4024 INVESTOR PRESENTATION

SEPTEMBER 2024

DISCLAIMER

Forward-looking statements

some of the statements contained in this press release are forward-looking statements within the meaning of Section 27A of the Securities Act of 1934, as amended, that involve risk, assumptions and uncertainties, such as statements of our plans, objectives, expectations, intentions and forecasts. These forward-looking statements are generally identified by the use of forward-looking terminology, including the term 'expect," "intend," "likely," "may," "plan," "possible," "potential," "project," "should," "target," "will," "would" and, in each case, their negative or other various or comparable terminology. These forward-looking statements reflect our views with respect to future events as of the date of this release and are based on our management's current expectations, estimates, forecasts, projections, assumptions, beliefs and information. Although management believes that the expectations reflected in these forward-looking statements are reasonable, it can give no assurance that these expectations will prove to have been correct. All such forward-looking statements are subject to risks and uncertainties, many of which are outside of our control, and could cause future events or results to be materially different from those stated or implied in this document. It is not possible to predict or identify all such risks. These risks include, but are not limited to: our ability to design and execute our business strategy; changes in consumer preferences and buying patterns; our ability to carried our markets; the occurrence of unfavorable publicity; risks associated with long-term non-cancellable leases for our centers; our ability to retain key managers; risks associated with our substantial indebtedness and limitations on future sources of liquidity; our ability to carry out our expansion plans; our ability to adequately obtain, maintain, protect and enforce our intellectual property and proprietary right infringement, misappropriation or other violation by competitors and third parties; fluctuations in our opera

Non-GAAP Financial Measures

To provide investors with information in addition to our results as determined under Generally Accepted Accounting Principles ("GAAP"), we disclose Revenue Excluding Service Fee Revenue, Total Location Revenue, Same Store Revenue and Adjusted EBITDA as "non-GAAP measures", which management believes provide useful information to investors because each measure assists both investors and management in analyzing and benchmarking the performance and value of our business. Accordingly, management believes that these measurements are useful for comparing general operating performance from period to period, and management relies on these measures for planning and forecasting of future periods. Additionally, these measures allow management to compare our results with those of other companies that have different financing and capital structures. These measures are not financial measures calculated in accordance with GAAP and should not be considered as a similarly stitled measure reported by other companies. Our fiscal year 2025 guidance measures (other than revenue) are provided on a non-GAAP basis without a reconciliation to the most directly comparable GAAP measure because the Company is unable to address the probable significance of the unavailable information. Such items include, but are not limited to, acquisition related expenses, share-based compensation and other items not reflective of the company's ongoing operations.

Revenue Excluding Service Fee Revenue represents total Revenue less Service Fee Revenue. Total Location Revenue represents total Revenue less Non-Location Related Revenue from Closed Locations (as defined below), and Service Fee Revenue, if applicable. Same Store Revenue represents total Revenue less Non-Location Related Revenue, Revenue from Closed Locations, Service Fee Revenue, if applicable, and Acquired Revenue. Adjusted EBITDA represents Net Income (Loss) before Interest Expense, Income Taxes, Depreciation and Amortization, Impairment and Other Charges, Share-based Compensation, EBITDA from Closed Locations, Foreign Currency Exchange Loss (Gain), Asset Disposition Loss (Gain), Transactional and other advisory costs, changes in the value of earnouts, and other.

The Company considers Revenue Excluding Service Fee Revenue as an important financial measure because provides a financial measure of revenue directly associated with consumer discretionary spending and Total Location Revenue as an important financial measure because it provides a financial measure of revenue directly associated with location operations. The Company also considers Same Store Revenue as an important financial measure because it provides comparable revenue for locations open for the entire duration of both the current and comparable measurement periods.

The Company considers Adjusted EBITDA as an important financial measure because it provides a financial measure of the quality of the Company's earnings. Other companies may calculate Adjusted EBITDA differently than we do, which might limit its usefulness as a comparative measure. Adjusted EBITDA is used by management in addition to and in conjunction with the results presented in accordance with GAAP. We have presented Adjusted EBITDA solely as a supplemental disclosure because we believe it allows for a more complete analysis of results of operations and assists investors and analysts in comparing our operating performance across reporting periods on a consistent basis by excluding items that we do not believe are indicative of our core operating performance. Adjusted EBITDA has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are that Adjusted EBITDA:

- •do not reflect every expenditure, future requirements for capital expenditures or contractual commitments;
- do not reflect changes in our working capital needs:
- •do not reflect the interest expense, or the amounts necessary to service interest or principal payments, on our outstanding debt;
- •do not reflect income tax (benefit) expense, and because the payment of taxes is part of our operations, tax expense is a necessary element of our costs and ability to operate:
- •do not reflect non-cash equity compensation, which will remain a key element of our overall equity based compensation package; and
- do not reflect the impact of earnings or charges resulting from matters we consider not to be indicative of our ongoing operations.
- •do not reflect the impact of earnings or charges resulting from matters we consider not to be indicative of our ongoing operations.

⁽¹⁾ The closed location adjustment is to remove EBITDA for closed locations. Closed locations are those locations that are closed for a variety of reasons, including permanent closure, newly acquired or built locations prior to opening, locations closed for renovation or rebranding and conversion. If a location is not open on the last day of the reporting period, it will be considered closed for that reporting period. If the location is closed on the first day of the reporting period of remanent closure, the location will be considered closed for that reporting period.

⁽²⁾ The adjustment for transaction costs and other advisory costs is to remove charges incurred in connection with any transaction, including mergers, acquisitions, refinancing, amendment or modification to indebtedness, dispositions and costs in connection with an initial public offering, in each case, regardless of whether consummated. Certain prior year amounts have been reclassified to conform to current year presentation.

The adjustment for changes in the value of earnouts is to remove the impact of the revaluation of the earnout liability is recognized in the statement of operations. Decreases in the liability will have a favorable impact on the statement of operations and increases in the liability will have an unfavorable impact.
 Other includes the following related to transactions that do not represent on cogning or frequently recurring activities as part of the Company's operations: (i) non-routine expenses, and (ii) obstrict individually de minimis expenses. Certain prior year amounts have been reclassified to conform to current year presentation.
