Warner Music Group Corp.
Notes to Condensed Consolidated Financial Statements (Unaudited)

1. Description of Business

Warner Music Group Corp. (the “Company”) was formed on November 21, 2003. The Company is the direct parent of WMG Holdings Corp. (“Holdings”), which is the direct parent of WMG Acquisition Corp. (“Acquisition Corp.”). Acquisition Corp. is one of the world’s major music entertainment companies. We classify our business interests into two fundamental operations: Recorded Music and Music Publishing.

Recorded Music Operations

Our Recorded Music business primarily consists of the discovery and development of recording artists and the related marketing, promotion, distribution, sale and licensing of music created by such recording artists. We play an integral role in virtually all aspects of the recorded music value chain from discovering and developing talent to producing, distributing and selling music to marketing and promoting recording artists and their music.

Music Publishing Operations

While Recorded Music is focused on marketing, promoting, distributing and licensing a particular recording of a musical composition, Music Publishing is an intellectual property business focused on generating revenue from uses of the musical composition itself. In return for promoting, placing, marketing and administering the creative output of a songwriter, or engaging in those activities for other rightsholders, our Music Publishing business shares the revenues generated from use of the musical compositions with the songwriter or other rightsholders.

2. Summary of Significant Accounting Policies

Interim Financial Statements

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with United States generally accepted accounting principles (“U.S. GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all the information and notes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended June 30, 2024 are not necessarily indicative of the results that may be expected for the fiscal year ending September 30, 2024.

The consolidated balance sheet at September 30, 2023 has been derived from the audited consolidated financial statements at that date but does not include all the information and notes required by U.S. GAAP for complete financial statements.

For further information, refer to the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended September 30, 2023 (File No. 001-32502).

Basis of Consolidation

The accompanying financial statements present the consolidated accounts of all entities in which the Company has a controlling voting interest and/or variable interest required to be consolidated in accordance with U.S. GAAP. All intercompany balances and transactions have been eliminated.

Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 810, *Consolidation* (“ASC 810”) requires the Company first evaluate its investments to determine if any investments qualify as a variable interest entity (“VIE”). A VIE is consolidated if the Company is deemed to be the primary beneficiary of the VIE, which is the party involved with the VIE that has both (i) the power to control the most significant activities of the VIE and (ii) either the obligation to absorb losses or the right to receive benefits that could potentially be significant to the VIE. If an entity is not deemed to be a VIE, the Company consolidates the entity if the Company has a controlling voting interest. As of June 30, 2024 and September 30, 2023, there were approximately \$72 million and \$5 million of assets and \$2 million and \$2 million of liabilities, respectively, related to VIEs included in our condensed consolidated balance sheets.

The Company has performed a review of all subsequent events through the date the financial statements were issued and has determined that no additional disclosures are necessary.

Income Taxes

The Company uses the estimated annual effective tax rate method in computing its interim tax provision. Certain items, including those deemed to be unusual and infrequent are excluded from the estimated annual effective tax rate. In such cases, the actual tax expense or benefit is reported in the same period as the related item. Certain tax effects are also not reflected in the estimated annual effective tax rate, primarily certain changes in the realizability of deferred tax assets and uncertain tax positions, and are recorded in the period in which the change occurs.

Global Intangible Low-Taxed Income (“GILTI”) imposes U.S. taxes on the excess of a deemed return on tangible assets of certain foreign subsidiaries. The Company made an election to recognize GILTI tax in the specific period in which it occurs.

New Accounting Pronouncements

Accounting Pronouncements Not Yet Adopted

In November 2023, the FASB issued ASU 2023-07, *Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures*. The amendment enhances reportable segment disclosure requirements, primarily by requiring enhanced disclosures about significant segment expenses, reporting for interim periods, and Chief Operating Decision Maker (“CODM”) related information. The amendments in this ASU are effective for fiscal years beginning after December 15, 2023 and interim periods within fiscal years beginning after December 15, 2024. The Company is in the process of evaluating the effect that the adoption of these standards will have on its consolidated financial statements.

In December 2023, the FASB issued ASU 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures*. The amendment enhances income tax disclosure requirements, by requiring enhanced disclosures on the income tax rate reconciliation and income taxes paid. The amendments in this ASU are effective for fiscal years beginning after December 15, 2024. The Company is in the process of evaluating the effect that the adoption of these standards will have on its consolidated financial statements.

3. Earnings per Share

The Company utilizes the two-class method to report earnings per share. Basic earnings per share is computed by dividing net income available to each class of stock, less earnings available to participating securities, divided by the weighted average number of outstanding common shares for each class of stock. Diluted earnings per share is computed by dividing net income available to each class of stock, less earnings available to participating securities, divided by the weighted average number of outstanding common shares, plus dilutive potential common shares, which is calculated using the treasury-stock method. The potentially dilutive common shares did not have a dilutive effect on the Company’s EPS calculation for the three and nine months ended June 30, 2024 and 2023, respectively.

The following table sets forth the calculation of basic and diluted net income per common share under the two-class method for the three and nine months ended June 30, 2024 and 2023 (in millions, except share amounts, which are reflected in thousands, and per share data):

Certain participating lenders were repaid and replaced by new lenders. The proceeds and repayments of \$42 million have been presented in the accompanying condensed consolidated statement of cash flows.

If there is a payment default at any time, then the interest rate applicable to overdue principal will be the rate otherwise applicable to such loan plus 2.0% per annum. Default interest will also be payable on other overdue amounts at a rate of 2.0% per annum above the amount that would apply to an alternative base rate loan.

The loans under the Senior Term Loan Facility bear interest at Acquisition Corp.'s election at a rate equal to (i) the forward-looking term rate based on Term SOFR subject to a zero floor, plus 2.00% per annum or (ii) the base rate, which is the highest of (x) the corporate base rate established by the administrative agent as its prime rate in effect at its principal office in New York City from time to time, (y) 0.50% in excess of the overnight federal funds rate and (z) one-month Term SOFR, plus 1.00% per annum, subject to a 1.00% floor, plus, in each case, 1.00% per annum. If there is a payment default at any time, then the interest rate applicable to overdue principal and interest will be the rate otherwise applicable to such loan plus 2.00% per annum. Strategic Restructuring Plan

Under the Strategic Restructuring Plan, the Company expects a reduction in headcount of approximately 10% of the Company’s overall headcount. The Company expects to incur total non-recurring restructuring charges of approximately \$135 million or approximately \$80 million of total non-recurring after tax charges. The expected pre-tax charges include approximately \$85 million of severance costs and approximately \$50 million of non-cash impairment charges primarily in connection with the disposal or winding down of the Company’s non-core owned and operated media properties including the Company’s in-house advertising sales function (the “O&O Media Properties”). The majority of the Strategic Restructuring Plan is expected to be completed by the end of fiscal year 2025.

The 2023 Restructuring Plan is substantially complete as of June 30, 2024 and the remaining associated cash payments are expected to be made by the end of fiscal year 2024. 10. Commitments and Contingencies

From time to time the Company is involved in claims and legal proceedings that arise in the ordinary course of business. The Company is currently subject to several such claims and legal proceedings. Based on currently available information, the Company does not believe that resolution of pending matters will have a material adverse effect on its financial condition, cash flows or results of operations. However, litigation is subject to inherent uncertainties, and there can be no assurances that the Company’s defenses will be successful or that any such lawsuit or claim would not have a material adverse impact on the Company’s business, financial condition, cash flows and results of operations in a particular period. Any claims or proceedings against the Company, whether meritorious or not, can have an adverse impact because of defense costs, diversion of management and operational resources, negative publicity and other factors.

11. Equity

Stock-Based Compensation

The Company's stock-based compensation plans are described in Note 14, "Equity," to the consolidated financial statements included in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2023. Stock-based compensation consists primarily of common stock, restricted stock units and market-based performance share units granted to eligible employees and executives under the Omnibus Incentive Plan.

For the three and nine months ended June 30, 2024, the Company recognized a total of \$10 million and \$28 million of non-cash stock-based compensation expense, respectively, which was recorded to additional paid-in capital. During the nine months ended June 30, 2024, \$15 million of share-based compensation liabilities were reclassified to additional paid-in capital upon a certain number of awards being determinable.

During the nine months ended June 30, 2023, a separation agreement between the Company and our previous Chief Executive Officer was executed. In connection with the separation agreement, the Company recognized \$12 million of non-cash stock-based compensation expense associated with restricted stock units ("RSUs") and common stock as there was no remaining service required for vesting.

During the nine months ended June 30, 2024 and 2023, the Company issued market-based performance share units ("PSUs") to our Chief Executive Officer whereby the PSU award payout is determined based on the Company's total shareholder return compared to a designated peer group. For the three and nine months ended June 30, 2024, non-cash stock-based compensation associated with these PSUs was approximately \$3 million and \$6 million, respectively. For the three and nine months ended June 30, 2023, non-cash stock-based compensation associated with these PSUs was approximately \$1 million and \$2 million, respectively.

12. Income Taxes

For the three and nine months ended June 30, 2024, the Company recorded an income tax expense of \$30 million and \$120 million, respectively. The income tax expense for the three months ended June 30, 2024 is lower than the expected tax expense at the statutory rate of 21% primarily due to benefit related to updated allowable costs for reported foreign derived intangible income ("FDII"), non-controlling interest, and the net impact of GILTI and FDII. These benefits were partially offset by foreign income taxed at rates higher than the United States, withholding taxes, and U.S. state and local taxes. The income tax expense for the nine months ended June 30, 2024 is lower than the expected tax expense at the statutory rate of 21% primarily due to the tax benefit from the winding down of the Company's O&O Media Properties, updated allowable costs for FDII, non-controlling interest, the net impact of GILTI and FDII and tax benefits associated with Research and Development ("R&D") credits. These benefits were partially offset by withholding taxes, foreign income taxed at rates higher than the United States, U.S. state and local taxes, non-deductible executive compensation under IRC Section 162(m), and unrecognized tax benefit related to uncertain tax positions.

For the three and nine months ended June 30, 2023, the Company recorded an income tax expense of \$43 million and \$112 million, respectively. The income tax expense for the three and nine months ended June 30, 2023 is higher than the expected tax benefit at the statutory tax rate of 21% primarily due to foreign income taxed at rates higher than the United States, including withholding taxes, U.S. state and local taxes, unrecognized tax benefit related to uncertain tax positions, and non-deductible executive

compensation under IRC Section 162(m). These charges were partially offset by tax benefits associated with R&D credits, release of U.S. state valuation allowance, and the net impact of GILTI and FDII.

The Company has determined that it is reasonably possible that the gross unrecognized tax benefits as of June 30, 2024 could decrease by up to approximately \$2 million related to various ongoing audits and settlement discussions in various jurisdictions during the next twelve months.

The Organization for Economic Co-operation and Development (“OECD”) introduced Base Erosion and Profit Shifting (“BEPS”) Pillar 2 rules that impose a global minimum tax rate of 15%. Numerous countries, including European Union member states, have enacted or are expected to enact legislation to be effective as early as January 1, 2024, with general implementation of a global minimum tax rate by January 1, 2025. The Company is currently evaluating the potential impact of the rules.

The Inflation Reduction Act of 2022 (H.R. 5376) includes a 15% corporate alternative minimum tax (“CAMT”) on adjusted financial statement income for corporations with average profits over \$1 billion over a three-year period. Although the U.S. Treasury and Internal Revenue Service issued interim CAMT guidance during 2023, many details and specifics of application of the CAMT remain subject to future guidance. The Company is not expecting to be subject to CAMT for our fiscal year 2024.

13. Derivative Financial Instruments

The Company uses derivative financial instruments, primarily foreign currency forward exchange contracts and interest rate swaps, for the purposes of managing foreign currency exchange rate risk and interest rate risk on expected future cash flows.

The fair value of interest rate swaps is based on dealer quotes of market rates (i.e., Level 2 inputs) which is discussed further in Note 20, “Fair Value Measurements,” to the consolidated financial statements included in the Company’s Annual Report on Form 10-K for the fiscal year ended September 30, 2023. Interest income or expense related to interest rate swaps is recognized in interest income (expense), net in the same period as the related expense is recognized. The ineffective portions of interest rate swaps are recognized in other income (expense) in the period measured.

As of June 30, 2024, the Company had outstanding foreign currency forward exchange contracts for the sale of \$175 million and the purchase of \$108 million of foreign currencies at fixed rates that will be settled by September 2024.

As of June 30, 2024, the Company had no outstanding interest rate swaps and no unrealized deferred gains or losses in comprehensive income related to the interest rate swaps. As of September 30, 2023, the Company had outstanding \$500 million in a pay-fixed receive-variable interest rate swap with \$1 million of unrealized deferred gains in comprehensive income related to the interest rate swaps.

The Company recorded realized pre-tax losses of \$1 million and unrealized pre-tax gains of \$1 million related to its foreign currency forward exchange contracts in the condensed consolidated statement of operations as other expense for the nine months ended June 30, 2024. The Company recorded realized pre-tax losses of \$6 million and unrealized pre-tax losses of \$1 million related to its foreign currency forward exchange contracts in the condensed consolidated statement of operations as other expense for the nine months ended June 30, 2023.

The unrealized pre-tax losses of the Company’s derivative interest rate swaps designated as cash flow hedges recorded in other comprehensive income during the nine months ended June 30, 2024 and June 30, 2023 were \$1 million and \$11 million, respectively.

The following is a summary of amounts recorded in the consolidated balance sheets pertaining to the Company’s derivative instruments at June 30, 2024 and September 30, 2023:

	June 30, 2024	September 30, 2023
	(in millions)	
<i>Other Current Assets:</i>		
Foreign currency forward exchange contracts (a)	1	—
Interest rate swap	\$ —	\$ 2

(a) Includes \$3 million and \$2 million of foreign exchange derivative contracts in asset and liability positions, respectively, which net to \$1 million of current assets.

14. Segment Information

Based on the nature of its products and services, the Company classifies its business interests into two fundamental operations: Recorded Music and Music Publishing, which also represent the reportable segments of the Company. Information as to each of these operations is set forth below. The Company evaluates performance based on several factors, of which the primary financial measure is operating income (loss) before non-cash depreciation of tangible assets and non-cash amortization of intangible assets adjusted to exclude the impact of non-cash stock-based compensation and other related expenses and certain items that affect comparability including but not limited to gains or losses on divestitures and expenses related to restructuring and transformation initiatives, which includes costs associated with the Company's financial transformation initiative to design and implement new information technology and upgrade our finance infrastructure ("Adjusted OIBDA"). Items excluded are not viewed to contribute directly to management's evaluation of operating results.

During the three months ended December 31, 2023, the Company changed the measure used to evaluate segment profitability from OIBDA to Adjusted OIBDA which is consistent with how the Company's CODM evaluates the results of operations and makes strategic decisions about the business. For these reasons, the Company believes that Adjusted OIBDA represents the most relevant measure of segment profit and loss. All disclosures relating to segment profitability, including those for the three and nine months ended June 30, 2023, have been revised as a result of this change. Hereafter, the Company will revise other prior quarterly and year-to-date periods for fiscal year 2023 when they are subsequently reported in later filings for comparative purposes.

The accounting policies of the Company's business segments are the same as those described in Note 2, "Summary of Significant Accounting Policies," to the consolidated financial statements included in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2023. The Company accounts for intersegment sales at fair value as if the sales were to third parties. While intercompany transactions are treated like third-party transactions to determine segment performance, the revenues (and corresponding expenses recognized by the segment that is counterparty to the transaction) are eliminated in consolidation, and therefore, do not themselves impact consolidated results.

15. Additional Financial Information

Supplemental Cash Flow Disclosures

The Company made interest payments of approximately \$35 million and \$29 million during the three months ended June 30, 2024 and 2023, respectively, and approximately \$125 million and \$104 million during the nine months ended June 30, 2024 and 2023, respectively. The Company paid approximately \$33 million and \$49 million of income and withholding taxes, net of refunds, for the three months ended June 30, 2024 and 2023, respectively, and approximately \$105 million and \$166 million of income and withholding taxes, net of refunds, for the nine months ended June 30, 2024 and 2023, respectively. Non-cash investing activities was approximately \$18 million related to the acquisition of music publishing rights and music catalogs, net during the nine months ended June 30, 2024.

Net Gain on Divestitures

During the three months ended June 30, 2024 and 2023, the Company recognized a pre-tax gain of \$1 million and no pre-tax gains or losses, respectively, in connection with the divestiture of one of its O&O Media Properties. During the nine months ended June 30, 2024 and 2023, the Company recognized a pre-tax gain of \$32 million and \$41 million, respectively, in connection with the divestiture of certain sound recording and publishing rights and one of its O&O Media Properties. For each period, the divestiture has been reflected as a net gain on divestiture in the accompanying condensed consolidated statement of operations.

Dividends

The Company's ability to pay dividends may be restricted by covenants in the credit agreement for the Revolving Credit Facility which are currently suspended but which will be reinstated if Acquisition Corp.'s Total Indebtedness to EBITDA Ratio increases above 3.50:1.00 and the term loans do not achieve an investment grade rating.

The Company intends to pay quarterly cash dividends to holders of its Class A Common Stock and Class B Common Stock. The declaration of each dividend will continue to be at the discretion of the Company's board of directors and will depend on the Company's financial condition, earnings, liquidity and capital requirements, level of indebtedness, contractual restrictions with respect to payment of dividends, restrictions imposed by Delaware law, general business conditions and any other factors that the Company's board of directors deems relevant in making such a determination. Therefore, there can be no assurance that the Company will pay any dividends to holders of the Company's common stock, or as to the amount of any such dividends.

On May 13, 2024, the Company's board of directors declared a cash dividend of \$0.17 per share on the Company's Class A Common Stock and Class B Common Stock, as well as related payments under certain stock-based compensation plans, which was paid to stockholders on June 3, 2024. The Company paid an aggregate of approximately \$89 million and \$267 million, or \$0.17 and \$0.51 per share, in cash dividends to stockholders and participating security holders for the three and nine months ended June 30, 2024, respectively.

16. Fair Value Measurements

The following tables show the fair value of the Company's financial instruments that are required to be measured at fair value as of June 30, 2024 and September 30, 2023.

	Fair Value Measurements as of June 30, 2024			
	(Level 1)	(Level 2)	(Level 3)	Total
	(in millions)			
<i>Other Current Assets:</i>				
Foreign Currency Forward Exchange Contracts (a)	\$ —	\$ 1	\$ —	\$ 1
<i>Other noncurrent assets:</i>				
Equity investments with readily determinable fair value (c)	10	—	—	10
<i>Other noncurrent liabilities:</i>				
Contractual obligations (b)	—	—	(1)	(1)

	Fair Value Measurements as of September 30, 2023			
	(Level 1)	(Level 2)	(Level 3)	Total
	(in millions)			
<i>Other current assets:</i>				
Interest rate swap (d)	\$ —	\$ 2	\$ —	\$ 2
<i>Other noncurrent assets:</i>				
Equity investment with readily determinable fair value (c)	15	—	—	15
<i>Other noncurrent liabilities:</i>				
Contractual obligations (b)	—	—	(1)	(1)

- (a) The fair value of foreign currency forward exchange contracts is based on dealer quotes of market forward rates and reflects the amount that the Company would receive or pay at their maturity dates for contracts involving the same currencies and maturity dates.
- (b) This represents contingent consideration related to acquisitions. This is based on a probability weighted performance approach and it is adjusted to fair value on a recurring basis and any adjustments are typically included as a component of operating income in the condensed consolidated statements of operations. This amount was primarily calculated using unobservable inputs such as future earnings performance of the acquiree and the expected timing of payments.
- (c) These represent equity investments with a readily determinable fair value. The Company has measured its investments to fair value in accordance with ASC 321, *Investments—Equity Securities*, based on quoted prices in active markets.
- (d) The fair value of the interest rate swaps is based on dealer quotes of market forward rates and reflects the amount that the Company would receive or pay as of each reporting period for contracts involving the same attributes and maturity dates.

The following table reconciles the beginning and ending balances of net liabilities classified as Level 3:

	Total (in millions)
Balance at September 30, 2023	\$ (1)
Additions	—
Reductions	—
Payments	—
Balance at June 30, 2024	\$ (1)

The majority of the Company's non-financial instruments, which include goodwill, intangible assets, inventories and property, plant and equipment, are not required to be re-measured to fair value on a recurring basis. These assets are evaluated for impairment if certain triggering events occur. If such evaluation indicates that impairment exists, the asset is written down to its fair value. In addition, an impairment analysis is performed at least annually for goodwill and indefinite-lived intangible assets.

Equity Investments Without Readily Determinable Fair Value

The Company evaluates its equity investments without readily determinable fair values for impairment if factors indicate that a significant decrease in value has occurred. The Company has elected to use the measurement alternative to fair value that will allow these investments to be recorded at cost, less impairment, and adjusted for subsequent observable price changes. The Company did not

record any impairment charges on these investments during the three months ended June 30, 2024 and recorded approximately \$1 million of impairment charges on these investments during the nine months ended June 30, 2024. The Company did not record any impairment charges on these investments during the three and nine months ended June 30, 2023. In addition, there were no observable price changes events that were completed during the three and nine months ended June 30, 2024 and 2023.

Fair Value of Debt

Based on the level of interest rates prevailing at June 30, 2024, the fair value of the Company's debt was \$3.715 billion. Based on the level of interest rates prevailing at September 30, 2023, the fair value of the Company's debt was \$3.525 billion. The fair value of the Company's debt instruments is determined using quoted market prices from less active markets or by using quoted market prices for instruments with identical terms and maturities; both approaches are considered a Level 2 measurement.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion of our results of operations and financial condition with the unaudited interim financial statements included elsewhere in this Quarterly Report on Form 10-Q for the fiscal quarter ended June 30, 2024 (the "Quarterly Report").

Some of the forward-looking statements can be identified by the use of forward-looking terms such as "believes," "expects," "may," "will," "shall," "should," "would," "could," "seeks," "aims," "projects," "is optimistic," "intends," "plans," "estimates," "anticipates" or other comparable terms or the negative thereof. Forward-looking statements include, without limitation, all matters that are not historical facts. They appear in a number of places throughout this Quarterly Report and include, without limitation, our ability to compete in the highly competitive markets in which we operate, statements regarding our ability to develop talent and attract future talent, our ability to reduce future capital expenditures, our ability to monetize our music, including through new distribution channels and formats to capitalize on the growth areas of the music entertainment industry, our ability to effectively deploy our capital, the development of digital music and the effect of digital distribution channels on our business, including whether we will be able to achieve higher margins from digital sales, the success of strategic actions we are taking to accelerate our transformation as we redefine our role in the music entertainment industry, the effectiveness of our ongoing efforts to reduce overhead expenditures and manage our variable and fixed cost structure and our ability to generate expected cost savings from such efforts, our success in limiting piracy, the growth of the music entertainment industry and the effect of our and the industry's efforts to combat piracy on the industry, our intention and ability to pay dividends or repurchase or retire our outstanding debt or notes in open market purchases, privately or otherwise, the impact on us of potential strategic transactions, our ability to fund our future capital needs and the effect of litigation on us.

Forward-looking statements are subject to known and unknown risks and uncertainties, many of which may be beyond our control. We caution you that forward-looking statements are not guarantees of future performance or outcomes and that actual performance and outcomes, including, without limitation, our actual results of operations, financial condition and liquidity, and the development of the market in which we operate, may differ materially from those made in or suggested by the forward-looking statements contained in this Quarterly Report. In addition, even if our results of operations, financial condition and cash flows, and the development of the market in which we operate, are consistent with the forward-looking statements contained in this Quarterly Report, those results or developments may not be indicative of results or developments in subsequent periods. New factors emerge from time to time that may cause our business not to develop as we expect, and it is not possible for us to accurately predict all of them. Factors that could cause actual results and outcomes to differ from those reflected in forward-looking statements include, without limitation:

- our inability to compete successfully in the highly competitive markets in which we operate;
- our ability to identify, sign and retain recording artists and songwriters and the existence or absence of superstar releases;
- slower growth in streaming adoption and revenue;
- our dependence on a limited number of digital music services for the online distribution and marketing of our music and their ability to significantly influence the pricing structure for online music stores;
- the ability to further develop a successful business model applicable to a digital environment and to enter into artist services and expanded-rights deals with recording artists in order to broaden our revenue streams in growing segments of the music entertainment business;
- the popular demand for particular recording artists and/or songwriters and music and the timely delivery to us of music by major recording artists and/or songwriters;
- risks related to the effects of natural or man-made disasters, including pandemics;
- the diversity and quality of our recording artists, songwriters and releases;
- trends, developments or other events in some foreign countries in which we operate;
- risks associated with our non-U.S. operations, including limited legal protections of our intellectual property rights and restrictions on the repatriation of capital;
- unfavorable currency exchange rate fluctuations;

- the impact of heightened and intensive competition in the recorded music and music publishing industries and our inability to execute our business strategy;
- significant fluctuations in our operations, cash flows and the trading price of our common stock from period to period;
- our failure to attract and retain our executive officers and other key personnel;
- a significant portion of our revenues are subject to rate regulation either by government entities or by local third-party collecting societies throughout the world and rates on other income streams may be set by governmental proceedings, which may limit our profitability;
- risks associated with obtaining, maintaining, protecting and enforcing our intellectual property rights;
- our involvement in intellectual property litigation;
- threats to our business associated with digital piracy, including organized industrial piracy;
- an impairment in the carrying value of goodwill or other intangible and long-lived assets;
- the impact of, and risks inherent in, acquisitions or other business combinations;
- risks inherent to our outsourcing certain finance and accounting functions;
- the fact that we have engaged in substantial restructuring activities in the past, and may need to implement further restructurings in the future and our restructuring efforts may not be successful or generate expected cost savings;
- our ability to maintain the security of information relating to our customers, employees and vendors and our music;
- risks related to evolving laws and regulations concerning data privacy which might result in increased regulation and different industry standards;
- legislation limiting the terms by which an individual can be bound under a “personal services” contract;
- new legislation that affects the terms of our contracts with recording artists and songwriters;
- a potential loss of catalog if it is determined that recording artists have a right to recapture U.S. rights in their recordings under the U.S. Copyright Act;
- any delays and difficulties in satisfying obligations incident to being a public company;
- the impact of our substantial leverage on our ability to raise additional capital to fund our operations, on our ability to react to changes in the economy or our industry and on our ability to meet our obligations under our indebtedness;
- the ability to generate sufficient cash to service all of our indebtedness, and the risk that we may be forced to take other actions to satisfy our obligations under our indebtedness, which may not be successful;
- the fact that our debt agreements contain restrictions that may limit our flexibility in operating our business;
- the significant amount of cash required to service our indebtedness and the ability to generate cash or refinance indebtedness as it becomes due depends on many factors, some of which are beyond our control;
- our indebtedness levels, and the fact that we may be able to incur substantially more indebtedness, which may increase the risks created by our substantial indebtedness;
- risks of downgrade, suspension or withdrawal of the rating assigned by a rating agency to us could impact our cost of capital;
- the dual class structure of our common stock and Access’s existing ownership of our Class B Common Stock have the effect of concentrating control over our management and affairs and over matters requiring stockholder approval with Access;
- the fact that we maintain certain cash deposits in excess of the Federal Deposit Insurance Corporation (“FDIC”) insurance limits, which could have an adverse effect on liquidity and financial performance in the event of a bank failure or receivership; and
- risks related to other factors discussed under “Risk Factors” of this Quarterly Report and in our Annual Report on Form 10-K for the fiscal year ended September 30, 2023.

You should read this Quarterly Report completely and with the understanding that actual future results may be materially different from expectations. Any forward-looking statement speaks only as of the date on which it is made, and we do not undertake any obligation,

other than as may be required by law, to update or revise any forward-looking or cautionary statements to reflect changes in assumptions, the occurrence of events, unanticipated or otherwise, and changes in future operating results over time or otherwise. Comparisons of results for current and any prior periods are not intended to express any future trends or indications of future performance, unless expressed as such, and should only be viewed as historical data.

Other risks, uncertainties and factors, including those discussed in the “Risk Factors” of our Quarterly Reports and our Annual Report on Form 10-K, could cause our actual results to differ materially from those projected in any forward-looking statements we make. You should read carefully the factors described in the “Risk Factors” section of our Quarterly Reports and our Annual Report on Form 10-K to better understand the risks and uncertainties inherent in our business and underlying any forward-looking statements.

INTRODUCTION

Warner Music Group Corp. (the “Company”) was formed on November 21, 2003. The Company is the direct parent of WMG Holdings Corp. (“Holdings”), which is the direct parent of WMG Acquisition Corp. (“Acquisition Corp.”). Acquisition Corp. is one of the world’s major music entertainment companies.

The Company and Holdings are holding companies that conduct substantially all of their business operations through their subsidiaries. The terms “we,” “us,” “our,” “ours” and the “Company” refer collectively to Warner Music Group Corp. and its consolidated subsidiaries, except where otherwise indicated.

Management’s discussion and analysis of financial condition and results of operations (“MD&A”) is provided as a supplement to the unaudited financial statements and related notes thereto included elsewhere herein to help provide an understanding of our financial condition, changes in financial condition and results of our operations. MD&A is organized as follows:

- *Business overview.* This section provides a general description of our business, as well as a discussion of factors that we believe are important in understanding our results of operations and comparability and in anticipating future trends.
- *Results of operations.* This section provides an analysis of our results of operations for the three and nine months ended June 30, 2024 and June 30, 2023. This analysis is presented on both a consolidated and segment basis.
- *Financial condition and liquidity.* This section provides an analysis of our cash flows for the nine months ended June 30, 2024 and June 30, 2023, as well as a discussion of our financial condition and liquidity as of June 30, 2024. The discussion of our financial condition and liquidity includes recent debt financings and a summary of the key debt covenant compliance measures under our debt agreements.

Use of Adjusted OIBDA

We evaluate our operating performance based on several factors, including our primary financial measure of operating income (loss) before non-cash depreciation of tangible assets and non-cash amortization of intangible assets adjusted to exclude the impact of non-cash stock-based compensation and other related expenses and certain items that affect comparability including but not limited to gains or losses on divestitures and expenses related to restructuring and transformation initiatives (“Adjusted OIBDA”). We consider Adjusted OIBDA to be an important indicator of the operational strengths and performance of our businesses. However, a limitation of the use of Adjusted OIBDA as a performance measure is that it does not reflect the periodic costs of certain capitalized tangible and intangible assets used in generating revenues in our businesses. Accordingly, Adjusted OIBDA should be considered in addition to, not as a substitute for, operating income (loss), net income (loss) attributable to Warner Music Group Corp. and other measures of financial performance reported in accordance with United States generally accepted accounting principles (“U.S. GAAP”). In addition, our definition of Adjusted OIBDA may differ from similarly titled measures used by other companies. A reconciliation of consolidated Adjusted OIBDA to operating income (loss) and net income (loss) attributable to Warner Music Group Corp. is provided in our “Results of Operations.”

Use of Constant Currency

As exchange rates are an important factor in understanding period to period comparisons, we believe the presentation of revenue and Adjusted OIBDA on a constant-currency basis in addition to reported results helps improve the ability to understand our operating results and evaluate our performance in comparison to prior periods. Constant-currency information compares revenue and Adjusted OIBDA between periods as if exchange rates had remained constant period over period. We use revenue and Adjusted OIBDA on a constant-currency basis as one measure to evaluate our performance. We calculate constant-currency by calculating prior-year revenue and Adjusted OIBDA using current-year foreign currency exchange rates. We generally refer to such amounts calculated on a constant-currency basis as “excluding the impact of foreign currency exchange rates.” Revenue and Adjusted OIBDA

on a constant-currency basis should be considered in addition to, not as a substitute for, revenue and Adjusted OIBDA reported in accordance with U.S. GAAP. Revenue and Adjusted OIBDA on a constant-currency basis, as we present it, may not be comparable to similarly titled measures used by other companies and are not a measure of performance presented in accordance with U.S. GAAP.

BUSINESS OVERVIEW

We are one of the world's leading music entertainment companies. Our renowned family of iconic record labels, including Atlantic Records, Warner Records, Elektra Records and Parlophone Records, is home to many of the world's most popular and influential recording artists. In addition, Warner Chappell Music, our global music publishing business, boasts an extraordinary catalog that includes timeless standards and contemporary hits, representing works by over 150,000 songwriters and composers, with a global collection of more than one and a half million musical compositions. We classify our business interests into two fundamental operations: Recorded Music and Music Publishing. A brief description of each of those operations is presented below.

Components of Our Operating Results

Recorded Music Operations

Our Recorded Music business primarily consists of the discovery and development of recording artists and the related marketing, promotion, distribution, sale and licensing of music created by such recording artists. We play an integral role in virtually all aspects of the recorded music value chain from discovering and developing talent to producing, distributing and selling music to marketing and promoting recording artists and their music.

In the United States, our Recorded Music business is conducted principally through our major record labels—Atlantic Records and Warner Records. In October 2018, we launched Elektra Music Group in the United States as a standalone label group, which comprises the Elektra, Fueled by Ramen and Roadrunner labels, and in December 2021, we acquired 300 Entertainment and subsequently launched 300 Elektra Entertainment, or 3EE, a frontline label group that brings together the multi-genre power of 300 Entertainment and Elektra Music Group. Our Recorded Music business also includes Rhino Entertainment, a division that specializes in marketing our recorded music catalog through compilations, reissues of previously released music and video titles and releasing previously unreleased material from our vault. We also conduct our Recorded Music business through a collection of additional record labels including Asylum, Big Beat, Canvasback, East West, Erato, FFRR, Nonesuch, Parlophone, Reprise, Sire, Spinnin' Records, TenThousand Projects, Warner Classics and Warner Music Nashville.

Outside the United States, our Recorded Music business is conducted in more than 70 countries through various subsidiaries, affiliates and non-affiliated licensees. Internationally, we engage in the same activities as in the United States: discovering and signing artists and distributing, selling, marketing and promoting their music. In most cases, we also market, promote, distribute and sell the music of those recording artists for whom our domestic record labels have international rights. In certain smaller markets, we license the right to distribute and sell our music to non-affiliated third-party record labels.

Our Recorded Music business' operations include WMX, a next generation services division that connects artists with fans and amplifies brands in creative, immersive, and engaging ways. This division includes a rebranded WEA commercial services & marketing network (formerly Warner-Elektra-Atlantic Corporation, or WEA Corp.), which markets, distributes and sells music and video products to retailers and wholesale distributors, as well as acting as the Company's media and creative content arm. Our business' distribution operations also include Alternative Distribution Alliance ("ADA"), which markets, distributes and sells the products of independent labels to retail and wholesale distributors; and various distribution centers and ventures operated internationally.

In addition to our music being sold in physical retail outlets, our music is also sold in physical form to online physical retailers, such as amazon.com, barnesandnoble.com and bestbuy.com, and distributed in digital form to an expanded universe of digital partners, including streaming services such as those of Amazon, Apple, Deezer, SoundCloud, Spotify, Tencent Music and YouTube, radio services such as iHeart Radio and SiriusXM and other download services.

We have integrated the marketing of digital content into all aspects of our business, including artists and repertoire ("A&R") and distribution. Our business development executives work closely with A&R departments to ensure that while music is being produced, digital assets are also created with all distribution channels in mind, including streaming services, social networking sites, online portals and music-centered destinations. We also work side-by-side with our online and mobile partners to test new concepts. We believe existing and new digital businesses will be a significant source of growth and will provide new opportunities to successfully monetize our assets and create new revenue streams. The proportion of digital revenues attributable to each distribution channel varies by region and proportions may change as the introduction of new technologies continues. As one of the world's largest music entertainment companies, we believe we are well positioned to take advantage of growth in digital distribution and emerging technologies to maximize the value of our assets.

We have diversified our revenues beyond our traditional businesses by entering into expanded-rights deals with recording artists in order to partner with such artists in other aspects of their careers. Under these agreements, we provide services to and participate in recording artists' activities outside the traditional recorded music business such as touring, merchandising and sponsorships. We have built and acquired artist services capabilities and platforms for marketing and distributing this broader set of music-related rights and participating more widely in the monetization of the artist brands we help create. We believe that entering into expanded-rights deals and enhancing our artist services capabilities in areas such as merchandising, VIP ticketing, fan clubs, concert promotion and management has permitted us to diversify revenue streams and capitalize on other revenue opportunities. This provides for improved long-term relationships with our recording artists and allows us to more effectively connect recording artists and fans.

Recorded Music revenues are derived from four main sources:

- *Digital*: the rightsholder receives revenues with respect to streaming and download services;
- *Physical*: the rightsholder receives revenues with respect to sales of physical products such as vinyl, CDs and DVDs;
- *Artist services and expanded-rights*: the rightsholder receives revenues with respect to our artist services businesses and our participation in expanded rights, including advertising, merchandising such as direct-to-consumer sales, touring, concert promotion, ticketing, sponsorship, fan clubs, artist websites, social publishing, and artist and brand management; and

Music Publishing Operations

While Recorded Music is focused on marketing, promoting, distributing and licensing a particular recording of a musical composition, Music Publishing is an intellectual property business focused on generating revenue from uses of the musical composition itself. In return for promoting, placing, marketing and administering the creative output of a songwriter, or engaging in those activities for other rightsholders, our Music Publishing business shares the revenues generated from use of the musical compositions with the songwriter or other rightsholders.

The operations of our Music Publishing business are conducted principally through Warner Chappell Music, our global music publishing company headquartered in Los Angeles, with operations in over 70 countries through various subsidiaries, affiliates, and non-affiliated licensees and sub-publishers. We own or control rights to more than one and a half million musical compositions, including numerous pop hits, American standards, folk songs and motion picture and theatrical compositions. Assembled over decades, our award-winning catalog includes over 150,000 songwriters and composers and a diverse range of genres including pop, rock, jazz, classical, country, R&B, hip-hop, rap, reggae, Latin, folk, blues, symphonic, soul, Broadway, electronic, alternative and gospel. Warner Chappell Music also administers the music and soundtracks of several third-party television and film producers and studios. We have an extensive production music catalog collectively branded as Warner Chappell Production Music.

Music Publishing revenues are derived from five main sources:

- *Digital*: the rightsholder receives revenues with respect to musical compositions embodied in recordings distributed in streaming services, download services, digital performance and other digital music services;
- *Performance*: the rightsholder receives revenues if the musical composition is performed publicly through broadcast of music on television, radio and cable and in retail locations (e.g., bars and restaurants), live performance at a

concert or other venue (e.g., arena concerts and nightclubs), and performance of music in staged theatrical productions;

- *Mechanical*: the rightsholder receives revenues with respect to musical compositions embodied in recordings sold in any physical format or configuration such as vinyl, CDs and DVDs;
- *Synchronization*: the rightsholder receives revenues for the right to use the musical composition in combination with visual images such as in films or television programs, television commercials and video games as well as from other uses such as in toys or novelty items and merchandise; and
- *Other*: the rightsholder receives revenues for use in sheet music and other uses.

The principal costs associated with our Music Publishing business are as follows:

- *A&R costs*: the costs associated with (i) paying royalties to songwriters, co-publishers and other copyright holders in connection with income generated from the uses of their works and (ii) signing and developing songwriters; and
- *Selling and marketing, general overhead and other administrative expenses*: the costs associated with selling and marketing, general overhead and other administrative expenses.

Recent Events and Factors Affecting Results of Operations and Comparability

Strategic Restructuring Plan

In February 2024, the Company announced a strategic restructuring plan (the “Strategic Restructuring Plan”) designed to free up additional funds to invest in music and accelerate the Company’s growth for the next decade. Under the Strategic Restructuring Plan, the Company expects a reduction in headcount of approximately 10% of the Company’s overall headcount. The Company expects to incur total non-recurring restructuring charges of approximately \$135 million or approximately \$80 million of total non-recurring after tax charges. The expected pre-tax charges include approximately \$85 million of severance costs and approximately \$50 million of non-cash impairment charges primarily in connection with the disposal or winding down of the Company’s non-core owned and operated media properties including the Company’s in-house advertising sales function (the “O&O Media Properties”). The majority of the Strategic Restructuring Plan is expected to be completed by the end of fiscal year 2025.

The cost savings under the Strategic Restructuring Plan will be achieved through a combination of the disposal or winding down of the O&O Media Properties, continuing to manage overhead, sharpening focus, expanding shared services, and implementing previously disclosed expected operational efficiencies made possible by the Company’s financial transformative initiative. The Company expects allocating a majority of the costs savings to increase investment in the Company’s core Recorded Music and Music Publishing businesses, new skill sets and tech capabilities.

For the three months ended June 30, 2024, total severance costs recorded in connection with the Strategic Restructuring Plan were \$1 million, all of which was recognized in our Recorded Music segment. For the nine months ended June 30, 2024, total severance costs recorded in connection with the Strategic Restructuring Plan were \$47 million, of which, \$43 million was recognized in our Recorded Music segment and \$4 million was recognized in Corporate. The below table sets forth the activity for the nine months ended June 30, 2024 in the restructuring accrual associated with the Strategic Restructuring Plan included within accrued liabilities in the accompanying condensed consolidated balance sheets. Additionally, for the nine months ended June 30, 2024, the Company recognized \$50 million of impairment losses on unamortized intangible assets and other assets of which \$47 million was recognized in our Recorded Music segment and \$3 million was recognized in Corporate. Impairment charges recognized primarily relate to the winding down of the Company’s O&O Media Properties.

2023 Restructuring Plan

In March 2023, the Company announced a restructuring plan (the “2023 Restructuring Plan”) intended to drive the evolution of the Company and position the Company for long-term growth, primarily through headcount reductions. There were no restructuring costs incurred in the three months ended June 30, 2023. Total restructuring costs were \$41 million for the nine months ended June 30, 2023, consisting of severance costs. All restructuring costs were recorded in the Recorded Music segment in the prior year.

BMG Termination

In September 2023, the Company terminated its distribution agreement with BMG as BMG began to bring digital distribution in-house and license directly with digital service partners in fiscal 2024 (the “BMG Termination”). Alternative Distribution Alliance (“ADA”), which is part of our Recorded Music business, had previously been distributing BMG’s recorded music catalog and revenues are reported within our Recorded Music segment. The shift to direct deals by BMG will be a phased in-sourcing of distribution during the current fiscal year and we expect BMG to be rolled off in fiscal 2025.

During the three and nine months ended June 30, 2024, in connection with the BMG Termination, the Company reported lower Recorded Music digital revenue of \$26 million and \$61 million, respectively, of which \$25 million and \$57 million was streaming revenue, respectively. The impact to Recorded Music’s Adjusted OIBDA was immaterial for the three and nine months ended June 30, 2024.

Total Revenues

Total revenues decreased by \$10 million, or 1%, to \$1,554 million for the three months ended June 30, 2024 from \$1,564 million for the three months ended June 30, 2023. Consistent with prior quarter, revenue growth was unfavorably impacted by the BMG Termination in Recorded Music digital revenue, which resulted in \$26 million less revenue compared to the prior-year quarter, and a \$3 million unfavorable impact within Recorded Music streaming revenue due to the renewal with one of the Company's digital partners (the "Digital License Renewal"), which resulted in upfront revenue recognition for the three months ended December 31, 2023. Music Publishing digital revenue growth was also unfavorably impacted by a \$7 million benefit in the prior-year quarter due to a ruling by the Copyright Royalty Board in Phonorecords III upholding higher percentage of revenue U.S. mechanical royalty rates (the "CRB Rate Benefit"). Adjusted for these items, total revenues increased by 2%, which includes \$20 million of unfavorable currency exchange fluctuations. Prior to intersegment eliminations, Recorded Music and Music Publishing revenues represented 80% and 20% of total revenue for the three months ended June 30, 2024, respectively, and 82% and 18% of total revenue for the three months ended June 30, 2023, respectively. Prior to intersegment eliminations, U.S. and international revenues represented 44% and 56% of total revenues for the three months ended June 30, 2024 and 45% and 55% of total revenues for the three months ended June 30, 2023.

Total digital revenues after intersegment eliminations increased by \$48 million, or 5%, to \$1,075 million for the three months ended June 30, 2024 from \$1,027 million for the three months ended June 30, 2023. Excluding the BMG Termination, the Digital License Renewal, and the CRB Rate Benefit, total digital revenues increased 8%. Total streaming revenue increased 6% driven by growth across Recorded Music and Music Publishing. Prior to intersegment eliminations, total digital revenues for the three months ended June 30, 2024 were composed of U.S. revenues of \$504 million and international revenues of \$572 million, or 47% and 53% of total digital revenues, respectively. Prior to intersegment eliminations, total digital revenues for the three months ended June 30, 2023 were composed of U.S. revenues of \$506 million and international revenues of \$522 million, or 49% and 51% of total digital revenues, respectively.

Recorded Music revenues decreased by \$31 million, or 2%, to \$1,251 million for the three months ended June 30, 2024 from \$1,282 million for the three months ended June 30, 2023. The decrease includes \$17 million of unfavorable currency exchange fluctuations. U.S. Recorded Music revenues were \$517 million and \$557 million, or 41% and 43% of consolidated Recorded Music revenues for each of the three months ended June 30, 2024 and June 30, 2023, respectively. International Recorded Music revenues were \$734 million and \$725 million, or 59% and 57% of consolidated Recorded Music revenues for each of the three months ended June 30, 2024 and June 30, 2023, respectively.

The overall decrease in Recorded Music revenue was driven by decreases in artist services and expanded-rights, physical, and licensing revenues, partially offset by an increase in digital revenue. Digital revenue increased by \$36 million primarily due to growth in streaming revenue, partially offset by the unfavorable impact of foreign currency exchange rates of \$12 million. Revenue from streaming services increased by \$41 million, or 5%, to \$863 million for the three months ended June 30, 2024 from \$822 million for the three months ended June 30, 2023. The growth in streaming revenue is partially offset by the impacts of the BMG Termination of \$25 million, the Digital License Renewal of \$3 million, and the unfavorable impact of foreign currency exchange rates of \$11 million. Adjusted for the BMG Termination and the Digital License Renewal, streaming revenues increased 9%. The quarter reflects success from new album releases from Benson Boone and Dua Lipa, as well as carryover success from Zach Bryan and Teddy Swims. Download and other digital revenues decreased by \$5 million, or 21%, to \$19 million for the three months ended June 30, 2024 from \$24 million for the three months ended June 30, 2023 due to the unfavorable impact of the BMG Termination of \$1 million compared to the prior-year quarter, the unfavorable impact of foreign currency exchange rates of \$1 million, and the continued shift to streaming services. Artist services and expanded-rights revenue decreased by \$59 million or 27% due to lower merchandising and concert promotion revenue, a decrease in revenue related to the exit of the Company's O&O Media Properties announced as part of the Strategic Restructuring Plan, and the unfavorable impact of foreign currency exchange rates of \$3 million. Licensing revenue decreased by \$2 million, or 2%, primarily driven by the timing of copyright infringement settlements and the unfavorable impact of foreign currency exchange rates of \$1 million. Physical revenue decreased by \$6 million, or 5%, primarily driven by timing of releases and strong U.S. releases in the prior-year quarter, and the unfavorable impact of foreign currency exchange rates of \$1 million.

Music Publishing revenues increased by \$22 million, or 8%, to \$305 million for the three months ended June 30, 2024 from \$283 million for the three months ended June 30, 2023. U.S. Music Publishing revenues were \$161 million and \$147 million, or 53% and 52% of consolidated Music Publishing revenues, for the three months ended June 30, 2024 and June 30, 2023, respectively. International Music Publishing revenues were \$144 million and \$136 million, or 47% and 48% of consolidated Music Publishing revenues, for the three months ended June 30, 2024 and June 30, 2023, respectively.

The overall increase in Music Publishing revenue was driven by increases in digital, performance, and synchronization revenues, partially offset by lower mechanical revenue. Digital revenue grew by \$12 million, or 7%, primarily due to higher streaming revenue driven by the impact of digital deal renewals and continued investment in our publishing catalog, partially offset by the CRB Rate Benefit in the prior-year quarter of \$7 million, and the unfavorable impact of foreign currency exchange rates of \$1 million. Revenue from streaming services grew by \$14 million, or 8%, to \$192 million for the three months ended June 30, 2024 from \$178 million for the three months ended June 30, 2023. Excluding the CRB Rate Benefit of \$7 million in the prior-year quarter, revenue from streaming services grew 12%. Performance revenue increased by \$12 million, or 30%, driven by an increase in touring activity outside the U.S. and U.S. radio activity, partially offset by the unfavorable impact of foreign currency exchange rates of \$1 million. Synchronization revenue increased by \$1 million, or 2%, primarily attributable to higher international commercial licensing activity, partially offset by the timing of copyright infringement settlements in the U.S. Mechanical revenue decreased by \$3 million, or 19%, primarily driven by lower physical sales.

Revenue by Geographical Location

U.S. revenue decreased by \$26 million, or 4%, to \$678 million for the three months ended June 30, 2024 from \$704 million for the three months ended June 30, 2023. U.S. Recorded Music revenue decreased by \$40 million, or 7%. The decrease is driven by lower revenue across artist services and expanded-rights of \$19 million, digital revenue of \$12 million, licensing revenue of \$5 million, and physical revenue of \$4 million. The decrease in artist services and expanded-rights revenue is driven by lower merchandising revenue and a decrease in revenue related to the exit of the Company's O&O Media Properties announced as part of the Strategic Restructuring Plan. The decrease in U.S. Recorded Music digital revenue reflects lower streaming revenue of \$9 million, or 2%, and lower download and other digital revenue of \$3 million, or 23%, primarily attributable to the unfavorable impact of the BMG Termination compared to the prior-year quarter. The decrease in U.S. Recorded Music licensing revenue of \$5 million is driven by timing of copyright infringement settlements in the prior-year quarter, and the decrease in physical revenue of \$4 million is driven by the timing of releases following strong U.S. releases in the prior-year quarter. U.S. Music Publishing revenue increased by \$14 million, or 10%, to \$161 million for the three months ended June 30, 2024 from \$147 million for the three months ended June 30, 2023. This was largely driven by an increase in U.S. Music Publishing digital revenue of \$10 million due to the continued growth in streaming services, resulting in streaming growth of \$9 million, or 9%. The increase in streaming revenue reflects the continued market growth, expansion of our publishing catalog and timing of payments, partially offset by the CRB Rate Benefit of \$7 million in the prior-year quarter. U.S. Music Publishing performance revenue increased by \$7 million due to an increase U.S. radio activity, mechanical revenue increased by \$1 million due to timing of collections, partially offset by a decrease in synchronization revenue of \$3 million driven by the timing of copyright infringement settlements.

International revenue increased by \$17 million, or 2%, to \$878 million for the three months ended June 30, 2024 from \$861 million for the three months ended June 30, 2023. Excluding the unfavorable impact of foreign currency exchange rates of \$20 million, International revenue increased by \$37 million, or 4%. International Recorded Music revenue increased by \$9 million due to increases in digital revenue of \$48 million and licensing revenue of \$3 million, partially offset by decreases in artist services and expanded-rights revenue of \$40 million and physical revenue of \$2 million. The increase in International Recorded Music digital revenue was driven by an increase in streaming revenue of \$50 million, or 12%, partially offset by the unfavorable impact of the Digital License Renewal of \$3 million in the prior-year quarter and the unfavorable impact of foreign currency exchange rates of \$11 million. International Recorded Music licensing revenue increased by \$3 million, driven by the timing of copyright infringement settlements, partially offset by the unfavorable impact of foreign currency exchange rates of \$1 million. International Recorded Music artist services and expanded-rights revenue decreased by \$40 million due to lower direct-to-consumer merchandising revenue at EMP, lower concert promotion revenue primarily in Japan and France, and the unfavorable impact of foreign currency exchange rates of \$3 million. International Recorded Music physical revenue decreased by \$2 million, primarily due to the timing of releases.

International Music Publishing revenue increased from the prior-year quarter by \$8 million, or 6%, to \$144 million for the three months ended June 30, 2024 from \$136 million for the three months ended June 30, 2023. International Music Publishing revenue growth was largely driven by increases in performance revenue of \$5 million due to strong artist touring activity in Europe, synchronization revenue of \$4 million, digital revenue of \$2 million, other revenue of \$1 million, partially offset by a decrease in mechanical revenue of \$4 million. The growth in International Music Publishing digital revenue includes streaming revenue growth of \$5 million or 7%, partially offset by a decrease in download and other digital revenue of \$3 million.

Product costs as a percentage of revenue decreased to 18% for the three months ended June 30, 2024 from 20% for the three months ended June 30, 2023, primarily driven by revenue mix due to the BMG Termination and lower artist services and expanded-rights and third-party distributed label revenue.

General and administrative expense increased by \$20 million to \$264 million for the three months ended June 30, 2024 from \$244 million for the three months ended June 30, 2023. The increase in general and administrative expense was largely due to incremental expenses related to transformation initiatives and related costs of \$5 million, higher depreciation expense driven by assets placed in service of \$3 million, the unfavorable movements in foreign currency exchange rates of \$3 million, higher non-cash stock-based compensation and other related costs of \$3 million, partially offset by savings from the 2023 Restructuring Plan and the Strategic Restructuring Plan. Adjusted OIBDA

Adjusted OIBDA increased by \$19 million to \$316 million for the three months ended June 30, 2024 as compared to \$297 million for the three months ended June 30, 2023 primarily due to strong operating performance, savings from the Strategic Restructuring Plan and savings from the 2023 Restructuring Plan, partially offset by the reinvestment of these savings in the Company's business. Expressed as a percentage of total revenue, Adjusted OIBDA margin increased to 20% for the three months ended June 30, 2024 from 19% for the three months ended June 30, 2023 due to the factors noted above.

Amortization expense

Our amortization expense decreased by \$9 million, or 14%, to \$55 million for the three months ended June 30, 2024 from \$64 million for the three months ended June 30, 2023. The decrease is driven by certain intangible assets becoming fully amortized.

Operating income

Our operating income increased by \$18 million to \$207 million for the three months ended June 30, 2024 from \$189 million for the three months ended June 30, 2023. In addition to the factors impacting Adjusted OIBDA described above, the increase in operating income was driven by lower amortization expense of \$9 million and \$1 million net gain on a divestiture in the current quarter, offset by \$5 million of incremental expenses related to transformation initiatives and other related costs, higher non-cash stock-based compensation of \$3 million, and \$1 million of restructuring charges for the three months ended June 30, 2024 related to the Strategic Restructuring Plan.

Cost of revenues

Recorded Music cost of revenues was composed of the following amounts (in millions):

	For the Three Months Ended June 30,		2024 vs. 2023

Expressed as a percentage of Recorded Music revenue, Recorded Music product costs

decreased to 23% for the three months ended June 30, 2024 from 25% for the three months ended June 30, 2023, primarily due to revenue mix due to lower artist services and expanded-rights and third-party distributed label revenue resulting from the BMG Termination.

The decrease in selling and marketing expense was primarily due to lower variable marketing spend and savings from the 2023 Restructuring Plan. The decrease in distribution expense was primarily driven by revenue mix. Expressed as a percentage of Recorded Music revenue, Recorded Music selling, general and administrative expense remained constant at 28% for each of the three months ended June 30, 2024 and the three months ended June 30, 2023.

In addition to the factors impacting Adjusted OIBDA described below, the increase in operating income was driven by a decrease in amortization expense of \$11 million due to certain intangible assets becoming fully amortized, partially offset by \$2 million of restructuring and impairment charges primarily due to the Company's Strategic Restructuring Plan and exit of certain non-core O&O Media Properties.

Recorded Music Adjusted OIBDA increased by \$17 million to \$281 million for the three months ended June 30, 2024 from \$264 million for the three months ended June 30, 2023 driven by increased savings from the 2023 Restructuring Plan and savings from the Strategic Restructuring Plan, of which a portion has been reinvested in the Company's business, partially offset by the unfavorable impact of foreign exchange rates. Adjusted OIBDA	\$ 1,079	\$ 918	\$ 161	18 %

Adjusted OIBDA

Adjusted OIBDA increased by \$161 million to \$1,079 million for the nine months ended June 30, 2024 as compared to \$918 million for the nine months ended June 30, 2023 as a result of strong operating performance, the favorable impacts of the Licensing Extension of \$67 million and the Digital License Renewal of \$7 million, savings from the 2023 Restructuring Plan and savings from the Strategic Restructuring Plan, partially offset by the reinvestment of these savings in the Company's business including \$18 million of incremental investment in technology for the nine months ended June 30, 2024, and the unfavorable impact of the CRB Rate Benefit of \$2 million. Expressed as a percentage of total revenue, Adjusted OIBDA margin increased to 23% for the nine months ended June 30, 2024 from 21% for the nine months ended June 30, 2023, mainly due to the impact from the Licensing Extension and Digital License Renewal.

Non-cash stock-based compensation and other related costs

Our non-cash stock-based compensation and other related costs decreased by \$9 million to \$35 million for the nine months ended June 30, 2024 from \$44 million for the nine months ended June 30, 2023, primarily related to the separation agreement with our previous Chief Executive Officer in the prior year.

Net gain on divestitures

Net gain on divestitures decreased during the nine months ended June 30, 2024, to a pre-tax gain of \$32 million in connection with the divestiture of certain sound recording and publishing rights, including a divestiture of certain non-core O&O Media Properties in the current quarter. This compares to a pre-tax gain of \$41 million in the nine months ended June 30, 2023.

Executive transition costs

Executive transition costs were \$4 million in the nine months ended June 30, 2023, which consisted of severance costs associated with the departure of our previous Chief Executive Officer and Chief Financial Officer in the prior year.

Transformation initiatives and other related costs

Our transformation initiatives and other related costs increased by \$17 million to \$56 million for the nine months ended June 30, 2024 from \$39 million for the nine months ended June 30, 2023 due to an increase in costs associated with our finance transformation and other related costs.

Restructuring and Impairments

Our restructuring and impairment charges increased by \$55 million to \$96 million for the nine months ended June 30, 2024 from \$41 million for the nine months ended June 30, 2023. The current year includes severance costs of approximately \$46 million, and approximately \$50 million of non-cash impairment losses primarily related to the Strategic Restructuring Plan. The nine months ended June 30, 2023 include \$41 million of restructuring charges related to the 2023 Restructuring Plan.

Depreciation expense

Our depreciation expense increased by \$12 million to \$77 million for the nine months ended June 30, 2024 from \$65 million for the nine months ended June 30, 2023. This increase is primarily due to an increase in IT assets being placed into service.

Amortization expense

Our amortization expense decreased by \$21 million, or 11%, to \$167 million for the nine months ended June 30, 2024 from \$188 million for the nine months ended June 30, 2023. The decrease is primarily due to certain intangible assets becoming fully amortized.

Operating income

Our operating income increased by \$102 million to \$680 million for the nine months ended June 30, 2024 from \$578 million for the nine months ended June 30, 2023. The increase in operating income was due to the factors that led to the increase in Adjusted OIBDA, partially offset by higher restructuring and impairment charges, an increase in depreciation and a decrease in net gain on divestitures as noted above.

Loss on extinguishment of debt

There was no loss on extinguishment of debt for the nine months ended June 30, 2024. For the nine months ended June 30, 2023, we recorded a loss on extinguishment of debt of approximately \$4 million, which represents the remaining unamortized discount and deferred financing costs in connection with the redemption of Senior Term Loan Facility Tranche H loans.

Interest expense, net

Our interest expense, net, increased to \$121 million for the nine months ended June 30, 2024 from \$105 million for the nine months ended June 30, 2023 due to the maturity of the interest rate swaps and higher interest rates on variable rate debt.

Other expense

Other expense for the nine months ended June 30, 2024 primarily includes foreign currency losses on our Euro-denominated debt of \$11 million, currency exchange losses on our intercompany loans of \$7 million, partially offset by income earned on equity method investments of \$7 million. This compares to foreign currency losses on our Euro-denominated debt of \$86 million, partially offset by currency exchange gains on the Company's intercompany loans of \$14 million for the nine months ended June 30, 2023.

Income tax expense

Our income tax expense increased by \$8 million to \$120 million for the nine months ended June 30, 2024 from \$112 million for the nine months ended June 30, 2023. The increase of \$8 million in income tax expense is primarily due to the impact of higher pre-tax income in the current year and higher portion of the pre-tax income earned outside of the United States and taxed at rates higher than in the United States, partially offset by the impact from the winding down of the Company's O&O Media Properties and updated allowable costs for reported foreign derived intangible income.

Net income

Net income increased by \$145 million to \$430 million for the nine months ended June 30, 2024 from \$285 million for the nine months ended June 30, 2023 as a result of the factors described above.

Noncontrolling interest

Income attributable to noncontrolling interest increased by \$29 million to \$36 million for the nine months ended June 30, 2024 from \$7 million for the nine months ended June 30, 2023, largely driven by higher income from non-wholly-owned subsidiaries in the current year, primarily due to the impact of the Licensing Extension.

The decrease in general and administrative expense was primarily due to incremental investment in technology, unfavorable movements in foreign currency exchange rates of \$9 million, the impact of acquisitions, and higher non-cash stock-based compensation and other related expenses of \$8 million, partially offset by savings from the 2023 Restructuring Plan and the Strategic Restructuring Plan. The decrease in selling and marketing expense was primarily due to lower variable marketing spend and savings from the 2023 Restructuring Plan. Recorded Music Adjusted OIBDA increased by \$153 million, to \$965 million for the nine months ended June 30, 2024 from \$812 million for the nine months ended June 30, 2023, primarily driven by strong operating performance, \$67 million from the Licensing Extension, \$7 million year-over-year increase from the Digital License Renewal, increased savings from the 2023 Restructuring Plan and savings from the Strategic Restructuring Plan, of which a portion has been reinvested in the Company’s

business, partially offset by the unfavorable impact of exchange rates. Expressed as a percentage of Recorded Music revenue, Recorded Music Adjusted OIBDA margin increased to 25% for the nine months ended June 30, 2024 from 22% for the nine months ended June 30, 2023, mainly due to the impact from the Licensing Extension and Digital License Renewal.

Music Publishing operating income increased by \$34 million to \$185 million for the nine months ended June 30, 2024 from \$151 million operating income for the nine months ended June 30, 2023 largely due to the factors that led to the increase in Music Publishing Adjusted OIBDA noted below, as well as a \$14 million net gain on a divestiture recognized in the current year.

Liquidity

Our primary sources of liquidity are the cash flows generated from our subsidiaries' operations, available cash and equivalents and funds available for drawing under our Revolving Credit Facility. These sources of liquidity are needed to fund our debt service requirements, working capital requirements, capital expenditure requirements, strategic acquisitions and investments, and dividends, prepayments of debt, repurchases or retirement of our outstanding debt or notes or repurchases of our outstanding equity securities in open market purchases, privately negotiated purchases or otherwise, we may elect to pay or make in the future. We maintain our cash in various banks and other financial institutions around the world, and in some cases those cash deposits are in

excess of FDIC or other deposit insurance. In the event of a bank failure or receivership, we may not have access to those cash deposits in excess of the relevant deposit insurance, which could have an adverse effect on our liquidity and financial performance.

We believe that our primary sources of liquidity will be sufficient to support our existing operations over the next twelve months.

Debt Capital Structure

Since Access acquired us in 2011, we have sought to extend the maturity dates on our outstanding indebtedness, reduce interest expense and improve our debt ratings. For example, our S&P corporate credit rating improved from B in 2017 to BB+ in July 2021 with a stable outlook, and our Moody's corporate family rating improved from B1 in 2016 to Ba2 in April 2023 with a positive outlook updated in April 2024. In addition, our weighted-average interest rate on our outstanding indebtedness has decreased from 10.5% in 2011 to 4.5% as of June 30, 2024. Our nearest-term maturity date is in 2028. Subject to market conditions, we expect to continue to take opportunistic steps to extend our maturity dates and reduce related interest expense. From time to time, we may incur additional indebtedness for, among other things, working capital, repurchasing, redeeming or tendering for existing indebtedness and acquisitions or other strategic transactions.

Dividends

The Company's ability to pay dividends may be restricted by covenants in the credit agreement for the Revolving Credit Facility which are currently suspended but which will be reinstated if Acquisition Corp.'s Total Indebtedness to EBITDA Ratio increases above 3.50:1.00 and the term loans do not achieve an investment grade rating.

The Company intends to pay quarterly cash dividends to holders of its Class A Common Stock and Class B Common Stock. The declaration of each dividend will continue to be at the discretion of the Company's board of directors and will depend on the Company's financial condition, earnings, liquidity and capital requirements, level of indebtedness, contractual restrictions with respect to payment of dividends, restrictions imposed by Delaware law, general business conditions and any other factors that the Company's board of directors deems relevant in making such a determination. Therefore, there can be no assurance that the Company will pay any dividends to holders of the Company's common stock, or as to the amount of any such dividends.

On May 13, 2024, the Company's board of directors declared a cash dividend of \$0.17 per share on the Company's Class A Common Stock and Class B Common Stock, as well as related payments under certain stock-based compensation plans, which was paid to stockholders on June 3, 2024. The Company paid an aggregate of approximately \$89 million and \$267 million, or \$0.17 and \$0.51 per share, in cash dividends to stockholders and participating security holders for the three and nine months ended June 30, 2024, respectively.

Covenant Compliance

The Company was in compliance with its covenants under its outstanding notes, the Revolving Credit Facility and the Senior Term Loan Facility as of June 30, 2024.

On January 18, 2019, we delivered a notice to the trustee under the 2012 Secured Indenture and 2014 Unsecured Indenture changing the Fixed GAAP Date, as defined under the indentures, to October 1, 2018. Under the Senior Term Loan Facility, the Revolving Credit Facility and the Secured Notes Indenture, the Fixed GAAP Date is set for April 3, 2020, other than in respect of capital leases, which are frozen at November 1, 2012.

The Revolving Credit Facility contains a springing leverage ratio that is tied to a ratio based on EBITDA, which is defined under the Revolving Credit Agreement. Our ability to borrow funds under the Revolving Credit Facility may depend upon our ability to meet the leverage ratio test at the end of a fiscal quarter to the extent we have drawn a certain amount of revolving loans. On May 4, 2021, certain covenants set forth in our Revolving Credit Facility were suspended, including the restriction on incurring certain additional indebtedness, based on the determination that the total indebtedness to EBITDA ratio is below the required threshold specified therein. EBITDA as defined in the Revolving Credit Facility is based on Consolidated Net Income (as defined in the Revolving Credit Facility), both of which terms differ from the terms “EBITDA” and “net income” as they are commonly used. For example, the calculation of EBITDA under the Revolving Credit Facility, in addition to adjusting net income to exclude interest expense, income taxes and depreciation and amortization, also adjusts net income by excluding items or expenses such as, among other items, (1) the amount of any restructuring charges or reserves; (2) any non-cash charges (including any impairment charges); (3) any net loss resulting from hedging currency exchange risks; (4) the amount of management, monitoring, consulting and advisory fees paid to Access; (5) business optimization expenses (including consolidation initiatives, severance costs and other costs relating to initiatives aimed at profitability improvement); (6) transaction expenses; (7) equity-based compensation expense; and (8) certain extraordinary, unusual or non-recurring items. The definition of EBITDA under the Revolving Credit Facility also includes adjustments for the pro forma impact of certain projected cost savings, operating expense reductions and synergies and any quality of earnings analysis prepared by independent certified public accountants in connection with an acquisition, merger, consolidation or other investment. The Senior Term Loan Facility and the Secured Notes Indenture use financial measures called “Consolidated EBITDA” or “EBITDA” and “Consolidated Net Income” that have substantially the same definitions to EBITDA and Consolidated Net Income, each as defined under the Revolving Credit Agreement.

EBITDA as defined in the Revolving Credit Facility (referred to in this section as “Adjusted EBITDA”) is presented herein because it is a material component of the leverage ratio contained in the Revolving Credit Agreement. Non-compliance with the leverage ratio could result in the inability to use the Revolving Credit Facility, which could have a material adverse effect on our results of operations, financial position and cash flow. Adjusted EBITDA does not represent net income or cash from operating activities as those terms are defined by U.S. GAAP and does not necessarily indicate whether cash flows will be sufficient to fund cash needs. While Adjusted EBITDA and similar measures are frequently used as measures of operations and the ability to meet debt service requirements, these terms are not necessarily comparable to other similarly titled captions of other companies due to the potential inconsistencies in the method of calculation. Adjusted EBITDA does not reflect the impact of earnings or charges resulting from matters that we may consider not to be indicative of our ongoing operations. In particular, the definition of Adjusted EBITDA in the Revolving Credit Agreement allows us to add back certain non-cash, extraordinary, unusual or non-recurring charges that are deducted in calculating net income. However, these are expenses that may recur, vary greatly and are difficult to predict.

Adjusted EBITDA as presented below should not be used by investors as an indicator of performance for any future period. Further, our debt instruments require that it be calculated for the most recent four fiscal quarters. As a result, the measure can be disproportionately affected by a particularly strong or weak quarter. Further, it may not be comparable to the measure for any subsequent four quarter period or any complete fiscal year. In addition, our debt instruments require that the leverage ratio be calculated on a pro forma basis for certain transactions including acquisitions as if such transactions had occurred on the first date of the measurement period and may include expected cost savings and synergies resulting from or related to any such transaction. There can be no assurances that any such cost savings or synergies will be achieved in full.

In addition, Adjusted EBITDA is a key measure used by our management to understand and evaluate our operating performance, generate future operating plans and make strategic decisions regarding the allocation of capital. Adjusted EBITDA has limitations as an analytical tool, and you should not consider it in isolation or as a substitute for analysis of our results as reported under U.S. GAAP. Some of those limitations include: (1) it does not reflect the periodic costs of certain capitalized tangible and intangible assets used in generating revenue for our business; (2) it does not reflect the significant interest expense or cash requirements necessary to service interest or principal payments on our indebtedness; and (3) it does not reflect every cash expenditure, future requirements for capital expenditures or contractual commitments. In particular, this measure adds back certain non-cash, extraordinary, unusual or non-recurring charges that are deducted in calculating net income; however, these are expenses that may recur, vary greatly and are difficult to predict. In addition, Adjusted EBITDA is not the same as net income or cash flow provided by operating activities as those terms are defined by U.S. GAAP and does not necessarily indicate whether cash flows will be sufficient to fund cash needs. Accordingly, Adjusted EBITDA should be considered in addition to, not as a substitute for, net income (loss) and other measures of financial performance reported in accordance with U.S. GAAP.

The following is a reconciliation of net income (loss), which is a U.S. GAAP measure of our operating results, to Adjusted EBITDA as defined, for the most recently ended four fiscal quarters, or the twelve months ended June 30, 2024, for the twelve months ended June 30, 2023 and for the three months ended June 30, 2024 and June 30, 2023. In addition, the reconciliation includes the calculation of the Senior Secured Indebtedness to Adjusted EBITDA ratio, which we refer to as the Leverage Ratio, under the Revolving Credit Agreement for the most recently ended four fiscal quarters, or the twelve months ended June 30, 2024. The terms and related calculations are defined in the Revolving Credit Agreement. All amounts in the reconciliation below reflect Acquisition Corp. (in millions, except ratios):

	Twelve Months Ended June 30,		Three Months Ended June 30,	
	2024	2023	2024	2023
Net Income	\$ 584	\$ 435	\$ 141	\$ 124
Income tax expense	178	149	30	43
Interest expense, net	157	136	40	38
Depreciation and amortization	323	335	80	86
Loss on extinguishment of debt (a)	—	4	—	4
Net gains on divestitures and sale of securities (b)	(42)	(42)	(1)	—
Restructuring costs (c)	61	60	2	1
Net foreign exchange losses (gains) (d)	(17)	13	(2)	(12)
Transaction costs (e)	8	—	2	—
Business optimization expenses (f)	98	55	27	15
Non-cash stock-based compensation expense (g)	35	46	10	7
Other non-cash charges (h)	56	12	1	(5)
Pro forma impact of cost savings initiatives and specified transactions (i)	113	57	22	10
Adjusted EBITDA	\$ 1,554	\$ 1,260	\$ 352	\$ 311
Senior Secured Indebtedness (j)	\$ 3,739			
Leverage Ratio (k)		2.41x		

- (a) Reflects loss on extinguishment of debt, primarily including tender fees and unamortized deferred financing costs.
- (b) Reflects net gains on sale of securities and divestitures.
- (c) Reflects severance costs and other restructuring related expenses, including those related to the Strategic Restructuring Plan and 2023 Restructuring Plan as well as the Executive Transition Costs in the prior year.
- (d) Reflects unrealized losses (gains) due to foreign exchange on our Euro-denominated debt, losses (gains) from foreign currency forward exchange contracts and intercompany transactions.
- (e) Reflects mainly transaction related costs.
- (f) Reflects costs associated with our transformation initiatives and IT system updates, which includes costs of \$18 million and \$70 million related to our finance transformation and other transformation related costs for the three and twelve months ended June 30, 2024, respectively, as well as \$13 million and \$50 million for the three and twelve months ended June 30, 2023, respectively.
- (g) Reflects non-cash stock-based compensation expense related to the Omnibus Incentive Plan and the Warner Music Group Corp. Senior Management Free Cash Flow Plan.
- (h) Reflects non-cash activity, including the unrealized losses (gains) on the mark-to-market adjustment of equity investments, investment losses (gains) and \$50 million of non-cash impairment losses resulting from the Strategic Restructuring Plan in the current year.
- (i) Reflects expected savings resulting from transformation initiatives, including the Strategic Restructuring Plan and the March 2023 Restructuring Plan, and the pro forma impact of certain specified transactions for the three and twelve months ended June 30, 2024. Certain of these cost savings initiatives and transactions impacted quarters prior to the quarter during which they were identified within the last twelve-month period. The pro forma impact of these specified transactions and initiatives resulted in a \$49 million increase in the twelve months ended June 30, 2024 Adjusted EBITDA.
- (j) Reflects the balance of senior secured debt at Acquisition Corp. of approximately \$3.978 billion less cash of \$250 million.
- (k) Reflects the ratio of Senior Secured Indebtedness, including Revolving Credit Agreement Indebtedness, to Adjusted EBITDA. This is calculated net of cash and equivalents of the Company as of June 30, 2024 not exceeding \$250 million. If the outstanding aggregate principal amount of borrowings and drawings under letters of credit which have not been reimbursed under our Revolving Credit Facility is greater than \$140 million at the end of a fiscal quarter, the maximum leverage ratio permitted under the Revolving Credit Facility is 5.00:1.00. The Company's Revolving Credit Facility does not impose any "leverage ratio" maintenance requirement on the Company when the aggregate principal amount of borrowings

and drawings under letters of credit, which have not been reimbursed under the Revolving Credit Facility, is less than or equal to \$140 million at the end of a fiscal quarter. On May 4, 2021, certain covenants set forth in our Revolving Credit Facility were suspended, including the restriction on incurring certain additional indebtedness, based on the determination that the total indebtedness to EBITDA ratio is below the required threshold specified therein.

Summary

Management believes that funds generated from our operations and borrowings under the Revolving Credit Facility and available cash and equivalents will be sufficient to fund our debt service requirements, working capital requirements and capital expenditure requirements for the foreseeable future. We also have additional borrowing capacity under our indentures and the Senior Term Loan Facility. However, our ability to continue to fund these items and to reduce debt may be affected by general economic, financial, competitive, legislative and regulatory factors, as well as other industry-specific factors such as the ability to control music piracy and the continued transition from physical to digital formats in the recorded music and music publishing industries. It could also be affected by the severity and duration of geopolitical conflicts or natural or man-made disasters, including pandemics. We and our affiliates continue to evaluate opportunities to, from time to time, depending on market conditions and prices, contractual restrictions, our financial liquidity and other factors, seek to pay dividends or prepay outstanding debt or repurchase or retire Acquisition Corp.'s outstanding debt or debt securities or repurchase our outstanding equity securities in open market purchases, privately negotiated purchases or otherwise. The amounts involved in any such transactions, individually or in the aggregate, may be material and may be funded from available cash or from additional borrowings. In addition, from time to time, depending on market conditions and prices, contractual restrictions, our financial liquidity and other factors, we may seek to refinance the Senior Credit Facilities or our outstanding debt or debt securities with existing cash and/or with funds provided from additional borrowings.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As discussed in Note 16 to our audited consolidated financial statements for the fiscal year ended September 30, 2023, the Company is exposed to market risk arising from changes in market rates and prices, including movements in foreign currency exchange rates and interest rates. As of June 30, 2024, other than as described below, there have been no material changes to the Company's exposure to market risk since September 30, 2023.

Foreign Currency Risk

Within our global business operations, we have transactional exposures that may be adversely affected by changes in foreign currency exchange rates relative to the U.S. dollar. We may at times choose to use foreign exchange currency derivatives, primarily forward contracts, to manage the risk associated with the volatility of future cash flows denominated in foreign currencies, such as unremitted or future royalties and license fees owed to our U.S. companies for the sale or licensing of U.S.-based music and merchandise abroad that may be adversely affected by changes in foreign currency exchange rates. We focus on managing the level of exposure to the risk of foreign currency exchange rate fluctuations on major currencies, which can include the Euro, British pound sterling, Japanese yen, Canadian dollar, Swedish krona, Australian dollar, Brazilian real, Korean won and Norwegian krone, and in many cases we have natural hedges where we have expenses associated with local operations that offset the revenue in local currency and our Euro-denominated debt, which can offset declines in the Euro. As of June 30, 2024, the Company had outstanding foreign currency forward exchange contracts for the sale of \$175 million and the purchase of \$108 million of foreign currencies at fixed rates. Subsequent to June 30, 2024, certain of our foreign exchange contracts expired and were not replaced.

The fair value of foreign exchange contracts is subject to changes in foreign currency exchange rates. For the purpose of assessing the specific risks, we use a sensitivity analysis to determine the effects that market risk exposures may have on the fair value of our financial instruments. For foreign exchange forward contracts outstanding at June 30, 2024, we typically perform a sensitivity analysis assuming a hypothetical 10% depreciation of the U.S. dollar against foreign currencies from prevailing foreign currency exchange rates and assuming no change in interest rates. The fair value of the foreign exchange forward contracts would have decreased by \$7 million based on this analysis. Hypothetically, even if there was a decrease in the fair value of the forward contracts, because our foreign exchange contracts are used to manage foreign currency exchange rate risk, these losses would be largely offset by gains on the underlying transactions.

Interest Rate Risk

We had \$4.013 billion of principal debt outstanding at June 30, 2024, of which \$1.313 billion was variable-rate debt and \$2.700 billion was fixed-rate debt. As such, we are exposed to changes in interest rates. At June 30, 2024, 67% of the Company's debt was at a fixed rate. In addition, as of June 30, 2024, we have the option under our floating rate loans under the Senior Term Loan Facility to select a one, three or six month Term SOFR.

Based on the level of interest rates prevailing at June 30, 2024, the fair value of the Company's fixed-rate and variable-rate debt was approximately \$3.715 billion. Further, as of June 30, 2024, based on the amount of the Company's fixed-rate debt, a 25 basis point increase or decrease in the level of interest rates would decrease the fair value of the fixed-rate debt by approximately \$32 million or increase the fair value of the fixed-rate debt by approximately \$32 million. This potential fluctuation is based on the simplified assumption that the level of fixed-rate debt remains constant with an immediate across the board increase or decrease in the level of interest rates with no subsequent changes in rates for the remainder of the period.

Inflation Risk

Inflationary factors such as increases in overhead costs may adversely affect our results of operations. We do not believe that inflation has had a material effect on our business, financial condition or results of operations to date. If our costs were to become subject to significant inflationary pressures, we may not be able to fully offset such higher costs through price increases for services. Our inability or failure to do so could harm our business, financial condition or results of operations.

ITEM 4. CONTROLS AND PROCEDURES

Certification

The certifications of the principal executive officer and the principal financial officer (or persons performing similar functions) required by Rules 13a-14(a) and 15d-14(a) of the Exchange Act (the “Certifications”) are filed as exhibits to this report. This section of the report contains the information concerning the evaluation of the Company’s disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) (“Disclosure Controls”) and changes to internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) (“Internal Controls”) referred to in the Certifications and this information should be read in conjunction with the Certifications for a more complete understanding of the topics presented.

Introduction

The SEC’s rules define “disclosure controls and procedures” as controls and procedures that are designed to ensure that information required to be disclosed by public companies in the reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by public companies in the reports that they file or submit under the Exchange Act is accumulated and communicated to a company’s management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

The SEC’s rules define “internal control over financial reporting” as a process designed by, or under the supervision of, a public company’s principal executive and principal financial officers, or persons performing similar functions, and effected by the Company’s board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles, or U.S. GAAP, including those policies and procedures that: (i) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Company, (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with U.S. GAAP, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

The Company’s management, including its principal executive officer and principal financial officer, does not expect that our Disclosure Controls or Internal Controls will prevent or detect all error and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the limitations in any and all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. Further, the design of any control system is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Because of these inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected even when effective Disclosure Controls and Internal Controls are in place.

The Company previously started a multi-year implementation to upgrade our information technology and finance infrastructure, including related systems and processes. The upgrades are designed to enhance our financial records and the flow of financial information, improve data analysis and accelerate our financial reporting. The deployment of our new technology platform is currently being implemented using a wave-based approach. We have launched certain components onto our new technology platform in select territories and will continue to deploy the technology platform to additional territories over time. As the wave-based implementation of our new technology platform continues, we will change our processes and procedures which, in turn, could result in changes to our internal control over financial reporting. As such changes occur, we will evaluate whether such changes materially affect our internal control over financial reporting.

Evaluation of Disclosure Controls and Procedures

Based on management’s evaluation (with the participation of the Company’s principal executive officer and principal financial officer), as of the end of the period covered by this report, the Company’s principal executive officer and principal financial officer have concluded that the Company’s Disclosure Controls are effective to provide reasonable assurance that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act will be recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, including that such information is accumulated and communicated to management, including the principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting that occurred during the three and six months ended June 30, 2024 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time the Company is involved in claims and legal proceedings that arise in the ordinary course of business. The Company is currently subject to several such claims and legal proceedings. Based on currently available information, the Company does not believe that resolution of pending matters will have a material adverse effect on its financial condition, cash flows or results of operations. However, litigation is subject to inherent uncertainties, and there can be no assurances that the Company's defenses will be successful or that any such lawsuit or claim would not have a material adverse impact on the Company's business, financial condition, cash flows and results of operations in a particular period. Any claims or proceedings against the Company, whether meritorious or not, can have an adverse impact because of defense costs, diversion of management and operational resources, negative publicity and other factors.
