stock-based compensation, acquisition and integration-related costs, goodwill impairment, change in fair value of contingent consideration, severance costs, and other expense (income). Severance costs include severance payments related to the realignment of our resources. Other expense (income) includes debt extinguishment gain or loss and foreign exchange gain or loss. We believe Adjusted EBITDA provides investors with useful information on period-to-period performance as evaluated by management and comparison with our past financial performance. We believe Adjusted EBITDA is useful in evaluating our operating performance compared to that of other companies in our industry, as this measure generally eliminates the effects of certain items that may vary from company to company for reasons unrelated to overall operating performance.

Adjusted Gross Profit, Adjusted Gross Margin and Adjusted EBITDA have certain limitations, including that they exclude the impact of certain non-cash charges, such as depreciation and amortization, whereas underlying assets may need to be replaced and result in cash capital expenditures, and stock-based compensation expense, which is a recurring charge. These non-GAAP financial measures may also not be comparable to similarly titled measures of other companies because they may not calculate such measures in the same manner, limiting their usefulness as comparative measures. In evaluating these non-GAAP financial measures, you should be aware that in the future we expect to incur expenses similar to the adjustments in this presentation. Our presentation of non-GAAP financial measures should not be construed as an inference that our future results will be unaffected by these expenses or any unusual or nonrecurring items. When evaluating our performance, you should consider these non-GAAP financial measures alongside other financial performance measures, including the most directly comparable GAAP measures set forth in the reconciliation tables below and our other GAAP results

The following tables present, for the periods indicated, the calculation of our Adjusted Gross Profit and Adjusted Gross Margin:

Adjusted EBITDA (Loss) Reconciliation

(\$ in thousands)

Fiscal year ended February 28 (29),	2020	2021	2022	2023	2024
Net Loss	\$ (51,365)	\$ (50,652)	\$ (123,124)	\$ (459,650)	\$ (99,805)
